• ENTERPRISE ILEMBE: 2018/2019 AUDITED ANNUAL FINANCIAL STATEMENTS.....	340

1.1 OVERVIEW BY HIS WORSHIP THE MAYOR

It is a great honour for me to present the Annual Report of the iLembe District Municipality for the year ending on 30 June 2019.

The purpose of the annual report is to provide a record of the activities of the Council during the financial year, provide a report on performance against the budget of the iLembe Council for the financial year reported on as well as to promote accountability to the local community for the decisions made throughout the year by the Municipality. It is thus aimed at providing all citizens and stakeholders who have an interest in the iLembe District Municipality an insight into the workings of this organisation.

Following the strategic planning session of the iLembe District Municipality for the 2016 – 2021 period which was held between the 24th and the 27th of October 2016, where relevant stakeholders deliberated on ways to overcome the prevailing challenges and chart a path for developing and growing the District over the next five years and beyond, a shared vision i.e. Vision 2030 was set taking into account national and provincial priorities as well as the development visions of the constituent local municipalities.

"BY 2030 ILEMBE DISTRICT MUNICIPALITY WILL BE A SUSTAINABLE PEOPLE CENTRED ECONOMIC HUB PROVIDING EXCELLENT SERVICES AND QUALITY OF LIFE".

In presenting this Annual Report, the municipality is proud to set out our performance highlights and financial management. The report is published in terms of the requirements of the Municipal Finance Management Act No. 56 of 2003 which requires municipalities to report on all aspects of performance, providing a true, honest and accurate account of the goals set by Council and our successes, including any hindrances towards achieving these goals.

Our five-year strategic plan is aligned to the national KPAs and PGDs and our organisation scorecard as indicated above continues to be organised according to the five prescribed national Key Performance Areas which are;

- Municipal Transformation And Institutional Development
- Local Economic Development And Planning

- Basic Service Delivery
- Financial Viability And Management
- Good Governance And Public Participation

We are proud to acknowledge the collective effort of our leadership, employees, service delivery partners and all citizens who contributed to transforming the municipality into a cohesive institution that is able to deliver on its core mandate.

iLembe is still continuing to embark on vigorous implementation of the Back to Basics (B2B) approach which was launched by the our former State President in 2014. This was done in an effort to recognise and adequately reward good performance and ensure sufficient consequences for under-performance. Our municipality has maintained its status of functional in its implementation of the B2B approach. This indicates that there is good political stability, governance, service delivery, financial management, institutional management and community satisfaction in the District. iLembe District Municipality's overall performance was good with 76% of our targets being met, with 24% not being met by the end of June 2019.

MUNICIPAL TRANSFORMATION AND INSTITUTIONAL DEVELOPMENT

During 2018/19 financial year, the vacancy rate was originally at 22,1% but as council we took a decision that our Human Resources Unit must embark on a process of prioritizing posts in order to ensure alignment with the budget affordability, and in line with our austerity measures.

LOCAL ECONOMIC DEVELOPMENT AND PLANNING

Enterprise iLembe continues to improve co-ordination of Local Economic Development in the District including the upscaling of agriculture, capitalising on tourism potential, increasing manufacturing output and ensuring job creation.

iLembe District is committed to creating an enabling environment that will see the growth and emancipation of the local emerging entities owned by black people. During this period, we are also reporting on the Enterprise iLembe (EI) having introduced SMME support strategies to assist local SMMEs who are in great need of support structure and awareness about the available options for them in order to enable growth of their businesses. Through its LED function, EI remains responsible for the support and incubation of the emerging entities through allocating work using our own procurement systems. This will take our objectives a step further towards the realization of economic empowerment of our previously disadvantaged individuals.

BASIC SERVICE DELIVERY

As iLembe District we are proud of the achievements made in the delivery of basic services to our people. In terms of the targets that were set for 2018/19 financial year, 1099 households were targeted for connection to water services with 1604 households connected, and this was an over achievement since the actual percentage is 146 %. Again, 1800 households were targeted for connection to sanitation, but only 1361 households were connected, which makes for a percentage of 76%. Overall, a lot of our communities (especially in our rural municipalities of Maphumulo, Ndwedwe and Mandeni), benefitted immensely in our water and sanitation programmes during the period under review.

We recognise the challenges that are being experienced with regard to the provision of water and sanitation, and are therefore working tirelessly towards implementing measures to improve our performance. The issue of water losses remains a cause for concern as it was at 62% during the 2018/19 financial year. The municipality is implementing a number of interventions towards ensuring that the issue of water losses, including the development of a five-year strategic master plan for the reduction of non-revenue water, which has been adopted by the municipality to address this problem.

In terms of the 2018/2019 Performance Rating for Service Providers, there has been a significant improvement as compared to the previous financial year since the rating for Umngeni Water and Gledhow Sugar is both at an acceptable level (good), with Sembcorp Siza Water rated to be very good during the period under review.

FINANCIAL VIABILITY AND MANAGEMENT

iLembe District Municipality, and its entity (Enterprise iLembe) both obtained unqualified audit opinions with findings during 2018/2019 financial year. The average number of days taken for trade creditors to be paid is at 47 days when compared to the target of 30 days. The cash flow position of the municipality continues to be constrained given the persisted poor collection rate particularly from historical debt. The revenue collection for 2018/19 financial year was 64%, as compared to the set target of 75%. Management and Council are working vigorously to turn the situation around by means of strengthening the credit control and collection measures, implementing stringent cash flow monitoring, including revamping and re-enforcing control measures at the Stores Department, and these are some of the measures that are implemented.

GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Community Services remains one of our core functions as the district, and through this function we have been able to get involved in activities that are entirely community based and are directed towards creating awareness to improve the lives of our communities through education campaigns and celebratory events in collaboration with communities, sector departments, non-governmental organisations, and relevant stakeholders.

Public Participation remains an important pillar of our democracy. As stipulated in the legislative framework governing local government, the municipality has undertaken various initiatives to ensure an informed and active citizenry. A total number of forty two (42) planned public participation meetings were held, with 100% of meetings requested also conducted during the process.

The achievements and resourceful service delivery programmes presented in this annual report are all due to the hard work and dedication by iLembe District Municipality, particularly, Councillors and employees.

I would like to extend my gratitude to the Municipal Manager and the entire team of officials who are central in the execution of our vision and we commit ourselves to continue reaching for greater heights as we move forward.

His Worship the Mayor

Cllr S.S. Gumede

Date: 04 February 2020

1.2 FOREWORD BY THE MUNICIPAL MANAGER

In keeping with Section 46 of the Local Government Municipal Systems Act, No. 32 of 2000 (as amended), Section 127 (2) of the Local Government Municipal Finance Management Act, No. 56 of 2003, as well as accompanying circulars, templates and guidelines, we are duty bound to prepare an Annual Report for the 2018/2019 financial year. In particular, MFMA Circular No. 63, issued in September 2012, added guidance to the preparation of this annual report, requiring all municipalities to report within the established framework and for such reports to be submitted to the Auditor General at the same time as the Annual Financial Statements in August each year.

According to the MFMA, this Report should include:

- (a) The annual financial statements of the Municipality, and consolidated annual financial statements, submitted to the Auditor-General for audit in terms of section 126 (1) of the MFMA
- (b) The Auditor-General's audit report in terms of section 126 (3) of the MFMA and in accordance with s45 (b) of the MSA; on the financial statements in (a) above;
- (c) The annual performance report of the Municipality as prepared by the iLembe District Municipality in terms of section 45(b) of the Local Government: Municipal Systems Act 32 of 2000 (MSA);
- (d) An assessment of the arrears on municipal taxes and service charges;
- (e) An assessment of the Municipality's performance against the measurable performance objectives referred to in Section 17 (3) (b) of the MFMA for revenue collection from each revenue source and for each vote in the Municipality's approved budget for the financial year
- (f) Corrective action taken in response to issues raised in the audit reports referred to in paragraphs (b) and (d); and
- (g) Recommendations of the Municipality's Audit Committee

As a district, we are faced with a number of challenges, relating to the non payment of services. To date, we have not seen a significant improvement on the debt of over R 270 million that is owed to us by residents on the services that we render to them.

The effect of non-payment has a negative impact on the cash flow of the Municipality and negatively affects financial viability. Non-payment directly impacts the day to day operations of the municipality as we have limited revenue to fund operational expenditure and internally funded capital projects.

With the wisdom and unwavering support of our political leadership, as management we were able to do all we could do to sail through the challenges. This includes amongst other things the door-to-door revenue enhancement campaigns (Thuma Mina Campaigns) we have held in most of our local municipalities. These campaigns seek to encourage local communities to pay for municipal services and plans are underway to ensure that these campaigns are conducted on an ongoing basis.

This report records the performance and progress made by iLembe District Municipality in fulfilling its strategic objectives as contained in the Integrated Development Plan (IDP), Institutional Scorecard and Service Delivery and Budget Implementation Plan (SDBIP) approved by Council during the period under review. The 2018/2019 financial year also saw us enjoy a string of successes from an administrative perspective. We are also required to report on the performance of the municipality's entity, which is iLembe Enterprise for which we have total ownership.

As leadership and management we are content with the level of improvement in the manner in which we live up to the promise of delivering services to our people. Of course this is limited to the powers and functions that are allocated to the District Municipality as well as the limited financial and technical resources and other factors that have a bearing on our ability to deliver services to our people.

FINANCIAL PERFORMANCE

Financial Viability remains a priority amongst the organizational strategic imperatives. The financial year under review was not different from other financial years in terms of placing a dedicated focus on how the financial situation of the Municipality can be turned around from the historic turbulent position into a more stable one. As we are closely approaching the four year of implementing the financial turnaround strategy that was adopted by Council back December 2016, it is indeed encouraging to report remarkable achievement in certain critical areas though we are very mindful of those that remain a challenge.

One of the key areas Council had set itself to prioritize implementing was the issue of budget control. It is pleasing that as we speak, the Municipality has constantly maintained fully cash funded budget over the past three financial years. While this control is in place, the Municipality has been able to manage its budget efficiently, resulting in 94% of budget spent in expenditure (capital and operational combined). Approximately 67% of capital budget was spent on agreed IDP projects with the balance of budget not spent mainly as a result of bid objections that the Municipality had to deal with through the requisite SCM processes.

While liquidity still remains one of the major challenges that the Municipality still has to contend with, the situation is improving, with 37 days cash on hand reported for the 2018/19 financial year compared to the 30 days cash on hand reported in the previous year. We are projecting that this trend of improvement will continue into the upcoming financial years.

Two areas that remain the greatest challenge for the Municipality is the debt collection rate and the inability to pay suppliers on time at certain times. On average, it took the Municipality 47 days to pay suppliers during 2018/19 financial year against a target of 30 days from date of receiving an invoice. In the same period, the Municipality's debt collection rate stood at 64% against the set target of 75%. The Management is working tirelessly to improve on these and other areas where we have not done well.

RECOGNITION OF ILEMBE DISTRICT MUNICIPALITY BY CIGFARO

As a municipality, we continue to strive for excellence, having being recognised previously by KZN Cogta for producing credible IDP's. The period under review was no exception as iLembe District received an award as the Best Performing Municipality by CIGFARO (Chartered Institute Of Government Finance, Audit And Risk Officers), which is a credible body.

Public engagements were held with the communities of the respective local municipalities to engage them on their needs and the approval of the budget during October/November 2018 and April/May 2019.

A number of these roadshows were attended by His Worship, the Mayor, Cllr Siduduzo Gumede, EXCO members, fellow councillors and myself as the Municipal Manager. All sectors, including Amakhosi, religious and business leaders, were also consulted during this critical process.

In line with the call by the State President of our country, we have continued to conduct a number of Thuma Mina Campaigns in our communities, and that have been hailed as a huge success. As iLembe District Municipality, we encourage all of our residents and ratepayers from our beautiful district to pay for services, whilst continuing to be the agents of change for the betterment of all communities.

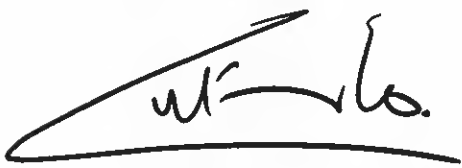

TOP FIVE (5) STRATEGIC RISKS FACING THE MUNICIPALITY DURING 2018/2019 FINANCIAL YEAR

It is important to mention that to ensure the long term sustainability of the municipality, as a collective, we need to deal with the top five risks that have been identified. Below are the top 5 strategic risks that have been identified during the period under review:

- Business Support: Lack of communication with Stakeholders and communities;
- Strategy: Inappropriate Corporate Culture;
- Health and Safety Management: Inadequate Occupational Health & Safety (OHS) systems;
- Technical Services: Scarce raw water sources; and
- Service Delivery: Violent Public Protest.

There is a strong political and administrative will to deal with the above mentioned risks, as there a mitigation strategies that have been put in place and are being closely monitored by our Enterprise Risk Management Unit working closely with the entire management team.

In conclusion, I would like to thank our political leadership, management team and all our employees for their hard work and continued commitment in ensuring that iLembe District Municipality deliver on its obligations and commitment to the people of South Africa. I look forward to another year in which we will continue to build on our achievements and work together to find innovative ways to overcome our challenges and ensure that we continue to serve our people as required by the Constitution.

Mr. NG Kumalo

Municipal Manager

Date: 04 February 2020

1.3 MUNICIPAL OVERVIEW

1.3.1 ILEMBE DISTRICT MUNICIPALITY PROFILE

The iLembe District Municipality (DC29) lies on the east coast of KwaZulu-Natal, between eThekweni Metro in the south and King Cetshwayo District in the North. To the west, iLembe is bordered by two Districts; uMgungundlovu and uMzinyathi. At 3 260km², this is the smallest of the 10 KZN District Municipalities with a total population of approximately 657,612 people (Stats SA Community Survey 2016). iLembe District is constituted by four Local Municipalities; Mandeni, KwaDukuza, Ndwedwe and Maphumulo. See map 1 for an Overview of the iLembe Region.

iLembe is located between two of Africa's busiest ports, Durban and Richards Bay, on the primary economic development corridor in the province, and is therefore well positioned not only to local, but also international markets, the King Shaka International Airport and the Dube Trade Port, just a few kilometres from the southern border of iLembe, have amplified what was already a prime investment destination. The District is made up of 45 Traditional Authorities (TA) areas where settlement is controlled by TA according to a traditional land tenure system. These TA areas cover approximately 63% of the total area of iLembe; where the Ingonyama Trust own the majority of the land within the municipality of Maphumulo, the lower reaches of Ndwedwe (69%) and coastal and inland reaches of Mandeni (49%).

The northern areas of Ndwedwe, the central corridor of Mandeni and KwaDukuza Municipality are the commercial farming hubs of the District. The commercial farming areas of KwaDukuza, Mandeni and Ndwedwe (31% of the iLembe District) are mainly under privately owned sugar cane. Areas of urbanisation in the District comprise of KwaDukuza, Mandeni, the Dolphin Coast and Nkwazi Land uses within these areas are typically urban mixed uses with high levels of infrastructural and service development and an adequate provision of social facilities and services to support the resident populations. Industrial development is concentrated in KwaDukuza, IsiThebe and Darnall, most notably the Gledhow and Darnall sugar milling operations at Stanger and the Sappi Paper mills at Mandeni.

Informal settlements with limited facilities or infrastructural services occur on the periphery of the developed areas and within the towns of iLembe. Village centres such as Maphumulo and Ndwedwe in the west, Nyoni and Mbizimbelwa in the north, comprise of commercial and service development in the rural areas. They largely exist in association with a magistrate's

court, clinic, pension pay point, health, education and welfare office or similar state service. Wholesale commercial activities have expanded and these villages have emerged as supply centres and transportation hubs to the remote rural areas of iLembe.

Despite its strategic location, iLembe faces numerous economic challenges such as the high levels of poverty in the rural inland areas, which contrasts with rapid development along its coastal regions. The District has been proactive in developing Enterprise iLembe, a broad based institution aimed at facilitating local economic development in response to its challenges of high rates of unemployment and correspondingly high levels of poverty.

1.3.2 ILEMBE DISTRICT MUNICIPALITY'S 5 YEAR STRATEGIC PLAN ALIGNED TO THE NATIONAL KPAS AND PGDS

Section 25 of the Municipal Systems Act states that each municipal Council must, after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality. Considering this, iLembe District embarked on a process to review and refine its plans in the context of changing needs and new developments.

iLembe Strategic Planning session took place on 24 - 27 October 2016, to reflect on the challenges, performance and progress of development initiatives of the previous term of office, consolidate implementation plans for projects, programmes and pave the way for crafting the new five year, 2017-2022 Integrated Development Plan (IDP) with the current Council.

The table below illustrates iLembe's 5 Year strategic objectives aligned to the 14 National outcomes, PGDS and iLembe's DGDP, as follows:

MUNICIPAL VISION

The current Council assumed office in August 2016 after the local government elections and opted to develop a new vision as follows:

"By 2030 iLembe District Municipality will be a sustainable people-centred economic hub providing excellent services and quality of life"

ILEMBE DISTRICT MUNICIPALITY'S 5 YEAR STRATEGIC PLAN ALIGNMENT TO THE NATIONAL KPAS AND PGDS				
KPA 1: MUNICIPAL TRANSFORMATION & INSTITUTIONAL DEVELOPMENT				
IDP REF.	NATIONAL OUTCOME	PGDS GOALS	ILEMBE DGDP PRIORITY	5 YEAR STRATEGIC OBJECTIVE

GP011				To ensure that the entity administration is governed by the sound and effective values and principles as outlined in the constitution of South Africa

Table 1: strategic objectives

1.3.3 GOVERNMENT PRIORITIES

(a) SUSTAINABLE DEVELOPMENT GOALS (SDG)

At an International level, the Sustainable Development Goals are one of the many United Nations initiatives that guide constituencies on what standards to strive for in terms of people's needs, the environment and other important factors. They serve as a successor to the Millenium Development Goals. They include 17 goals and 169 targets that capture the global aspirations for sustainable development. The municipality's IDP is to some extent aligned with these goals that were adopted in September 2015. The National Development Plan and the Provincial Growth and Development Strategy, to which the iLembe IDP is aligned, have devised interventions that respond to the 17 goals. The current Council has developed this five year IDP that include strategies on how the municipality will be contributing to each of the Sustainable Development Goals between 2017 and 2022. Chapters 3 and 6, contains strategies and projects that link to the SDGs as they appear in the figure below:

SUSTAINABLE DEVELOPMENT GOALS

FIGURE 1: SUSTAINABLE DEVELOPMENT GOALS

SDGS	IDM RESPONSE
SDG 1: End poverty in all its forms everywhere	<ul style="list-style-type: none"> • SMME Support programmes by Enterprise iLembe; and • Operation Sukuma Sakhe interventions.
SDG 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture	<p>Various agricultural projects implemented by Enterprise iLembe, including:</p> <ul style="list-style-type: none"> • Small holdings farmer support;

SDG 3: Ensure healthy lives and promote wellbeing for all at all ages

SDG 4: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

SDG 5: Achieve gender equality and empower all women and girls

SDG 6: Ensure availability and sustainable management of water and sanitation for all

SDG 7: Ensure access to affordable, reliable, sustainable and modern energy for all

SDG 8: Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

SDG 9: Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

SDG 10: Reduce inequality within and among countries

SDG 11: Make cities and human settlements inclusive, safe, resilient and sustainable

SDG 12: Ensure sustainable consumption and production patterns

SDG 13: Take urgent action to combat climate change and its impacts

- National Schools Nutrition Programme; and
- Hydroponic Tunnel projects.
- Projects and programmes from the department of health included in Chapter 8; and the municipality is implementing various sporting programmes aimed at youth, senior citizens and people with disabilities.
- Projects and programmes from the department of Education included in Chapter 8 of the IDP.;
- Implementation of the municipality's Workplace Skills Plan; and
- Implementation of the municipal Bursary Policy.

The municipality is implementing various gender equality programmes to empower women, such as;

- Implementation of the Municipal Equity Plan;
- Take a Girl Child to Work Day initiative;
- Teenage Pregnancy Awareness Campaigns; and
- Women's Parliament.

The municipality is implementing various water infrastructure projects to ensure availability of water, these are included in Chapter 6 of the IDP.

- Eskom projects under Chapter 7 of the IDP.
- Enterprise iLembe programmes.

The municipality is implementing various water infrastructure projects to ensure availability of water, these are included in Chapter 6 of the IDP.

N/A

The municipality, through water and sanitation infrastructure projects is facilitating the establishment of sustainable human settlements.

- The municipality is currently piloting a Recycling programme; and
- Development of an Integrated Waste Management Plan.

The municipality will be developing a Climate Change Response Strategy.

SDG 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development

SDG 15: Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

SDG 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

SDG 17: Strengthen the means of implementation and revitalise the global partnership for sustainable development.

The two coastal Local Municipalities, KwaDukuza and Mandeni, have developed Coastal Management Plans.

The municipality has concluded a Wetland assessment and the draft action plan is included as part of the municipal IDP.

The municipality has various measures in place such as the:

- Anti-Fraud and Corruption Policy and Strategy;
- A functional external audit committee;
- A functional risk management committee; etc.

The municipality has partnered with various international organisations, including SECO (Switzerland) and ICLEI on economic development and environmental management programmes, respectively.

Table 2: ILembe's Response To SDG'S

(B) MEDIUM TERM STRATEGIC FRAMEWORK

MTSF OUTCOMES	IDM RESPONSE
1. Improve the quality of basic education	Department of Education
2. A long and healthy life for all South Africans	Projects and programmes from the department of health included in Chapter 8; and the municipality is implementing various sporting programmes aimed at youth, senior citizens and people with disabilities.
3. All people in South Africa are and feel safe	South African Police Service
4. Decent employment through inclusive economic growth	Department of Economic Development; Department of Trade and Industry; and Enterprise iLembe.
5. A skilled and capable workforce to support an inclusive growth	Projects and programmes from the department of Education included in Chapter 8 of the IDP.; Implementation of the municipality's Workplace Skills Plan; and Implementation of the municipal Bursary Policy.
6. An efficient, competitive and responsive economic infrastructure network	Projects and programmes by Eskom under Chapter 8 of the IDP.; and Water and Sanitation Projects by the municipality under Chapter 6 of the IDP.

7. Vibrant, equitable and sustainable rural communities with food security for all	Various agricultural projects implemented by Enterprise ILembe, including: Small holdings farmer support; National Schools Nutrition Programme; and Hydroponic Tunnel projects.
8. Sustainable human settlements and improved quality of household life	The municipality, through water and sanitation infrastructure projects is facilitating the establishment of sustainable human settlements. The Implementation plan contained in Chapter 6 of the IDP.
9. A responsive and accountable, effective and efficient local government system	The Municipality has concluded the following Environmental plans: The Environmental Management Framework; Wetland Assessment Report; and Coastal Management Programmes (Mandeni and KwaDukuza).
10. Environmental assets and natural resources that is well protected and continually enhanced	All Government Departments.
11. Create a better South Africa and contribute to a better and safer Africa and World	Governance projects included in Chapter 3 and 6 of the IDP.
12. An efficient, effective and development orientated public service and an empowered, fair and inclusive citizenship.	Special projects that are included in Chapter 3 of the IDP.
13. Inclusive and responsive social system	iLembe is implementing a number of programmes that foster social cohesion and nation-building, these include: SALGA Games; Golden Games; and Cultural Celebrations (uMkhosi weLembe, Eid, Diwali, etc.)
14. Transforming and unifying the country	

Table 3: iLembe's response to the 14 National Outcomes

(c) BACK-TO-BASICS APPROACH

"SERVING OUR COMMUNITIES BETTER!!"

The Back to Basics programme outlines governments' plan of action to ensure a focused and strengthened local government by getting the basics right and together with other spheres of government, providing basic services efficiently and effectively and in a caring manner. The main goal is to improve the functioning of municipalities to better serve communities by getting the basics right.

Government has enforced a back-to-basics approach for the country's 278 municipalities. The back-to-basics approach want to sure that robots work, making sure that potholes are filled, water is delivered, refuse is collected, electricity is supplied, refuse and waste management takes place in the right kind of way. Systems to allow national and provincial governments to monitor the performance of municipalities and ensure they respond to crises quicker would be put in place.

These key performance areas for the Back-to-Basics Approach are premised on the five pillars as follows:

Figure 2: Pillars Of Back To Basics

The key performance indicators are assessed under each pillar on a quarterly basis. The programme is measured on an assessment that is main questions, scored and supplementary questions considered and the support plan that is implementation on progress. A 60/40 principle will be applied in terms of scoring. The final results will be categorised as functional, challenged and requiring intervention. The understanding of the categorisation is as follows:

(i) Functional

A good municipality with a score above 70%

- Political stability, functional structures and health admin interface.
- Responsive to service needs & infrastructure well maintained.
- Institutional continuity, clear policy, delegation frameworks in place.
- High collection rate, 7% on maintenance, CAPEX spent and clean audits.
- Community satisfaction, regular engagements and feedback.

(ii) Challenges

A municipality is at risk with a score between 51% to 69%:-

- Signs of political instability, excessive interference in admin or SCM.
- Slow responses to service failures, escalating utility losses or theft.
- Some critical positions not filled, some managers not qualified.
- Low collection rates, CAPEX not spent, declining audit opinions.
- Growing community protests, lack of feedback mechanisms.

(iii) Requiring intervention

A municipality with a score below 50%:-

- High degree of instability, fraud and corruption, committees don't meet
- Collapse in service delivery, outages, asset theft, and poor maintenance.
- Incompetent managers, many vacancies, no delegations.
- Chronic underspending, high debtors, no accountability, disclaimers
- Community dissatisfaction, high number of community protests.

It is against this background that the Ministry of Cooperative Governance and Traditional Affairs has pursued the *Back to Basics Approach* to address challenges faced by local government, strengthening municipalities, instilling a sense of urgency towards improving citizens' lives.

The table below illustrates the latest Back to Basics status for iLembe family of municipalities.

MUNICIPALITY	DCOG Sept 2014	IMPROVED / REGRESSED / UNCHANGED			
		KZN COGTA June 2015	KZN COGTA March 2016	KZN COGTA June 2016	KZN COGTA Sept 2016
iLembe DM	Functional	Functional	Challenged	Challenged	Functional
KwaDukuza LM	Functional	Challenged	Requiring Intervention	Challenged	Functional
Mandeni	Challenged	Challenged	Requiring Intervention	Functional	Challenged
Maphumulo	Functional	Challenged	Requiring Intervention	Challenged	Requiring Intervention
Ndwedwe	Challenged	Challenged	Challenged	Requiring Intervention	Requiring Intervention

TABLE 4: B2B STATUS FOR ILEMBE FAMILY OF MUNICIPALITIES

(d) RESPONDING TO IMPACTS OF CLIMATE CHANGE

As part of the implementation of the 2014 District Climate Change resolutions the District is implementing the following project:

PROJECT NAME	PURPOSE	DURATION
Technological need assessment	Identify a list of technologies for the water (adaptation) and energy (mitigation) sector	January to December 2017
Local Action for Biodiversity (LAB): Wetlands South Africa	Identification of wetlands and management	2015 to 2017

South africa's low emission programme	Identify energy efficeincy opportunities within treatment plants and office buildings	2016 to 2020
Energy Efficiency programme	Implementing the energy efficiency programme within municipal facilities including buildings	2017/2018 financial year
Recycling programme	to promote recycling within the municipal offices	on-going

TABLE: PROGRAMMES RESPONDING TO CLIMATE CHANGE

(e) DISTRICT GROWTH AND DEVELOPMENT PLAN (DGDP)

iLembe DGDP provides a framework of ensuring the already adopted IDP vision is realized. This will be achieved through a series of goals, strategic objectives, and interventions. All of these will be ultimately linked to a set of apex and primary indicators to measure the level of DGDP implementation.

In 2013, Council adopted the iLembe Regional Spatial Development Plan (IRSDP), which essentially provided a blueprint for the District to become a "sustainable region" by 2050. It was therefore necessary that in developing the DGDP, the proposals contained in the IRSDP were considered. To this end, there is alignment between the five pillars contained in the IRSDP and the six goals of the DGDP as follows:

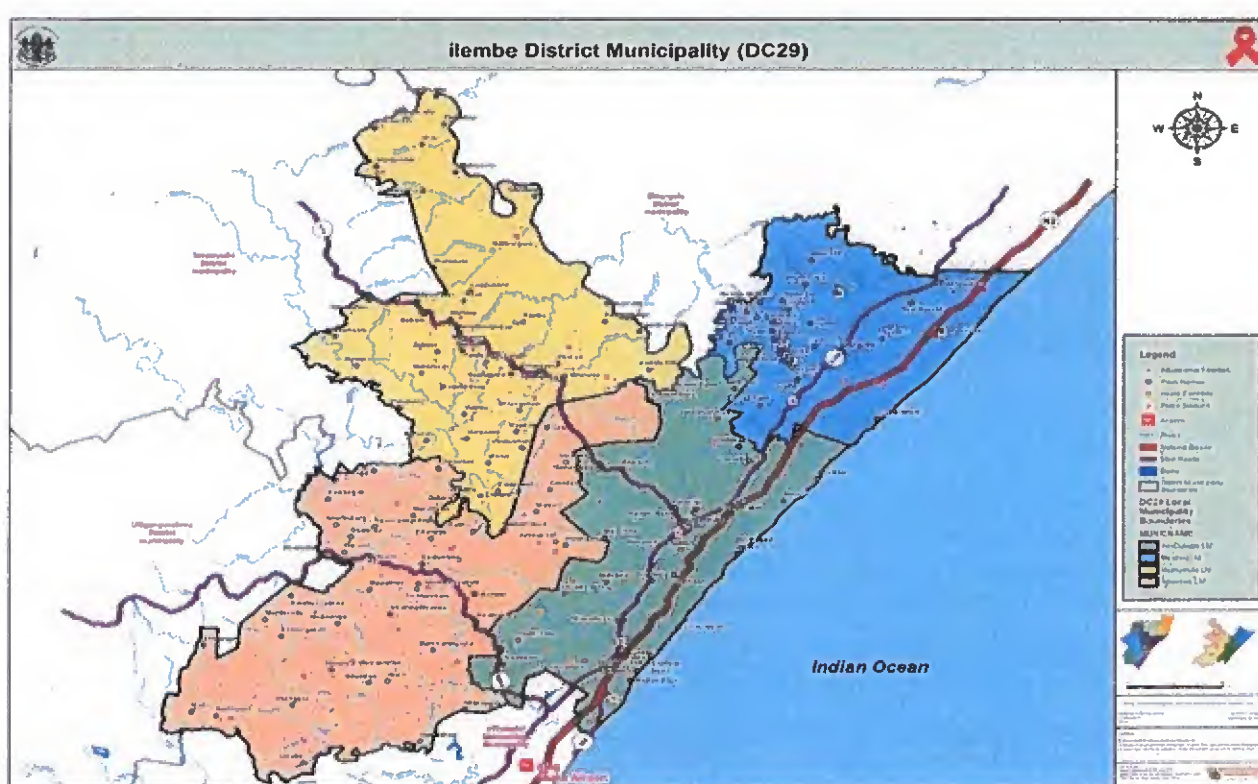

KZN PGDP GOAL	ILEMBE DISTRICT GOAL
Inclusive Economic Growth	A diverse and growing economy
Human resource development	Promote social well-being
Human and community development	
Strategic infrastructure	Provide equitable access
Spatial equity	A liveable region
Environmental sustainability	Living in harmony with nature
Governance and policy	Effective Governance, Policy and Social Partnerships

TABLE 5: DGDP OBJECTIVES

As evident from the table above, essentially the aim of the DGDP is to ensure synchronization between the District goals and objectives and Provincial goals and objectives. The District goals are an informant to the strategic interventions/projects proposed in the DGDP. These interventions are key to the municipality's ability to achieve its vision.

In the process of compiling the DGD, the iLembe family hosted the District Growth and Development Summit. This was a multi-sectorial engagement to devise strategies and projects that would encourage economic growth in iLembe. The resolutions of the summit have been incorporated into the strategic objectives of the DGD.

Due to the long term nature of this plan (2030 vision aligned to PGDS) it was essential that the interventions were expressed with short, medium, and long term horizons i.e. short term 2016-2020, Medium term 2021-2025, and Long term 2026-2030. A comprehensive copy of the DGD is contained in the municipality website.

MAP 1: OVERVIEW OF THE ILEMBE REGION

(e) DEMOGRAPHIC CHARACTERISTICS

The Statistics SA Census data for 2001 and 2011 and the results of the 2016 Community Survey have been used for the demographic and the economic information in this section.

(i) POPULATION AND HOUSEHOLD PROFILES

The recent Community Survey (2016) results show that the population in iLembe District has grown to 657,612 people and has been growing at 1.7% per annum from

2011 to 2016, this is shown in the graph and tables below. In contrast to the previous comparison of 2001 and 2011 results, where both rural municipalities of the district (Maphumulo and Ndwedwe) were seen to have a decrease in population, Ndwedwe is now experiencing an increase but Maphumulo remains on a downward trajectory as portrayed below. Table 3 further depicts how the rate of population growth has increased per annum in three of the four local municipalities of iLembe, the overall growth rate having increased from 0.8% per annum to 1.7% per annum.

GRAPH 1: POPULATION GROWTH 2001 TO 2016

STATISTICS SA CENSUS 2001, 2011 & COMMUNITY SURVEY 2016

Municipality	Population Growth (% p.a. 2001-2011)	Population growth (% p.a. 2011-2016)
iLembe District	0.80	1.7%
Maphumulo	-2.21	-7%
Mandeni	0.81	1.4%
KwaDukuza	3.20	3.9%
Ndwedwe	-0.27	0.3%

TABLE 6: POPULATION GROWTH COMPARISON

STATISTICS SA CENSUS, 2011 & COMMUNITY SURVEY 2016

According to the Community Survey 2016, the number of households within iLembe District has risen to 191,369 from 157,692 in 2011 and is now growing at 4.3% per annum. Households in KwaDukuza have grown at a fairly rapid rate of 6.0% per annum; despite a further decline in the population, the number of households in Maphumulo has risen slightly. One could speculate that the decline in population but with an apparent increase in number of households may be due to further decrease in the average size of households. As per the Community Survey 2016, the average household size in the District has decreased from 3.8 to 3.4 and the percentage of female headed households has risen from 45.8% to 47.1% which is above the national average of 41%.

Municipality	Number (2016)	Household Growth (%) p.a.) (2016)	Average Size (2016)	Female Headed % (2016)	Child Headed (2011)	
					Number	%
iLembe	191,369	4.3%	3.4	47.1	614	0.4%
Maphumulo	20,524	0.6%	4.4	61.6	115	0.6%
Mandeni	45,678	3.9%	3.2	51.1	167	0.4%
KwaDukuza	91,284	6.0%	3.0	39.1	113	0.2%
Ndwedwe	33,883	3.2%	4.2	54.6	218	0.7%

STATISTICS TABLE 7: HOUSEHOLD
STATISTICS SA CENSUS, 2011 & COMMUNITY SURVEY, 2016

STATISTICS SA CENSUS, 2011 & COMMUNITY SURVEY, 2016

It is noted that the above population and household statistics fluctuations are implications of the socio-economic conditions prevalent in the different localities of iLembe. Further analyses the status quo of the economies of the different local municipalities, levels of poverty, employment/unemployment and also gives a view on what has been done to stimulate growth, especially in the field of LED.

(ii) AGE PROFILES

The graph below provides an indication of the age distribution within the district as recorded in 2011, compared with the results of the 2016 Community Survey. Within iLembe, 35,5% of the population is under the age of 15, KwaDukuza has the lowest percentage 29% and Maphumulo has the highest percentage of the population under 15 years at 40%. Throughout the district, it seems that all age groups under 65 years have decreased in percentage whilst the percentage of the

age group of 65+ has risen. Compared to the other Local Municipalities of the district, KwaDukuza has the highest percentage of the working age group at 66, 7% whilst Maphumulo has the lowest at 52,9%. The majority of people within the District are of working age, however the available employment opportunities are not adequate to absorb this high number- this will be further elaborated upon in the employment profile.

GRAPH 2: AGE PROFILE
STATISTICS SA CENSUS, 2011 AND COMMUNITY SURVEY 2016

(iii) GENDER PROFILES

The gender profile of the iLembe District population is typical of the trend prevalent throughout other district municipalities in KZN meaning that there is a greater number of females (341,926) residing in the area compared to males (315,686). Although the population has increased, according to the Community Survey of 2016, the gender ratio remains the same as previously highlighted in the 2011 Census.

FIGURE 3: DISTRICT GENDER PROFILE

STATISTICS SA CENSUS, 2011 AND COMMUNITY SURVEY, 2016

(iv) SEX RATIO (MALES PER 100 FEMALES)

The graph below displays the gender distribution within local municipalities. In iLembe, for every 100 females there are 92 males. KwaDukuza is the most even at almost an equal split between gender groups, whereas Maphumulo is the most uneven with only 81 males for every 100 females.

GRAPH 3: ILEMBE GENDER PROFILE

STATISTICS SA CENSUS, 2001, 2011 & 2016

(v) RACIAL PROFILE

The graph below displays the split of the population of the district by population group from 2001 to 2016. Within the District, the percentage of Black people has shown a slight decrease as the graph depicts that in 2001 the percentage was 91% and at present it is 89, 2% whilst the percentage of White people is steadily increasing from 1, 9 % in 2001 to 3.4% in 2016. Between 2001 and 2011 the Asian population declined slightly, however between 2011 and 2016, the percentage has shown an increase from 6 to 6.9%. The Coloured population remains constant at 0.5% of the population of iLembe District.

GRAPH 4: RACIAL PROFILE

STATISTICS SA CENSUS, 2001 & 2011 AND COMMUNITY SURVEY 2016

GRAPH 4: RACIAL PROFILE

STATISTICS SA CENSUS, 2001 & 2011 AND COMMUNITY SURVEY 2016

In considering the graph above, it is apparent that iLembe is dominated by different races of people who subscribe to different customs and beliefs. iLembe as an institution supports cultural events that take place within the District as part of promoting nation building and social cohesion, programmes.

1.4. DISTRICT FUNCTIONS AND POWERS

The following are the Powers and Functions that section 156 of the Constitution (1996) of the Republic of South Africa accords to the ILembe District Municipality:

DISTRICT POWERS & FUNCTIONS (CHAPTER 7, SECTION 156 OF CONSTITUTION)	
1. IDP	
2. Bulk Water	
3. Bulk Sewerage Purification	
4. Health Services	
5. Tourism	
6. Public Works relating to the above	
7. Grants-receiving & distributing	
8. Impose, Collect taxes & levies	
9. Disaster Management	
10. Accountability	
11. Community participation	
12. Financially & Environmentally sustainable service delivery	
13. Equitable Access to Municipal Services	
14. Local Development	
15. Gender Equity	
16. Safe and Healthy Environment	
17. Performance Management Systems	
18. Incremental Improvement	
19. Responsible Financial Management	

The 2018/2019 Annual Report is therefore aimed at presenting to Council, the community and other agencies the performance of the municipality in the above- mentioned powers and functions.

CHAPTER 2: GOVERNANCE

2.1. POLITICAL AND ADMINISTRATIVE GOVERNANCE

iLembe District Municipality's council operates under the collective executive system. In terms of section 42 of the Local Government: Municipal Structures Act, 1998 the Council has established an Executive Committee consisting of six (6) Councillors. The Council has also established the following Portfolio Committees to assist the Executive Committee:-

- Economic Development, Planning Health And Safety Portfolio Committee
- Infrastructure and Technical Portfolio Committee
- Finance Portfolio Committee; and
- Local Public Administration and Labour Relations Portfolio Committee.

Each of these committees is established in terms of the Section 80 of the Municipal Structures Act to assist the Executive Committee (EXCO). These committees deliberate on matters that fall within the specific terms of references of that particular committee and make recommendations to the Executive committee for approval or where necessary for endorsement by the executive committee for final approval by the full council.

There are delegations in place for the operations of the EXCO with the exception of the power's provided to council in terms of Section 160(2) of the constitution of the republic of South Africa, 1996. The District EXCO can only make recommendation for approval of such matters.

To assist in performing the oversight role, iLembe District Municipality has also appointed the following committees:

- i. Audit Committee in accordance with the Municipal Finance Management Act 56, of 2003 section 166, and operates within the terms of the Audit Committee Charter, which outlines its modus operandi. The Audit Committee charter is approved by the Council of iLembe District Municipality.
- ii. A Municipal Public Accounts Committee. The Committee consists of six (6) Councillors of the Municipality, who are not members of the Executive Committee. The Chairperson of the Committee is appointed by the Council. The functions of the Committee include the examination of the annual report of the Council and the

development of the annual oversight report based on the annual report. The annual oversight report is published separately from the annual report.

2.1.1.11 THE PURPOSE AND FUNCTIONS OF COMMITTEES

The following information reflects the different committees of Council and their respective purpose and functions:

(a) Delegations to the Executive Committee

- Performs the functions of an Executive Committee set out in the Local Government : Municipal Structures Act, 1998;
- Takes such action as may be necessary to ensure compliance by the Council with all legislation relating to or affecting local government, including, but not limited to:-
- The Local Government : Municipal Demarcation Act, 1998
 - The Local Government : Municipal Systems Act, 2000
 - The Promotion of Access to Information Act, 2000
 - The Municipal Finance Management Act, 2003
- Exercises all Powers of the Council which may be delegated by the Council in terms of the Constitution or any other law and which has not been delegated or assigned to any Municipal Functionary or municipal employee or is not deemed to be so delegated or assigned in terms of any law;
- Considers and determines any particular matter or issue or any matter of policy referred to the Committee by the Municipal Manager;
- Takes any necessary or incidental decisions for the management or administration of any resolution of the Council.

(b) Delegations to the Rules Committee

- Developing Rules of Order and amendments thereto for recommendation to EXCO.
- Summoning any Councillor or official to appear before the committee to assist it in the performance of its functions

- Conducting disciplinary enquiries into Councillor transgressions referred to the Committee by the Speaker or MM, and making recommendations in respect thereof
- Investigating and making findings on any alleged breach of the Code of Conduct for Councillors, and making suitable recommendations including suitable sanctions in terms of Item 14.2 of such Code
- Making written representations to the MEC for Local Government pertaining to an appeal to the MEC by a councillor who has been warned, reprimanded or fined in terms of item 14 (2) (a), (b) or (c) of the Code of Conduct for Councillors

(c) Delegations to the Finance Portfolio Committee

- Ensuring compliance with the provisions of MFMA
- Investigating processes and procedures for the implementation of services relating to matters referred to in number 5
- Making recommendations, in line with the IDP, regarding strategic, administrative, technical, financial and procedural issues relating to matters referred to in number 5
- Ensuring stakeholder participation in matters referred to in number 5
- Formulating Policy for recommendation to Council and monitoring implementation in regard to the following matters:-
 - ✓ Audit;
 - ✓ Budget Monitoring;
 - ✓ Credit Control Monitoring;
 - ✓ Expenditure Monitoring;
 - ✓ Imposition and collection of taxes, levies and duties related to the functions of the Municipality;
 - ✓ Income Monitoring;
 - ✓ Indigent Support Programme Monitoring;
 - ✓ Receipt, allocation and, if applicable, the distribution of grants made to the District Municipality;
 - ✓ Supply Chain Management Policy oversight;
 - ✓ Financial Regulations;
 - ✓ Borrowing;
 - ✓ Fixed assets; and
 - ✓ Cash and Investment
 - ✓ Reviewing of CFO's Monthly Financial Reports

(d) Delegation to the Infrastructure and Technical Portfolio Committee

- Investigating processes and procedures for the implementation of services relating to matters referred to in L 4.

- Making recommendations, in line with the IDP, regarding strategic, administrative, technical, financial and procedural issues relating to matters referred to in number 4
- Ensuring stakeholder participation in matters referred to in number 4
- Formulating Policy for recommendation to Council and monitoring implementation in regard to the following matters:-
 - Domestic waste-water and sewage disposal systems;
 - Municipal Fleet Management;
 - Potable water supply systems;
 - Solid Waste Disposal Sites serving more than one local municipality in the District;
- Although the issue of the Solid Waste Disposal Site is a statutory function of the District Municipality, the function has not yet been performed by the Municipality.

(e) Delegation to the Economic Development, Planning, Health And Safety Portfolio Committee

- Investigating processes and procedures for the implementation of services relating to matters referred to in M 4.
- Promotion of local tourism for the area of the District; and
- Promotion of social and economic development, including:
 - Agriculture;
 - Industrial Development
 - Job creation;
 - Social Empowerment;
 - Town Planning;
 - Cultural Upliftment; and
 - Poverty Alleviation.
- Making recommendations, in line with the IDP, regarding strategic, administrative, technical, financial and procedural issues relating to matters referred to in number 4
- Ensuring stakeholder participation in matters referred to in number 4
- Formulating Policy for recommendation to Council and monitoring implementation in regard to the following matters:-
 - ✓ Abattoirs serving a major proportion of the municipalities in the District;
 - ✓ Fresh produce markets serving a major proportion of the municipalities in the District;
 - ✓ Integrated Development Planning for the District;
 - ✓ Municipal airports serving the area of the District as a whole;
 - ✓ Promotion of a safe and healthy environment, including:-

- Conservation;
- Environmental Planning;

(f) Delegation to the Local Public Administration and Labour Relations Portfolio Committee

- Investigating processes and procedures for the implementation of services relating to matters referred to in number 4
- Making recommendations, in line with the IDP, regarding strategic, administrative, technical, financial and procedural issues relating to matters referred to in number 4
- Ensuring stakeholder participation in matters referred to in number 4
- Formulating Policy for recommendation to Council and monitoring implementation in regard to the following matters:-
 - Human Resource Development;
 - Labour Relations; and
 - Local Public Administration.

2.1.2 ADMINISTRATIVE GOVERNANCE

INTRODUCTION TO ADMINISTRATIVE GOVERNANCE

According to the MFMA 60(b): The Municipal Manager of iLembe District Municipality is the accounting officer of the municipality for the purposes of this Act and provides guidance on compliance with this Act to political structures; political office bearers, and officials of the municipality and any entity under the sole or shared control of the municipality, namely Enterprise iLembe.

The iLembe District Municipality has a well-established organizational structures and systems in place. The structure that was in place as at 30 June 2017 was appropriate for the developmental local government mandate assigned to the District Municipality in terms of the Municipal Structures Act, 1998. The Municipality's organisational structure provides for four Directorates that are managed by the Municipal Manager. The District Municipality has four Directorates with senior management per directorate, which are:

Name and Surname	Position
Mr N. G. Khumalo	Municipal Manager
Mr M Chandulal	Chief Finance Officer Department of Finance
Mr T. Makhoba	Senior Manager: Department of Corporate Services
Mr S. Ngubane	Acting Senior Manager: Department of Community Services
Mr. B. Shezi	Senior Manager: Department of Technical Services

2.2 INTERGOVERNMENTAL RELATIONS STRUCTURES

There are various Provincial Intergovernmental fora in which the District Mayor sits and represents the District family of Municipalities. There is a Premier's Coordinating Forum which constitutes of MECs, the Mayors, Heads of Departments as well as the Municipal Managers that is chaired by the Provincial Premier. This Forum meets on a quarterly basis and has a sub-structure chaired by the MEC COGTA called the MUNIMEC which is constituted by the all the KZN Mayors Municipal Managers, Heads of Departments as well as the SALGA representative. This sub-structure meets quarterly prior the meeting of the Premiers Coordinating Forum.

There is also a Provincial SALGA structure for all IGR Practitioners and Managers, this structure focuses on strengthening relations as well as the coordination IGR functions within Municipalities. ILembe District Municipality has been engaging with the EThekweni Metro regarding the establishment of the Liberation Heritage Route for EThekweni Metro and ILembe district Family of Municipalities. These Municipalities have had one successful meeting with clear resolutions that are at implementation planning stage as well as draft Terms of Reference.

At the District level, the District Intergovernmental Forum plays a monitoring and oversight role over the family of municipalities. The forum constituted by the Mayors of the District family, the Municipal Managers and chairpersons of technical sub-fora; meets quarterly to discuss issues of mutual interests, explore possible areas of joint ventures as well as monitor progress on compliance issues such as Auditor General related queries, compliance with all finance related legislations and financial management including revenue generation, quality of services delivered to the communities, Municipal Capacitation and so forth.

All Municipalities are represented to ensure that all resolutions taken are implemented respectively. Furthermore the District plays a coordinating role at the request of the Local Municipalities to source assistance and interventions to mitigate challenges experienced by Local Municipalities.

Municipal functioning, challenges and best practices are discussed at technical sub-fora and escalated to the Technical Support Forum which is made up of Municipal Managers and the Chairpersons of technical sub-fora. Once the Technical Support Forum has discussed the reports from the sub-fora a consolidated report with recommendations and/or resolutions is then escalated to the District Intergovernmental Forum for further consideration.

DISTRICT INTERGOVERNMENTAL STRUCTURES

There are fifteen (15) IGR structures in the District as illustrated in the table below. These structures are made up of relevant stakeholders from all three spheres of government, government agencies, private entities and Amakhosi.

NO.	NAME OF THE FORUM	MEETING FREQUENCY	CHAIRPERSON	FUNCTIONAL
1	DIF: DISTRICT INTERGOVERNMENTAL FORUM (MAYORS')	Quarterly	District Mayor	Functional
2	TSF: TECHNICAL SUPPORT FORUM (MMS')	Monthly	Municipal Manager of ILembe District Municipality	Functional
3	DAFF: DISTRICT AREA FINANCIAL FORUM (CFOs)	Quarterly	Municipal Manager of Ndwedwe local Municipality	Functional
4	DISTRICT GOVERNMENT IT OFFICERS COMMITTEE (DGITOC)	Quarterly	Municipal Manager of ILembe District Municipality	Functional
5	DISASTER MANAGEMENT ADVISORY FORUM (DMAF)	Quarterly	Municipal Manager of KwaDukuza Local Municipality	Functional
6	PERFORMANCE MANAGEMENT SYSTEM FORUM (PMSF)	Quarterly	Municipal Manager of iLembe District Municipality	Functional
7	LOCAL ECONOMIC DEVELOPMENT FORUM (LEDF)	Bi-Monthly	Municipal Manager of Mandeni Local Municipality	Functional
8	DISTRICT COMMUNICATORS FORUM (DCF)	Monthly	Municipal Manager of Ndwedwe Local Municipality	Functional
9	PLANNING AND DEVELOPMENT FORUM (PDF)	Monthly	Municipal Manager of Mandeni Local Municipality	Functional
10	INFRASTRUCTURE FORUM (IF)	Bi-Monthly	Municipal Manager of KwaDukuza Local Municipality	Functional
11	CORPORATE SERVICES FORUM	Quarterly	Municipal Manager of Maphumulo Local Municipality	Functional
12	SPEAKERS' FORUM	Quarterly	District Speaker	Functional

13	INTERNAL AUUDITORS FORUM	Quarterly	Municipal Manager of Maphumulo Local Municipality	Moderately Functional
14	ENTERPRISE RISK MANAGEMENT FORUM	Quarterly	Municipal Manager of iLembe District Municipality	Functional
15	DISTRICT AIDS COUNCIL	Quarterly	District Mayor	Functional

2.3 CORPORATE GOVERNANCE

2.3.1 ENTERPRISE RISK MANAGEMENT (ERM)

(A) Introduction

Enterprise Risk Management (ERM) forms a critical part of iLembe District Municipality strategic management. It is the process whereby the iLembe District Municipality both methodically and intuitively addresses the risks attached to the strategic objectives and activities of the Municipality. The goal is to ensure the achievement of strategic objectives as well as the sustained benefit within each activity and across the portfolio of activities. ERM is therefore recognised as an integral part of sound organisational management and is being promoted internationally and in South Africa as good practice applicable to the public and private sectors.

(B) Objectives of Enterprise Risk Management

The purpose of Enterprise Risk Management at iLembe District Municipality is to, among others provide the following:

- Advance the development and implementation of modern management practices and to support innovation through the iLembe District Municipality.
- Contribute in building a risk smart workforce and environment that allows for innovation and responsible risk taking while ensuring legitimate precautions are taken to protect the public interest, maintain public trust, and ensure due diligence.
- Provide a comprehensive approach to better integrate risk management into strategic decision making.
- To provide guidance to Accounting Officer, Executives Authorities, Management and staff when overseeing or implementing the development of processes, systems and techniques for managing risk, which are appropriate to the content of the district.

(C) Risk Governance

(i) Risk Management Committee

The District Municipality has a Risk Management Committee (RMC) which is made up of senior management and the independent Chairperson. The RMC operates within a risk charter approved by the Executive Committee.

The Risk Management Committee is responsible for independent oversight and appropriate advice on the risk management process, mitigation of key risk exposure and the emerging risks that may have an impact on the District Municipality. The Committee's role is to guide the development and implementation of Risk Management programme as well as to review and monitor Enterprise Risk management (ERM) process and outputs regularly.

(ii) Reporting and Communication

- Five (5) RMC meetings were held in the year 2018/19;
- The Risk Management Committee Chairperson reports to EXCO bi-annually on the progress in the implementation of Risk Management in the municipality;
- Four (4) quarterly reports were submitted to Audit Committee. Top strategic risks including strategic fraud risks were reported quarterly to EXCO. Meanwhile the top strategic, operational, ICT and fraud risks were reported to appropriate Portfolio Committees;
- EXCO approved the Risk Management Implementation Plan for 2018/19. This plan was implemented and monitored on a quarterly basis; and
- 95% of the activities on Risk Management Implementation plan were achieved.

(D) Key Performance Highlights for 2018/19

- Council approval of the following documents:
 - Risk Management Strategy, Policy and Framework,
 - Anti-Fraud and Corruption Strategy & Policy; and
 - Loss Prevention and Management Policy.
- Risk Management awareness workshops with Councillors, Management, Risk Champions, Accountants and Officers
- Declarations of interest signed by Councillors, Senior Managers and Middle Managers and all SCM Officials;
- Compiled a risk register with 88 risks (Strategic 20 and Operational 35, ICT 6, Fraud Risks 21 and MOSCOA 6) through Annual Risk Assessment workshops with management;

- MSCOA risk register was reviewed;
- Appointment of the new independent Risk Management Committee Chairperson;
- Compliance monitoring and reporting in terms of the Laws and Regulation applicable to local government;
- Insurance Claims monitoring and reporting;
- Loss control reports;
- Functional District Enterprise Risk Management Forum.
- Business Continuity desk check test was done.
- 95% of the activities on Risk Management Implementation plan were achieved.
- Overall achievement of implementation of action plans for 2018/19 was 71%.
- Monitoring operational plans to enhance revenue within the district;
- Monitoring of plans to mitigate the risk of inadequate water sources;
- Reported progress on implementation of action plans to Risk Management Committee, Portfolio Committees, EXCO and Audit Committee;

(E) Risk Maturity

In terms of the National Treasury risk maturity level that consists of 6 levels, iLembe District Municipality has achieved level 4 – **INFORMATION** which means;

Risk management is firmly embedded in the institution. Metrics to measure the value-added of risk management are in place. Aggregated risk management information is circulated to relevant officials and oversight structures as a matter of routine. Metrics are in place to measure and monitor the value of add of risk management. Risks provide intelligence with regard to decision making.

(F) The Top 5 Risks Facing the Municipality in 2018/19

(i) Strategic Risks:

- Business Support: Lack of communication with Stakeholders and communities;
- Strategy: Inappropriate Corporate Culture;
- Health and Safety Management: Inadequate Occupational Health & Safety (OHS) systems;
- Technical Services: Scarce raw water sources; and
- Service Delivery: Violent Public Protest.

(ii) Operational Risks:

- Security: Inadequate security over Municipal infrastructure, assets and staff;
- Financial Management: Misuse of Municipal Fleet due inadequate monitoring and supervision by user departments (Supervisors);

- Logistic Management: Inadequate controls over safeguarding of stock;
- Expenditure Management: Non Compliance with the 30days timeline for payment of suppliers; and
- Financial Management: Incorrect revenue recognition and completeness.

(iii) Fraud Risks:

- Theft of goods from stores;
- Theft of Municipal assets by both the municipal officials and external persons;
- Conflict of Interest: Unjustified emergency request;
- Employees claiming overtime that has not been worked or inflating overtime hours worked; and
- Loitering of municipal employees during working hours.

(iv) ICT Risks:

- (i) IT: Failure to manage an effective and efficient co-ordination of IT continuity in the event of disruption.
- (ii) IT: Inadequate protection of information Technology equipment.

(G) Key Areas of focus for 2018/19:

Below is the highlight of some of the key focus areas for 2019/20.

- Monitoring operational plans to enhance revenue within the district;
- Monitor implementation of the Corporate Culture programme;
- Report progress on implementation of action plans to Risk Management Committee, Portfolio Committees, EXCO and Audit Committee;
- Development of Combined assurance framework.

(H) Challenges and Mitigations to improve.

(i) Inadequate Risk awareness

While awareness campaigns takes place in the form of workshops risk management is still perceived as bureaucratic exercise hence unable to yield visible results at operations.

Mitigation:

Embedding risk management in the existing business processes to make risk management self-sustaining overtime.

(ii) Instilling Accountability and Encouraging Action:

Mitigation:

Mapping the risk to Portfolio Committees and encouraging portfolio hearings against the treatment plans.

Allocating resources to the highest priority risks.

(iii) Complex risk management approach to treatment, monitoring and reporting.

Mitigation:

External risks: Contingency planning and Business Continuity Plan.

Strategic: focus on key risk indicators and trends.

Operational: focus on internal controls and establishing procedures and alignment to internal audit through combined assurance.

(l) Outstanding Matters

- Launch of the Ethics Committee for Councillors.
- Rollout for the Corporate Culture.
- Appointment of the Hotline service provider.

2.3.2 ANTI- FRAUD & CORRUPTION

iLembe District Municipality has in place an Anti-Fraud and Corruption Strategy and Policy that was reviewed and approved by Council.

The risk of fraud and corruption is one of the Municipality's top strategic risk areas.

As part of Fraud and corruption prevention the following was done;

- Declarations of interest signed by Councillors, Senior Managers, Managers and SCM employees.
- Fraud awareness campaigns for all staff members including Councillors was done.
- Conducting Fraud Risk assessments.
- Review of the Fraud risk register was done and monitoring on a monthly basis.
- Fraud and Corruption awareness workshops being conducted for Councillors, Senior Managers and middle Managers.
- Reviewed the Policy for the acceptance/giving of gifts, donations and sponsorship, and approved by Council.
- Designing and development of fraud risk management plan.

Risk Management Committee functions as an oversight body; this includes the review of the effectiveness of prevention initiatives, detection techniques as well as progress made in any forensic investigation.

The Municipality acts swiftly to investigate allegations of fraud & corruption whenever these allegations are reported to Management, Executive, Council & Audit Committee.

2.3.3 SUPPLY CHAIN MANAGEMENT

The Municipality has a Supply Chain Management Unit that is fully functional and established within the Finance Department. All SCM processes are conducted in line with Section 217 of the Constitution of the Republic of South Africa, Chapter 11 of the MFMA (No. 56 of 2003), PPPFA (No. 5 of 2000) and the 2017 Preferential Procurement Regulations and the SCM Policy of the Municipality.

In order to ensure the segregation of duties, the SCM unit has four elements which operate independently but in a coherent manner as part of the supply chain, namely, demand, acquisition, logistics and disposal management. Furthermore, there is a contract management section which in conjunction with the relevant Project Managers, is responsible for the monitoring of all service providers and contractors' performance. This seeks to ensure the successful implementation of projects which will eventually yield to the realization of goals and targets as outlined in the Municipality's SDBIP.

(a) RANGE OF PROCUREMENT PROCESSES

All procurement activities are conducted in a manner that is fair, transparent, efficient, competitive and cost effective in line with the provisions of the Municipal Finance Management Act, (Act 56 of 2003), Supply Chain Management Policy and the 2017 Preferential Procurement Regulations pertaining to the Preferential Procurement Policy Framework Act (No. 5 of 2000).

As a prerequisite, all entities doing business with the Municipality must be registered on the National Treasury's Central Suppliers Database (CSD). Over and above other mandatory requirements for eligibility to do business with the Municipality, the entities must submit SARS pin or tax clearance certificates to enable the verification of their tax status with SARS. This verification is done in all procurement process and bidders are given seven working days to sort out their tax matters with SARS.

(b) COMPETITIVE BIDDING PROCESSES

Section 19(1) of the SCM Policy stipulates that; goods or services above a transaction value of R200 000 (VAT included) and long term contracts may only be procured through a competitive bidding process, subject to paragraph 11(2) of the SCM Policy. The Municipality has established all three bid committees duly appointed by the Accounting Officer, namely, Bid Specifications, Evaluation and Adjudication Committees. All projects that are processed by these committees must be fully funded and be registered on the annual procurement plan.

The Municipality is currently exploring ways of dealing with unsuccessful bidders who lodge frivolous and vexatious objections in an attempt to stifle progress in the implementation of projects. This in turn cause unnecessary delays especially when these appellant eventually lose their appeals.

(c) IMPLEMENTATION OF THE 2017 PREFERENTIAL PROCUREMENT REGULATIONS

The 2017 Preferential Procurement Regulations pertaining to the Preferential Procurement Policy Framework Act Regulations (PPPFA), Act No.5 of 2000 were incorporated in the SCM Policy. The Regulations are used to advance designated groups through the procurement activities, by applying the following pre-qualification criteria;-

- Bidders with a specific minimum B-BBEE status level of contribution (only level 1 and 2 B-BBEE status level).
- EME or QSE (*EME = Entity with an annual turnover of up to R 10 Million and *QSE = Entity with an annual turnover above R 10 Million but not exceeding R 50 Million).
- Bidders subcontracting a portion of the project (30%) to the local emerging entities as per the predetermined list.

The following statistics reflects procurement patterns in the 2018/2019 financial year according to the various groups;-

- (i) A total of R28,807,794.69 (66.32%) was spent on entities operating within the district,
- (ii) A total of R37,915,993.15 (87.34%) was spent on black owned entities,
- (iii) A total of R 25,716,185.27 (59.23%) was spent on local black owned entities,
- (iv) A total of R 5,977,421.68 (13.76%) was spent on local entities owned by black youth,
- (v) A total of R 6,027,589.13 (13.88%) was spent on local entities owned by black women,

All quotation requests are advertised with a condition that gives first preference in terms of Section 2(1)(f) of the PPPFA (Act No.5 of 2000) to locally based entities from different groups from the District that were previously disadvantaged.

All bid invitations were amended to enable only the emerging entities to bid for municipal projects and all tenders including a subcontracting condition to ensure the empowerment of the up and coming entities from the district.

LOGISTICS MANAGEMENT

The Municipality has four site offices that keep stock items, namely, KwaDukuza, Mandini, Maphumulo and Ndwedwe. The main stores/warehouse is located in KwaDukuza and operates on Munsoft financial system, the satellite stores are operating on a manual system. The inventory is maintained through the weighted average method and the following reflects the inventory balances and results of the stock count conducted at the end of the month as required by the Inventory Management Policy.

(d) Municipal By Laws

As a Water Services Authority, iLembe District developed the Water and Sanitation By-Law in November 2019. The current By-Law is still under review and is yet to be presented to Council for adoption.

(e) Municipal Website

In relation to the communications and imparting the municipal information to the public, the Communication Sub-directorate in the iLembe District Municipality manages the flow of communication from/ to the organization, media and broader communities. It is also responsible for attending to the information needs with respect to the Web site of the Municipality, checking and approving the insertion of news items, articles and photographs. Legislated information in terms of Section 75 of the MFMA is also placed in the municipal website and updated as stipulated in the MFMA. This includes the following information:-

- that have been disposed of in terms of section 14(2) or (4) during the previous quarter;
- performance agreements required in terms of section 57(1)(b) of the Municipal Systems Act;
- all supply chain management contracts above a prescribed value;
- public-private partnership agreements referred to in section 120 of the MFMA;
- The annual and adjustments budgets and all budget-related documents and all budget-related policies;
- all service delivery agreements;
- all long-term borrowing contracts;
- an information statement containing a list of assets over a prescribed value
- contracts to which subsection (1) of section 33 apply, subject to subsection (3) of that section;
- the annual report;

- All quarterly reports tabled in the council in terms of section 52(d); and other documents that must be placed on the website in terms of this Act or any other applicable legislation, or as may be prescribed.

(f) Public Satisfaction On Municipal Services

One of the communication objectives for iLembe District Municipality is to improve communication between the Municipality and its communities. This objective contributes towards the national outcome of creating a responsive, accountable, effective and efficient local government system. A healthy relationship between the municipality and external customers (citizens) is essential as customer satisfaction is a yardstick for municipal performance. Customer satisfaction is the output of customer service. Poor service leads to unhappy customers whilst good customer service leads to happy customers. However, because of financial constraints, iLembe District Municipality did not embark on a format citizen satisfaction survey during 2018/2019 financial year. The satisfaction levels of the community are assessed through community meetings and media engagement activities.

2.4 PUBLIC ACCOUNTABILITY AND PARTICIPATION

Public participation is an integral part of local democracy and participatory local governance and that the involvement of communities and community organisations in the matters of local government is one of the objects of local government.

2.4.1 COMMUNICATION, PUBLIC PARTICIPATION AND RELATED FORUMS

The following are the public participation and communication structures and mechanism that exists within the iLembe District Municipality:

(A) SPEAKERS' FORUM

The Forum consists of:

- the Speaker of iLembe District Municipality;
- the Speakers of all Local Municipalities

The chairperson of the Forum is the iLembe District Municipality Speaker. In his absence the meeting elects a pro-term Chairperson of the same position. Official responsible for public participation also attend the Speakers Forum.

(i) Objectives Of The Forum

The main objective of the Forum is to promote and facilitate intergovernmental relations, cooperative government and share cultures of initiatives between the iLembe District Municipality and the Local Municipalities, including:-

- To seek unity of purpose and co-ordination of effort around the programmes championed in the office of the Speaker in the broader District;
- To serve as a main structure of the District Wide Ward Committee Forum; and
- To ensure effective and efficient coordinated Community / Public Participation within the District.

The Forum meets quarterly and additional or special meetings are called when and as the need may arise by the Chairperson or as per request by any member of the Forum through the Chairperson. The Speaker's forum is functioning and various sector departments and stakeholders are invited at these meeting to provide detailed information on programme that will impact public participation in the district.

(B) DISTRICT COMMUNICATORS' FORUM (DCF)

Government communication is a strategic and planned process that is aimed at ensuring effective dialogue between government and the communities. The constitution of the Republic of South Africa, 1996, contains a number of sections which set the tone for local government communications. These include, Sections 152(1) e; Section 160(7); Section 126(3); Municipal Systems Act, 2000; Promotion of Access to Information, 2000 and the Intergovernmental Relations Framework Act, 2005.

Communications has a role of creating messages that harmonise the political and the administrative arms of government. Communication is a strategic function that ensures the public receives information about municipal policies, programmes and services.

The District Communicator's Forum provides a platform for communicators within the district municipality to plan and identify communication opportunities across the sphere of government through substantive discussions and joint planning to fulfil the government's commitment to accelerate service delivery to ensure a better life for all.

(i) Composition And Membership

The membership of DCF is open to all government communicators operating within the district. This includes:

- District Communications Manager – Chairperson of the Forum

- Communicators from the local municipalities
- Communicators or representatives of the sector departments with the ILembe District Municipalities
- COGTA
- GCIS
- Office of the KZN Premier

(ii) **STRATEGIC OBJECTIVES OF THE DCF**

The objectives of the DCF are as follows:

- To foster a more positive communication environment among a family of municipalities, sector departments and relevant stakeholders within the district municipality;
- To foster integrated communication;
- To ensure a coherent and effective interaction between the District Municipality and its targeted audience;
- To ensure that citizens of the district participate in the decision making processes;
- To ensure and promote the development of coordinated, integrated and sustainable programme of communications in the district;
- To ensure maximum administrative and operational effectiveness and efficiency of all communication programmes in the district; and
- To support the political leadership across the family of municipalities in its pursuit to deliver basic services and development.

In relation to the communications and imparting the municipal information to the public, the Communication Sub-directorate in the iLembe District Municipality manages the flow of communication from/ to the organization, media and broader communities. It is also responsible for attending to the information needs with respect to the Web site of the Municipality, checking and approving the insertion of news items, articles and photographs. Legislated information in terms of Section 75 of the MFMA is also placed in the municipal website and updated as stipulated in the MFMA. This includes the following information:-

- that have been disposed of in terms of section 14(2) or (4) during the previous quarter;
- performance agreements required in terms of section 57(1)(b) of the Municipal Systems Act;
- all supply chain management contracts above a prescribed value;

- public-private partnership agreements referred to in section 120 of the MFMA;
- The annual and adjustments budgets and all budget-related documents and all budget-related policies;
- all service delivery agreements;
- all long-term borrowing contracts;
- an information statement containing a list of assets over a prescribed value
- contracts to which subsection (1) of section 33 apply, subject to subsection (3) of that section;
- the annual report;
- All quarterly reports tabled in the council in terms of section 52(d), and other documents that must be placed on the website in terms of this Act or any other applicable legislation, or as may be prescribed.

(C) OTHER STRUCTURES THAT ARE UTILISED TO ENHANCE / IMPROVE COMMUNICATION AND PUBLIC PARTICIPATION

(i) COMMUNITY DEVELOPMENT WORKERS (CDWs)

The iLembe District Municipality has total of 77 wards and with only 43 CDWs to service these wards. This is a challenge because a large number of wards are not benefiting from the services that are provided by the CDWs especially when it comes to household profiling and identification of urgent service delivery cases under the auspices of Operation Sukuma Sakhe as well as cascading of information to the people. Another challenge is that the CDWs are not available to provide support to the municipalities because of other commitments that they have from COGTA.

(ii) TRADITIONAL LEADERSHIP

The iLembe District Municipality has a total of 33 Amakhosi with 3 vacancies. The new District Traditional House was reinstituted in August 2017, and is currently led by Inkosi NA Bhengu who is also the member of the provincial house of traditional leadership in KwaZulu Natal. There is a healthy working relationship between the Local Traditional House and the iLembe District Municipality. Amakhosi are invited in community activities that are happening in their areas and district activities that will have impact in service delivery in their areas. These activities include IDP Public Participation meetings, conferences and seminars, to mention a few. Presentations on matters of Council are also periodically made at the seating of the iLembe District Traditional Council and tribal Councils on request. In November 2017, a meeting between amakhosi and councillors was held with an aim to strengthen relations and this proved to be very fruitful because communication has been enhanced.

The implementation of Section 81 of the Municipal Structures Act is fully implemented and Amakhosi serving in the various Councils are fully integrated in terms of portfolio committee allocation. However, there are challenges in term of attendance by amakhosi to these meetings. Ongoing engagements are held in order to address issues that affect their attendance.

(iii) WARD COMMITTEES

All the wards within the iLembe District Municipalities have elected wards committees. They have all been inducted and have been provided with training to capacitate them to be able to facilitate service delivery issues in their areas. The ward committees in the district are largely functional with the support they receive from local municipalities and the district municipality. However, there are challenges that are being experienced by the local municipalities as they engage with the ward committee:

- Some Ward Committee Members drop out because they receive better jobs elsewhere which leave a vacuum in the committees. The process of replacing them sometimes delay;
- Some members are demotivated because they feel that the remuneration that they receive from the municipalities is too little as compared to the amount of work that they are engaged with. The iLembe District Municipality provides travel costs if they are invited to districts meetings.

iLembe District Municipality is not responsible for the Ward Committees but gets to access the Ward Committees through the local municipalities. The Ward Committees form part of the IDP Representative Forum and they are engaged during the planning and facilitation meetings.

(iv) MUNICIPAL RAPID RESPONSE TEAM (MRRT)

In the recent past KZN has seen a sharp increase of service delivery protests. The communities continue to believe that their needs will be better addressed only when they take it to the streets. Addressing the triple challenges of poverty, unemployment and inequality can assist in alleviating the spate of service delivery protests. The KZN's government approach, in dealing with service delivery protests, is more proactive rather than reactive. It includes three pillars detailed as follows:

- A well informed community is less likely to protest. This includes countering deliberate misinformation of communities

- Early alert systems.
- Stakeholder engagement.

In this regard, all municipalities were requested by the KZN provincial government to establish Municipal Rapid Response Teams not exceeding seven members, of which the Speaker shall be the convener.

The responsibilities for the MRRT are as follows:

- to deal with service delivery dissatisfaction.
- to collect the Memorandum of complainants.
- to consult with the complainants to establish the facts in the contents of the Memorandum.

In May 2018 and in line with this request, iLembe District Municipality established the MRRT (MRRT), and it is formed by the following members:

- Speaker (Convener and Chairperson of IDM MRRT)
- Chairperson: Infrastructure and Technical Portfolio Committee
- Chairperson: Finance Portfolio Committee
- Chief Whip
- Municipal Manager
- Senior Manager: Technical Services
- Senior Manager: Community Services
- Chief Financial Officer
- Manager: Disaster Risk Management
- Manager: Communications
- SAPS representative

The IDM MRRT meets monthly to address protests within the iLembe District Municipality.

(v) IDP PUBLIC MEETINGS

iLembe District Municipality as a Water Services Authority will at any given point engage with local communities on water and sanitation issues. The purpose of these meetings, for an example, is to introduce new projects, engage the community on revenue matter and any other matters related to the services that are provided by the iLembe District Municipality. The iLembe also gets invited to meetings that are planned by the local municipalities to address challenges related to sanitation and water provision.

Again in relation to IDP meetings, the IDP Representative Forum meetings are convened where public representatives and sector departments are invited, and this platform is crucial to ensure stakeholder participation and alignment as the IDP process takes place. In addition, broader public engagements were held with the communities of the respective local municipalities to engage them on their needs and the approval of the budget. The Public Participation and Draft IDP and Budget meetings that were held in October/November 2018 and April/May 2019 are as follows:

NUMBER OF IDP MEETINGS AND BUDGET MEETINGS HELD DURING 2018/19 FINANCIAL YEAR		
MONTHS	QUARTER	NUMBER OF MEETINGS
July- September 2018	Q 1	0
October - December 2018	Q 2	23
January – March 2019	Q 3	N/A
April – June 2019	Q 4	19
Total No of Meetings		42
NUMBER OF EVENTS AND COUNCIL MEETINGS HELD DURING 2018/19 FINANCIAL YEAR		
MONTHS	QUARTER	NUMBER OF MEETINGS
July – September 2018	Q 1	11
October – December 2018	Q 2	12
January - March 2019	Q 3	15
April - May 2019	Q 4	7
Total No of Council Meetings		45
PUBLIC PARTICIPATION MEETINGS REQUESTED DURING 2018/19 FINANCIAL YEAR		
MONTHS	QUARTER	NUMBER OF MEETINGS
July – September 2018	Q 1	4
October – December 2018	Q 2	0
January - March 2019	Q 3	0
April – June 2019	Q 4	0
Total No of Requested Meetings		4 =100%

(D) IDP PARTICIPATION AND ALIGNMENT

IDP PARTICIPATION AND ALIGNMENT CRITERIA*	YES/NO
Does the municipality have impact, outcome, input, output indicators?	Yes
Does the IDP have priorities, objectives, KPIs, development strategies?	Yes
Does the IDP have multi-year targets?	Yes
Are the above aligned and can they calculate into a score?	Yes
Does the budget align directly to the KPIs in the strategic plan?	Yes
Do the IDP KPIs align to the Section 57 Managers	Yes
Do the IDP KPIs lead to functional area KPIs as per the SDBIP?	Yes
Do the IDP KPIs align with the provincial KPIs on the 12 Outcomes	Yes
Were the indicators communicated to the public?	Yes
Were the four quarter aligned reports submitted within stipulated time frames?	Yes

CHAPTER 3: SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART 1)

3.1. PERFORMANCE MANAGEMENT PROCESSES

The Municipal Systems Act (MSA) of 2000, Section 38(a) mandates municipalities to establish performance management systems, and the Planning and Performance Management Regulations of 2001, describes the municipality's Performance Management System (PMS) as consisting of a framework that articulates and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed as well as to determine the roles of different stakeholders.

Performance management is a process that measures the implementation of an organisation's strategy. It provides a mechanism to measure whether targets to meet its strategic objectives set by municipalities and its employees are met. The PMS implementation and management process is carried out at iLembe in different phases namely:

Phase 1: Planning

Phase 2: Monitoring and managing performance information

Phase 3: Performance measurement and analysis

Phase 4: Performance review and improvement

Phase 5: Performance report

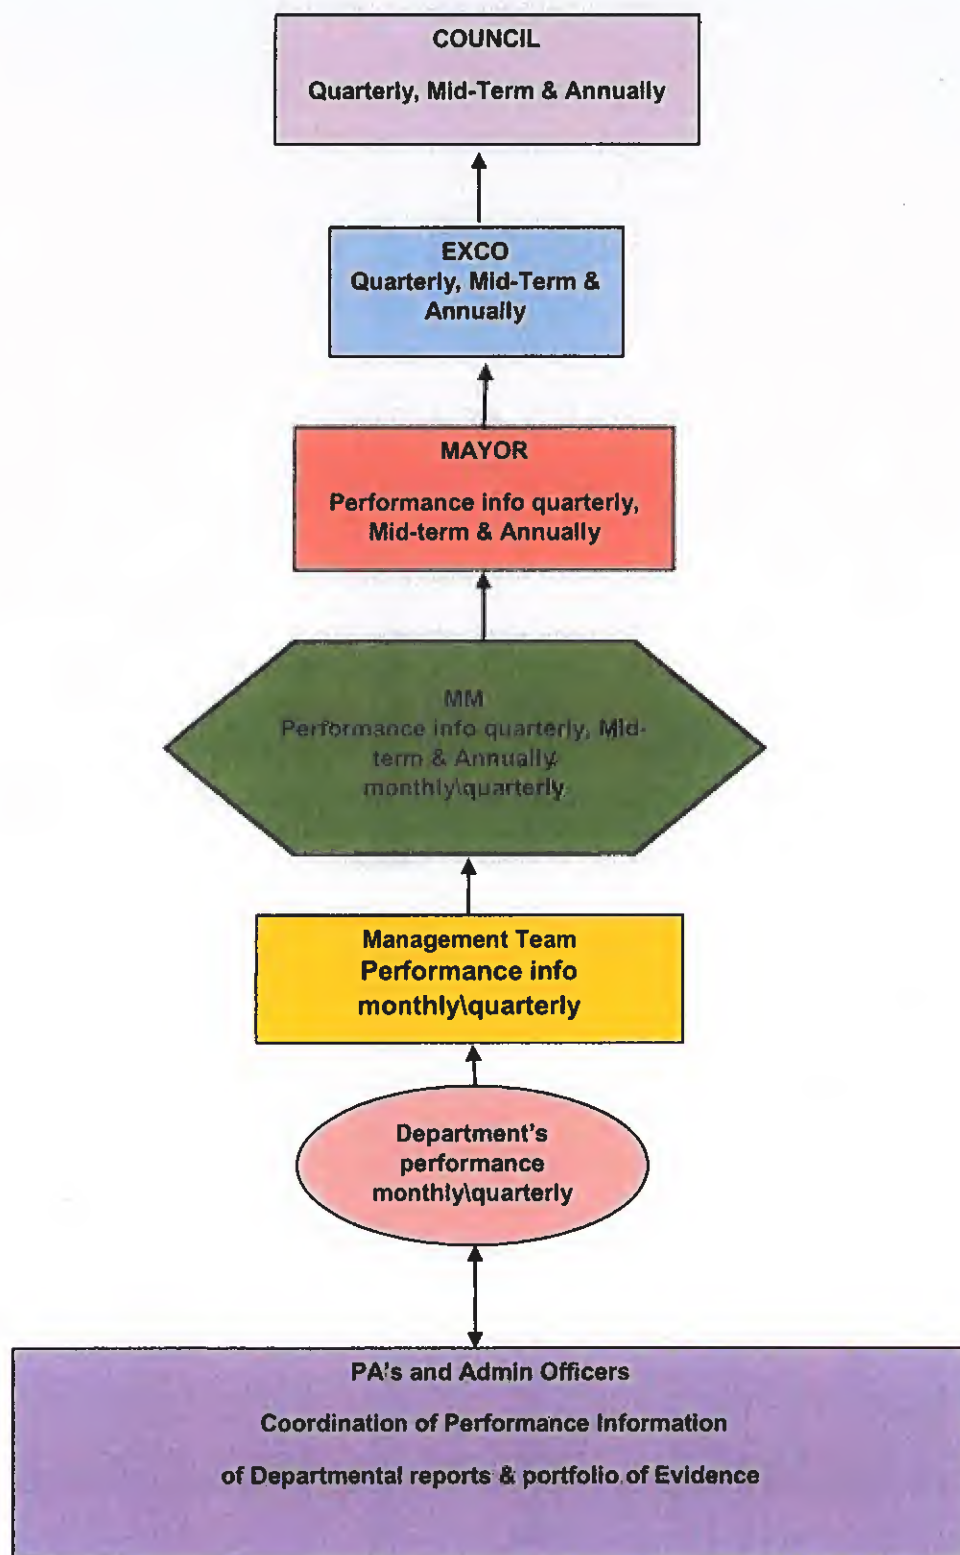

Co-ordination involves the overall responsibility of being the custodian of the district's performance management system and managing the system on behalf of the Municipal Manager. This is a strategic function which resides in the Office of the Municipal Manager.

The co-ordination of the implementation phases of performance management is the function of the PMS department who are responsible for the following core activities:

- Co-ordination of the development and implementation activities of the organisational PMS, through interaction with all relevant stakeholders;
- Ensuring and overseeing the implementation of the Performance Management Framework and compliance to all performance legislative requirements in respect of the implementation of the PMS;
- Providing regular support and capacity to the different departments in developing departmental scorecards;
- Continuously providing technical support to the Municipal Manager and the senior management team with implementation, assessment, review, monitoring and information management;

- Providing capacity for analysing organisational performance information submitted by Senior Managers on a quarterly, mid-term and annual basis in preparation for reporting;
- Responsible for co-ordination and compiling the annual Section 46 performance report;
- Ensuring that all quarterly, mid-term and annual organizational performance reports are submitted to relevant stakeholders timeously, for example, quarterly, mid-term and annual performance reports to EXCO, Council, the Auditor-General, MEC of Cooperative Governance and Traditional Affairs (COGTA) and the public (through website; print media notification and copies are made available for viewing at municipal offices).

The performance monitoring flow chart is as follows:

The Municipal Systems Act of 2000, section 46 (2), requires the municipality to compile an Annual Performance Report that forms part of the Annual Report prepared in terms of the Municipal Finance Management Act. This Report therefore focuses on the Organisational Objectives, and the achievements thereof made by the iLembe District Municipality in the 2018/2019 financial year. It also provides feedback on the targets as set out in the approved

Organisational Scorecard as well as the Service Delivery and Budget Implementation Plan used to monitor performance at an operational level.

3.1.1 PERFORMANCE AND SUPPORTING INFORMATION

The monitoring system places responsibility on each department and individual employees to collect relevant data and information to support the monitoring process. Evidence of performance is gathered and presented to substantiate claims of meeting (or not meeting) performance standards. All portfolios are verified against the reported actual, as it confirms the status of targets met and not met.

3.1.2 ORGANISATIONAL PERFORMANCE

The Organisational scorecard is a layered plan, with the top layer dealing with consolidated service delivery targets and linking these targets to departmental Service Delivery and Budget Implementation Plans.

The following table indicates the National Key Performance Areas (NKPA's) which includes the number of Key Performance Indicators (KPI's) on the Organisational scorecard and departmental Service Delivery and Budget Implementation Plans (SDBPI's).

NATIONAL KPA'S	ORGANISATIONAL SCORECARD	DEPARTMENTAL SDBIP'S
Basic Service Delivery	8	91
Financial Viability & Management	7	59
Municipal Institutional Development & Transformation	3	51
Good Governance & Public Participation	4	100
Local Economic Development	1	31

The following diagram depicts the performance per national KPA:

COMPARISON OF PERFORMANCE OF THE NATIONAL KPA'S FROM THE PAST THREE YEARS			
NATIONAL KPA'S	2016/2017	2017/2018	2018/2019
Municipal Institutional Development & Transformation	72%	80%	78%
Basic Service Delivery	74%	75%	66%
Local Economic Development	80%	94%	81%
Municipal Financial Viability & Management	72%	85%	78%
Good Governance & Public Participation	87%	87%	77%

3.1.3 MUNICIPAL INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION

The Human Resources Unit main function is to establish an efficient and productive administration, this is done by ensuring all policies are aligned with the legislation. Managing the staff component of the municipality, implementing the employment equity plan, improve the capacity of staff to deliver services, ensure the municipality has well skilled and qualified employees, ensure the municipality provides a safe and working environment, promote a safe and healthy work environment in terms of the Occupational Health and Safety Act and other relevant legislation. To ensure the wellbeing of employees and to ensure effective and efficient document management systems are in place.

NATIONAL KPA's	TOTAL KPI's		
EXCLUDING N/A	TARGET MET	TOTAL TARGET MET %	
Municipal Institutional Development Transformation	51	40	78%
Basic Service Delivery	91	60	66%
Local Economic Development	31	25	81%
Municipal Financial Viability & Management	59	46	78%
Good Governance & Public Participation	100	77	77%

The Support Services Unit ensures effective governance through regular Council meetings, by supplying resources and support services for all EXCO, Council and portfolio committee meetings.

The Legal Unit provides legal advice and ensure resolution of legal matters against and/or on behalf of the municipality, by limiting losses to the municipality – legal risk mitigation, ensure the municipality is legally protected in its agreements with service providers.

The ICT department provide an innovative, effective and efficient information and communication technology service. The department does this by updating and reviewing policies annually, enable the achievement of the municipal objectives as per the IDP, reduces costs of electricity consumption and greenhouse emissions. To align ICT objectives with best practices, manages the provision of the telephone communications and to ensure effective and efficient functioning of ICT.

3.2 PERFORMANCE HIGHLIGHTS AS PER THE ORGANISATAIONAL SCORECARD AND NATIONAL KPA

The Municipal Manager's performance plan covers targets that are reported by departments on a quarterly basis on highlights and challenges, reports were submitted by the human resource department and municipal health services.

All new employees were invited to attend the induction in terms of the induction policy. The report on the Employment Equity Plan was prepared and submitted to the Department of Labour by deadline. The workplace skills plan is on track with all targets, 50% of employees were trained in accordance with WSP. All employees and Councillors on WSP were informed of invitations for relevant training and development through COGTA, SALGBC and SETA approved programmes. All letters were issued to the approved employees for formal education registration.

Twenty two (22) employees were trained who are not part of WSP and 60% of programmes were implemented in line with WSP against a target of 50%. Quarterly reports are prepared on the implementation of the District Human Resource Development Strategy and on the implementation of the municipal assisted study scheme for employee's policy. The work place skills plan and annual training report was completed and submitted to LGSETA before the deadline date. The investigation on the scarce skills plan has been done and captured through the policy on municipal staff retention and attraction.

Quarterly and monthly reports are prepared on the implementation of the occupational health and safety plan. A total of 235 staff were trained on site in terms of occupational health and safety and 14 workshops were held on all LMS. Five wellness programmes were held and the target was exceeded due to an additional wellness programme which was done through health service providers.

Four workshops were held on effective document management system. In terms of the coordination of all Council and EXCO meetings, all scheduled meetings were held and minutes were prepared. The target has been exceeded due to additional special meetings that were held. In terms of portfolio committee meetings, all meetings were coordinated.

For the Legal Unit, days for drawing and vetting legal documents is at 2,66 days and the turnaround time for legal matters to be resolved is 15 days against a target of 1 month. All service level agreements are finalised within one month of request.

Monthly reports on monitoring of the performance on ICT SLA's are prepared. The ICT security policy was reviewed and presented to Council at a workshop and then submitted for approval. Four project plans were developed. Six buildings are installed with Energy Efficiency Technology in terms of implementation.

In accordance with the ICT governance framework, four reports were prepared on the implementation of ICT risk management and ICT disaster recovery plan, two business continuity plan tests were conducted and quarterly reports were prepared on the ICT governance framework. The Ndwedwe offices were connected with the telephone system, it was tested and it is fully operational. Quarterly reports were prepared on the assessment and maintenance of the ICT infrastructure.

Ref EI 27 & 28 Enterprise iLembe training budget expenditure is at 100%. The Board reviewed Organogram and 90% of positions on the organogram are filled.

3.3 CHALLENGES AND MEASURES TO IMPROVE PERFORMANCE AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

CHALLENGES	MEASURES TO IMPROVE PERFORMANCE/ CORRECTIVE MEASURES
MUNICIPAL INSTITUTIONAL TRANSFORMATION AND DEVELOPMENT	
Ref Org 16 – the vacancy rate is at 14, 29% against the target, maintain under 12%. The increased vacancy rate figure is somehow affected by the implementation of austerity measures as some posts are prioritised to be filled. Also, it is affected by resignations, retirements, dismissals and deaths.	To conclude eight prioritised posts by the first quarter.
Ref Org 17 - Number of people from employment equity target groups employed in the three highest levels of management in compliance with the municipality's approved employment equity plan is only 2 filled against a target of 3.	3 people were appointed in the three highest levels, but only 2 comply with the Equity Plan. The target should have been to appoint 2 males and 1 female in order to be in line with the Equity Plan & Targets. Equity target candidates can only be appointed if they comply with and meet the requirements as provided for in the Regulations on Appointment and Conditions of Employment of Senior Managers. Adverts already include a sentence that reads thus: "Women are strongly encouraged to apply".
Ref Org 18 - Percentage of the municipality's budget actually spent on implementing the approved WSP is at 0, 56% against a target of 1%.	Institutional budgetary constraints inclusive of austerity measures currently impose financial constraints on allocation of skills development given urgent and top priority service delivery imperatives. 'Training provision enhanced through external training opportunities including but not limited to LGSETA, SALGA, COGTA, etc.
Ref CS 01 – Seven policies were reviewed but not submitted to EXCO and Council by the deadline date.	It was not submitted due to scrutiny by the Senior Manager. The policies will be submitted to the next EXCO and Council in the new financial year.
Ref CS 02 (b) – No induction workshops were held, in the last six months of the financial year.	Induction was scheduled in March 2019 however it was postponed, but was not held due to the unavailability of the newly appointed employees. Inductions will be held in the new financial year.

Ref CS 13 (b) – Occupational Health & safety training - Target of 160 sites inspected in terms of unsafe working conditions was not met, as 66 sites were done. There are different challenges from each site that impact on time spent in each area. Distance travelled between sites, also affects time.	Target will be re-looked at, in the new financial year, based on challenges encountered. Standard OHS Site Inspection & Assessment Schedule to be developed to expedite critical aspects of each and every site inspection
Ref CS 15 – Assessment of municipal buildings based on health and safety – the draft feasibility study was not done. Failure of the Service provider to present according to expectation of the municipality led to non-finalisation of this target.	Strategic intergovernmental engagements with high capacity neighbouring municipalities to provide technical support are in progress.
Ref CS 19 – The minutes prepared as per meetings held by deadline – one set could not be done.	The meeting was not held due to lack of quorum, the meeting will be held in August 2019.
Ref CS 24 (a) - Monitoring of Service Level agreements, Mimecast could not be renewed before the start of the new financial year, as budget is required to prepare an order. The system was closed up until 15 July 2019. SAGE VIP SLA was due for renewal on 28 Feb 2019 which was not done on time, as we were awaiting for adjustment budget. SLA renewal is dependent on budget availability.	SLA for Mimecast will be renewed in the first quarter of 2019/2020 financial year. However the SAGE VIP SLA was renewed on 2 April 2019.
Ref CS 26 (b) – Number of functional ICT strategy projects plans by deadline is not done against a target of 2 in terms of Biometric Access control the sole service provider in dispute and it's escalated to COGTA. Launch of the call centre App is delayed due to the unavailability of field workers to attend training in May 2019, which was rescheduled in June 2019, however due to strike could not continue.	Once appropriate advisory inputs are obtained, bid spec and subsequent procurement processes will be concluded in the 1 st quarter of the new financial year. Field workers will be trained in July and the call centre launch app will take place in August.

3.4 BASIC SERVICE DELIVERY

The core function of the municipality is to ensure sustainable provision of water and sanitation services and improve access to these basic services thereby reducing backlogs. The provision of water must be of excellent quality that will meet or exceed the National Standards. Response time to water and sanitation interruptions is crucial for services reinstated therefore specific timeframes have been set that must be adhered to and monitored for continuous customer service.

The table below shows the households connected for water and sanitation for the 2018/2019 financial year:

TOP LEVEL SUMMARY OF 2018/2019 HOUSEHOLD (HH) BENEFICIARIES			
	TOTAL NUMBER TARGETED	ACTUAL NUMBER CONNECTED	PERCENTAGE ACHIEVEMENT AGAINST TARGET
WATER	1 099	1 604	146%
SANITATION	1 800	1 361	76%

3.4.1 EXPENDITURE

The overall expenditure on water capital projects are as follows:

PROJECTS	ORIGINAL BUDGET	ADJUSTMENT BUDGET	ACTUAL EXPENDITURE TO DATE	% SPENT TO DATE AGAINST ADJUSTMENT BUDGET
WATER				
Ngcebo /KwaDukuza Water Supply	R4 608 695	R19 691 332	R 20 046 706	75%
Lower Thukela Bulk Water Supply - Total Adjusted budget was R69,833,964, however the Final budget is R73,033,964 due to R3,200,000 for 1ML Rerservoir at Driefontein - OT12- Phase 1- TS/169/2016 as the project was funded by rollover during the adjustment	R 59 422 609	R3 033 964	R 45 389 656	
Ozwathini/Phambela Water Supply (Maphumulo)	R11 667 826	R 22 273 818	R 21 936 922	
Macambini Water Supply Phase 2	R25 217 391	R42 192 258	R 28 826 016	
Balcome/KwaSizabantu Water Supply (Maphumulo Wards 5 & 6)	R4 086 957	-	R2 490 722	
Ndulinde Water Supply Scheme (Mandeni Ward 6 and 11)	R11 304 348	R9 036 089	R 5 607 545	
Wosiyane Extension - Water Supply	R4 347 826	R 237 678	R237 678	
Total - Adjusted budget was R163,265,139, however the Final adjusted budget is R166,465,139 due to R3,200,000 for 1ML Rerservoir at Driefontein - OT12- Phase 1- TS/169/2016 as the project was funded by rollover during the adjustment	R 120 655 652	R 166 465 139	R124 535 245	

The overall expenditure on sanitation projects are as follows:

PROJECTS	ORIGINAL BUDGET	ADJUSTMENT BUDGET	ACTUAL EXPENDITURE TO DATE	% SPENT TO DATE AGAINST ADJUSTMENT BUDGET
SANITATION				
Ndwedwe TS/158/2015 - There was a transfer of funds, and the final budget is R 7,455,651	R 8 695 652	R 6 695 651	R 10 033 683	99%
Mandeni TS/156/2015 - There was a transfer of funds, and the final budget is R 4,700,000	R8 695 652	R 5 000 000	R 4 653 627	
Maphumulo TS/157/2015 - There was a transfer of funds, and the final budget is R 6,235,651	R8 695 652	R6 695 651	R 6 175 425	
Groutville Waterborne Sanitation	R28 695 652	R35 700 100	R 33 021 768	
Mandafarm Waterborne Sewer - at Mandeni	R4 347 826	R -	R -	
Darnall WWW Upgrade	R 2 608 696	R 215 940	R 195 358	
Driefontein Water Borne Sewer	R1 739 130	R 249 548	R 249 548	
Mdlebeni Water Borne Sewer	R869 565	R -	R -	
Sundumbili WWTW Upgrade	R2 608 696	R800 000	R1 027 315	
KwaDukuza Regional WWW	R2 608 696	R1 000 000	R 410 300	
Total	R69 565 217	R 56 356 890	R55 767 024	

3.4.2 PERFORMANCE HIGHLIGHTS AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

Ref Org: 1 - to ensure continuous and sustainable water services, the total number of households with access to water, is 1 604.

The overall achievement against annual target is 146% for water obtained for 2018/2019 financial year. There are 500 households with access to water from Ozwathini/Nondabula water supply scheme that were not targeted for in 2018/2019. These connections have an impact on the water backlog eradication that decreased by 0, 84%, which is an improvement of 0.53% when compared to the previous financial year, 2017/2018, which was 0.31%.

The backlog eradication calculation is based on the total number of households in the District of 191 369 by Statistics SA, Community Survey 2016. This is the official and latest information available for use.

Turnaround time for reinstating water services within 48 hours and for sanitation services within 24 hours is at 100%.

Ref Org: 03 & 06 - To provide excellent water quality that meet or exceed national standards and to monitor wastewater quality, four quarterly reports were prepared as of end June 2019 for blue drop and green drop assessment status.

In terms of progress on all capital projects details are as follows:

Ref TS 17 – Zone F, L, M & AO – Stage 6 is complete

Ref TS 19 – Ngcebo/KwaDukuza water supply – Zone B&D, AH, AK, AF & Luthuli (Maphumulo) - The project is on track as per the plan.

Lower Thukela Bulk Water Supply; the following projects are complete as per set targets;

- Ref TS 21 – OT 11 - 2,5 MI Mgigimbe Reservoir & Mbonisweni Pump Station - TS/132/2015
- Ref TS 23 – UW Siyaphambili - OT 6- Phase 2 500 Dia pipe from UW to Lindelani, Pumping station O/T6 at Lindelani, 5ML Reservoir at Lindelani - TS/151/2015

- Ref TS 25 – Construction of 500mm dia x 2800m long PVC pipeline and 5 ML Reservoir at Siyaphambili - OT 06 - TS/155/2016
- Ref TS 26 – 1ML Reservoir at Driefontein - OT 12 - Phase 1 - TS/169/2016

Lower Thukela Bulk Water Supply; the below projects are at construction stage and they are ahead of targets, as the Contractor has been instructed to accelerate work on the ground;

- Ref TS 29 – OT 1 – Construction of 3ML Reinforced Concrete Ikamu Reservoir, 4.3km UPVC 200mm diameter gravity main and 1 pumpstation at San Christopher - TS/189/2017
- Ref TS 31 – OT 7 - Blythedale 400mm dia pipeline & 5ML Reservoir - TS/187/2017

Lower Thukela Bulk Water Supply; the following projects are at construction stage and they are on track, although there are challenges on the ground;

- Ref TS 32 – OT 8E - Stanger Manor 315mm dia pipeline - TS/185/2017
- Ref TS 33 – OT 8F - Shakaville & Stanger - 200mm dia pipeline - TS/186/2017
- Ref TS 34 – OT 8F - Stanger Manor- 300mm dia pipeline

Lower Thukela Bulk Water Supply; these projects are at Stage 4 – 50%, which is design development and they are on track,

- Ref TS 36 – OT 13A - Ingelmore Estate, Helmsley, Mursia cane - 400mm dia pipeline & Reservoir
- Ref TS 37 – OT 13B - Ingelmore Estate - 300mm dia pipeline

Ozswathini/Phambela Water Supply (Maphumulo) – Ref TS 39 - the project is complete.

Macambini Water Supply Phase - Phase 2, the projects are at construction stage;

- Ref TS 41 – Sundumbili Rising Main - TS/175/2017, progress to date is 84%, when compared to target of 70%.
- Ref TS 42 – Mandeni Pump station - TS/176/2017 progress to date is 95%, when compared to target of 100%.
- Ref TS 44 & 46 – Macambini Water Supply - Phase 4, 5, 6 & Phase 7, 8, 9 - Documentation and Procurement processes are complete for both projects and they were completed in March 2019, earlier than the planned date, which is 30 June 2019.

Balcombe/KwaSizabantu Water Supply

- Ref TS 48 – Ntunjambili water supply scheme, Stage 3 is at 10%, which is preliminary design
- Ref TS 50 – Zone I & J - TS/161/2016, the project is complete

Ref TS 54 – Wosiyane Extension Water Supply - Swayimane Msilili, Ndaka, and Hoqweni, community water supply scheme, documentation and procurement process is on track as per the target.

In terms of the sanitation projects, Ref Org: 04, the below projects are at construction stage and they are ahead of targets,

Groutville Waterborne Sanitation

- Ref TS 62 – Construction of bulk sewer in 1No. 600m³/Day Package Wastewater Treatment Plant and Mnyundwini, Njekane and Etsheni Pumping Station - TS/179/2017
- Ref TS 63 – Construction of bulk sewer in 1No. 600m³/Day Package Wastewater Treatment Plant Chris Hani, Lloyds & Ntshawini Settlements and Gledhow village pump station - TS/180/2017

Ref TS 65 – Mandafarm Waterborne Sewer - at Mandeni, Stage 3 is at 10%, which is preliminary design

Ref TS 67 – Darnal Waste Water Works Upgrade - Stage 5 - documentation and procurement stage is complete.

Ref TS 69 – Driefontein Water Borne Sewer - Preliminary design is at 100%, when compared to target of 10% in June 2019.

Ref TS 75 – KwaDukuza Regional wastewater works upgrade - Stage 1 is complete, which is planning, studies, investigations and assessments. In addition, Stage 2 - Inception is complete. Both stages were completed in December 2018, earlier than due date, which is March and June 2019 respectively.

Majority of maintenance and replacements of ageing infrastructure projects are on track;

- Ref TS 77 – Fawsely Park to Highridge - TS/165/2016, the project is complete.
- Ref TS 79 – Masibambisane – preliminary design stage is complete
- Ref TS 81 – KwaDukuza Old Mains Replacement – documentation and procurement stage is 80% complete.

- Ref TS 83 – Mandeni Old Mains Replacement – Stage 1 is complete, which is planning, studies, investigations and assessments.

There were good Contract Participation Goal partners who assisted the Contractor in speeding up progress on the ground, at Ndwedwe:

- Ref TS 86 – Ndwedwe North Refurbishment water schemes - TS/184/2017, construction stage is at 98%, when compared to target of 80%.
- Ref TS 87 – Ndwedwe South Reticulation Refurbishment - TS/197/2019 - documentation and procurement stage is 98% complete.
- Ref TS 89 – Lindelani Sewer upgrade at KwaDukuza - Stage 1 is complete, which is planning, studies, investigations and assessments.

3.4.3 CHALLENGES AND MEASURES TO IMPROVE PERFORMANCE AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

CHALLENGES	MEASURES TO IMPROVE PERFORMANCE
REF ORG 01 - WATER PROJECTS	
Ref TS 29 - <u>Off take (OT) 5 – 5ML new Hyde Park Reservoir; 1.3km of UPVC 200mm diameter pipeline - TS/188/2017</u> - Design level material not compactable (Red Sand) and the Contractor has to stop until IDM/Geosure advise them. In addition, heavy rain caused a stoppage on site.	Geosure was called back to site to check the earthworks drawing and make new recommendations and the construction resumed on the 05th April 2019.
Ref TS 52 - Ndulinde Water Supply Scheme (Mandeni) – Phase 1, 2C & 4C - TS/178/2017 - The construction progress is at 36%, when compared to target of 70%. Delays are mainly due to poor performance by the Contractor.	Contractor has been served with an intention to terminate by IDM on 02 July 2019. They have responded committing to complete the work, in February 2020. IDM is continuing with the termination process.
TS 15 – Stage 7 is complete, however only the progress report has been received.	The close out report will only be available in February 2020, as the Contractor is still attending to snags
Ref Org 04/05 – The % decrease in backlog eradication is 0.71% against a target of 0.94%. Mandeni VIP toilets TS/156/2015 - The Consultant had to address faults from the previous phase before commencing on current year's allocation, as a result only 161 VIP toilets	Faults have been sorted and construction has commenced on new phase

have been constructed when compared to target of 600.	
Ref Org: 07 - 3 reports are prepared on monitoring of the concession in terms of the Siza Water Plan as the 4 th quarter report was not received from the service provider.	
SOUTHERN REGIONAL BULK WATER AND SANITATION SCHEME	
Ref TS 15 - Southern Regional Bulk water scheme - TS/181/2017 – Construction stage was not met, as tender has been awarded.	We have received general authorisation and the Contractor will be moving to site.
Ref TS 15 - Southern Regional Bulk sanitation scheme -TS/182/2017 - Contract has been awarded. There were delays due to farmers refusing access to land.	The project will only commence, once we receive WULA approval. A meeting was held with farmers, some of them have agreed to give access to land. Negotiations are continuing.
Ref Org: 8 - As part of the Extended Public Works Programme through water, sanitation infrastructure and service delivery efforts 1 168 people were employed from all local municipalities within the District, against the target of 1 300. Target could not be achieved due to challenges encountered at Mandeni VIP project - TS/156/2015.	
REF ORG 04 - SANITATION PROJECTS	
Ref TS 58 - <u>Mandeni VIP project - TS/156/2015</u> – Total household beneficiaries targeted for new sanitation provision was six hundred (600). The actual number of households with access to sanitation is one hundred and sixty one (161). The target was not met, as the Consultant had to address faults from the previous phase before commencing on current year's allocation.	Faults are sorted and construction has commenced on a new phase.
Ref TS 71 - <u>Mdlebeni water borne sewer</u> – The target of Stage 4 – 10%, which is design development, was not met. The Project is on hold - awaiting KwaDukuza Municipality to confirm if the construction of new houses will continue.	
Ref TS 73 - <u>Sundumbili Waste Water Treatment Works Upgrade</u> – The target of Stage 4 – 10% was not met, which is design development. Water Use Licence Application is not yet finalised.	
REFURBISHMENT/REPLACEMENTS PROJECTS	
Ref TS 85 - Water Conservation/Water Demand Management Plan - There was a delay in finalizing the process of appointing	The municipality is in the process of appointing the new service provider (TS/199/2019) for the period of three years.

the service provider to undertake Water conservation/Water Demand Management due to objections by bidders.

Ref TS 82 - Maphumulo Old Mains Replacement – Stage 1 is not done, as the Operations & Maintenance unit was advised that, there was no need for such a project.

3.5 LOCAL ECONOMIC DEVELOPMENT

Enterprise iLembe continues to improve co-ordination of Local Economic Development in the District. Implements and ensures sustainability of projects to upscale agriculture development in the District. Capitalises on tourism potential to increase visitor numbers in the District. Increases manufacturing output in the District to attract interest in investment. And ensures job creation by identifying and packaging new projects in existing sectors.

3.5.1 PERFORMANCE HIGHLIGHTS AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

Ref Org: 19 - A total of 20 small scale farmers were identified and supported by the Entity.

The Integrated Development Plan was reviewed and adopted by Council on 29 May 2019. In terms of the District climate change response strategy, the project is ahead of target as the

Consultant, which was appointed by the Department of Environmental Affairs, prepared the draft strategy.

Drafting of the Integrated Waste Management Plan has been done and is currently at situational analysis phase.

Quarterly LED forums are held and attended with representatives from all the local municipalities. Regarding new markets for farmers, report was prepared on capacitating farmers and engagements with Government departments by the deadline. The project of agricultural Hydroponic Tunnels, the Ndwedwe site is fully operational. Quarterly reports were prepared on the maintenance of the vineyards. The ownership model for existing projects, formalisation of co-operatives for handing over by June 2019 is on track and a report has been prepared outlining the progress status.

Tourism potential is on track, one Community Tourism Organisation was established at Mandeni. Tourism marketing and development is progressing well, with six exhibitions attended, seven adverts/advertorials were in relevant publications, one official tourism travel guide for 2019/2020 financial year was developed, two tourism industry research performance reports prepared and six events supported to increase visitors to the district.

Two business confidence indexes were developed. Bi-annual reporting was done on the implementation of the investment promotion strategy. The investor prospectus was reviewed by end June 2019. A total of 31 business networking sessions were attended/hosted and 2 progress reports were prepared on the Entrepreneur competition.

New co-operatives registered as of at end June 2019 is at 32 and 47 co-ops and SMMEs were assisted with funding applications. Two programmes were implemented, namely, the business incubator and the skills development facilitation programme. An engagement session was held with local municipalities to encourage local businesses to take advantage of government programmes.

Funding was secured from the department of Labour to activate the UIF learner activation programme. The broadband project, funding was sourced for Phase 1 of the ICT project, it was secured from COGTA for the public Wi-Fi programme in Ndwedwe and Maphumulo.

3.5.2 CHALLENGES AND MEASURES TO IMPROVE PERFORMANCE AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

CHALLENGES	MEASURES TO IMPROVE PERFORMANCE/ CORRECTIVE MEASURES
LOCAL ECONOMIC DEVELOPMENT	
Ref OMM 34 – Only 6 planning and infrastructure alignment meetings were held due to the slowdown in development primarily because of the slow economic growth rate.	
Ref OMM 35 – The reviewed district growth and development plan is not yet adopted. It will be undertaken through the Vuthela iLembe LED programme due to unavailability of internal financial resources.	
Ref EI 02 – Percentage produce procured from Local iLembe farmers is at 59% against a target of 70%. Target was not met due to lack of infrastructure development, harsh weather conditions, seasonality of some of the commodities, which had to be sourced from the market.	Enterprise iLembe has received funding from Cogta, which will be used towards infrastructure development; we have also engaged the Department of Education regarding the planting of substitute commodities to mitigate against seasonality. Department of Agriculture has also been engaged to assist with the supply of inputs and infrastructure development.
Ref EI 03 - Fourteen new farmers have been introduced for support by the Entity for the 2018/2019 financial year when compared to target of twenty. Further, six existing farmers were maintained as they still require assistance in terms of agricultural inputs and mechanization	KPI will be reviewed during 2019/2020 budget adjustment to include new and maintained small scale farmers in order to meet the target and also aligned to the KPI
Ref EI 09 – The feasibility study for new tourism initiatives was not done.	Project timeline changed due to change in scope of works. Project completion date will be in next financial year
Ref EI 21 – Sixty four [64] co-operatives were trained, against the target of 94. Additional Forty-seven [47] SMME's were trained during 2018/2019 financial year, however they are not measured on the SDBIP. Total co-operatives and SMME's trained adds up to 111.	KPI will be reviewed during 2019/2020 budget adjustment to include SMME's.

3.6 MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT

Compliance monitoring is crucial to ensure all legislative deadlines are adhered to. The finance department therefore continuously ensures that effective and adequate financial management is always a priority. The budget and compliance unit meets all required legislated standards to ensure credible budgeting. The focus of the budget and compliance department is on monitoring and ensuring compliance with the MFMA and relevant regulations. The expenditure management unit maintains sound expenditure management principles.

The Assets and logistics management department implements sound and effective asset principles. Revenue management continues to monitor revenue collection and debtors' management. The Supply chain management unit continues to implement the framework policy, inventory principles and adherence to the approved policy.

3.6.1 PERFORMANCE HIGHLIGHTS AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

Ref Org: 9 - To ensure sound and credible general financial management principles, 100% of all statutory monthly and quarterly reports to National & Provincial Treasury were submitted as per the section 71 regulation.

Ref Org: 11 - Total debt coverage is at 11%. The norm is 45% and below, this indicates that the municipality has the capacity to increase funding from borrowings; however, this should be considered within the cash flow requirements of the municipality.

Ref Org: 15 - The annual financial statements for the 2018/2019 financial year were submitted to the Auditor - General as per the legislative deadline date on 31 August 2019, including the consolidated financial statements. The municipality achieved an unqualified audit opinion, where matters that were qualified were due to financial constraints.

The finance department achieved a total of 1 269 against a target of 650 households in terms of the reduction of unmetered household's within the district.

Revenue protection and enhancement, revenue growth of the municipality is at 49% against a target of 5% with the increase in debtors which resulted in high billing. Service charges revenue budget implementation is at 94%.

All overdue accounts are being restricted. In terms of debtor's management, 100% of debtors over 90 days are issued with notices via statements of accounts/SMS. The percentage of households on the indigent registered earning less than R3500.00 with access to free basic services is at 100%, as per approved applications. Bad debts written off as a percentage of the bad debts provision is at 100%.

The fully funded operating and capital budget for 2019/2020 was approved by Council on 29 May 2019. The Municipality complied with KZN Provincial Treasury checklist on the 2018/2019 approved adjustment budget and the 2019/2020 first draft budget. The implementation and monitoring of the monthly Standard Operating Procedures reports have been prepared. Financial statements are being prepared on a monthly basis and progress on audit queries resolved is at 92%, against the target of 80%. The remuneration cost monitoring is at 30% which is within the norm of 25% to 40%.

The turnaround time for the Supply Chain Management processes in recommending preferred bidders to departments is 10 days against a target of 10 days for amounts between R30 000 and R200 000 and 3 days against a target of 5 days for amount between R2 000 and R29 999.

Contract Management – quarterly consolidated reports are prepared on performance of service providers. In terms of inventory management monthly stock takes are done,

turnaround time to resolve queries is at 14 days and monthly reconciliations are conducted between the stock report as per Munsoft and the AFS.

Assets and logistics management conducted the asset verification for quality and a reliable fixed asset register on movable and immovable assets is being done quarterly and annually respectively. Monthly reconciliations were conducted between the asset register & annual financial statements.

Impairment of property, plant and equipment is at 0.12%. Monthly reconciliations are conducted between assets under construction & the project register. Capital expenditure to total expenditure is at 24%. The high capital expenditure is attributable to current projects under construction and being paid for.

In terms of financial viability within the Entity, all MFMA Section 87 (11) monthly financial information reports are submitted to the District by deadline. Cost coverage is at 3.75:1 and cash flow management is at 112 days. The Entity received an unqualified audit opinion with finding for 2018/2019 financial year.

3.6.2 CHALLENGES AND MEASURES TO IMPROVE PERFORMANCE AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

CHALLENGES	MEASURES TAKEN TO IMPROVE PERFORMANCE
Ref Org: 10 - Average number of days taken for trade creditors to be paid is at 47 days when compared to the target of 30 days. The cash flow position of the municipality continues to be constrained given the persisted poor collection rate particularly from historic debt.	Management and Council are working vigorously to turn the situation around by means of strengthening the credit control and collection measures; implementing stringent cash flow monitoring; revamping and re-enforcing control measures at the Stores department, amongst other measures to be implemented as well.
Ref Org: 13 – the monitoring of revenue collection is at 64% against a target of 75%. This is due to conversion of prepaid meters to conventional metering, which has increased billing. Consumers are taking more time to pay. Disconnections are not	The revenue section to enforce and implement the credit control policy. Disconnect consumers frequently. Hand over consumers to the debt collector for collection. Monitor meters that are not buying water and convert them to conventional metering and also

done frequently. High level of faulty prepaid meters, leads to the conversions. Culture of non-payment by consumers. Additional areas are being read in Groutville which is resulting in more billing and unable to collect immediately.	monitor the ones that have been converted and track payments as there is a culture that, the consumers are on prepaid and therefore do not pay.
Ref Org: 14 - Turnaround time for awarding all the tenders (bids) is at 94 calendar days, against a target of 90 calendar days.	Management to implement close monitoring on bid committee sittings to be finalized within the stipulated periods.
Ref FV 03 – Overdue accounts restricted is at 74%, when compared to target of 100%. This is due to human capital shortages.	Siza Water was contracted to assist the municipality with restrictions.
Ref FV 07 - Indigent with access to free basic water is at 1701 against a target of 3000. The challenge is that, indigent applications are expiring and consumers are not coming forward to re-apply for the benefit. This is not within the control on the department and thus dependant on consumers coming forward.	The Vuthela programme is currently underway, to align indigents register of the district to the local municipalities.
Ref FV 15 - Cash/Cost Coverage Ratio is at 34 days, compared to the target of 60 days. This is attributed by the cash flow position of the municipality that continues to be constrained given the persisted poor collection rate particularly from historic debt.	Management and Council are working vigorously to turn the situation around by means of strengthening the credit control and collection measures; implementing stringent cash flow monitoring; revamping and re-enforcing control measures at the Stores department, amongst other measures to be implemented as well.
Ref FV 16 - Current Ratio is at 1.10:1 against a target of 1.5:1.	
Ref FV19 - Percentage progress in implementing the procurement plan is 70% against the target of 100% due to some projects not starting during the financial year therefore this affected the annual target.	To closely monitor user departments for the periods as set out in the procurement timetable so projects are completed within the stipulated timelines.
Ref CS 32 (a) – Information and Communication Technology had one repeat finding in 2017/2018 financial year.	The IT Compliance Officer post is in process of being filled. For the remaining vacant posts, management will engage with Budget Steering

	Committee and ensure that, the required funds are made available to fill vacant ICT posts
<p>Ref TS 06 – Capital expenditure monitoring is at 68% when compared to the target of 100%. This is due to the following challenges;</p> <ol style="list-style-type: none"> 1. WSIG grant was received late and the technical services department could not appoint the service provider due to the objections. 2. Massification grant allocation was received late. 3. RBIG - we could not get access to land, which delayed project expenditure. 	<ol style="list-style-type: none"> 1. Objections are at Municipal Bid Appeals Tribunal (MBAT) and will be finalised in quarter 1 of 2019/2020 financial year. 2. Massification grant has been spent, and there is a rollover to the new financial year. 3. RBIG – the municipality applied for a rollover and Contractor to complete works by December 2019.
Ref TS 07 – Repairs and maintenance expenditure target was not met, as actual is 74%	
Ref EI 32 – Operational budget expenditure is at 80%	Insufficient evidence received.
Ref EI 34 (c) – Monitoring progress on 2017/2018 audit action plan is at 95,5%	Awaiting response from South African Revenue Services regarding the reversal of interest and penalties.

3.7 GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Effective public awareness of municipal business is important in order to strengthen partnerships with various stakeholders through communicating municipal business. This is done through information dissemination in the form of radio slots, external and internal newsletters and on-going advertorials and public participation. Implementation of the various strategy also plays a role.

The Disaster Management Unit ensures rapid and effective response in assisting vulnerable communities during incidents and disasters, that disaster stricken communities exercise the risk avoidance behaviour during all incidents and disasters. Capacity building programmes are held to create a resilient and pro – active community.

The special projects units' main intention is to improve the quality of life within the district, by mobilising the communities against social impacts of HIV/Aids and to conscientise society about the impact of patriarchal policies. Implementation of Operation Sukuma Sakhe is also done within this unit. To preserve our history and heritage many celebrations are held to promote arts and culture, tourism and social cohesion within the District. Implementation of youth programmes is done to harness the potential of young people to enable them to play a meaningful role in society.

The health and safety unit ensure a sustainable and health environment by providing effective vector control, monitoring water quality, ensuring that the statutory requirements controlling occupational health and environmental health services are enforced minimising risks in the

work place and community. Monitor food handling premises/processes according to Regulation 364 of the Foodstuffs, Cosmetic and Disinfectant Act.

Budget and monitoring of performance against predetermined objectives is being done to ensure effective organisational performance. Effective risk management is done to implement and maintain compliant effective and enterprise risk management.

3.7.1 PERFORMANCE HIGHLIGHTS AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

Ref Org: 20 – Council adopted the Oversight report on 23rd March 2019.

Ref Org: 22 – Two reports from Audit Committee were submitted to EXCO to ensure effectiveness of the committee and Internal Audit Unit.

Ref Org 23 - Water quality monitoring and analysis continues with 245 samples taken and analysed to date, target exceeded due resampling and incidental disease outbreak investigations-typhoid resulted in extra samples being taken.

In terms of the Municipal Manager's Performance Plan - quarterly reports on progress and challenges were submitted to the Office of the Municipal Manager on the enhancement of public participation and emergency relief aid. Five Municipal Managers district intergovernmental forum meetings were held. Target exceeded as one special meeting took place on 13th March 2019.

Four Internal Audit reports were submitted to the Audit Committee and a total of 17 internal audit assignments were conducted. In terms of implementation of the action plan, actual is 48% against the target of 44%.

To ensure effective risk management, four risk registers were updated and five ethics committee meetings were held, one being a special meeting. Monthly updated risk monitoring tools are done and submitted by deadline for all departments.

The 2018/2019 enterprise risk management registers were submitted to EXCO in June 2018 and to heads of departments. The reviewed enterprise risk management framework was submitted to the risk management committee on 19 June 2019 and two risk management workshops were held by end June 2019. The anti-fraud and corruption strategy and policy was reviewed and approved by EXCO in June 2019.

The Organisational Performance Management Framework was reviewed and approved by Council on 29 May 2019. The 2017 /2018 Annual Performance Report was completed and submitted to the Auditor - General by the stipulated deadline of 31 August 2018.

The annual external performance appraisal for the 2017/2018 financial year was conducted. Most departments have been reporting on time on performance management with portfolio of evidence by the stipulated deadlines as well as resolving queries. Quarterly performance reviews are conducted between the Mayor and Municipal Manager and the Municipal Manager and Senior Managers.

Forty two mayoral slots was conducted against a target of 40, the target was exceeded due to the strengthening relationship with the media that is always willing to support the municipality. External and internal newsletters were prepared, 3 external and 6 internal.

Quarterly reports have been prepared on the status of the press releases, 100% of all adverts requested by departments were done and the turnaround time for media queries received and responded to were done with the target of 36 hours. Hosting of municipal events and mayoral public meetings are on track with 49 events, this also includes Council meetings open to the public held in local municipalities and 36 IDP/Budget meetings were held.

Percentages of incidents/disasters responded to within 48 hours is at 94%, a total of 27 awareness campaigns were held and two requested were also held, 18 capacity building programmes were conducted. The district disaster management advisory forums are held on a quarterly basis. The district disaster management plan was reviewed by deadline, all inputs have been consolidated from stakeholders and this included the Climate Change impacts and the risk maps that have been generated by the iLembe Geographic Information Systems unit. Quarterly workshops were held to rollout the Disaster Management Volunteers strategy/Framework.

The World Aids day event was held on 1st December 2018 and the District concept document was developed on 13 November 2018. Four District Aids Council meetings were held and quarterly reports were prepared and submitted to the office of the Premier. Thirty-five HIV/Aids awareness campaigns were held. The target was exceeded as the Child Protection awareness campaigns were conducted during Child Protection month where 20 schools were visited in the District.

Five heritage events were held by deadline. Council approved the iLembe District Municipality Annual report on the 31 January 2019. The implementation of the youth plan is on track with 8 programmes implemented, 14 984 youths benefitting from these programmes and 100% requested held, due to partnerships with stakeholders in terms of budget assisted programmes have conducted more as well as good participation of stakeholders. Nine sports events were participated in and hosted.

The health and safety unit is on track with targets, in terms of vector control 433 sites were serviced within budget and there were no vector borne cases investigated. Target was exceeded in terms of site visits due to the increased number of complaints and request for sampling private and schools boreholes. All unsatisfactory samples were reported to relevant authority.

Municipal health services is at 100% with all food handling license applications received and processed within 14 working days, all building plans scrutinised within 8 working days in terms of health regulations and all funeral undertakers applications are processed in terms of regulation. Number of premises inspected to reduce food borne illness is at 918, target exceeded due incidental food related investigations such as fake food and listeriosis and food poisoning outbreak resulted to increased number of inspections and follow ups. All food borne illnesses reported were investigated. A total of 83 health awareness campaigns were held, target exceeded due to an outbreak of rabies and food poisoning cases necessitated the extra campaigns.

The community services department and the Entity are submitting performance reports with portfolio of evidence by deadline on a monthly basis as well as conducting quarterly performance reviews.

To ensure effectiveness of intergovernmental relations, the corporate services department attended nine sub - forums.

The entity multi-year strategic plan with clear measurable targets has been reviewed and approved by the board in February 2019. A total of 14 board and sub-committee meetings were held to ensure effectiveness of the Board and two reports were prepared by the Audit Committee and submitted to the Board and the District by deadline.

3.7.2 CHALLENGES AND MEASURES TAKEN TO IMPROVE PERFORMANCE AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

CHALLENGES	MEASURES TO IMPROVE PERFORMANCE/ CORRECTIVE MEASURES
Ref Org 21 - 3 Mayors Forum meetings were held against a target of 3. The meeting for quarter 4 was disturbed by the election period.	The meeting will take place in the first quarter of the new financial year.
Ref OMM 18 – The Internal Audit plan was developed and presented to the Audit Committee for approval in November 2018, whereas the target was 30 September 2018.	Audit Committee 1st ordinary meeting for 2018/19 was held on 23 November 2018.
Ref OMM 20 (a) – the internal audit assessment was conducted late due to capacity being a challenge. (b) The action plan was reviewed late.	(a) & (b) The internal audit assessment and action plan was submitted to the Audit committee in November 2018.
Ref OMM 28 (a) & (b) – 78% of the business continuity plan was achieved against a target of 100% and the testing of the plan was not conducted.	(a) Training for members to be done in the first quarter of 2019/20. b) Testing of the Business Continuity plan, to be done in fourth quarter of 2019/20.
Ref COM 03 – The communication strategy was reviewed but not submitted to EXCO/Council	
Ref COM 04 – The implementation of Language policy is at 78% against a target of 100%.	Various units submitted adverts close to the deadline of the local newspapers as a results it was practically impossible to translate the adverts in time for publishing.
Ref COM 05 - The media engagement strategy was reviewed but not submitted to EXCO/Council	The strategy is to be reviewed and adopted timeously.
Ref COM 06 – Communication and media liaison capacitation workshop not done	The expected support from COGTA and GCIS was not forthcoming due to financial constraints. Capacity to train will be sought from the sector departments and local municipalities to facilitate.
Ref COM 15 – LAC meetings held was only 4 against a target of 11	The sitting of LACs is controlled by locals and it's beyond the District. The challenges will be discussed the LTT chairpersons to improve the situation.
Ref COM 17 (a) The gender plan was reviewed but not yet adopted by Council	

Ref COM 18 – OSS – only 13 interventions hosted in LMS against a target of 16 and 1 quarterly report was prepared	No reason for variance and corrective measure provided.
Ref COM 19 – 11 DTT meetings took place against a target of 12	The last meeting could not be held in June 2019 due to the protest action.
Ref COM 25 – The youth strategy was not developed and adopted by Council. Due to budget constraints, we were unable to develop strategy.	This will be done in next financial year as it is budgeted for.
Ref EI039 – Audit committee report submitted to the Board and the District – One report received.	Only received evidence for 1 that is report to the Board of Directors, dated 5 December 2018.

3.8 KEY AREAS TO NOTE

3.8.1 IMPROVING PERFORMANCE

In order to improve performance, the iLembe District Municipality, throughout the performance management phases, will analyse the causal and contributory reasons for poor performance, through coaching sessions from top to lower levels of the administration and appropriate response strategies will be developed. These will include, inter alia:

- Restructuring as a possible solution for an inappropriate structure;
- Process and systems improvement strategies to remedy poor systems and processes;
- Training and sourcing additional capacity where skills and capacity shortages are identified;
- Change management and diversity management education programmes to address organisational culture;
- Review of the IDP where Councillors will address shortcomings in the strategy;
- Development of appropriate departmental business plans and operational plans to guide performance in each department; and
- Where results show no chance of improvement through internal measures, alternative service delivery mechanisms are considered.

3.8.2 DETERIORATING PERFORMANCE

Poor performance in municipalities is often characterised by disclaimers and adverse opinions from the Auditor - General and community protests for inadequate service delivery. The worst measure that is taken for worst performing municipalities is the Section 139 intervention by the MEC for Local Government in the province.

The effective implementation of the performance framework and the different roles and responsibilities that will be played by different stakeholders will serve as an early warning mechanism for the iLembe District Municipality to keep ahead of performance and to effect corrective measures timeously in any of the weak functional areas identified by the performance management system.

3.9 PERFORMANCE OF SERVICE PROVIDERS

All service providers performance is monitored and reviewed on a monthly and quarterly basis, however as defined in the Systems Act Section 76 the service providers performing the core functions of the Municipality are rated below in table.

Performance Analysis and rating criteria:-

PERFORMANCE WEIGHTING		
1	POOR	Performance did not meet most contractual requirements and contains serious problem(s) for which correction actions were ineffective.
2	SATISFACTORY	Performance did not meet some contractual requirements, contractors actions appear only marginally effective or were not fully implemented.
3	GOOD	Contractual performance of contractor contains some minor problems for which corrective action taken by the contractor appear or were satisfactory
4	VERY GOOD	Performs meets contractual requirements some minor problems for which corrective action taken by the contractor were effective
5	EXCELLENT	Performance meets contractual requirements with few minor problems for which corrective actions by contractor were highly effective.

The performance ratings of service providers performing the core function of the municipality are as follows:

SERVICE PROVIDER PERFORMANCE REPORT														
2017/2018 ANNUAL PERFORMANCE RATINGS								2018/2019 ANNUAL PERFORMANCE RATINGS						
COMPANY NAME	EXCELLENT (5)	VERY GOOD (4)	GOOD (3)	SATISFACTORY (2)	POOR (1)	NOT ENGAGED (0)	NO REPORT SUBMITTED	EXCELLENT (5)	VERY GOOD (4)	GOOD (3)	SATISFACTORY (2)	POOR (1)	NOT ENGAGED (0)	NO REPORT SUBMITTED
TECHNICAL SERVICES														
UMGENI WATER			✓							✓				
GLEDHOW SUGAR							✓			✓				
SEMBICORP SIZA WATER							✓		✓					

CHAPTER THREE: SERVICE DELIVERY PERFORMANCE (PERFORMANCE REPORT PART 2)

3.10 PROVISION OF BASIC SERVICE SERVICES IN THE 2018/19 FINANCIAL YEAR THE OBJECTIVE OF THE TECHNICAL SERVICES DEPARTMENT IS:

- To provide sustainable infrastructure that will render water and sanitation services to cover the entire area of iLembe District Municipality;
- To eradicate the backlogs and cater for future demands within iLembe District Municipality;
- To ensure the quality of drinking water in the region is improved to meet the standards for safe drinking water as per SANS.

(a) MAJOR CAPITAL PROJECTS UNDERTAKEN

This section is an account on the major Capital Projects that were undertaken by the District in all the Four (4) Local Municipalities that fall within its jurisdiction. The account is presented per Local Municipality and schemes with that Municipality.

(b) DISTRICT WIDE WATER CONSERVATION AND DEMAND MANAGEMENT

The iLembe District Municipality embarked on a serious drive to deal with the reduction of unaccounted for water through the implementation of a water conservation and demand management project. This project is aimed at replacing all the old infrastructure that is leaking and often breaks thus causing service interruptions. The project will also install pressure reducing valves to minimize the pressures in the system in order to reduce leaks.

This project is implemented throughout the municipal area where challenges of old infrastructure as well as high water losses are experienced. The KwaDukuza CBD has been completed and the project will now be implemented in Ndwedwe and Maphumulo areas. The program will be rolled out throughout the district municipality and is funded through the Water Services Infrastructure Grant from the Department of Water and Sanitation.

3.10.1 WATER

(c) MANDENI LOCAL MUNICIPALITY

(i) Ndulinde Sub-Regional Water Supply Scheme

The Ndulinde Sub-Regional Water Supply Scheme fall within wards 5, 6 and 11 of Mandeni Local Municipality. The scheme is intended to provide portable water supply to the community

that is currently being served through boreholes that are equipped with hand pumps and some springs that are within the area.

The source of water is from reservoir C that is fed from the Sundumbili Water Works, which is situated on the northern banks of the Thukela River. The scheme will serve a total of 42,752 people residing in some 10,691 households. The scheme is estimated to cost R 270,197,305 and is implemented in phases until 2019/20 financial year when it will be fully commissioned.

The current dispensing method is the communal standpipe system, however the scheme has been redesigned to be upgraded from communal standpipes to yard connections. This is done so as to provide the communities residing in Ndulinde with a higher level of service other than the communal standpipes. The implementation of the project has been delayed by a non-performance by service providers who threaten to go to court if their contracts are terminated. The project has since been brought back on track and is on the Implementation Stage.

(ii) Macambini Sub-Regional Water Supply Scheme

The Macambini Sub-Regional Water Supply Scheme fall within wards 1, 2, 3, 8 and 9 of Mandeni Local Municipality. The scheme is intended to provide portable water supply at a basic level of service to the community that is currently being served through boreholes that are equipped with hand pumps and some springs that are within the area. The scheme will also augment the current supply from the Mlalazi Water Scheme that is under UThungulu District Municipality who act as a bulk water provider to iLembe DM.

During dry seasons, UThungulu DM is unable to meet iLembe DM's demand and this often results in shortage of water to the community of Macambini. The source of water is the Sundumbili Water Works, which is situated on the northern banks of the Thukela River that is upgraded from 27M//d to 40M//d in order to increase the capacity of water works.

The scheme will serve a total of 58,480 people residing in some 7,310 households. The scheme was estimated to cost R 101,726,581.00 and was intended to be implemented in phases until 2017/2018 financial year when it would be fully commissioned.

The Macambini project was scheduled to start in 2007 but was put on hold due to the RUWAAD / Dubai Development that was proposed by the Provincial government. This led to a delay in the start of the project from 2007 to 2013 and has resulted in the increase in the estimated cost of construction due to escalation of prices over the 5 years. The revised

construction cost is now R 616,572,540.31 and it incorporates a revised scope that involves upgrading of bulk water mains and pump station from the Sundumbili Water Works, converting from communal standpipes to individual yard connection and supplying bulk water connections to other housing developments that are en route the bulk pipeline in the areas of Sundumbili Township and Mandeni Town. The revised completion date is now 2020/2021.

(d) KWADUKUZA LOCAL MUNICIPALITY

(i) Lower Thukela Regional Bulk Water Scheme

The Lower Thukela Regional Bulk Water Scheme is intended to serve the area of KwaDukuza with portable water supply. The demand for water on the coastal area of KwaDukuza has increased and the current supply from the Umdloti and Umvoti river systems are insufficient to meet the projected water demand.

The project is implemented jointly by iLembe District Municipality and Umgeni Water and will cater for the:

- current demand,
- future private developments of commercial, industrial and residential nature,
- low cost housing developments,
- rural areas currently served as stand-alone schemes, and
- Rural area that is currently un-served.

The scheme is expected to serve the following:

- 64,239 bulk connections to commercial and private units,
- 28,567 low cost housing units,
- augmentation of bulk to 3,349 rural households, and
- bulk and reticulation to 3,083 rural households without services.

The scheme is expected to cost a total of R 1,283,580,681.00 and is implemented in phases, subject to availability of funding. The primary bulks have been commissioned by Umgeni Water and the iLembe District Municipality has also completed and commissioned five (5) off takes that are now getting water to the communities. The implementation of further off take lines is ongoing and is likely to be completed during 2020/2021, on condition that the Department of Water and Sanitation continues with funding the project.

(e) NDWEDWE LOCAL MUNICIPALITY

(i) Umshwathi (Wartburg) Water Pipeline.

The iLembe District Municipality has since partnered with Umgeni Water to construct a bulk pipeline from the Midmar Dam that will bring water through Umgungundlovu DM and Umshwathi Local Municipality areas to iLembe District Municipality. The scheme will cover ward 4, 5, & 6 in Ozwathini - Phambela, Mlamula and Nodwengu areas under Ndwedwe Local Municipality.

The pipeline implementation started 2016/17 and consist of three phases with the last phase being implemented during 2018/2019 and are currently being commissioned. The bulk command reservoir has been built at Nondabula linking to the existing reticulation networks that exist in the area.

(ii) Nsuze Water Scheme

iLembe District Municipality resolved to construct a weir, as an interim measure, at Nsuze River to supply ward 2, 4, 5, 6, 8 in Ozwathini / Phambela under Ndwedwe Local Municipality, whilst awaiting for the Phase 5 of Mshwati Water Scheme to be completed in 2021/2022. The upgrades have been done on the scheme to produce 2Ml/day from 1Ml/day.

(iii) Kwa Chili Shangase Pipeline

The area of KwaChili/Shangase has a reticulation network but has a challenge with bulk water supply.

The Department of Water and Sanitation approved the funding on condition that the water losses that are in the Ndwedwe system had to be fixed in order to save water that will be transferred to KwaChili/Shangase. Department of Water and Sanitation has approved funding of R163million for 2018/19 and 2019/20 financial year for the municipality to implement mains replacement project to address the issues of water losses.

A detailed design is being undertaken for long term solution of the KwaChili/Shangase which will receiving from Umshwati (Wartburg Reservoir) in 2021/22 financial year.

(f) MAPHUMULO LOCAL MUNICIPALITY

(i) Invotshane Regional Water Scheme

The Mvotshane Dam phase 1 is commissioned and Umgeni is currently investigating Hlimbithwa as an alternative solution for future augmentation as part of the

Maphumulo/KwaDukuza Sub Regional Water Scheme. The scheme is co-funded by iLembe District Municipality and Umgeni Water wherein Umgeni Water will focus on the implementation of the bulk system (including the dam) and iLembe District Municipality is focusing on the reticulation networks up to the standpipes / yard connections.

The scheme will cover wards 4, 7, 8, 9, 10 and 11 of Maphumulo Local Municipality and ward 1, 2, 3, 4 and 7 of Ndwedwe Local Municipality. The full extent of the scheme stretches from Maphumulo, Ndwedwe to KwaDukuza ward 27.

The scheme will serve a total of 77,900 people residing in some 17,084 households. The scheme is estimated to cost R 339,870,403.00 of which R 131,982,216.00 is iLembe District Municipality funds and R 207,888,187.00 will be funded by Umgeni Water. The first phase of the scheme of (6ML) was commissioned during the 2012/2013 financial year and the second phase of (3ML) has been commissioned by 2018/2019 financial year to make (9ML). The last phase of (3ML) is at 60% design anticipated to be completed in 2023/24.

(ii) Maphumulo/ Kwa Dukuza Sub-Regional Water Scheme

The Maphumulo/ KwaDukuza Sub-Regional Water Supply Scheme falls within Maphumulo Local Municipality, this is an extension of the Ngcebo/KwaDukuza Water Supply system and will provide wards 4, 8, 9 and 11 with portable water supply to a basic level of service.

Balcome / Kwa Sizabantu Sub-Regional Water Scheme

The Balcome/ KwaSizabantu Sub-Regional Water Supply Scheme falls within Maphumulo Local Municipality, this is an extension of the Ngcebo/KwaDukuza Water Supply system and will provide wards 3, 5 and 6 with portable water supply to a basic level of service.

As at 30 June 2019 the scheme was 100% complete and some of the completed zones were as follows:

- Bulk Supply phase one
- Bulk supply phase 2
- Zone A
- Zone B
- Zone C
- Zoned E
- Zone F
- Zone G
- Zone D

- Zone I & J

The Water Supply Scheme will serve approximately 3,532 households (28,256 people) in Balcom and Kwa Sizabantu areas. The scheme also makes provision for the adjacent Magongo area in Ward 3. The scheme is estimated to cost R168, 242, 758 and was implemented in phases until 2017/2018 financial year and will be fully funded by iLembe District Municipality.

3.10.2 SANITATION

(a) KWADUKUZA WATER BORNE SEWER PROJECT

The primary objective of this project is to provide a bulk sanitation system to service the growing needs of Groutville development areas which, besides Groutville, serves the areas of Thembeni, Njekane, Ethafeni, Chief Albert Luthuli Land Reform, Nyundwini and proposed Lloyds / Chris Hani Ntshawini Region and all located within KwaDukuza local Municipality. On completion, this scheme will serve a total of 129 000 citizens.

This project is jointly being implemented by KwaDukuza Local Municipality, iLembe District Municipality, COGTA KZN, KZN Department of Human Settlements and the KZN Department of Water and Sanitation. The total cost of this staged project is R 254 million.

(i) Southern Regional Bulk Water And Sanitation

The municipality undertook to implement the Southern Regional Bulk Water and Sanitation Scheme (SRBWSS) in July of 2017. The purpose of the project is to provide bulk water and sanitation to the areas of Etete, Palm Lakes, Shayamoya, Nkobongo, Shakaskraal and Shakashead.

In 2014, iLembe District Municipality submitted a business plan to the Department of Water and Sanitation requesting funding for the project. Only a partial sum of R89.7m of the requested budget was approved by DWS to implement the first phase of Southern Bulk Water and Sanitation Scheme. The total cost for phase 1 is R85 841 458.48. The remaining amount of R3 870 541.52 is being utilised for the preliminary design of Phase 2 and the business plan for the balance of the phases.

The table below show projects that were planned and implemented during the 2018-2019 financial year:-

Project Name	Area	Category	Status	Budget	No. of beneficiaries no new served	Wards	Estimated completion
Old Infrastructure Replacement/Upgrade	District Wide	Water	Implementation	R 600 000 000		District wide	2022

(c) WATER QUALITY

Water and wastewater (blue and green drop systems respectively) audits have not been conducted by the Department of Water and Sanitation (DWS) the last few years. The last audits were conducted in 2012.

However, iLembe District Municipality (IDM) water Quality department has been submitting the water quality data to the blue drop system and wastewater quality data to the green drop systems since this period. In the last two years or so, IDM has seen the commissioning of the Lower Tugela Water supply scheme (serving mainly Kwadukuza Local municipality) as well as the Mvotshane water supply scheme (serving Maphumulo Local municipality) and this that has seen an improvement in the water supply both in terms of water quantity and quality.

There are still challenges in terms of water quantity supply to the Maphumulo area and a package plant was recently added by Umgeni Water (UW) to increase the water supply to Maphumulo .The challenge of quantity still remains though. Water tankers as well as rejuvenating of some boreholes has also assisted in improving the water supply.

Wastewater quality continues to pose a challenge for the District .There are ten (10) wastewater works within the District that IDM monitors and many of them require attention. These range from operational to mechanical and electrical refurbishment.

However, IDM is in the planning stages of relocating the Kwadukuza wastewater works as well as upgrading the Sundumbili waste water works. These 2 works are the largest within IDM and the changes indicated will improve the wastewater landscape within the district.

Plans are also underway to upgrade the Darnall waste water works as well as converting the Gledhow wastewater works into a pump station which will relieve pressure to the receiving streams and rivers.

(c) ILEMBE DM BLUE DROP PERFORMANCE

- (i) As at June 2014, 24% of the population still did not have access to clean water and obtained water from rivers and streams. This poses a health risk with further implications regarding the provision of social services.
- (ii) The urban areas have proper water borne sanitation systems, but rural areas rely on pit latrines or no system at all. This places tremendous strain on the environment and poses a health risk.

3.11 LOCAL ECONOMIC DEVELOPMENT

Enterprise iLembe (EI) is the Economic Development Agency of iLembe District Municipality that is managed by the district through a service level agreement. The agency is responsible for *Trade & Investment Promotion* and *Local Economic Development* for the region within the following key sectors:

(a) Agriculture

This sector is characterized by two main distinct types:

- ✓ Commercial agriculture, such as sugar cane farming along the coastal strip ; and
- ✓ Subsistence agriculture in the rural hinterland and inland areas.

(b) Manufacturing

This sector is mainly characterized by the following types of industries:

- ✓ Primary sector comprises of heavy industries, such as sugar and paper mill production in the Isithebe Industrial Estate in Mandeni
- ✓ Secondary sector activities include light industries that are prevalent throughout the district and with a focus on the rural areas of the district as well as along the coastal belt.

(c) Tourism

iLembe is one of the prime domestic tourism attractions in South Africa due to its favourable climate and its excellent beaches. This sector has consistently grown in iLembe and offers a variety of tourism facilities that can be categorized into cultural and heritage tourism, beach tourism, and nature-based and adventure tourism.

(d) Commerce and Services

This sector includes the following sub sectors and is found in all the main urban centres throughout the district with specific reference to the towns of KwaDukuza and Ballito:

- ✓ Wholesale / retail trade Transport / storage Communication Financial / insurance
- ✓ Real estate/Business / Community / social / government services

Economic Development Agencies seek to combine community led action with a business approach, and aim to bring about social economic, environmental, regeneration and renewal within communities.

The Global Economic recession and slowdown in business activity is now being felt within the SA economy and is clearly evident in the Business Confidence Index for (BCI) iLembe District

Municipality where an all-time low was recorded at 45.5 index points during the latter part of 2016.

As the global economic circumstances and the difficult business climate continued to prevail, the challenge of addressing the high unemployment rate and the intensity of poverty in the district became more pressing. Enterprise iLembe has continued to play critical role within the District in addressing the triple challenges of poverty, unemployment, and inequality through the implementation of various programs and projects during the year under review.

3.12 COMMUNITY SERVICES

3.12.1 YOUTH, SPORTS, ARTS & RECREATION AND CULTURE

(a) Sports And Recreation

Indigenous Games District Selections held at KwaMaphumulo on July 2018, and there were no challenges reported.

- Newcastle Championship Dance Competition that was held in July 2018 and the municipal bus was used to transport iLembe District dancers.
- District Dance Competition that was held in Mandeni during July 2018, this is annual event whereby all KZN district dancers were competing with each other. The municipal bus was used to transport our district dancers.
- Coca Cola tournament was held in July 2018 at King Zwelithini Stadium in Durban, where New Guilderland Combined School under 15 team was assisted through the provision of iLembe bus which was originally requested.
- Indigenous Games Provincial Tournament was held in Newcastle between the 10th and the 12th of August 2018. District transport and attire was also provided for 130 participants, with an amount of R128 824.25 also spent by iLembe District for additional support. iLembe team ultimately obtained the 09th position during the tournament.
- Netball Male Team of 18 players was also supported by the municipal bus for their tournament that was held in Hoypark during the month of October 2018.
- iLembe Cricket team attended the cricket match in Crawford (in North Coast) during the month of October 2018, where the municipal bus was also used to transport them.
- Cricket T20 semi finals match that was scheduled for 21 October 2018, with the municipal bus also used to transport team members.
- iLembe dance team of 22 dancers was assisted with municipal bus to attend their provincial competition during the month of November 2018.

- iLembe Golf Team of 18 players was assisted with municipal bus to attend their game in Pietermaritzburg in relation to SALGA Games preparations for December 2018.
- iLembe District Municipality hosted Provincial Disability Games on the 9 – 11 November 2018, where the District provided team iLembe with tracksuits and the municipal bus..
- The District participated during 2018 SALGA KZN DSR Games, with a total number of 240 athletes. The tournament was held between the 6th and the 10th of December 2018 in Pietermaritzburg. Procurement of accommodation, apparel and four buses with an amount of R1 485 536 .74 was also utilized by the District.
- iLembe Cricket team of 18 players was assisted with municipal bus to attend their game in Durban during the month of January 2019.

(b) Heritage And Cultural Programmes

Indoni Camp was held between the 01st and 06th of July 2018 in Pietermaritzburg.

Delegation of our young girls was part of the camp where teachings of respect and restoration of good moral values were done. iLembe District bus was utilized to support them.

- Mazibuye choral music requested the municipal bus to attend the Ndwedwe 13th Annual 2018 SATMA Awards prayer that was held at Ndwedwe area, with iLembe bus utilized during the event.
- iLembe District Municipality attended Umkhosi Womhlanga at a eNyokeni Royal Palace in KwaNongoma between the 7th and the 9th of September 2018. As a municipality we were expected to provide 4 buses for maidens and accommodation for officials and councilors, and the total amount spent for the event was R152 124.
- iLembe District Municipality transported Amabutho from iLembe to Umkhosi weLembe which was held at Moses Mabhida Stadium on the 7th of November 2018.
- The Mazibuye Choral Music Group of 22 young people requested to be transported by iLembe bus during the month of November 2018.
- Indoni National Competition was held on the 15th of December 2018 at Durban ICC. iLembe was made proud by Thabisile Mthethwa who got position the first position of 2018 Miss Indoni, with the young lady coming from Mandeni.

(c) Other Youth Empowerment And Development Programmes

MONTH	ACTIVITY	TARGET
July 2018	Career Expo	300 Matric Learners
August 2018	None	None

Sept. 2018	Master Class Theatre Workshop	40 young people were targeted and the programme was in partnership with KZN DAC
Oct. 2018	Maskandi Final Competition Talent Search	6 groups of Maskandi boys
Nov. 2018	Plumbers Learner ships	8 young people were given the opportunity in plumbing with a stipend of R3000 per month
Dec. 2018	None	None
Jan. 2019	iLembe Back to School Programme	240 learners across the district benefited from the program with school uniforms, school shoes and small grocer
Feb. 2019	None	None
March 2019	None	None
April 2019	iLembe District Career Exhibition	iLembe District Matric learners (four municipalities)
May 2019	Child Protection Campaign	iLembe District learners (four municipalities)
June 2019	None	None

3.12.2 DISASTER RISK MANAGEMENT

(a) Status Of The District Disaster Management Centre

iLembe District has a functional District Disaster Management Centre (DDMC) which is established in terms of Disaster Management Act No. 57 of 2002. The various institutional measures have been established to ensure compliance with disaster management legislation and policies with the Head of the Centre appointed. The District Disaster Management Centre has been constituted with the objective to promote an integrated and coordinated system of Disaster Management, with a special emphasis on prevention and mitigation. The establishment of the District Disaster Management Centre also aims to respond rapidly and effectively to all disasters including implementation of post-disaster recovery and rehabilitation within the District and its family of municipalities. The District Disaster Management Centre building for iLembe was completed in 2015 and is situated at No 12 Haysom Road, KwaDukuza.

(b) Municipal Disaster Management Inter-Departmental Committee And Political Committees

The District has the responsibility of establishing effective institutional arrangements for the development and approval of integrated disaster risk management matters. To achieve this, the District has established an Economic Development and Planning, Health and Safety Portfolio Committee, which is an internal portfolio committee that deals with matters relating to Disasters and Disaster Risk Management in the District. The committee is chaired by the District Deputy Mayor and is fully functional. It meets regularly on a monthly basis or as and when it is necessary. The District has also established the Management Committee (MANCO), this is a senior management committees which meets every two weeks where issues pertaining to disaster management are being discussed on an ongoing basis.

(c) District Disaster Risk Management Practitioners Forum

iLembe District Disaster Risk Management Practitioners forum has been established and comprises of all four (04) Local Municipalities. The main objective of having practitioners meetings (that are held on monthly basis) is to share some of the common challenges, whilst learning from each other's best disaster management practices. During the period under review , the District conducted a total number of eleven (11) Disaster Management Practitioners meetings.

(d) Municipal Disaster Management Advisory Forum (DMAF)

The District Disaster Management Advisory Forum (DDMAF) is a fundamental disaster management IGR structure that gives platform for interaction between all relevant role-players and stakeholders responsible for disaster risk management. The DDMAF is functional, with a reasonable attendance by relevant stakeholders; however there is still an absence of a large number of stakeholders who could contribute significantly. The District Disaster Management Advisory Forum is a body in which all role players consult one another and coordinate their actions on matters relating to disaster management within iLembe District and meets on quarterly basis or as and when necessary. A total of four (4) District Disaster Management Meetings were held during 2018/19 financial year.

(e) Status Of Disaster Management Capacity At iLembe District

iLembe District has established a fully functional District Disaster Management Centre (DDMC), with the Head of the Centre appointed, including disaster management

personnel to support the Centre. Currently, at a district level there is one (1) Senior Disaster Risk Reduction Officer and two (2) Disaster Management Officers. All vacant positions have been prioritized accordingly, with plans underway to fill other positions in line with strict austerity measures of the municipality. To ensure effective implementation of the Disaster Management Act, the District has also allocated physical and financial resources to make sure that there is an effective smooth running of the Disaster Management Centre.

(f) STATUS OF ILEMBE DISTRICT PLANS

1. District Disaster Management Framework

In compliance with the Section 42 of the Disaster Management Act, which compels each district municipality to establish and implement a disaster management Framework that is aimed at ensuring an integrated and uniform approach to disaster management, iLembe District Disaster Management Policy Framework was developed in 2008, and was consistent to both Provincial and National Disaster Management Frameworks. The District Disaster Management Policy Framework is based on the nationally accepted four key performance areas (KPA) each of which is underpinned by three “enablers” that facilitate a consistent approach to the function. The District completed a process of reviewing its Disaster Risk Management Policy Framework during the 2016/17 financial year.

2. District Disaster Management Plan

The Disaster Management Plan is crucial for the District since the Municipal Systems Act No. 32 of 2000 requires all municipalities to undertake an integrated development planning process to produce currently relevant Integrated Development Plans (IDPs). The applicable Disaster Management Plan is a core component of the IDP as stipulated by Section 26 (g) of the Municipal Systems Act No. 32 of 2000. Furthermore, Section 53 (2) (a) of Disaster Management Act stipulates that a disaster management plan for a municipal area must form an integral part of the municipal IDP. To achieve this, iLembe District developed its Disaster Management Plan in 2009 which was approved by the Council. The District also reviewed its Disaster Management Plan over a period of three years (2014-2017), and this culminated in the adoption of the reviewed disaster management plan in June 2017. During 2018/19 financial year, the District also reviewed its Disaster Management Plan through incorporating the requirements of the Disaster Management Act No 16 of 2015. One of the key considerations during the

review process included incorporation of the Climate Change Impacts, which was a process which was implemented in consultation with various disaster management stakeholders and role players. This process culminated in the development of Risk Maps which were internally generated by iLembe GIS Unit.

To date, all four Local Municipalities have since developed their Disaster Management Plans that have been adopted by their respective Councils. The District has taken an approach to assist all four local municipalities to review their disaster management plans in house, with the process already initiated at Ndwedwe Local Municipality.

(g) State Of Readiness To Deal With Disasters

iLembe District is prone to a number of natural and manmade hazards such as heavy rain, lightning, strong winds, fires and hail resulting in devastating effects to both human life and property. The District Disaster Management Centre (DDMC) remains to act as a source and conduit for information on disasters and impending disasters within the District as required by Enabler 1 of the National Disaster Management Framework. To properly understand the spatial and geographical orientation of hazards, all disaster management practitioners continue to capture, monitor and analyze minor and major incidents on an ongoing basis. As and when incidents are reported, the District Disaster Management Practitioners are able to assist local municipalities to ensure that there is prompt response, with damage assessments undertaken to determine the extent of damages and assistance required by the affected municipalities.

The District Disaster Management Centre is one of the beneficiaries of the Early Warning System, with Weather Warnings received from the South African Weather Service (SAWS). All disaster management practitioners have a responsibility to disseminate early warnings to vulnerable communities, with some of the key recipients including Ward Councillors, Amakhosi, Izinduna etc. As required by the Disaster Management Act No 57 of 2002, the District prepares Summer and Winter Season Contingency Plans before the beginning of each season. The District Disaster Management Centre also ensures that all four local municipalities (Mandeni, KwaDukuza, Maphumulo and Ndwedwe) also prepare their Contingency Plans that are unique to their respective municipalities.

(h) Financial Capabilities To Deal With Disasters

During 2018/19 financial year, the District Disaster Management Centre budgeted for the following Disaster Risk Reduction Programmes:

ITEM	BUDGET (2018/19)
1. Emergency Relief Aid (Blankets, Food Parcels and Plastic Sheeting)	R 378 242.00
2. Emergency Relief Aid (Temporary Shelter)	R 221 604.00
3. Community Awareness Campaigns	R 136 167.00
4. Capacity Building Programmes	R 50 433.00
5. Review Of The District Disaster Management Plan	R 378 242.00
6. Installation Of Lightning Conductors	R300 000.00

It is important to mention that the District Disaster Management Centre achieved 100% of all the set targets as set out in the SDBIP (doing more with less), through implementing strict fiscal discipline by adhering to the austerity measures that are set out by iLembe District Municipality. The Provincial Disaster Management Centre also assisted the district by providing additional blankets, plastic sheeting and Box B relief (which includes gel stoves, pots and cutlery sets).

(i) STATUS AND RESULTS OF DISASTER RISK ASSESSMENTS UNDERTAKEN

1. List Of Priority Risks (Hazards)

iLembe District Municipality is prone to a number of natural and men-made hazards such as (veld fires and structural fires), heavy rain, lightning, strong wind, drought, road and railway accidents etc. In complying with the requirements of the Disaster Management Act No. 57 of 2002, it is important to conduct the Risk Analysis in order to identify and prioritize potential hazards and threats that are likely to occur within the District. The vulnerability of communities within the District varies, which mainly depends on socio-economic status as well as the exposure of particular households or communities to specific hazards. Below is a list of priority hazards in all four local municipalities, with spatio-temporal characteristics of these hazards well known since they have been observed and recorded over a period of time:

Table 8: Priority hazards identified at iLembe District Municipality.

HAZARDS	LOCATION
1. Severe weather:	
a. Lightning	In all Four Local Municipalities
b. Strong winds	In all Four Local Municipalities
c. Hail	In all Four Local Municipalities
d. Heavy rain	In all Four Local Municipalities
e. Extremely hot temperatures	In all Four Local Municipalities
f. Storm surges	Along the Coast
2. Fires (Structural and Veld Fires)	In all Four Local Municipalities
3. Drought	In all Four Local Municipalities
4. Accidents (Motor Vehicle Accidents)	Mostly on N2, R74, P711, R102 and P459
5. illegal Connection of Electricity	In all Four Local Municipalities

2. INCIDENT STATISTICS

(a) Incidents Reported During 2018/2019 Financial Year

MUNICIPALITY	CAUSE OF AN INCIDENT							TOTAL
	Fire	Structural	Heavy Rain	Strong Wind	Lightning	Structural Collapse	Hail	
KwaDukuza	66	14	16	7	1	0	2	106
Mandeni	26	9	10	8	1	0	0	54
Maphumulo	14	4	3	26	0	0	0	47
Ndwedwe	32	13	13	8	0	1	0	67
iLembe District	138	40	42	49	2	1	2	274

3. DITRICT DISTRIBUTION OF INCIDENT FOR 2018/2019 FINANCIAL YEAR

4. IMPACT OF INCIDENTS DURING 2018/2019 FINANCIAL YEAR

5. TREND OF INCIDENTS DURING 2018/2019 FINANCIAL YEAR (IMPACT TO HOUSEHOLDS AND PEOPLE)

(j) Community Awareness Campaigns

iLembe District is prone to a number of natural and man-made hazards that have a huge impact on both human life and the environment, and often requires the intervention of the Disaster Management Centre's as they are always unpredictable. It is in this view that the District has adopted a strategy of increasing awareness about the risks that are prevalent within the District and its family of municipalities. The community awareness programme has been developed in line with the provisions of the Disaster Management Act No. 57 of 2002, the Provincial Disaster Management Framework of 2010 and the National Disaster Management Framework of 2005. It is important to mention that all awareness campaigns that are conducted are unique to specific audiences, and this is mainly dependent on the nature of their vulnerability to certain risks and hazards.

All awareness campaigns conducted are also in line with Enabler 2 of both the National and Provincial Disaster Management Frameworks, whilst they remain a critical component of disaster risk reduction. Other considerations that are key during ongoing community awareness campaigns also include some of the best world practices including Millennium Development Goals and the Sendai Framework for Disaster Risk

Reduction. The District has also adopted a strategy to conduct ongoing community awareness campaigns in partnership and in collaboration with a number of disaster management stakeholders. Some of the critical stakeholders include local municipalities, sector departments, traditional leaders, media, Councillors, Ward Committees etc. It is also important to mention that ongoing community awareness campaigns are conducted to assist local communities to exercise risk avoidance behaviour, whilst taking necessary precautionary measures at all times. The District Disaster Management Centre has also adopted a strategy to conduct ongoing awareness campaigns in an integrated manner, through utilising some of the existing municipal public participation programme. The District Disaster Management Centre exceeded its targets as set out in the municipal SDBIP as it conducted twenty eight (28) planned community awareness campaigns during 2018/19 financial year.

(k) Capacity Building Programmes

The capacity building programme is one of the approaches taken by iLembe District to comply with the provisions of the Disaster Management Act No. 57 of 2002, including both the Provincial and National Disaster Management Frameworks. Such training programmes are crucial in increasing the numbers and competencies of disaster management practitioners, as well as increasing the overall humanitarian skills and knowledge of local disaster management stakeholders and communities. iLembe District has adopted the approach of working together with different stakeholders in order to assist disaster prone communities to develop the knowledge and necessary capacities towards the implementation of disaster risk reduction programmes.

The developed capacity building programme is also aimed at promoting the culture of risk avoidance among stakeholders through integrated disaster risk management education and training. All capacity building programmes are also critical towards achieving the requirements of Enabler 2 of the National Disaster Risk Management Framework. The District conducted a total number of seventeen (17) planned capacity building programmes during 2018/19 financial year.

(l) Best Practices / Achievements / Successes

There are various best practices that are implemented by the District Disaster Management Centre. Below are some of the disaster management best practices that were undertaken by the District:

- The District has partnered with the Provincial Disaster Management Centre (PDMC) in encouraging vulnerable communities to buy lightning conductors.
- The District has also encouraged all local municipalities to budget for disaster management, including budget for disaster risk reduction programmes such as the installation of lightning conductors.
- To date, Maphumulo Local Municipality in partnership with PDMC and the District has installed a total number of two hundred and five (205) lightning conductors to vulnerable communities, with forty (40) installed at Ndwedwe Local Municipality, fifty eight (58) in KwaDukuza Local Municipality and fifty five (55) at Mandeni Local Municipality.
- Through ongoing capacity building programmes by the District, the Local Municipalities have committed to budget for disaster management, including alignment of the disaster management sector plans into their Integrated Development Plans (IDPs).
- The District has initiated the process of incorporating issues that are mentioned in the Disaster Management Amendment Act 16 of 2015 as part of reviewing the District Disaster Management Plan, and this includes Climate Change Impacts.
- In fulfilling the requirements of the Safety at Sports and Recreational Events Act, the District is actively involved in all stages leading to minor and major events, in an effort to ensure safety of communities during such events.
- The District Disaster Management Centre is one of the key stakeholders that are involved in all District Climate Change interventions, especially Climate Change Adaptation.
- In fulfilling the requirements of the Safety at Sports and Recreational Events Act, the District is actively involved in all stages leading to minor and major events, in an effort to ensure safety of communities during such events.

(m) Challenges And Concerns

- Lack of Firefighting capacity within the District and its family of municipalities, especially at Ndwedwe and Maphumulo Local Municipalities
- Poor attendance by the sector departments/other spheres of government poses a risk of not addressing all consultative activities on issues concerning disasters and disaster management in the District.
- The state of readiness is questionable in local municipalities where there are no budget provisions for disaster management. In instances where such budgets

exists, the extent to which they are being utilized for disaster risk reduction must be communicated to all relevant stakeholders.

- In responding to minor and major incidents, there is generally a poor co-ordination (including response time) in the municipalities where there is a limited number of personnel who are employed to deal solely with disaster risk management.

(n) Status Of Fire Services

In line with the Disaster Management Act, Section 54 (3): (a) the municipality have a responsibility for coordination and management of disasters and must deal with a local disaster in terms of existing legislation and contingency arrangements if a local state of disaster has not been declared, (b) in addition to the above section 55(2) deals with instances where a local disaster has been declared. Currently, at iLembe District, only KwaDukuza and Mandeni Local Municipalities have establish mechanisms for firefighting capacity. KwaDukuza is performing the firefighting function in house with two Fire Stations that are located in Ballito and Stanger. Mandeni have outsourced the service to a Service Provider for a period of three years, where there is an expectation of skills transfer once the contract has expired. One of the challenges is that there is no firefighting capacity at Ndwedwe and Maphumulo Local Municipalities. This scenario poses major challenges as there is lack of prompt and effective response to fire incidents at Maphumulo and Ndwedwe Local Municipalities as illustrated in table 5 below.

Municipality	Responsibility	Firefighters	Area km ²	Capacity (Equipment)
Mandeni LM	Outsourced To The Service Provider	14 x Fire Fighters, 1 x Chief Fire Officer, Volunteers	545 km ²	1 x Medium Fully Equipped Fire Engine 1 x Rapid Response LDV 4x4 Skid Unit
KwaDukuza LM	KwaDukuza LM	Chief Fire Officer (1), Divisional Officer (1), Station Officers (2), Fire Fighters (72)	735 km ²	4 Rescue Vehicles 1 Skid Unit 5 Utility Vehicles

Municipality	Responsibility	Firefighters	Area km ²	Capacity (Equipment)
Ndwedwe LM	IDM/KDM	Nil	1093 km ²	Nil
Maphumulo LM	IDM/KDM	Nil	896 km ²	Nil
iLEMBE DISTRICT	NIL			

The District has developed a long term plan (aligned to the IDP) to ensure establishment of firefighting capacity, especially at Ndwedwe and Maphumulo Local Municipalities. The District continues to engage other external stakeholders to assist towards the full establishment of fire fighting services within the district, in complying with Section 84 (j) of the Municipal Structures Act.

(o) Climate Change Interventions

Section 24 of the Constitution (Act of 1996) of the Country compels the environmental sector to manage environment such that it does not become harmful to the wellbeing of all South African Citizens. Furthermore, chapter 3 of the Constitution provides for the cooperative governance by compelling the different spheres of government to cooperate and consult with one another to ensure cooperative governance. This constitutional perspective supports the principles of integration, participation and cooperation that are fundamental to working towards sustainable development. In responding to the resolutions of the previous Disaster Management and Climate Change workshop as well as the recent Back to Basics with Disaster Management Workshop, the District has established iLembe Environmental Management Forum (IEMF) to basically, promote coordination and integration of plans and programmes for the benefit of the local people. The main purposes of the iLembe Environmental Management Forum (IEMF) is to facilitate the coordination of environmental management matters and to encourage compliance to the existing legal tools ranging from local, provincial, national and the international context.

3.12.3 SPECIAL PROJECTS

(a) OPERATION SUKUMA SAKHE PROGRAMMES FOR VULNARABLE COMMUNITIES

(i) Programmes For Children

There were ongoing children's programs aligned to the KZN Provincial Calendar. Those programs included Child Protection Awareness where schools identified to have substance abuse challenges were visited throughout the district. Programs targeting ECDs were also implemented like cultural day for ECDs. Back to school campaigns were also held in collaboration with Operation Sukuma Sakhe where needy children were assisted with basic school necessities.

(ii) Programmes For Women

Programmes for women were implemented as per the financial year annual plan. The 16 Days of Activism campaigns fighting abuse of children and women were conducted throughout the district jointly with the SALGA Women's Caucus (SWC). There were skills training programs that capacitated women for job creation and income generation.

(iii) Programmes For Men

During July, programmes targeting men and young boys were held to give boys that are raised by mothers an opportunity to interact with men and have a feel of a father figure on discussions for boys to men. Dialogues that involved Amakhosi and men and social activities were conducted during the Men's month.

(iv) Programmes For Senior Citizens

There is a functional Senior Citizens Forum that work closely with the municipality on matters for the Senior Citizens. An on-going programs that promote healthy living lifestyle of Senior citizens were held and they participated in Golden games to the national level where they participated in games. Programs around the International Day against elderly abuse were held. During the human rights month elderly were taught about their rights and the importance of reporting whatever unsettle them.

(v) Challenges Relating To Gender Programmes And People Living With Disabilities

There are limited challenges pertaining to programmes for people living with a disability because the Forum for people living with a disability work closely with the municipality. The gender annual plan included programs for the sector and they are fully participating on the planned programmes.

(vi) Operation Sukuma Sakhe (OSS) & HIV And Aids Programmes

OSS is functional with challenges and it differs from municipality to municipality, however some of the Health Promotions are done with the with OSS municipal Bakkie to assist with HIV/AIDS activities.

(vii) Operation Sukuma Sakhe (OSS) And HIV/Aids Programmes Implemented During 2018/19 Financial Year

Monthly HIV/AIDS awareness programmes are conducted in all local municipalities, working closely with Department of Health and as per the requests from Wards and Civil Society.

Operation Sukuma Sakhe (OSS) planned programmes like School's Functionality, Public Service Volunteer Week (PSVW), 16 Days of Activism Launch against women and children, World AIDS Commemoration for the financial year were conducted with limited budget during the period under review.

(viii) Functionality Of The District Aids Council (DAC'S) And Local Aids Councils (LA'S)

During 2018 / 2019 financial year, the DAC was fully functional, as all Quarterly meetings were held, whereby such a structure was also utilised to adequately prepare for the Provincial Council On Aids quarterly meeting, which is being chaired by the Premier Of Kwa-Zulu Natal. However, during the period under review, challenges were experienced relating to the non-functionality of Local AIDS Councils (LACs). In most instances, the DAC Chairperson (who is the Honourable Mayor Of The District) had to intervene since poor functionality of such structures at a local level had an adverse effect to the District Report which get presented by the District Mayor in the quarterly meetings on Provincial Councils On Aids (PCS's. The District Civil Society remains one of the critical structures within the District and its family of municipalities, as it also provides ongoing support to all LAC's, and this includes mentoring various structures to ensure fully functional Ward Aids Council (WAC's) structures.

(ix) Moral Regeneration And Social Cohesion Programme (MRM)

The district MRM was launched in November 2019 and received warm welcome from the politicians. The Annual plan for MRM was presented to the district and the budget for MRM for 2019 / 2010 financial year was included in the municipal budget.

OVERALL ACHIEVEMENTS

- Improvement of attendance of officials in OSS programmes has been noticed and that has led to the slight increase in the number of functional War Rooms.
- War Rooms have been established in all wards, although there is no consistency in terms of their functionality.
- War Rooms have been established in all wards, with poor functionality also posing a challenge.
- Political leaders have clear understanding on how OSS operate and are championing all war rooms
- Local Municipalities are implementing OSS programmes i.e. HIV/AIDS and poverty alleviation.
- The DTT is functional with annual programmes being implemented in all wards
- Sector Departments are represented at the District Task Team of the OSS.
- Civil Society programmes have been aligned to OSS
- OSS empowerment programmes have been rollout to the community with different life skills.
- Public Service Volunteer Week gets implemented on an annual basis in all local municipalities.
- The District Municipality is striving to ensure that all the war rooms are functional and address the issues affecting the communities.
- MuniMec Resolution that was recently taken towards ensuring that Operation Sukuma Sakhe forms part of the performance agreements of all Section 56/57 Managers.

CHALLENGES

- Budget to implement OSS programmes remain a challenge however services that do not require funding are rendered.
- Some of the War Rooms are dysfunctional due to poor attendance of Sector Departments which leads to the cancellation of scheduled meetings.
- Poor functionality of Local Aids Councils in most local municipalities.
- Late submission and non submission of reports by various officials (including, but not necessarily limited to Sector Departments).
- Poor attendance by Sector Departments in most War Room Meetings.
- Financial constraints in Sector Departments which leads to interventions not being implemented.

- No physical structure for some of the War Rooms.
- Due to the topography and vastness of the wards in some instances does not allow the ward committee members to visit War Rooms.
- Although local communities get profiled, they are generally dissatisfied with poor implementation of identified interventions by relevant Sector Departments. Interventions.
- Lack of dedicated personnel dealing mainly with Operation Sukuma Sakhe, remains one of the major challenges in most of the local municipalities.

3.12.4 MUNICIPAL HEALTH SERVICES

3.12.4.1 BACKGROUND

Municipal Health Unit is charged with the responsibility of providing Environmental Health Services to the community of the District as well as monitoring the health and safety of the District Municipal employees. Municipal Health Services (MHS) as defined under the National Health Act, 2003 (Act No. 61 of 2003) comprise of inter alia, food control, water quality monitoring, waste management, health surveillance of premises, environmental pollution control, communicable disease control, disposal of the dead and vector control. Environmental Health Practitioners are therefore responsible for carrying out measures for protecting public health, including administering and enforcing legislation related to health and providing support to minimize health and safety hazards. Some of activities involved includes inspecting food facilities, investigating public health nuisances, and implementing disease control Measures, conducting work place safety assessments and accident investigation.

During the beginning of the financial year 2018/2019, the unit documented up the annual targets on duties that were to be performed and achieved by the end of the year. The targets were made out of competencies ranging from food control activities, water quality monitoring, communicable disease control, vector control disposal of the dead and pollution control.

Hereunder are some of activities we acted upon which forms major parts of our targets that were the highlights during financial the year

(a) Sale of Fake / Counterfeit and or Expired food stuff incidents.

During the year 2018/19, South Africa and Health fraternity in particular were shaken by foodstuff that surfaced from the social media and described as fake, counterfeit, harmful food colourants and expired foodstuff which lead to various protest incidence.

"Fake eggs being manufactured; fake eggs being cooked; fake plastic rice and fish; fake beef; fake mutton; coke 1,25L with some moving things inside; Fanta grape 1,25L label; Stoney ginger beer no size indicated; Fanta orange 1,25L; twist granadilla 2L; tonic water 1L; Valpre Spring water; Albany brown bread and Blue Band margarine; syrup being sold as honey; baked beans in a tin fish and amasi labelled as inkomzi were some of the scene observed."

Although most these incidence were prevalent in Johannesburg, the whole country was anxious and the iLembe District was not spared. In order to prevent the occurrence of similar incidents /nature in our district, we had to come up with a plan /or strategy to curb the spread. The plan lead to a number act and blitz that were conducted checking all food retailers, tuck shops, supermarkets, wholesalers etc. Operation Fiela Food Blitz as it was called, was carried out in the Mandeni and KwaDukuza area on the (10-11September and 14 September) respectively, as our Environmental Health unit issued several fines and confiscated banned, expired and fake goods.

These inter- departmental Operation Fiela was as a result of a National directive of the National Minister of Health Aaron Motsoaledi, to conduct food blitzes related to concerns of food safety. Blitz were carried out in conjunction with other stakeholders namely (SAPS, Crime Prevention, Town Planning and Building Control Unit. Liquor Authority, building inspectorate, fire and emergency services, Home Affairs (immigration), and business licensing teams).

(b) KwaDukuza Blitz

KwaDukuza blitz was initiated in partnership with Business Licensing Authority to embarked in a raid exercise on the 14/09/2018 to visit food and non-food premises, which is Item 1 as per the Business Act of 1991, Health Act 61 of 2003 and Foodstuffs Cosmetics and Disinfectants Act 54 of 1972 (Regulation 638 and 146).

The operation was aiming at enforcing the Law to businesses that do not comply with particular legislations and issue fines and notices for contraventions of the Law. A total of 15 Business premises were visited in KwaDukuza CBD and Ntshawini area.

(i) The Following findings transpired.

Item	Joint Provincial or Municipal Operations
A coordination structure was activated	Yes
Number of Joint Operations that Environmental Health undertaken	1
Total number of premises reached during the Joint Operation	12
Number of Premises operating without a valid Health Certificate	9
Number of Premises issued with Notices to seize operations	0
Number of Premises found to be Non-Compliant	9
Number of Compliance Notices issued	9

(ii) Report on actions taken

Item/ issue	Quantity		
	Number	Kilograms	Litres
Foodstuff Seized	23	21kg	
Foodstuff Detained			
	Number		
Number of Production Facilities inspected	0		
Number of Implicated products found	0		
Number of health awareness campaigns conducted	9		
Total number of people reached	13		

(c) Mandeni blitz

Similar plan as the KwaDukuza blitz, the Mandeni version was conducted from the 11 -12 September 2018 and attended by various Department and law enforcement agencies. Among those were the KZN Dept. of Economic Development, Tourism and Environmental Affairs, Department of Labour, Business Licensing/LED Mandeni, Fire and Safety, Building Control, Traffic Law Enforcement and Town Planning.

(i) Findings were

A coordination structure has been activated	Yes
Number of Joint Operations that Environmental Health undertaken	1
Total number of premises reached during the Joint Operation	17
Number of Premises operating without a valid Health Certificate	2
Number of Premises issued with Notices to seize operations	1
Number of Premises found to be Non-Compliant	9
Number of Compliance Notices issued	9

Item/ issue	Quantity		
	Number	Kilograms	Litres
Foodstuff Seized		400kg	55
Foodstuff Detained			
	Number		
Number of Production Facilities inspected	0		
Number of Implicated products found	0		
Number of health awareness campaigns conducted	0		
Total number of people reached	0		

(d) Mandate

Environmental Health Services has a legislatively mandated to conduct compliance monitoring and enforcement relating to food safety and related matters. The unit conducts routine inspections of all formal and informal food premises such as supermarkets, convenience stores, coffee shops, bakeries, retail meat markets, food processing plants, food warehouses, restaurants, take-away's, taverns and informal food traders.

Because Foodborne illnesses can be caused by improper food handling practices, inadequate temperature control, poor food storage practices, improper cleaning of equipment and utensils including food labelling and expired foods. The health unit inspections aims to protect public health by working to minimise adverse impacts on human health. This is also accomplished through health inspections, health education and enforcement.

Food premises inspections are conducted up to four times a year, depending on the risk level and complexity of the premises.

(e) Listeriosis Outbreak

Listeriosis was also another highpoint of the year where a number of people were stunned. The District saw a number of cases being prevalent reported and followed up.

Cases came from areas such as Lindelani in KwaDukuza, Dark City and Endulinde in Mandeni. These then required that our officers investigate each and every case that was reported and conduct inspections and awareness campaign to alert communities on the disease, mode of transmission and prevention measures.

All food retailers, supermarket, wholesaler, factories (food processing plants being audited: KwaSizabantu dairy farm and Boxer processed meats plant), and tuck shops had to be inspected and the implicated food stuff such as polonies, Vienna's, etc. from suspected factories were removed and destroyed at an approved land fill site. Environmental health Samples were also taken to laboratory for analysis. Result were shared with the affected parties.

Schools, churches, and other community venues were some of the areas that were visited to make sure that people were made aware of this disease and are well acquainted with adequate measures and information to prevent the spread by avoiding those infected food products and returning those that were already purchased to the retailers obtain from. Detailed reports had to be forwarded to council and also to the National Department of Health to facilitate monitoring and surveillances.

(f) Vector Control

The outbreak and spread of communicable diseases by vectors and pests such as malaria, cholera, plague, etc. are prevented by vector control programmes. This is done mainly by controlling their habitats and breeding places. When complaints are reported, an investigation is done; vectors (rodents or mosquitoes, flies and other pests), their habitats or breeding places are identified; and remedial or preventative measures are instituted to eradicate the vectors. 600 breeding site were investigated and exterminated.

(g) Rabies Outbreak

Storming from a number of incidents of dog bites and confirmed positive rabies cases reported in the District, such as the two children that died as a result of this rise in animal rabies i.e.

A three-year-old boy on holiday with his family in Blythedale Beach that passed away following an attack by a feral cat, which followed the first human death in the District that took place in September 2017 involving a six-year-old boy who was bitten by a dog in Ndwedwe (eSdumbini area) Ntabamhlophe and Various other incidences that were reported in areas such as Masomoco in Mandeni, re infected cow/ bovine, Maphumulo (7 infected cows/ bovine) couple with others scattered rabid dog bites incidences within the district .

Our office in conjunction with the department of Agriculture and Rural Development had to intervene by conducting mass vaccination and awareness's campaign in the district order to curb the spread

According to the National Department of Health, the Rabies outbreak in KZN started in King Cetshwayo District in the North Coast and then spread South through iLembe and eThekwini.

Rabies are a fatal viral encephalitis disease transmitted by the bite of an infected animal (>95% from dogs) with virus laden saliva entering the wound and attacking the nerve cells. Once bitten people are advised to wash the wound immediately with soap and place under running water for five to ten minutes. Death is preventable once disinfectant has been applied and follow-up pa

In KZN, dogs and cats are the main source of the disease (>80%) and are required to be vaccinated by law.

(h) Achievements

(i) Air Quality Monitoring

The section strives to reduce air pollution and improve the quality of air by identifying, investigating and monitoring pollution sources, and instituting remedial or preventative measures. The designated Air Quality Officer of the district ensures compliance with the Air Quality Act. The Unit was able to come up with an Air Quality Monitoring station, this was achieved through a good support and working relationship with the KZN Department of Tourism and Environmental affairs (EDTEA) who assisted in installing a Continuous Air Quality Monitoring Station in Ballito at the iLembe Enterprise Offices and at Siqumbe in Mandeni.

The municipality will utilize these legislative tools to license industries and ensure that they comply with the minimum emission standards, ensure facilities are reporting their emissions to the National Atmospheric Emission inventory, conduct health impact studies, and ensure that

the ambient air quality standards and dust control standards are not exceeded by conducting ambient air quality monitoring

The act is in line with efforts to safeguard the constitutional right to an Environment that is not harmful to health and wellbeing. The station would be used to provide the benchmark for air quality management and governance.

(ii) Health Education / Awareness Campaigns

The unit also visited a number of school in a mission conduct awareness so as to impact knowledge to younger people and communities. A total of 80 schools were visited this year. Some of the issues dealt with during school visits includes:

(iii) Personal Hygiene

To promote health and prevent disease and disabilities by developing communities and systematic strategies to improve health knowledge, attitudes, skills and behaviour.

(iv) Water Quality Preservation Awareness

Environmental Health monitors the quality and availability of water intended for human consumption, as well as for recreational, commercial and industrial use.

The EH unit monitors surface water for waterborne diseases such as cholera, typhoid, dysentery, polio and hepatitis through sampling of rivers, streams and sewerage purification plants. Drinking water sources are also monitored for their compliance with the legislated standards.

Ensuring water safety in respect of safe quality (microbiological and chemical), and accessibility to an adequate quantity for domestic use as well as in respect of the quality of water for recreational, industrial, food production and any other human and animal use in order to prevent and eliminate water borne illnesses

(v) Food Safety Awareness

Ensuring that food is handled in a hygienic manner from a point of origin (i.e. during production, storage, processing, distribution and sale). All food should be safe, wholesome and fit for human consumption and should conform to the legislative requirements as they relate to safety, nutrition, quality and labelling (expired, use by and sell by).

(vi) Communicable Disease Control

To prevent the occurrence and/or manifestation of environment-related or communicable diseases. This includes planning and execution of education and hygiene promotion programmes aimed at preventing environmentally induced diseases and related communicable diseases. Healthy lifestyles, personal hygiene as well as a safe and healthy environment are key to the prevention of diseases.

CHAPTER FOUR: ORGANISATIONAL DEVELOPMENT PERFORMANCE (PERFORMANCE REPORT PART 2)

4.1 INTRODUCTION AND OBJECTIVES OF THE DEPARTMENT

The Department renders support service to other Business Units of the Municipality in order to effectively deliver services to the community through the following functions:

- Support Services
- Human Resources Management
- Legal services
- Security Services
- ICT

The agenda and programme of the Department of Corporate Services is informed by the following goals and objectives:

- a) To provide professional administrative support to Council and all Departments and their Business Units of the Municipality.*
- b) To provide effective management and maintenance of the Municipality's facilities and fleet.*
- c) To position the Department as a strategic hub for acquiring the best human resources in the form of skills and talent, nurture and harness human development and growth, recognize and acknowledge excellent performance, empathize and support staff, and strive for retention of the workforce.*
- d) To provide professional legal advice to line function Departments.*
- e) To provide an innovative, effective and efficient Information and Communication Technology service that enables the achievement of the Municipality's objectives as set out in the IDP.*
- f) To provide guidance and support to all Departments and their Business Unit with regards the acquisition, deployment and maintenance of electronic systems within the Municipality.*
- g) To provide an effective security service in accordance with the prescribed Acts, By-laws and Regulations.*

4.2 ACHIEVEMENTS AND CHALLENGES

The achievements and challenges of the Department are presented herein according to the outcomes of the Corporate Services Department's own mini strategic plan which recognized all 5 Units, *i.e. HR, ICT, Support Services, Legal, and Security.*

4.2.1 ACHIEVEMENTS

(a) Human Resources:

- Filling of positions particularly the critical senior managers' positions, particularly the *Municipal Manager and Senior Manager: Community Services.*
- The adoption by Council, of the reviewed Municipal Staff Establishment (Organogram) and the prioritization of posts which is done to comply with the austerity measures that are being implemented in the Municipality.
- Maintenance of sound and peaceful Labour Relations.
- Successful review and introduction of Policies which have been done through a participatory process.
- Provision of meaningful and relevant Employee Assistance Programmes which include the organizing of dignified memorial services amongst others.
- Successful training and development of employees and community particularly the unemployed Youth.
- The implementation of Employee Performance Recognition Awards.
- The maintenance of the implementation of the TASK Wage curve remuneration management system.
- The conclusion of the writing of the Job descriptions and submission to the SALGA Job Evaluation Committee.
- The successful maintenance and keeping up with the HR related compliance issues, *i.e. timeous submission of Employment Equity Report, and the Workplace Skills Plan (WSP).*
- The promotion and maintenance of occupational safety through the Safety Committee, Safety Representatives, continuous site inspections, and repetitive training to employees, supervisors, and the Reps.

(b) Information Communication Technology:

- (i) Providing savings of R300 000 per month in printing/ copying costs through the implementation of the office automation solution.

- (ii) Improving internet bandwidth (speed) from 2mbps to 10mbps while maintaining cost from R18 400 to R18 800 per month.
- (iii) Introduction of digital tools of trade (tablets) to improve communication for Councillors and traditional leaders.
- (iv) Rapid response in resolving it problems (inclusion of job card system)
- (v) Full provision of staff ICT tools of trade to all those who needs them
- (vi) Full equipped ICT server room
- (vii) Established ICT governance structures (DGITOC – information technology officers council and ICT steering committee)
- (viii) Adoption of various ICT policies
- (ix) Minimize ICT audit queries which contributed to the municipal clean audit

(c) Support Services:

- Proper management of committees
- Adoption of fleet management policy
- Adoption of Vehicle Subsidy Policy
- Increased the provision of the fleet (e.g. Water Tankers increase from 6 to 15)
- Changed the alignment functions and perception that this Division had the responsibility of rendering only Committee Management function instead of Fleet, Records, Facilities Management
- Improved physical set up of the Records Management System in order to comply with the Archives legislation
- Electronic distribution of agendas for both management and Councilors

(d) Health & Safety (Environmental Health)

- Expansion of environmental health services as result of the devolution of this service from Provincial to Local Government in 2014.
- The appointment of Pollution Officer
- Installation of the Pollution dictation tool at Haysome Road close to Disaster Management Building
- Constantly updated Council (reports to the portfolio committee) on the issues of Environmental Health within the District
- Constant monitoring of water quality and reporting abnormalities timeously.

(e) Legal Services:

- 100% success rate in dealing with objections/appeals against decisions of the Bid Adjudication Committee in their award of tenders.
- Successfully defended all legal actions instituted against the Municipality.
- Introduction of an Incident Register to monitor possible legal claims against the Municipality.
- Dealt with the review of Service Level Agreements signed between the Municipality and Service Providers

4.2.2 CHALLENGES

(a) Human Resources :

(i) Recruitment:

- Uncomfortable staff turnover due to resignations, retirement, and deaths.
- Difficulty in attracting and retaining skilled personnel due to the Task Remuneration system.
- Compliance with the EEP not adequate.
- Slow progress in the conclusion of the Job Evaluation exercise done by the SALGA Committee.

(ii) Training:

- Shortage of Training Venues
- Limited budget for training
- Non-compliance by Staff and Councilors with the skills questionnaire form which affect WSP
- Shortage of vehicles to transport Councilors, staff, and external learners to training venues
- Insufficient training of employees due to financial issues which affected the implementation of the WSP.

(iii) Occupational Health & Safety

- Limited budget to address issues identified through occupational and health risk assessment and safety plan.
- Delay and poor response to report and investigate incidents and accidents.
- Unpalatable working conditions: office space, and conditions of the buildings.
- Occupational risk to employees working in the night shift.

(iv) Labour Relations:

- Insufficient strategic engagement sessions outside the LLF between Shop Stewards and Management.
- Historical unending disputes.
- Flimsy disputes that take time and resources to respond to at SALGBC and CCMA.

(v) EAP

- Wellness programmes affected by Austerity Measures.
- Insufficient support by Supervisors to EAP employees.
- NJMPF & SALGA dispute on defined contribution vs defined benefit issue.
- Non-registering of beneficiaries by employees.

(vi) Information Communication Technology:

- Poor attendance of ICT awareness sessions by departments
- Acquisition of ICT systems by departments without involvement of the ICT unit
- Lack of Management of SLAs for some ICT systems
- Lack of budget for training of ICT staff
- Expired ICT Master System Plan
- Lack of the consolidated ICT municipal systems

(vii) Support Services:

- Disregard of the Fleet Management Policy by staff.
- Not conducive office environment
- Lack of accessibility of municipal offices by people that are specially enabled (Lift)
- Lack of Office Space and parking
- Ablution facilities that are over allocated
- Constant breakdown of old air conditioning system
- Lack of fleet mechanical workshop
- Lack commitment by some of cleaning staff
- Financial constrains to conduct renovation particularly satellite offices and Auditorium
- Lack of a proper Council Chamber

(viii) Legal Services:

- Any delay by other departments in alerting the Unit about litigations against the municipality places the municipality at risk; and
- Lack of access to research tools compromises the work of the Unit.
- Lack of staff capacity.

4.3 THE MUNICIPAL PERSONNEL

There has been a focus on building strong Municipal administrative systems and processes. It includes ensuring that administrative positions are filled with competent and committed people whose performance is closely monitored. Targeted and measurable training and capacity building will be provided for Councillors and Municipal Officials so that they are able to deal with the challenges of local governance as well as ensuring that scarce skills are addressed through bursary and training programmes.

The basic requirements to be monitored include:

- (a) Ensuring that the top six posts (Municipal Manager, Finance, Technical Services, Corporate Services, and Community Services) are filled by competent and qualified persons.
- (b) That the Municipal staff establishment (organogram) is realistic, underpinned by service delivery model, and affordable.
- (c) That there are implementable human resources development and management programmes.
- (d) There are sustained platforms to engage organised labour to minimise disputes and disruptions.
- (e) Maintaining adequate levels of experience and institutional memory.

4.4 THE STAFF STRUCTURE

The amended / reviewed staff establishment of the Municipality was adopted and approved by Council on the 30 May 2017. The amendments / review of the staff establishment was done to make the Municipal Staff Establishment to be aligned with the strategic directive of the new Council's term of office, *i.e.* 2016 – 2021. The amendment / review of the Staff Establishment resulted with the creation of new posts which added to the number of vacant posts in the Municipality. The new posts and the application of the Austerity measures, led to the vacancy rate being above the COGTA expected norm of 12%. The vacancy rate had, since the adoption of the staff on the 30 May 2017, remained at 22% despite the prioritisation of posts.

The review of the IDP and the compilation of the 2018/2019 budget, provided an opportunity to make amendments to the Staff Establishment in order to be presented simultaneously with the IDP and Budget. The review intended to ensure that the Municipality's human resources is aligned with the both the strategic guideline and finances. This is provided for and clearly prescribed in Chapter 2 of the Local Government: Municipal Planning and Performance Management Regulations. Section 2 (1) (a) with the heading: detail of integrated development plan, states the following:

'A municipality's integrated development plan must at least identify, the institutional framework which must include an organogram.

The reviewed staff establishment was presented to the Special Council meeting held on the 28 June 2018, and the following was resolved:

- 1) adopt the reviewed Staff establishment according to the prioritized posts in order to ensure alignment with the affordability of the new financial year budget 2018/2019.*
- 2) approve the list of the prioritised posts that would be filled in the 2018/2019 financial, in accordance with the budget affordability of the Municipality.*
- 3) conduct recruitment in the 2018/2019 financial year according to the prioritized posts, with emphasis on service delivery related posts.*
- 4) ensure that the recruitment is compliant and adhere to legislation and Regulations particularly the Employment Equity Plan.*
- 5) to subject all Municipal posts to a highly scientific need analysis that would be done by an independent professional institution*

The table summary of the staff establishment of the Municipality as approved by the Special Council on the 28 June 2018 is as follows:

ESTABLISHMENT	NUMBER OF POST	STAFF COMPLEMENT	UNBUDGETED POSTS	SHARED SERVICE	VACANCIES	% VACANT
TOTAL POSTS	732	568	74	3	94	13.3%

Turn-over-Rate			
Details	Total Appointments as of the Beginning of Financial Year	Terminations during the Financial Year	Turn-over-rate (%)
	No.	No.	
2012/2013	456	44	9.64%
2013/2014	559	35	6.26%
2014/2015	553	3	0.54%
2015/2016	577	15	2.60%
2016/2017	582	43	7.38%
2017/2018	561	29	5.61%
2018/2019	567	28	4.93%

The approved staff establishment indicate that the Municipality has a total of 732 approved posts, 568 posts are filled, 74 posts are frozen, and 94 posts are prioritized as vacant. The vacancy rate has decreased from 23% to 13.3%. The reduced vacancy rate figure is somehow affected by the frequency of terminations which is due to resignations, retirements, and sometimes death.

4.5 EMPLOYEE TOTALS, TURNOVER AND VACANCIES

Turn-over-Rate			
Details	Total Appointments as of the Beginning of Financial Year	Terminations during the Financial Year	Turn-over-rate (%)
	No.	No.	
2011/2012	103	30	29%
2012/2013	110	30	27%
2013/2014	23	32	139%
2014/2015	54	20	37%
2015/2016	16	19	118%
2016/2017	16	34	213%
2017/2018	27	19	70%
2018/2019	12	15	125%

Terminations is deemed fair if it is in line with Section 188 of the Labour Relations Act which state that termination should be based on operational requirements, ill-health, and conduct. The terminations from the Municipality caused a concern from both the Management and organised labour. The monthly report on staff movements includes update information on terminations. The report as cited, also includes a summary of issues raised on exit interviews.

(a) Findings From Exit Interviews

Employees who voluntarily leave employment with IDM, are always encouraged to take part in a confidential exit interview. The interview is held either with a member of the Human Resources Unit, or with their respective superior. Records and figures of the employees leaving, and their reasons are monitored and reported on a monthly basis. A total of 15 employees have voluntary left IDM. Their reasons as collected from the data in their exit interview files, vary and include the following:

- 1) leaving IDM voluntarily because of a lack of advancement and a better opportunity in another institution;*
- 2) salary improvement (the Task Age Curve seem to be not attractive for retention, particularly to the employees who are Personal-To-Holder);*
- 3) commuting problems and family challenges; and*
- 4) a minority of employees cited the relationship with their immediate supervisors and lack of challenge in the work performed, as contributing to their decision to leave IDM.*

Overall however, the attitudes of most people leaving IDM were positive towards the Municipality. Issues of a friendly organisational culture, relationships with colleagues, and Managers, work/life balance, and job security were rated highly by the leaving employees.

6.6 MANAGING THE MUNICIPAL WORKFORCE

The policies listed below together with all relevant legislation, the Collective Agreements as agreed upon at the South African Local Government Bargaining Council (SALGBC), and the various Regulations that are provided by COGTA, are used to ensure proper management and governance in the Municipality. The Policies as listed below continuously get reviewed on the continual basis in order to ensure their relevance and compliance with the developments and amendments to legislations and regulations. Both the legislation and Policies are used in the management of the municipal workforce.

Further, the successful delivery of services is dependent on the staff that strictly adhere to the Batho-Pele Principles, and the Back-to-Basics Programme. The strict adherence to legislation, Policies, Batho-Pele Principles, and the Back-to-Basics Programme means that ALL Municipal staff should be competent, professional, impartial, sensitive, compassionate, dedicated, and committed. The achievement of the noble ideal for the successful delivery of services requires that the Municipality's collective actions adhere to the following:

- a) the development and maintenance of a sustainable Staff Establishment that is geared and designed for effective and efficient service delivery,
- b) the fair recruitment process that is focused on the merit requirements that are consistent with the task to be performed for the improvement of the quality of lives (compliance with relevant legislative framework: EEA etc.),
- c) the up-skilling and development of staff that is based on both the individual willingness to improve his/her skills and qualifications, as well as the Municipality that provides a conducive environment for individual, group, and institutional development and growth (budget and training facilities within the available financial means),
- d) the up-skilling and development of Councillors that is based on both the individual willingness to improve his/her skills and qualifications, as well as the Municipality that provides a conducive environment in order for the Councillors to be able to progress beyond the political domain,
- e) the development and empowerment of the community served by the Municipality through meaningful internships and learnerships that contribute to the skills development of the District, Province and the country at large (Youth given more priority),
- f) maintenance of sound and stable labour relations through LLF and quarterly bilateral engagements,
- g) the continued support of staff through the EAP activities that promote wellness in order to effectively contribute to service delivery,
- h) improving performance for effective service delivery through the cascading of the Performance Measurement System (consideration of the financial impact in the light of the current circumstances),
- i) the reinforcement and strengthening of the conducive work environment through adherence and compliance with the legislative framework on Occupational Health & Safety (starting point being the urgent appointment of the OH&S Officer),

- j) serious consideration and implementation of the skills attraction and retention approach, system, and mechanism.

4.7 POLICIES

HR Policies and Plans				
No.	Name of Policy	Completed %	Reviewed %	Date adopted by council or comment on failure to adopt
1	Employment Equity and Affirmative Action	100%	100%	The Municipality Employment Equity Plan addresses Affirmative Action issues.

				Regulations for Councilors, MM, and Snr Managers.
26	Resettlement	N/A	N/A	Covered in the Recruitment and Selection Policy
27	Sexual Harassment	100%	N/A	Work-in-progress
28	Skills Development	100%	100%	Reviewed and adopted annually with the WSP.
29	Smoking	N/A	N/A	Covered in OHS Policy
30	Special Skills	N/A	N/A	Still to be developed
31	Work Organisation	N/A	N/A	Still to be developed
32	Uniforms and Protective Clothing	100%	100%	To be reviewed together with the OH&S Policy.
33	Other:	-	-	-

4.7.1 POLICIES UNDER REVIEW AND BEING INTRODUCED

Policy development, monitoring and assessment is a continuous process that institutions or organisations must undertake periodically. The review of HR policies is one of the key performance areas for Corporate Services as contained in the SDBIP. The HR Division has developed four (4) Draft Policies that have to be reviewed in the current financial year 2018/2019. The review of the Draft Policies will be undertaken to ensure that the Municipality's policies are adapted to reflect changes that are effected by developments in legislation, collective bargaining agreements, and Council's resolutions, as well as the community and the employees' views. The HR Unit has identified the policies to be reviewed and making research so that the first draft Policies be presented to MANCO, LPA, LLF, and Council before being taken out for consultation with all employees.

4.8 LEAVE MANAGEMENT

The leave management within the Municipality is implemented in accordance with the prescripts of the SALGBC: Main Collective Agreement, Leave Management Policy of the Municipality, and applicable legislations. The leave system has the following

categories: annual leave, sick leave, family responsibility leave, maternity leave, study leave, and special leave.

LEAVE MANAGEMENT					
Details	Annual	Sick leave	Family Res. Leave	Maternity Leave	Special Leave
2017/2018	10388	3913	249	482	106
2018/2019	10994	3634	322	280	57

a) Annual leave

Each employee is entitled to twenty-four (24) days annual. The collective agreement and policy stipulates that employees are compelled to take sixteen (16) leave days and can only retain a maximum of forty eight (48) days as accrued leave. The annual leave is only type of leave that accrues and it has a huge financial impact to the Municipality, if not utilised accordingly. There has been an increase in a number of people who accrue their leave, particularly towards pension or resignation. Follow up letters have been written to the employees to encourage them to take the annual leave in adherence with the Main Collective Agreement and Leave Management Policy.

b) Sick leave

Each employee is entitled to 80 days sick leave in a period of a three year cycle. While the abuse of the sick leave has improved significantly, there is a serious concern regarding employees who have either exhausted or utilized more than (60%) of their sick leave. In simple terms they have less than thirty (30) even zero sick leave balances. Letters have been written to the affected employees advising them regarding their sick leave days balances. Supervisors have been alerted and requested to conduct assessments in respect of these employees as they might require other appropriate interventions, *i.e. employees' assistance programs and assessment for potential medical boarding.*

c) Family responsibility

The family responsibility leave is guided by the Collective Agreement. An employee is entitled to a non-accumulative 5 days annually.

d) Maternity leave

Female employees are entitled to receive three (3) months paid maternity leave per confinement, with no limit to the number of confinements, provided

that an employee has one (1) year service with the Municipality. Whilst doing leave audit, it was found that some employees do not apply for maternity leave, four (4) weeks prior of taking such leave, in terms Section 25 (2) (b) of Basic Conditions Employment Act 75 of 1997 as amended. The matter was addressed accordingly after it had been brought to the attention by an Internal Auditor's query. The Policy will be reviewed to improve control mechanism.

e) Special leave

Special leave on full pay is granted to an employee in accordance with the SALGBC Collective Agreement of the KZN Division, and Leave Management Policy. The special leave is done under the following instances:

- i. Court appearances by employee as witness;
- ii. Study purposes;
- iii. National and provincial sports representation.
- iv. The application for this leave must be accompanied by documentation that supports the application.
- v. The leave is limited to a maximum of 10 days per annual cycle.

The study leave is the most prevalent leave under special leave, since more Municipal employees have joined the Municipal Assisted Education Scheme in terms of applicable policy. Employees are given 2 days leave to prepare and write exams.

4.9 OCCUPATIONAL HEALTH AND SAFETY INCLUDING INJURIES

The Municipality has always maintained a remarkable low record of fatalities and/or serious injuries on duty. The EAP roadshows, appointment of professional OH&S Officer, and the election of Occupational Health and Safety Representatives in each Department has also significantly contributed to the wellbeing of employees of the Municipality and a low level of injuries.

The Occupational Health and Safety function which was initially under the Environmental Unit, was relocated to the Human Resources Unit. The incumbent who performed the duties thereof then, was transferred to the position laterally to the then existing vacant position of Senior Pollution Control Officer. This rearrangement effectively made the position of Officer: Occupational Health and Safety vacant. The

recruitment processes for the position ensued and the suitable candidate resumed duties on the 15 May 2017. The first directive to the appointed Officer: Occupational Health and Safety was that of providing a clear analysis of the Municipality's in relation to situation occupational health and safety.

The Officer: Occupational Health and Safety (accompanied by a colleague), makes regular visits to the workplaces of the Municipality in order to provide an informed situational analysis. The workplace site visits involves a brief discussion with some employees and Supervisors at depots, and also a meeting with the Health and Safety Representatives, and representatives of trade unions. The visits also briefly went to some remote plant workplaces, and also some areas where there is construction in order to assess the plant and perimeter, construction work and interview the employees and operators.

4.10 DISCIPLINE, AND SUSPENSIONS

The conclusion and signing of the Disciplinary Procedure Collective Agreement at the SALGBC, has brought adequate regulation and management of discipline within the Local Government sector. IDM complies with Collective Agreement in the application of discipline, and strictly adhere to the principles of natural justice. A total of thirty four cases have been undertaken in the Municipality and their status is presented in the table below:

NATURE OF CHARGES	SANCTION / STATUS	NUMBER OF EMPLOYEES
Gross Misconduct	Acquitted	2
Gross Misconduct	Warning	3
Gross Misconduct	Final warning	14
Gross Misconduct	Suspended	1
Gross Misconduct	Dismissal	3
Gross Misconduct	Ongoing cases	11

4.11 CAPACITATING THE MUNICIPAL WORKFORCE

(a) WORKFORCE CAPACITY DEVELOPMENT

The Municipality remain committed to the development of internal and external capacity by providing various skills development intervention aimed at improving the performance of individual employees, Councillors and providing skills to unemployed

youth within the district. The HRD Committee, ensures that the Workplace Skills Plan (WSP) which is aligned to the Municipality's strategic objectives, is developed annually in line with the Skills Development Act and Local Government Sector Education and Training Authority (LGSETA) guidelines. Funding to implement learning programmes is provided by the Municipality or sourced from the LGSETA.

The Workplace Skills Plan focused on the following learning programmes:

LEARNING PROGRAMMES	NUMBER OF BENEFICIARIES
Water Wastewater Treatment	12
Occupational Health and Safety	19
Project Management	03
Various formal studies	23
Councillor Development	26
Supervisory Skills Programme	07
COMPUTER LITERACY	16

4.12 LABOUR RELATIONS

The basic HR/labour responsibilities that the Municipality must deal with relate to ensuring the balance between management and employees, dealing with disputes, and maintaining good relations with the Trade Unions. All the issues as listed were performed adequately, save that there were issues of serious concern that almost crippled the Municipality. The issues relate to the following: working conditions, disputes, conduct and behaviour, engagements, and distressing/saddening personal matters relating to individual employees.

4.13 IGR: CORPORATE SERVICES FORUM

The IGR Corporate Services Forum came into being during 2016/2017 financial year. The Forum consists of all the Directors of Corporate Services and the HR Managers from the family of Municipalities under IDM. The Forum meets consistently and submit its work and reports to the Municipal Managers Forum who in turn endorse and/or elevate issues raised by the IGR Corporate Services Forum. The forum has among other things, succeeded to ensure that Municipalities share and empower one another on issues relating to Policies, Job Evaluation, compliance with all relevant legislation and Regulations, particularly relating to HR, and above all strategies to maintain workplace peace in Municipalities within the District.

4.14 MANAGING WORKFORCE EXPENDITURE

Total Employees costs for the financial year under review amounted to R134 335 596 million against the budget of R90.7m. This represents 99% spending on salaries budget. The variance is attributed to savings amongst others. Overall, the employee costs represent 27% of total operational expenditure which is well within the 35% threshold as per National Treasury guidelines.

4.14.1 WORKFORCE EXPENDITURE

(a) REMUNERATION PACKAGES OF THE MUNICIPAL MANAGER AND MANAGERS DIRECTLY ACCOUNTABLE TO THE MUNICIPAL MANAGER

The Municipality complies with the Government Gazette No 41173 of 10 October 2017: Notice 1092 as issued by National Minister of COGTA, i.e. *Local Government Remuneration Framework for the Remuneration Packages Payable to Municipal Managers and Managers directly accountable to Municipal Managers*. The current total remuneration package of the Municipal Manager and the Managers reporting to the Municipal Manager is therefore structured as follows:

Designation of senior manager	Actual remuneration	
	Total salary package in terms of 2017 Notice	Total salary package in terms of 2017 Notice
MUNICIPAL MANAGER	R1 071 375.00	R1 071 375.00, R1 245 786.00, R1 420 196.00
SENIOR MANAGER: TECHNICAL SERVICES	R1 2 78241	R884 770.00, R1 022 855.00, R1 160 941.00
SENIOR MANAGER: COMMUNITY SERVICES	R884 770.00	R884 770.00, R1 022 855.00, R1 160 941.00
CHIEF FINANCIAL OFFICER	R1 022 855.00	R884 770.00, R1 022 855.00, R1 160 941.00
SENIOR MANAGER: CORPORATE SERVICES	R1 232 157	R884 770.00, R1 022 855.00, R1 160 941.00

5.1 INTRODUCTION

The purpose of this report is to provide information that would be useful to users of the annual financial statements for accountability and decision making purposes by enabling them to gain an insight into the operations of the iLembe District Municipality from the perspective of the municipality. It also provides the opportunity to reflect on the municipality's interpretation of significant items, transactions and events affecting the financial position, financial performance and cash flows of the municipality. Therefore, this financial statement discussion and analysis complements the information in the 2018/19 Audited Annual Financial Statements. This financial statement discussion and analysis report is consistent with the 2018/19 Annual Financial Statements and the underlying items, transactions and events, as well as assumptions such as those relating to recognition and measurement. The following is included in this report:

- (a) An overview of the iLembe District Municipality's operations and the environment in which it operates;
- (b) Information about the iLembe District Municipality's objectives and strategies;
- (c) An analysis of the iLembe District Municipality's financial statements including significant changes and trends in its financial position, financial performance and cash flows; and
- (d) A description of the iLembe District Municipality's principal risks and uncertainties that affect its financial position, financial performance and cash flows, an explanation of changes in those risks and uncertainties since the last reporting date and its strategies for bearing or mitigating those risks and uncertainties.

5.2 GOVERNANCE: LEGISLATIVE/REGULATORY STRUCTURE AND MANAGEMENT STRUCTURE

The compilation of the Annual Financial Statements is governed by the regulatory requirements that are prescribed by firstly the South African Standards of Generally Recognized Accounting Practice (SA Standards of GRAP), requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No.56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2018 (Act No.3 of 2017) (DoRA). The Accounting Officer ("Municipal Manager") is responsible for the preparation and fair presentation of the financial statements in accordance with SA Standards of GRAP and

the requirements of the MFMA and the DoRA, and for such internal controls as the Accounting Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In terms of the MFMA System of Delegations as adopted by the Municipal Council of the iLembe District Municipality the Chief Financial Officer (CFO) is directly responsible for the preparation and fair presentation of the financial statements and for the internal controls that are necessary to enable the preparation of financial statements that are free from material misstatement. Hence the CFO is required to undertake and manage all relevant work outputs to achieve the final preparations and submission to the Accounting Officer to meet the prescribed time frames.

iLembe District Municipality has established a Budget and Treasury Office (Finance Department) i.e. the office of the Chief Financial Officer in terms of section 80 of the MFMA. The finance department is headed by Mr M Chandulal as Chief Financial Officer. The department is mainly responsible for the overall direction, monitoring and management of the finances of the municipality and for such roles as defined by sections 81 and 79 of the MFMA. The Management Structure of the Budget & Treasury Office for which Chief Financial Officer is the administrative head is documented as follows:

(i) Budget and Compliance Monitoring

This unit is headed by Manager Budget & Compliance, Mr. S Chonguene. The unit head is responsible for coordinating the budget preparation, implementation and monitoring processes, internal and external financial reporting and compliance monitoring in terms of sections 68 to 75 of the MFMA. This unit has three (3) sections i.e. Budget and Reporting, Municipal Standard Chart of Accounts Project Office and Annual Financial Statements and compliance monitoring.

(ii) Revenue Management

This unit is headed by Manager: Revenue; Mr M Gumede and is delegated the functions and responsibilities for the management of the revenue of the municipality in terms of section 64 of the MFMA. This unit has three (3) sections i.e. Revenue management, Credit control and collections, and Accounts administration and customer care.

(iii) Supply Chain Management

This unit is headed by Manager: Supply Chain Management; Mr N Xulu and is delegated the functions and responsibilities for Supply Chain Management in terms of chapter 11 of the MFMA. This unit has three (3) sections i.e. Demand and Acquisition Management, Contract Management and Logistics Management in terms of regulation 39 of the MFMA SCM regulations.

(iv) Expenditure Management

This unit is headed by Manager: Expenditure; Mr T Shezi and is delegated the functions and responsibilities for expenditure management in terms of sections 65 and 66, Cash management and investments in terms of section 13, municipal debt management in terms of chapter 6 and municipal bank accounts in terms of chapter 3 part 2 of the MFMA.

(v) Assets Management

This unit is headed by Manager: Assets Management; Mr EN Ngcobo and is delegated the functions and responsibilities for asset management in terms of section 63 and capital assets disposal in terms of section 14 of the MFMA.

5.3 iLEMBE DISTRICT MUNICIPALITY'S RELATIONSHIP WITH OTHER ENTITIES THAT COULD AFFECT ITS FINANCIAL POSITION, FINANCIAL PERFORMANCE AND CASH FLOWS

iLembe District Municipality has the following relationship with the following entities:

- A wholly owned entity with net assets of R20 million – iLembe Management Development Enterprise (Pty) Ltd;
- R30 million long-term loan with ABSA Bank bearing an interest rate of 10.8% per annum, interest is paid quarterly and the loan is repayable in May 2020;
- R44 772 380 long-term loan with Development Bank of South Africa bearing interest rates between 9.02% and 11.04% per annum payable every six months with the last repayment due on 30 September 2025; and
- R27 million investment with ABSA, this investment has been ceded as security against the long term loan from ABSA.
- Initially from iLembe District point of view, R16 million receivable from non-exchange transaction was owed to the municipality by other organs of the state

for infrastructure projects (Department of Co-operative Governance & Traditional Affairs. However, this matter was raised as an audit finding, where it was concluded that the nature of the transaction cannot be classified as a trade receivable, and has been recognised in the 2018/2019 AFS at nil balance (both current and comparative figures)

- R150 million Bulk Water purchases mainly from Umgeni Water.
- R119 million contracted services for various service delivery functions, and R144 million for the group.
- R114 million outstanding consumer debtors of which 87% is attributable to households.
- R170 million trade payables and accruals, the majority of which is attributable to infrastructure projects, vehicle leases and bulk water.

5.4 EXTERNAL TRENDS, EVENTS AND DEVELOPMENTS IN LEGAL, REGULATORY, SOCIAL, POLITICAL AND MACRO-ECONOMIC ENVIRONMENT THAT IS SPECIFIC TO THE ILEMBE DISTRICT MUNICIPALITY WHICH HAVE OR MAY HAVE A SIGNIFICANT IMPACT ON ITS FINANCIAL POSITION, FINANCIAL PERFORMANCE AND CASHFLOWS.

The aforementioned comprise of the following, namely:

(i) Water Distribution Losses

iLembe District Municipality has incurred water distribution losses of approximately 62%. This is mainly due to illegal connections, main leaks (ageing infrastructure), reservoir overflows and service connection leaks. A five-year strategic master plan for the reduction of non-revenue water has been adopted by the municipality to address this problem.

The following immediate actions are also underway in order to deal with the challenge:

- Formulation of a preventative infrastructure maintenance plan and sourcing of funding for implementation – The maintenance plan completed.
- Conversion of prepaid as they discovered to be malfunctioning which includes full meter audit to identify and deal with illegal connections and service connection leaks – this currently underway and ongoing.
- Zoning and installation of control meters to control and monitor water distribution and completeness of revenue.

- Removal of stand pipes water connections and reduction of supply of water through water tanker system.
- Non- revenue loss management through the appointment of a service provider to implement the above, manage telemetry and contain reservoir over flows.
- Interventions through the Vuthela LED project to assist with a pilot project in Sundumbili at Mandeni Local Municipality

(ii) Low Debt And Revenue Collection Rate

Low debt and revenue collection is a legacy issue that the municipality inherited and is currently dealing with. The effect of this is an extreme strain in the cash flows of the municipality, high dependence on grant funding and low liquidity ratio. The annual municipal budget is mainly reliant on the forecasted revenue collection that will fund the expenditure throughout the financial year. When the projected collection rate is not achieved with no corresponding decrease in expenditure, it results in the implementation of a budget that is not cash backed. Fortunately the Municipality has presented a balanced and funded budget for the 2018-2019 year and the 2019-2020 financial years. The collection rate for the 2018.2019 financial year is 64% as at 30 June 2019.

The following are some of the main challenges affecting the debt and revenue collection of the municipality:

a. Significant number of unregistered indigent consumers

A comparison of indigent consumer registers between the ILembe family of municipalities revealed that approximately 17 000 indigent consumers already registered with the local municipalities have not yet registered with the District Municipality. The implication of this is that there are currently consumers in the municipality's database that are billed at the rate that they cannot afford and subsequently will not be able to service their debt. This will result in steady increase in the municipal debt book with no corresponding increase in receipts from debtors.

When the qualifying consumers are eventually registered as indigents, this will result in the increase in debt impairment and write-offs and going forward will result in a decrease in revenue. An indigent outreach program has been drafted and being implemented by the municipality in order to address this issue.

Furthermore the indigent policies of the family of municipalities within the district are being aligned through the IGR structures to facilitate sharing of the registers within the district. In addition the Vuthela LED program has appointed a service provider to harmonise the indigent registers of all the Local Municipalities with the District.

b. Deceased consumers not declared as such by the property beneficiaries

The District Municipality have been confirmed as deceased by the Department of Home Affairs. In light of the aforementioned the property beneficiaries are to register for municipal services as beneficiaries.

Due to the high number of indigents in the district, most deceased consumers do not have a deceased estate where the municipality can recover the debt from. A significant increase in this category of consumers also results in a significant decrease in revenue collection rate which also affects cash flows adversely. The municipality has currently embarked on the programme of notifying the property beneficiaries and/or the water consumers residing on the property of the deceased to register for services and enter into an AOD to pay off the debt accumulated after date of death of the previous consumer. An exercise to identify these consumers to open consumer accounts in the name of the current occupier. The old debt relating to these properties may then be considered for possible write off. Failure by the current consumers to register for services will result in services being terminated at the property of the deceased.

c. Consumers categorised as pensioners

A significant increase in this category of consumers has also contributed in a significant decrease in revenue collection rate which also affects cash flows adversely.

(iii) Material sewer revenue losses

The municipality uses the valuation system as a basis for determining sewer charges. With some of the houses with no values and some with low values.

(iv) Predominantly rural communities with high unemployment rate and child headed families

A significant area of the iLembe District is situated in rural communities where most consumers cannot afford to pay for services. Some families are child headed and with the high unemployment rate this has contributed to the increase in the indigent consumers. The increase in indigent consumers without a corresponding increase in equitable share grant exerts a significant strain on the municipality's cash flows as the municipality is currently dependent on grant funding.

5.5 MAIN OPERATIONS INCLUDING SERVICE DELIVERY METHODS AND SIGNIFICANT CHANGES

The iLembe District Municipality is mainly a Water Services Authority and Provider i.e. WSA and WSP. The main operations are the provision of water and sewerage services. Approximately 76% of the Municipal Service Charges revenue comes from water billing and 24% is for provision of sewerage services. The revenue collection rate was 64% for 2018/19 financial year, and was below the set target of 75%.

5.6 FINANCIAL VIABILITY OBJECTIVES AND STRATEGIES

The following are the financial viability objectives of iLembe District Municipality as reflected in the IDP:

- (i) To ensure sound revenue management principles
- (ii) To ensure sound expenditure management principles
- (iii) To ensure sound budgeting and compliance principles
- (iv) To procure quality goods and services in a cost effective, transparent, competitive, equitable and efficient manner within the policy framework
- (v) To ensure sound and effective asset and inventory management principles
- (vi) To implement and maintain compliant, effective and efficient enterprise risk management systems and processes.
- (vii) To ensure sound and credible general financial management principles
- (viii) To achieve a clean audit opinion;

All of the above mentioned objectives relate to the financial position, financial performance and cash flows of the municipality. Each objective has a strategy in place and can be grouped into the different units within the finance department management structure. The achievement of these objectives and progress thereof is monitored through the monthly PMS reports and quarterly performance assessment sessions.

For the purpose of this discussion document, these objectives and strategies are grouped and explained below under each unit within the finance department management structure.

5.6.1 REVENUE MANAGEMENT

Revenue management is the life blood of the municipality. One objective fall under this unit i.e. to ensure sound revenue management principles. This above-mentioned objective relate to the financial position, financial performance and cash flows of the municipality. It is important to ensure sustainability of the municipality. Revenue collection for the period ended 30 June 2018/19 was 64% compared to 69% achieved in the 2017/18. One of the major contributors to a decline in revenue collection rate is the increase in the amount being billed on a monthly basis due to increase in reading areas not previously read an the conversion of prepaid meters to conventional metering. The implementation of restrictions/disconnections of arrear debtors together with the assistance of a debt collector will see arrest of the high arrear debtor's position. The profiling of debtors has also commenced and debtors marked for impairment will be considered for write off subject to scrutiny before such action is implemented. There is a revenue enhancement strategy that is currently being implemented by the municipality.

Critical path and actions are as follows:

- a) Zoning and installation of control meters – Project underway;
- b) Debt collection strategy – Currently being implemented and closely monitored;
- c) Conversion of prepaid meters which are faulty to conventional metering. - Currently being implemented;
- d) Integration of the customer care, meter reading project, indigent management, credit control and debt collection processes for impact and monitoring of results – project underway.
- e) Change in meter reading method from manual to electronic with capability to GPS meters, take photos of meters and down load readings in to the billing system.

5.6.2 SUPPLY CHAIN MANAGEMENT

One objective falls under this unit i.e. to procure quality goods and services in a cost effective, transparent, competitive, equitable and efficient manner within policy framework.

The municipality is implementing the annual procurement plan to ensure proactive planning of the procurement process taking into account the project implementation dates or time frames. This assists in ensuring timeous finalisation of the procurement processes to ensure service delivery, adequate capital spending and elimination of SCM Audit findings.

The municipality is trying to address the finalisation of competitive bidding processes within 90 days, however it remains a challenge due to factors beyond control. The municipality no longer relies on the use of external consultants to conduct the technical assessment of bids and now uses the in-house capacity within the Technical Services Department.

The contract management section is functional and the municipality recently received assistance from KZN Provincial Treasury in rolling out the contract management function throughout the council. Training was provided to officials to ensure effective contract management processes are adhered to.

With effect from 18 April 2017 prospective bidders can submit SARS unique pin whenever bidding for council projects. As from the 1st July 2017 the municipality was required to engage entities registered on the Treasuries Central Suppliers Database (CSD). As we speak all the municipality's procurement activities are linked to the CSD.

5.6.3 ASSETS MANAGEMENT

One objective falls under this unit i.e. to ensure sound and effective asset management principles. The sustainability of IDM is highly dependent on the condition and performance of the infrastructure assets. Should any of the major assets collapse and not operate, the municipality will not be able to achieve its mandate.

5.6.4 EXPENDITURE, LIABILITY, WORKING CAPITAL AND CASH FLOW MANAGEMENT

Two objectives fall under this unit i.e. to ensure sound expenditure management principles and to ensure sound and credible general financial management principles. In terms of section 152 (2) of the Constitution of South Africa, a municipality must strive, within its financial and administrative capacity, to achieve the objects set out in subsection (1). The requirement for increased financial viability is very important in

order for iLembe District Municipality to fulfil its constitutional mandate as outlined above. Without financial viability, the municipality cannot fulfil its objectives and its vision to provide excellent services and quality of life for its people.

The following strategies continued to be implemented during 2018/19 financial year in an attempt to overcome the challenge of over expenditure:

- a) Budget availability is cleared before commencement of SCM processes i.e. no bid awards are made where budget is not available;
- b) Purchase orders are only processed where budget is available;
- c) Contract management unit has been established with the SCM unit to monitor supplier performance;
- d) Expenditure Management Committee is in place;

There were no significant changes in the iLembe District Municipality's financial viability objectives from the previous financial years. There was however, a significant refinement in the strategies put in place to achieve the objectives and how the achievement of these objectives would be measured and over what time period progress would be measured. The strategies are slowing beginning to bear positive results with the cash position remaining within the norm of 1-3 months and the overall creditors reducing.

5.7 ANALYSIS OF ILEMBE DISTRICT MUNICIPALITY'S FINANCIAL STATEMENTS INCLUDING SIGNIFICANT CHANGES AND TRENDS IN THE FINANCIAL POSITION, FINANCIAL PERFORMANCE AND CASHFLOWS

The following analysis of trends includes those financial items that are important and significant to gaining a better understanding of the financial position, financial performance and cash flows and changes in financial position, financial performance and cash flows over the 2018/19 financial year. It also describes the significant items, transactions and events that have affected the financial position, financial performance and cash flows of iLembe District Municipality in the 2018/19 financial year.

5.7.1 MUNICIPALITY'S FINANCIAL POSITION, FINANCIAL PERFORMANCE AND CASH FLOWS.

The analysis is broken down into financial position, financial performance and cash flows.

(a) Financial Position

The iLembe District Municipality was in a net assets position as at 30 June 2019 i.e. the total assets exceeded the total liabilities by over a billion rand. The following financial items presented in the statement of financial position of the District Municipality are important and significant in gaining the understanding of the financial position of IDM:

(b) Cash and cash equivalents

Cash and cash equivalents accounted for 55% of current assets and 6.16% of the total assets of the municipality. This has improved compared to the 2017/2018 financial year

(c) Trade and other receivables from exchange transactions

Trade and other receivables from exchange transactions accounted for 36% of current assets and 4% of the total assets of the municipality. It has increased by 11% compared to the prior year mainly due to the growing debtor's book and no write off of bad debts for 2 financial years and low revenue collection rate.

(d) Trade and other receivables from non-exchange transactions

Trade and other receivables from non-exchange transactions comprised mainly of amounts Department of Cooperative Governance & Traditional Affairs, R16 million in respect of MIG funded projects. Trade and other receivables from non-exchange transactions accounted for 5.2% of current assets and 0.6% of the total assets of the municipality. It has decreased by 50% compared to the prior year mainly due to over performance in the implementation of Municipal Infrastructure Grant.

(e) Inventories

Inventories accounted for 3.6% of current assets and less than 0.39% of the total assets of the municipality. It has increased by 42% compared to the prior year mainly due to the number of meter connections and issues on infrastructural repairs.

(f) Property, plant and equipment

Property, plant and equipment accounted for 98% of non - current assets and 87.5% of the total assets of the municipality. It has increased by 4.5% compared to the prior year mainly due to the continued rollout of infrastructure projects aimed at eradicating the existing backlogs as well as refurbishment of ageing infrastructure.

(g) Trade and other payables from exchange transactions

Trade and other payables from exchange transactions comprised mainly of amounts owed for trade creditors. Trade and other payables from exchange transactions accounted for 67% of current liabilities and 50% of the total liabilities of the municipality. It has decreased by 10.6% compared to the prior year mainly due to a reduction in the amount of unpaid creditor invoices at year end.

(h) Trade and other payables from non-exchange transactions

Trade and other payables from non-exchange transactions (Unspent conditional grants) comprised of the savings from the Provincial Township Establishment Grant which the Municipality has made a formal application through the KZN Provincial Department of Co-operative Governance and Traditional Affairs (CoGTA) to redirect these savings to other service delivery initiatives. Unspent conditional grants accounted for 29.1% of current liabilities and 22% of the total liabilities of the municipality. It has increased compared to the prior year due mainly to objections in the awarding of contracts linked to RBIG funded projects and the late receipt of WSIG funding from the Department of Water and Sanitation.

(i) Current And Non – Current borrowings

Current borrowings accounted for 2.8% of current liabilities and 2.16% of the total liabilities. It has decreased by 15.5% compared to the prior year due to redemption of loan capital amounts during 2018/19 financial year.

Non - current borrowings accounted for 83% of non - current liabilities and 20% of the total liabilities of the municipality. It has decreased by 6.2% compared to the prior year due to delayed payments of loan instalments.

(j) Financial Performance

iLembe District Municipality had an overall surplus of R186 million in the 2018/19 financial year compared to the surplus of R309 million in the prior year. The decreased by R123 million compared to prior year is due to lesser government grant allocations during 2018/19. The

following financial items presented in the statement of financial performance of the iLembe District Municipality are important and significant in gaining the understanding of the financial performance of IDM.

(k) Revenue from exchange transactions

Revenue from exchange transactions accounted for 20% of the total revenue of the municipality. It has increased by 20% compared to the prior year.

(l) Government grants and subsidies

IDM is currently dependent on Grants and Subsidies. Grants and subsidies accounted for 79% of the total revenue of the municipality. It has decreased by 4% compared to the prior year due to lesser grant allocations during the year under review.

(m) Employee related costs

Employee related costs accounted for 25% of the total operating expenditure. It has increased by 7.6% compared to the prior year which in the main account for cost of living adjustments as agreed to through the collective bargaining processes.

(n) Remuneration of councillors

Remuneration of councillors accounted for 1% of the total operating expenditure.

(o) Debt impairment/Bad debts provision

Debt impairment provision accounted for 8.2% of the total operating expenditure after taking into account impairment. It has increased by 56% compared to the prior year due to an increase in the debt book and write off of bad debt in the last 2 financial years.

(p) Depreciation, impairment and amortization

Depreciation, impairment and amortization transactions accounted for 13% of the total expenditure of the municipality. It has increased by 26% compared to the prior year due to more projects being capitalized.

(q) Repairs and maintenance

Repairs and maintenance accounted for 4.7% of the total operating expenditure. It has decreased by 37% compared to the prior year.

(r) Finance costs

Finance costs accounted for just less than 1% of the total operating expenditure. It has decreased by 32% compared to the prior year which is mainly attributable to changes in interest rates.

(s) Bulk purchases

The Bulk purchases relate to bulk water purchases mainly from Umgeni Water and it accounts for 17% of the total operating expenditure. It has increased by 37% compared to the prior year due to inflationary and volume increases.

(t) General expenses

General expenses comprises mainly of electricity and water, fuel and oil, LED expenditure, telephone costs, audit fees and various other expenditure items. It accounted for 14% of the operating expenditure and has decreased by 2% compared to prior year. This is mainly due to the implementation of financial turnaround strategy that was adopted by Council in December 2017.

(u) Cash flows

The District Municipality was in a positive cash and cash equivalent position of R174 million as at 30 June 2019. The following financial items presented in the cash flow statement are important and significant in gaining the understanding of the cash flow position of IDM.

(v) Sales of goods and services/ receipts from consumer debtors

Receipts from consumer debtors accounted for 19% of the total cash inflows and has increased by 45% compared to prior year.

(w) Grant receipts

Grant receipts accounted for 80% of total cash inflows and have increased by 3.92% compared to the prior year mainly due to slight increase in grant allocations during the year under review.

(x) Purchase of fixed assets/ capital expenditure

Investment in assets/ capital expenditure payments accounted for almost 36% of the total cash outflows and has decreased by 29% compared to the prior year mainly due to low spending on WSIG and RBIG.

(y) Payments to suppliers

Payments to suppliers accounted for 72% of the total cash outflows.

(z) Employee costs including remuneration of councillors

Payment to employees accounted for 27% of the total cash outflows and has increased by 6.7% compared to the prior year which is mainly attributable to the standard cost of living adjustments.

5.7.2 SIGNIFICANT FINANCIAL RATIO ANALYSIS

The Annual Financial Statements (AFS) becomes more meaningful when information is analysed and interpreted. The objective of this section is to provide an analysis of the financial position, financial performance and cash flows of the iLembe District Municipality by performing ratio analysis specific to local government. This exercise also assesses the financial strength of the iLembe District Municipality. These ratios, as applied, provide interpretation methodologies that will add significant value when benchmarked against similar municipalities. These ratios are grouped into three (3) categories i.e. Revenue and Expenditure Management, Asset Management and Debt/Liability Management.

(a) Revenue and Expenditure Management

Ratio 1: Actual revenue versus budgeted revenue

The purpose of this ratio is to measure the extent of Actual Operating Revenue (Excl. Capital Grant Revenue) received in relation to Budgeted Operating Revenue during the financial year under review. The acceptable norm is 95%.

The formula is $\text{Actual Operating Revenue} / \text{Budgeted Operating Revenue} \times 100$.

Analysis

IDM has achieved 95% of its budgeted operating revenue in the 2018/19 financial year compared to 84% in the 2017/18 financial year. The 1% decline is indicative of billing challenges that embroiled the Revenue Department in recent years which the Municipality has developed strategies to improve and bring the function of that business process back on track.

Ratio 2: Level of reliance on government grants

The purpose of this ratio is to determine what percentage of the municipality's revenue is made up of government grants to determine the level of reliance on government funding by the municipality. Generally, district municipalities are more reliant on grants and subsidies than the metros and local municipalities due to the fact that the district municipalities do not have an adequate revenue base.

The formula is (Grants and subsidies/ Total Revenue).

Analysis

IDM is reliant on government grants and subsidies. In the 2018/19 financial year it was 80% reliant compared to 83% in the 2017/18. The slight improvement on this ratio was only as a result of reduction in grant allocations for the year and slight improvements in own generated income.

Ratio 3: Actual expenditure versus budgeted expenditure

The purpose of this ratio is to measure the extent to which Budgeted Expenditure has been spent during the financial year under review. The ratio also assess whether the municipality has effective controls in place to ensure that expenditure is incurred in accordance with an approved budget. The acceptable norm is 95%

The formula is (Actual expenditure – budgeted Expenditure)/ Budgeted Expenditure.

Analysis

The percentage expenditure for 2018/19 was 105% compared to 102% for 2017/18 financial year. Although this was above 100%, it was however, still within the acceptable variance in terms of the norms.

Ratio 4: Personnel expenditure as a percentage of total expenditure

The purpose of this ratio is to indicate what percentage of total expenditure is attributable to personnel costs. It must be stated that the National Treasury guideline is 25% – 40%.

The formula is (Salaries, wages and allowances/ Total operational expenditure).

Analysis

The ratio for the 2018/19 financial year was 26,% compared to 29.3% in the previous financial year 2017/18 and it is within the National Treasury guideline of 25 – 40%.

Ratio 5: Interest as a percentage of total operating expenditure

The purpose of this ratio is to indicate the cost required to service the borrowing. It assesses the Borrowing or Payment obligation expressed as a percentage of Total Operating Expenditure. The acceptable norm is between 6 and 8%.

The formula is Capital Cost (Interest Paid and Redemption) / Total Operating Expenditure x 100.

Analysis

The ratio for the 2018/19 financial year was 1% compared to the ratio of 1.6% in the previous financial year and it is consistently below the National Treasury guideline of 6 – 8%.

The low ratio reported indicates that iLembe District Municipality is less reliant on external borrowings hence exposed to low cost of debt.

Ratio 6: Repairs and maintenance as a percentage of total expenditure

The purpose of this ratio is to measure the level of repairs and maintenance to ensure adequate maintenance to prevent breakdowns and interruptions to service delivery. Repairs and maintenance of municipal assets is required to ensure the continued provision of services. National Treasury guideline is 8%. The formula is Total Repairs and Maintenance Expenditure / Property, Plant and Equipment and Investment Property (Carrying Value) x 100.

Analysis

The ratio for 2018/19 financial year is 1.5%. This ratio is below the National Treasury guideline of 8%. This is one area that Management would need to look at and develop plans to address going forward.

(b) Asset Management

Ratio 7: Capital expenditure to total expenditure

The purpose of this ratio is to assess the level of Capital Expenditure to Total Expenditure, which indicates the prioritization of expenditure towards current operations *versus* future capacity in terms of Municipal Services. The formula is Total Capital Expenditure / Total Expenditure (Total Operating Expenditure + Capital Expenditure) x 100. The norm is between 10 and 20%.

Analysis

The ratio for the 2018/19 financial year was 26% which is less by 9% compared to the prior year ratio of 35%. Both ratios are above the treasury guideline of between 10 – 20%.

Ratio 8: Asset Turnover Ratios

The purpose of these ratios is to establish the municipality's efficiency in utilizing its assets to generate revenue. They indicate how successful the municipality is using its assets to generate revenue. The National Treasury has not yet issued a guideline on the acceptable norm in the Local Government space. A higher ratio indicates that the municipality is using its assets efficiently; a lower rate indicates that the municipality is not using its assets optimally. Total asset turnover ratio is the key driver on return on community wealth/net assets. There are a number of variants of the ratio like total assets turnover ratio, fixed assets turnover ratio and working capital turnover ratio. In all cases the numerator is the same i.e. net revenue from exchange transactions but the denominator is not the same i.e. average total assets, average fixed assets and average working capital.

For the purposes of this report the following formulas are used to calculate asset turnover ratios:

- a. Total Assets Turnover Ratio : $\frac{\text{Net Revenue from Exchange Transactions}}{\text{Average total assets}}$
- b. Fixed Assets Turnover Ratio: $\frac{\text{Net Revenue from Exchange Transactions}}{\text{Average fixed assets}}$

Analysis

Total Assets Turnover Ratio

The ratio for the 2018/19 financial year was 0.07 and 0.06 for the 2017/2018 year

(c) Fixed Assets Turnover Ratio

iLembe District Municipality's ratio for the 2018/19 financial year is 0.311 and 0.346 for the 2017/2018 year.

Ratio 9: Debtors collection period

This ratio adjusts for Municipality's who have had significant write-offs of Irrecoverable Debtor balances in the Gross Debtors Days analysis as it only assesses the performance of collectable Debtors. In addition, it provides an indication of the quality of credit control policy, effectiveness of the implementation thereof and quality of revenue management. If the ratio is above the norm, this indicates that the Municipality is exposed to significant Cash Flow risk. This is also an indication that the municipality is experiencing challenges in the collection of outstanding amounts due to it. Furthermore, it indicates that a significant amount of potential

cash is tied up in consumer debtors and the municipality must improve its revenue and cash flow management. The acceptable norm as per National Treasury is 30 days.

The formula is $(\text{Consumer debtors after provision for bad debts} \times 365 / \text{Service Revenue})$

Analysis

The ratio for the 2018/19 was 212 days has improved by 16 days compared to the prior year ratio of 228 days.

(d) Overall Asset Management Analysis

Although capital spending and/or investments in assets are high, there was a major underutilization of assets to provide optimal return on community wealth. This was mainly due to the ever increasing high social component of the services supply of 68%. It is also taking too long to convert the generated revenue into cash, which has exerted a major strain on the working capital.

i. Debt/Liability Management and/or Solvency and Liquidity ratios

Ratio 10: Acid Test Ratio

The purpose of this ratio is to indicate the municipality's ability to meet its short term obligation using its most liquid assets. The acceptable norm is 1: 1.

The formula is $(\text{Current Assets} - \text{Inventory}) / \text{Current liabilities}$.

Analysis

The ratio for the 2018/19 financial year is 1,14:1, this has increased compared to the prior year ratio of 0.98:1. The ratio has improved from the 2017/2018 year to above the acceptable norm of 1:1.

Ratio 11: Current Ratio

The purpose of this ratio is to indicate the municipality's ability to meet its short term obligation using all its liquid assets. The higher the current Ratio, the more capable the Municipality or Municipal Entity will be to pay its current or short-term obligations and provide for a risk cover to enable it to continue operations at desired levels. A financial ratio under 1 suggests that the Municipality or Municipal Entity would be unable to pay all its current or short-term obligations if they all fall due at any specific point. Current assets must therefore be increased to

appropriately cover current liabilities otherwise there is a risk that non-current assets will need to be liquidated to settle current liabilities.

The acceptable norm is 1.5: 1 to 2:1.

The formula is Current Assets/ Current liabilities.

Analysis

The ratio for the 2018/19 financial year was 1,10:1 and the prior year ratio was 1.01:1 The ratio is below the acceptable norm of 1.5:1 to 2:1, this consistent decline in ratio indicate that municipality financial situation is against the ropes due to the historic poor collection rate coupled with high value of unpaid creditors invoices at year end. This ratio has improved has improved from the previous 2 financial years though it is still below the norm. The interventions put in place is starting to yield positive results.

Ratio 12: Total Liabilities as a percentage of total assets (Debt Ratio)

The purpose of this ratio is to indicate how much the municipality relies on debt to finance its assets. Maximum norm values is 60 – 70%.

The formula is Total Liabilities/ Total Assets.

Analysis

The ratio for the 2018/19 financial year was 15% %, while it was 11.4% for the prior year.

Ratio 13: Total Liabilities as a percentage of Net Assets (Debt to Equity Ratio)

The purpose of this ratio is to indicate the municipality's financial standing. Optimal debt to equity ratio is considered to be 1 i.e. Liabilities = Assets. A ratio higher than 1; may indicate that the municipality may not be able to generate enough cash to satisfy its obligations.

The formula is Total Liabilities/ Net Assets.

Analysis

The ratio for the 2018/19 financial year was 0.17 and the prior year ratio is 0.11 The ratio shows that IDM's financial standing remains positive and sound as it has more than enough assets to convert into cash to meet its obligations.

(e) Overall debt/liability management analysis

Overall debt/liability management is considered good. A great improvement is required to manage liquidity most particularly on a short term basis.

5.8 THE PRINCIPAL RISKS AND UNCERTAINTIES THAT AFFECT ITS FINANCIAL POSITION, FINANCIAL PERFORMANCE AND CASH FLOWS, CHANGES SINCE THE LAST REPORTING DATE AND ITS STRATEGIES FOR BEARING OR MITIGATING THOSE RISKS AND UNCERTAINTIES

The purpose of this section is to discuss iLembe District Municipality's principal risks and uncertainties that affects its financial position, financial performance and cash flows and includes an explanation of how this relates to the objectives and strategies of the municipality. It also includes an explanation of how IDM manages its principal risks and uncertainties.

5.8.1 PRINCIPAL RISKS AND UNCERTAINTIES AND HOW THEY RELATE TO THE OBJECTIVES AND STRATEGIES

The principal risks and uncertainties affecting its financial position, financial performance and cash flows as disclosed in note 39 of the 2018/19 Separate Annual Financial Statements are as follows:

a) Maximum credit risk exposure

The Credit risk is the risk that a counter party to a financial instrument will fail to discharge an obligation and cause the municipality a financial loss. The items in the Annual Financial Statements that are exposed to credit risks are mainly cash deposits, cash equivalents and trade debtors. Credit risk, if not managed properly, may hinder the objective to increase its collection rate, improve net revenue collected, manage debtors' book efficiently and increase the financial viability. The strategies of revenue enhancement, credit and debt collection management, indigent management, cash flow and investment management relates management of the credit risk exposure.

b) Liquidity risk

Liquidity risk is the risk that the municipality will not be able to meet its obligations as they fall due. IDM's liquidity risk is as a result of the need for sufficient funds to be available to meet its liabilities when they fall due without incurring unacceptable losses or risking damage to the municipality's reputation. Liquidity risk, if not managed properly, may hinder the objective to increase its financial viability and to ensure that the municipality is solvent and able to cover its costs at any and all times. IDM's strategies of cost and debt coverage management, cash

flow and expenditure management and payment of creditors relates to management of the liquidity risk.

c) Interest rate risk

Interest rate risk is the risk that the municipality will incur loss due to adverse changes in interest rates. The IDM's interest rate risk arises from long – term borrowings. DBSA and finance lease borrowings issued at variable rates exposes the municipality to cash flow interest rate risk. ABSA loan issued at fixed rate expose the municipality to fair value interest rate risk. The debt ratio is fairly good; therefore, interest rate risk is accepted as insignificant.

5.8.2 HOW ILEMBE DISTRICT MUNICIPALITY MANAGES ITS RISKS AND UNCERTAINTIES

The District Municipality manages its principal risks and uncertainties affecting its financial position, financial performance and cash flows as disclosed in note 40 of the 2017/2018 Annual Financial Statements as follows:

a) Maximum credit risk exposure

IDM only deposits cash with major banks with high quality credit standing and limits its exposure to any one counter-party i.e. Cash deposits/investments are diversified and are not put into one basket. Trade receivables comprise a widespread customer base. Management evaluates credit risk relating to customers on an on-going basis. If consumers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. There is also an indigent programme in place to support vulnerable groups. The intelligent meter project is also currently underway and it aims to mitigate the credit risk relating to consumer debtors.

b) Liquidity risk

The approach to managing liquidity risk is to ensure that sufficient liquid assets are available to meet its liabilities when they fall due without unacceptable losses or risking damage to the municipality's reputation. The District Municipality manages its liquidity risk through on-going review of future commitments and credit facilities. Cash flow forecasts are prepared and monitored and adequate utilised borrowing facilities are monitored. Expenditure and Revenue Management Committee is also in place to manage amongst other things, liquidity risk. The liabilities must be backed by appropriate assets and significant liquid resource.

**COMPONENT A – AUDITOR GENERAL’S OPINION OF THE FINANCIAL STATEMENTS
2018/19**

**Report of the auditor-general to the KwaZulu-Natal Provincial Legislature and the Council on
iLembe District Municipality and its controlled entity**

Report on the audit of the consolidated and separate financial statements

Opinion

1. I have audited the consolidated and separate financial statements of the iLembe District Municipality and its subsidiary(the group)set out on pages 203-257, which comprise the consolidated and separate statement of financial position as at 30 June 2019, the consolidated and separate statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget information with actual information for the year then ended, as well as the notes to the consolidated and separate financial statements, including a summary of significant accounting policies.
2. In my opinion, the consolidated and separate financial statements present fairly, in all material respects, the consolidated and separate financial position of the group as at 30 June 2019, and their financial performance and cash flows for the year then ended in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2018 (Act No. 1 of 2018) (Dora).

Basis for opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the consolidated and separate financial statements section of this auditor's report.
4. I am independent of the group in accordance with sections 290 and 291 of the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* and, parts 1 and 3 of the International Ethics Standards Board for Accountants' *International code of ethics for professional accountants (including International Independence Standards)* (IESBA codes), as well as the ethical requirements that are relevant to my

audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA codes.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of matter

6. I draw attention to the matter below.

Material losses

7. As disclosed in note 36.8 to the financial statements, the municipality incurred material water losses of 17 954 624 kilolitres (2017-18: 9 949 871 kilolitres) which resulted in revenue losses of R187,89 million (2017-18: R83,36 million). The losses were mainly due to illegal connections, main leaks, reservoir overflows and service connection leaks.

Other matter

8. I draw attention to the matter below.

Unaudited disclosure note

9. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA in the consolidated and separate financial statements. This disclosure requirement did not form part of the audit of the financial consolidated and separate financial statements and, accordingly, I do not express an opinion on it.

Responsibilities of accounting officer for the financial statements

10. The accounting officer is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and Dora and for such internal control as the accounting officer determines is necessary to enable the preparation of the consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.
11. In preparing the consolidated and separate financial statements, the accounting officer is responsible for assessing the group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the consolidated and separate financial statements

12. My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.
13. A further description of my responsibilities for the audit of the consolidated and separate financial statements is included in the annexure to this auditor's report.

Report on the audit of the consolidated annual performance report

Introduction and scope

14. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for the selected development priority presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
15. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipality. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
16. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the basic service delivery development priority presented in the annual performance report of the municipality for the year ended 30 June 2019.

17. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
18. The material finding in respect of the usefulness and reliability of the selected development priority is as follows:

Number of jobs created through water infrastructure and service delivery efforts (labour intensive construction – LIC)

19. I was unable to obtain sufficient appropriate audit evidence for the reported achievement of the number of jobs created through water infrastructure and service delivery efforts (labour intensive Construction – LIC). This was due to attendance registers and time sheets that support the target not having been provided. I was unable to confirm the reported achievement by alternative means. Consequently, I was unable to determine whether any adjustments were required to the achievement of 1168 jobs created as reported in the annual performance report.

Other matters

20. I draw attention to the matters below.

Achievement of planned targets

21. The annual performance report on pages 61-94 includes information on the achievement of planned targets for the year. This information should be considered in the context of the material finding on the usefulness and reliability of the reported performance information in paragraph 19 of this report.

Adjustment of material misstatements

22. I identified material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of the basic service delivery development priority. As management subsequently corrected only some of the misstatements, I raised a material finding on the usefulness and reliability of the reported performance information. Those that were not corrected are reported above.

Report on the audit of compliance with legislation

Introduction and scope

23. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipality with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
24. The material findings on compliance with specific matters in key legislation are as follows:

Annual financial statements

25. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122(1) of the MFMA. Material misstatements of current assets, current liabilities, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected and the supporting records were provided subsequently, resulting in the financial statements receiving an unqualified audit opinion.

Expenditure management

26. Money owed by the municipality was not always paid within 30 days, as required by section 65(2)(e) of the MFMA.
27. Reasonable steps were not taken to prevent irregular expenditure of R74,93 million as disclosed in note 35.3 to the annual financial statements, as required by section 62(1)(d) of the MFMA. The majority of the irregular expenditure was caused by expenditure incurred on security services as a result of contract extensions that were applied.

Procurement and contract management

28. Some of the contracts were extended or modified without the approval of a properly delegated official, in contravention of supply chain management regulation 5(SCM).

Consequence management

29. Some of the unauthorised expenditure incurred by the municipality was not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(a) of the MFMA.
30. Some of the irregular expenditure and fruitless and wasteful expenditure incurred by the municipality were not investigated to determine if any person is liable for the expenditure, as required by section 32(2)(b) of the MFMA.

31. Some of the losses resulting from irregular expenditure were not recovered from the liable person, as required by section 32(2) of the MFMA.
32. Appropriate action was not taken against officials of the municipality where investigations proved financial misconduct, as required by section 171(4)(b) of the MFMA and municipal regulations on financial misconduct procedures and criminal proceedings 6(8).
33. Cases of financial misconduct which constitute a crime committed by officials were not always reported to the South African Police Service, as required by the municipal regulations on financial misconduct procedures and criminal proceedings 10(1).

Other information

34. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the consolidated and separate financial statements, the auditor's report and the selected development priority presented in the annual performance report that has been specifically reported in this auditor's report.
35. My opinion on the consolidated and separate financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
36. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements and the selected development priority presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
37. I did not receive the other information prior to the date of this auditor's report. When I do receive and read this information, if I conclude there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

Internal control deficiencies

38. I considered internal control relevant to my audit of the consolidated and separate financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.

39. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on the annual performance report and the findings on compliance with legislation included in this report.
40. Management did not prepare accurate and complete financial and performance reports that are supported and evidenced by reliable information as material misstatements were identified in the annual financial statements and the annual performance report.
41. The review and monitoring of compliance with the laws and regulations were not adequately implemented to prevent the material non-compliance identified.

Other reports

42. I draw attention to the following engagements conducted that had, or could have, an impact on the matters reported in the municipality's consolidated and separate financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the consolidated and separate financial statements or my findings on the reported performance information or compliance with legislation.
43. An independent consultant investigated eight cases of allegations relating to possible misappropriation of assets, fraud, financial misconduct and SCM irregularities, during the 2016-17 financial year. Four cases were concluded during the 2018-19 financial year and the recommendations were implemented by the municipality for two of these cases. One was not finalised because the employee left the municipality. For the other case, the recommendations have not been implemented. The outcomes of the remaining four investigations were still in progress at the date of this report.
44. An independent consultant is investigating an allegation of possible irregularities relating to the SCM processes followed, during the 2017-18 financial year. The investigation was still in progress at the date of this report.

Pietermaritzburg

17 December 2019

AUDITOR - GENERAL
SOUTH AFRICA

Auditing to build public confidence

Annexure – Auditor-general's responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements, and the procedures performed on reported performance information for the selected development priority and on the municipality's compliance with respect to the selected subject matters.

Financial statements

2. In addition to my responsibility for the audit of the consolidated and separate financial statements as described in this auditor's report, I also:
 - identify and assess the risks of material misstatement of the consolidated and separate financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
 - obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control
 - evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the accounting officer
 - conclude on the appropriateness of the accounting officer's use of the going concern basis of accounting in the preparation of the consolidated and separate financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ILembe District Municipality's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the consolidated and separate financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipality to cease continuing as a going concern
 - evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group, audit. I remain solely responsible for my audit opinion.

Communication with those charged with governance

3. I communicate with the accounting officer regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also confirm to the accounting officer that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and, where applicable, related safeguards.

**COMPONENT B: CONSOLIDATED AUDIT RESPONSE PLAN OF ILEMBE DISTRICT
MUNICIPALITY AND ITS ENTITY: 2018/19**

Nature Of Audit Query	Audit Query	Action Plan	Audit Response Progress (Quarter 2)
Emphasis Of Matter: Material Water Losses	<p>The municipality incurred material water losses of 17 954 624 kilolitres (2017-18: 9 949 871 kilolitres) which resulted in revenue losses of R187,89 million (2017-2018: R83,36 million). The losses were mainly due to illegal connections, main leaks, reservoir overflows and service connection leaks</p>	<p>The municipality will appoint the service provider to deal with Water Conservation and Water Demand Management (WCWDM).</p> <p>The WCWDM deals with the following:</p> <ol style="list-style-type: none"> 1. Bulk Water Meter Installations from the abstraction points, especially Umgeni Water's point of sale to IDM; 2. Bulk Water Meter Installation to all inlets & outlets of IDM's reservoirs; 3. Domestic Water Meter Installations to all IDM consumers that have access to water; 4. Develop projects to deal with the minimization of Water losses in the district; 5. Installation of Pressure Reducing Valves (PRV's), to deal with high water pressure and minimise on burst pipes; 6. Replacement of Aging infrastructure 	<p>The service provide was appointed and the project has commenced.</p>

Nature Of Audit Query	Audit Query	Action Plan	Audit Response Progress (Quarter 2)
		<p>The disconnections, repairs to burst pipes and maintenance of reservoir overflows is ongoing.</p> <p><u>Responsible Official</u> Senior Manager: Technical Services</p> <p><u>Target Date</u> May 2019 Service Provider – thereafter the projects will take 3 years to complete.</p>	

Audit Query	Action Plan		Audit Response Progress (Quarter 2)
<p>1. Misstatement In Financial Statements: Trade Receivables-Exchange</p>	<p>It was noted that there is a grant receivable recognized under Trade Receivables for an amount of R43 085 764 related to the MIG grant.</p>	<p>Corrections were made in the AFS.</p> <p>Monitoring of MIG expenditure is now monitored against CoGTA's records through the MIG MIS system in order to identify and rectify any discrepancies.</p> <p>Manager Expenditure has been provided with necessary training and granted access to the MIG MIS for purposes of exercising the required monitoring.</p> <p><u>Responsible Official</u></p> <p>Manager Expenditure</p> <p><u>Target Date</u></p> <p>31 March 2020</p>	<p>Discrepancies have been identified and the issues that gave rise to these discrepancies are being addressed with Technical Services Department</p>

Audit Query	Action Plan		Audit Response Progress (Quarter 2)
<p>2. Misstatement In Financial Statements:</p> <p>Invoices For Expenses Not Raised As An Accrual In The Correct Period</p>	<p>Invoices in expenses were not raised in the correct period that being in the 2018/19 financial year</p>	<p>Management subsequently corrected the identified misstatement in the AFS by matching the invoices which were a subject of the audit query to the relevant reporting periods to which those invoices related. This only related to Umgeni Water for the bulk purchases invoices</p> <p>Umgeni Water has been requested to provide with water bills earlier than they used to so that processing of invoices can be correctly aligned to the reporting periods to which they relate.</p> <p><u>Responsible Official</u></p> <p>Manager Expenditure</p>	<p>Umgeni Water has been engaged to supply us with December 2019 bill at least by the 3rd of January 2020 so that an accrual can be made within December 2019 posting period in order to achieve the correct alignment for the first 6 months.</p>

Audit Query	Action Plan		Audit Response Progress (Quarter 2)
		<u>Target Date</u> 15 January 2020	
3. Misstatement In Financial Statements: Incorrectly Disclosed Contingent Liability	The contingent liability in relation to Umgeni water for an amount of R45 385 302 for the expenditure to build the spring groove dam and the costs were to be shared by the municipalities based on the principle of cross subsidisation. As at reporting date was probably that an outflow of economic benefit will be required from the municipality to settle the expenditure and management is currently making arrangement with Umgeni on settling the amount owed and therefore the obligation exists and obligation can be reliably measured at R45 385 302.	Management undertook an assessment as guided by GRAP and came into conclusion that it would be appropriate to disclose the amount raised by Umgeni Water for Capital Unit Charges as a Provision. An assessment will be conducted on a quarterly basis to determine whether or not it is still prudent to account for the provision. <u>Responsible Official</u> Manager Expenditure <u>Target Date</u> 31 December 2019	The first assessment is set to be conducted in December 2019 to determine whether or not the provision is still required.

Audit Query	Action Plan		Audit Response Progress (Quarter 2)
	<p>This incorrect accounting treatment have resulted in a material understatement of liabilities and material overstatement of the contingent liability.</p>		
<p>4. Misstatement In Financial Statements: Commitments Incorrectly Disclosed</p>	<p>It was noted that the commitment schedule has been incorrectly calculated and led to a material misstatement of the disclosure note in the annual financial statements. This is due to the incorrect contract amounts used and incorrect payments up to date that is due to incorrect VAT percentage being used of which resulting in commitments with negative balances and some others</p>	<p>Management recalculated the commitments amounts and corrected the disclosure in the Annual Financial Statements.</p> <p>Management is in the process of addressing weaknesses in the contract register with an intention of ensuring that that the contractual information that feeds into expenditure as well as contractual commitments are</p>	<p>A meeting with all relevant parties will be scheduled for the 15th of January 2020 to agree measures to address the weaknesses identified on the contract register.</p>

COMPONENT C: REPORT OF THE AUDIT COMMITTEE TO THE COUNCIL OF ILEMBE DISTRICT MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2019

REPORT OF THE AUDIT COMMITTEE TO THE COUNCIL OF ILEMBE DISTRICT MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2019

1. INTRODUCTION

The purpose of this report is to communicate to the council the audit committee's progress in carrying out its oversight responsibilities outlined in section 166 of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003, as amended) (MFMA), read with circular 65 published by the National Treasury for the year ended 30 June 2019.

The MFMA obliges every municipality to establish an independent audit committee, which must advise the municipal council, political office-bearers, accounting officer and management staff of the municipality as well as the accounting officer and the management staff of the municipal entity. The audit committee is governed by formal terms of reference, which are regularly reviewed and approved by the council. The committee is pleased to present its report for the financial year ended 30 June 2019.

2. LEGAL FRAMEWORK GOVERNING THE AUDIT COMMITTEE

The Audit Committee and Performance Audit Committee is established in accordance with section 166 of the Municipal Finance Management Act, Act no 56 of 2003 (MFMA) and section 14(2)(c) of the Local Government Municipal Planning and Performance Regulations, 2001 (Regulations). Consideration has also been given to MFMA Circular No. 65 issued by the National Treasury in November 2012 as well as the recommendations contained in the King Report on Corporate Governance for South Africa (King IV). The Committee was appointed by Council and is required by law to report to Council in terms of the MFMA.

3. AUDIT COMMITTEE MEMBERS AND ATTENDANCE

The Audit Committee comprised of five independent members including the chairperson. In terms of section 166(4)(b) of the MFMA, the audit committee must meet at least four times a year. During 2018/2019 financial year there were four audit committee meetings held and the table below shows the members' attendance at these meetings:

Name	Date of appointment	Meetings attended	27-08-2018	26-11-2018	28-01-2019	16-04-2019
Mr VL Mtshali (Chairperson)	01/02/2018	04	√	√	√	√
Mr S Z Hlophe	01/02/2018	03	√	√	√	X
Ms S Gertze	01/02/2018	04	√	√	√	√
Mr S L Ndlovu	01/11/2014	04	√	√	√	√
Ms B Zulu	01/02/2018	04	√	√	√	√

4. AUDIT COMMITTEE'S RESPONSIBILITY

The Audit Committee has been set up in accordance with section 166 of the MFMA and operates within the terms of the Audit Committee Charter approved by the Municipal Council.

In the conduct of its duties, the Audit Committee has performed the following statutory duties:

4.1 Effectiveness of internal controls

The Audit Committee, at each meeting, assessed performance against the plans and reviewed the plans to ensure that critical risks relating to the operations and the findings of the AuditorGeneral were addressed.

The internal control environment in the municipality needs improvement, the Auditor General report raises internal control deficiencies and non-compliance that requires effective internal controls to address.

The Auditor General concluded that management did not complete accurate and complete financial and performance reports, this is an indicator of internal control weaknesses.

4.2 Internal Audit Function

The internal audit function for the Municipality was performed in-house and it was operational for the reporting period and the risk-based internal audit plan for the financial year ending 30 June 2019 was approved by the Audit Committee.

The internal audit reports were tabled at the Audit Committee meetings held during the year. The internal audit reports included recommendations to improve internal controls together with agreed management action plans to resolve the issues reported on. The Audit Committee further assessed whether management implement the agreed upon actions to address the findings of internal audit.

To further enhance the processes in place, internal audit conducted follow up audits on previously reported internal and external audit findings and reported progress to senior management and the Audit Committee.

The internal audit unit capacity and resources need to be beefed up, the filling of critical vacancy of Audit Senior has been delayed and was not concluded in the financial year.

4.3 Risk Management Function

The Audit Committee is responsible for oversight of the risk management function. The risk management committee reports to the audit committee on the municipality's management of risk.

The Municipality conducted risk assessment workshops during the reporting period and the Risk Management Committee discussed and accepted the risk registers both operational and strategic, which were approved by the Executive Committee (EXCO). The audit committee noted and considered the risk registers and the updated risk registers.

The Risk Management Committee is responsible for assessing whether the mitigating factors are implemented as agreed upon to avoid or reduce the risk exposure.

4.4 Review of Annual Financial Statements

The committee is concerned with the limited time allocated to AFS review and the correction of errors identified. A competent service provider was appointed to review AFS and the audit committee considered the review report and also did its own independent review. However not enough time was available for adjustments and review of final AFS.

The AFS preparation plan must be drafted approve and the accounting officer must ensure compliance with all deadlines in the AFS process.

The Auditor General concluded that the AFS were not prepared in terms of the MFMA, the unqualified audit opinion was achieved after adjustments were made during the audit to ensure the AFS complies with MFMA.

4.5 Performance Management

The Audit Committee also serves as the Performance Audit Committee for the Municipality. The legal responsibilities of the Audit Committee in this regard are set out in terms of paragraph 14 of the Local Government: Municipal Planning and Performance Management Regulations, 2001.

The Audit Committee reviewed the quarterly performance reports and the internal audit reports on performance management for 2018/2019 financial year based on the Municipality's approved scorecard.

The Chairperson served on the evaluation panel in terms of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers directly accountable to Council.

COMPLIANCE WITH LEGISLATION

Instances of non-compliance with laws, regulations, policies and procedures have been noted, mainly through disclosure by management and the reports submitted by internal and external audit. However, management have provided comments on the findings, indicated corrective measures and timing of the implementation thereof. In addition, compliance checklists have been developed and the Audit Committee is monitoring progress towards full compliance at its quarterly meetings.

Council need to ensure compliance testing and reporting is improved in the municipality.

RECOMMENDATIONS

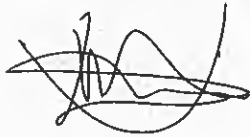

Section 121(3)(j) of the MFMA requires that the annual report must include any recommendations of the Municipality's Audit Committee.

Council advised to reflect on the Audit report submitted by Auditor General and request management to implement action plan to resolve the critical matters raised by the auditors.

Council advised to monitor and follow up on effectiveness of management to resolve the Auditor General findings.

Council advised to follow up on repeated findings and internal control weaknesses because these could have negative consequences in future.

On behalf of the Audit Committee

A handwritten signature in black ink, consisting of several loops and a long horizontal stroke.

Mr VL Mtshali CA (SA)
Chairperson

AUDITED CONSOLIDATED ANNUAL FINANCIAL STATEMENTS

For the period ended 30 June 2019

Accounting Officer's Statement

The Accounting Officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the Accounting Officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data. The annual financial statements were prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) as well as relevant interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates. I, as the Accounting Officer (accounting authority), acknowledge that I am ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable me to meet these responsibilities, I have set standards for internal control aimed at reducing the risk of error or deficit in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints. I am of the opinion, based on the information and explanations given by management that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit. I have reviewed the municipality's cash flow forecast for the year to 30 June 2020 and, in the light of this review and the current financial position, I am satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future. The annual financial statements are prepared on the basis that the municipality is a going concern and that the ILembe District Municipality has neither the intention nor the need to liquidate or curtail materially the scale of the municipality. Although, I am primarily responsible for the financial affairs of the municipality, this is supported by the municipality's external auditors. I would like to bring to your attention the following material matters to your attention:

I certify that the salaries, allowances and benefits of councillors as disclosed in note 24 to these annual financial statements are within the upper limits of the framework envisaged in section 219 of the Constitution of the Republic of South Africa, read with the Remuneration of Public Office Bearers Act, Act 20 of 1998 and the Minister of Provincial and Local Government's determination in accordance with the Act.

N.G. Kumalo

Accounting Officer

ILEMBE DISTRICT MUNICIPALITY
STATEMENT OF COMPARISON OF BUDGET AND ACTUAL AMOUNTS
For the period ended 30 June 2019

Description	Original Budget 1 R	Adjusted Budget (LLD, s28 & s31 Of The MFMA) 2 R	Virement (Council Approved By- law) 3 R	Year to date Budget 4 R	Actual Income/ Expenditure 5 R	Variance 7 R	Variance %	Explanation of variances 8 9
Service Charges	145 503 458	160 713 862		160 713 862	153 140 616	-7 573 376	-6%	The reason for the variance was that some projects which would have resulted in an increased billing that were anticipated to commence during the financial year were not completed. However, the municipality indicated these has been a notable increase in Service charges when compared to the 2017/18 financial year.
Investment Revenue	7 250 000	10 162 862	0	10 162 862	13 104 782	2 921 920	28%	The variance is attributable to grants received during the year where there was a delay on expenditure due to various matters on project implementation, as a result funds were kept in an investments and attracted more interest.
Transfers Recognised - Operational	509 101 000	532 827 897	0	532 827 867	566 208 222	33 381 324	6%	Accept the variance as immaterial
Other Own Revenue Total Revenue (Excluding Capital transfers)	61 068 817	65 004 852	0	65 004 852	55 121 885	-9 882 966	-16%	The variance is attributable to various items which municipality has no control. The items includes interest on outstanding debtors which were below anticipated budget.
Employee Costs	238 041 846	228 062 400		228 062 400	220 237 209	-8 825 190	-4%	Accept the variance as immaterial
Remuneration Of Councillors	9 951 582	9 320 382		9 320 382	9 263 864	-56 517	-1%	Accept the variance as immaterial
Debt Impairment	21 825 519	19 222 869		19 222 869	65 022 454	45 799 785	238%	The variance is attributable a huge debt book which as per the expert report assigned to GRAP which recommended a provision of R 65 million.
Depreciation & Asset Impairment	62 285 489	81 507 489		81 507 489	106 437 807	24 930 118	31%	As at June 2018, the actual expenditure incurred against Depreciation and asset impairment exceeded the budgeted expenditure. As per the municipality, the variance is as a result of the impairment test that was performed at year end. The municipality indicated that excessive expenditure will not have a material impact on the total actual expenditure.
Finance Charges	9 827 854	7 704 383		7 704 383	8 154 624	450 242	6%	Accept the variance as immaterial

description	Original Budget	Adjusted Budget (L.O. s28 & s31 Of The MFMA)	Virement (Council Approved By-law)	Year to date Budget	Actual Income/ Expenditure	Variance	% Variance	Explanation of variances
Bulk Purchases	89 545 500	120 006 214		120 006 214	150 578 471	30 572 258	25%	water supply due to the increase in new connections and varying increases in water demand. Furthermore, the expenditure increased as a result of the commissioning part (refilling water ready for use at a particular area) of the Lower Tugela Regional Bulk Water Infrastructure project. Thus, areas previously supplied by the boreholes (Zintwazi, Blythdale, Sarscor and part of Stanger) have now been connected to the main system and thus resulting the increase in water supply. The excessive increase in bulk purchases is due to the commissioning of Lower Tugela Bulk Water Supply Scheme Off takes

The budgeted expenditure for Contracted Services was increased in the 2018/19 Adjustments Budget in order to align to mSCOA. The majority of the budgeted items were re-allocated from Repairs and Maintenance (Other materials) and Other Expenditure.

The municipality indicated that the variance was due to the fact that the water tanker supply was kept at a minimum and non - urgent expenditure relating to Repairs was also delayed in line with the implementation of the austerity measures and the cost containment policy.

Sanitation delayed the transfer of the WSIG to the municipality. The first tranche of R35 million for WSIG was only transferred in January 2019. Thus, resulting in the delay of the projects funded by this grant. The municipality indicated that the are currently in negotiations with the transferring department in respect of how the rollover will be handled considering the late transfer.

The municipality further indicated that there were delays on implementation of certain projects funded by RBIG. No further details were provided in respect to reasons of the delay. However, the municipality will be applying for a roll-over in line with the requirements of Division of Revenue Act (DoRA).

-5%
-100%

The variance is attributable to low expenditure on water metres project and other ICT capital projects. These projects were not implemented due to austerity measures and cost containment policy.

LESSEE DISTRICT MUNICIPALITY AND ITS CONTROLLED ENTITY
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
For the period ended 30 June 2019

1. BASIS OF PREPARATION

1.1 STATEMENT OF COMPLIANCE

These annual financial statements have been prepared in accordance with the effective South African Standards of Generally Recognised Accounting Practice (GRAP), as approved by the Institute of Accountants, including any interpretations and amendments issued by the Accounting Standards Board in accordance with Section 122(5) of the Municipal Finance Management Act, (Act No 56 of 2003).

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant policy.

1.2 BASIS OF MEASUREMENT

The annual financial statements have been prepared on the accrual basis of accounting and incorporate the historical cost convention as the basis of measurement, except where specified otherwise.

1.3 FUNCTIONAL AND PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality. All financial information has been rounded to the nearest Rand.

1.4 OFFSETTING

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the municipality has a legal right to set off the assets and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Revenue and expenses have not been offset except when offsetting is required or permitted by a standard of GRAP.

1.5 GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.6 USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with GRAP requires management to make judgements, estimates and assumptions that affect the application of policies and impact on the reported assets and liabilities, income, expenses and other reports. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future.

Post-Retirement Benefits and Multi-Employer Retirement Benefit Plans

The present value of the post-retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post-retirement obligations.

The municipality determines the appropriate discount rate at the end of each year using the actuarial valuation. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the municipality considers the interest rates that best approximate by reference to market yields at the reporting date on government bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating the terms of the related pension liability. Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in notes. The municipality contributes to Metal Joint Super Annuitant and Retirement Funds which are Defined Benefit Funds. The municipality's liability in these funds could not be determined owing to the fact that the assets are not being allocated to each employer and only one set of financial statement is provided for each fund not per employer. Further details of this plan is included in the notes to the Financial Statements.

Provision for Impairment of Trade Receivables

The provision for impairment is measured as the difference between the assets' carrying amount and the present value of estimated recoverable future cash flow based on past recovery trends.

Non-cash generating and cash generating impairment testing

Management used the fair value less cost to sell to determine the recoverable amount of assets with an indefinite useful life and identifying assets that may have been impaired. Additional disclosure of these estimates is included in note - Impairment of assets.

All assets owned/received by the municipality are held for the provision of basic service and are considered to be non-cash generated assets.

Provision

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provision are included in notes to Financial Statements.

Provision are measured at the best of department's best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value where the effect is material.

A provision is recognised when:

The municipality has a present obligation (legal or constructive) as a result of a past event;

It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and

A reliable estimate can be made of the obligation.

1.7 COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparative are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparative are restated accordingly. The municipality shall present a comparison of budget and actual amounts as additional budget schedule in the primary financial statements only where the financial statements and the budget are prepared on a comparable basis. All comparisons of budget and actual amounts shall be presented on a comparable basis to the budget. The municipality shall explain in notes to the financial statements the budgetary basis and classification basis adopted in the approved budget (refer note 1.10).

1.3 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality. Application of all of the GRAP standards noted below will be effective from a date to be announced by the Minister of Finance. The effective dates are currently unknown.

GRAP 1 (amended) Presentation of Financial Statements
GRAP 18 Segment Reporting
GRAP 20 Related Party Disclosures
GRAP 32 Service Concession Arrangements (Grantor)
GRAP 34 Separate Financial
GRAP 35 Consolidated Financial Statements
GRAP 36 Investments in Associates and
GRAP 37 Joint Arrangements
GRAP 38 Disclosure of Interest in other Entities
GRAP 108 Statutory Duties
GRAP 109 Standard of GRAP on Accounting by Principals
GRAP 110 Living and Non-Living Resources

The following Standards issued but not yet effective have an effective date of 1 April 2020.

GRAP 34 Separate Financial
GRAP 35 Consolidated Financial
GRAP 36 Investments in Associates and
GRAP 37 Joint Arrangements
GRAP 38 Disclosure of Interest in other Entities

1.4 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED AND EFFECTIVE

The Minister has determined the following GRAP standards as approved and effective:

GRAP 1 Presentation of Financial Statements
GRAP 2 Cash Flow Statements
GRAP 3 Accounting Policies, Changes in Accounting Estimates and Errors
GRAP 4 The Effects of Changes in Foreign Exchange Rates
GRAP 5 Borrowing Costs
GRAP 6 Consolidated and Separate Financial Statements
GRAP 7 Investments in Associates
GRAP 8 Interest in Joint Ventures
GRAP 9 Revenue from Exchange Transactions
GRAP 10 Financial Reporting in Hyperinflationary Economies
GRAP 11 Construction Contracts
GRAP 12 Intangibles
GRAP 13 Leases
GRAP 14 Events After the Reporting Date
GRAP 15 Investment Property
GRAP 16 Property, Plant and Equipment
GRAP 17 Segment Reporting
GRAP 18 Provisions, Contingent Liabilities and Contingent Assets
GRAP 21 Impairment of Non-cash-generating Assets
GRAP 23 Revenue from Non-exchange Transactions (Taxes and Transfers)
GRAP 24 Presentation of Budget Information in Financial Statements
GRAP 25 Employee Benefits
GRAP 26 Impairment of Cash-generating assets
GRAP 27 Agriculture
GRAP 31 Intangible Assets
GRAP 100 Discontinued Operations
GRAP 101 Hedging Assets
GRAP 104 Financial Instruments
GRAP 105 - Transfer of Functions Between Entities Under Common Control
GRAP 106 Transfer of Functions Between Entities Not Under Common Control
GRAP 107 Mergers

Interpretations of the standard of GRAP Approved and effective
IGRAP1 Applying the Probability Test on Initial Recognition of Revenue
IGRAP2 Changes in Estimating Discounting Periods and Similar Liabilities
IGRAP3 Determining Whether an Arrangement Constitutes a Lease
IGRAP4 Rights to Interests Arising from Decommissioning, Restoration and Environmental Rehabilitation Funds
IGRAP5 Applying the Reassessment Approach under the Standard of GRAP on Financial Reporting in Hyperinflationary Economies
IGRAP6 Loyalty Programmes
IGRAP7 The Limits of a Defined Benefit Asset, Minimum Funding Requirements and their Interaction
IGRAP 8 Agreements for the Contribution of Assets from Exchange Transactions
IGRAP 9 Distribution of Non-cash Assets to Owners
IGRAP10 Assets Received from Customers
IGRAP11 Consolidation - Special Purpose Entities
IGRAP12 Jointly Controlled Entities - Non-Monetary Contributions
IGRAP13 Operating Leases - Incentives
IGRAP14 Enforcing the Substance of Transactions Involving the Legal Form of a Lease
IGRAP15 Revenue - Barter Transactions Involving Advertising Services
IGRAP16 Intangible Assets - Website Costs

IGRAP17 Interpretation of the Standard of GRAP on Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset

IGRAP18 Interpretation of the Standard of GRAP on Recognition and Derecognition of Land
IGRAP19 Liabilities to Pay Levies

Interpretations of the standard of GRAP Approved and not yet effective
IGRAP 1 (revised): Applying the Probability Test on Initial Recognition of Revenue (01 April 2020)
IGRAP 20. Accounting for Adjustments to Revenue (01 April 2020)
Directive 7 (revised): The Application of Discount Cost (1 April 2019)

The following standards have been issued but are not yet effective:

GRAP 1 (amended) Presentation of Financial Statements (1 April 2020)
GRAP 106 (as amended 2016): Transfers of Functions Between Entities not Under Common Control (1 April 2019)

Guidelines of the Standard of GRAP approved and not yet effective

Guidelines on Accounting for Leases (01 April 2020)

Guidelines on the Accounting of Intangibles in Financial Statements

Guidelines on Accounting for Arrangements Underlying I.L.O. to the National Housing Programme (1 April 2016)

1.18 PRESENTATION OF BUDGET INFORMATION IN THE FINANCIAL STATEMENTS

The budget is hereby approved on a cash basis by functional classification. The approved budget covers the period from 1 July 2018 to 30 June 2019. The budget and accounting bases for some values differ. The financial statements are prepared on the accrual basis using a classification on the nature of expenses in the statement of financial performance. The financial statements differ from the budget, which is approved on the cash basis. The amounts in the financial statements were revised from the accrual basis to the cash basis and reconciled by functional classification to be on the same basis as the final approved budget. The amounts of these adjustments are identified in note 41. A reconciliation between the actual amounts on a comparable basis as presented in the statement of comparison of budget and actual amounts and the actual amounts in the cash flow statement for the period ended 30 June 2019 is presented in note 41. The financial statements and budget documents are prepared for the same period. There is a basis difference: the budget is strictly prepared on a cash basis and the financial statements on the accrual basis. The reconciliation as required by GRAP 24 is also shown in note 41. The statement of comparison of budget and actual amounts is disclosed as a statement in the original financial statements.

Differences between budget and actual amounts are regarded as material when a more than 10% variance exists.

All material differences are explained in the notes to the annual financial statements.

2 SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies had been applied consistently during the current and previous reporting period, as set out in note 1.2

2.1 PROPERTY, PLANT AND EQUIPMENT

2.1.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the asset is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

2.1.2 SUBSEQUENT MEASUREMENT - COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

2.1.3 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately.

Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the municipality will obtain ownership by the end of the lease term.

Incomplete construction work is stated at historical cost. Depreciation only commences when the asset is available for use.

The annual depreciation rates are based on the following estimated average asset lives:

Infrastructure	Years	Other	Years
Water	10 - 50	Machinery and equipment	3 - 20
Sewerage	10 - 50	Furniture and equipment	3 - 50
Other	10 - 50	Motor vehicles	4 - 20

An entity shall assess at each reporting date whether there is an indication that the entity's expectations about the residual value and useful life of an asset have changed since the preceding reporting date. If any such indication exists, the entity shall revise the expected useful life and/or residual value accordingly. No longer a requirement to review residual value and useful life each year.

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance - refer to note 19 for further information on impairment of assets.

2.1.4 DERECOGNITION

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the net proceeds and the carrying value and is recognised in the Statement of Financial Performance.

2.1.5 LEASED ASSETS

Leases in terms of which the municipality assumes substantially all the risks and rewards of ownership are classified as finance leases. Other leases are classified as operating leases. Upon initial recognition of assets leased under finance leases, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

1 INTANGIBLE ASSETS

1.1 INITIAL RECOGNITION

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licences, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value at that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

1.2 SUBSEQUENT MEASUREMENT - COST MODEL

Intangible assets are subsequently carried at cost less accumulated amortisation and impairment. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

1.3 AMORTISATION AND IMPAIRMENT

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. The annual amortisation rates are based on the following estimated average useful lives:

Computer software and websites 2 - 5 Years

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date - refer to note 19 for further information on impairment of assets. Where the carrying amount of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

1.4 DERECOGNITION

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

4 HERITAGE ASSETS

4.1 INITIAL RECOGNITION AND MEASUREMENT

Heritage assets are assets that are normally held individually for their unique cultural, environmental, historical, natural, scientific, technological or artistic significance for the benefit of future generations.

Certain heritage assets are described as *inalienable* items that are retained indefinitely and cannot be disposed of without consent as required by law or otherwise.

Heritage assets are recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the asset will flow to the municipality; and
- the cost or fair value of the asset can be measured reliably.

If the municipality holds an asset that might be regarded as a heritage asset, but on initial recognition, the asset does not meet the above recognition criteria because it cannot be measured reliably, relevant and useful information about the heritage asset is disclosed in the notes to the financial statements.

On the date of initial recognition, heritage assets are measured at cost. Where a heritage asset is acquired through a non-exchange transaction, the cost is its fair value as at the date of acquisition.

4.2 SUBSEQUENT MEASUREMENT - COST MODEL

After recognition as an asset, a class of heritage assets are carried at its cost less any accumulated impairment losses.

4.3 DEPRECIATION & IMPAIRMENT

Heritage assets are not depreciated. The municipality assesses at each reporting date whether there is any indication that a heritage asset may be impaired - refer to note 18 for further information on impairment of assets.

In assessing whether there is an indication that an asset may be impaired, the municipality considers, as a minimum, the following indicators:

4.3.1 External sources of information

- (a) During the period, a heritage asset's market value has declined significantly more than would be expected as a result of the passage of time or normal use.
- (b) The absence of an active market for a heritage asset.

4.3.2 Internal sources of information

- (a) Evidence is available of physical damage or deterioration of a heritage asset.
- (b) A decision to halt the construction of the heritage asset before it is complete or in a usable form.

4.4 DERECOGNITION

The carrying amount of a heritage asset is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal. The gain or loss arising from derecognition of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognised.

INVENTORIES

5.1 INITIAL RECOGNITION

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

5.2 SUBSEQUENT MEASUREMENT

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arise. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation as the cost of another asset.

The basis of allocating cost to inventory items is the weighted average method.

5.3 WATER INVENTORY

Water inventory represents water stored in reservoirs within the municipal area and is measured at the lower of cost, which is deemed to be fair value, and net realisable value. In the absence of a market that trades in water outside of local government, the fair value utilised to quantify water inventory is based on the unit reference value. The unit reference value is a determined by a formula that is utilised in the engineering department to calculate the development cost of new water resources.

Reservoirs of water levels are taken at year-end, which is quantified at the above fair value.

Water and purified effluent are measured at the lowest of purified cost and net realisable value known as it is stored and controlled in reservoirs at year-end.

6. INVESTMENTS IN CONTROLLED ENTITIES

In the municipality's separate financial statements, investments in controlled entities are measured at cost.

7. FINANCIAL INSTRUMENTS

7.1 INITIAL RECOGNITION

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or residual interest of another entity. A financial asset is:
cash;
a residual interest of another entity; or
a contractual right to:
receive cash or another financial asset from another entity; or
exchange financial assets or financial liabilities with another entity under conditions that are potentially favourable to the entity.

A financial liability is any liability that is a contractual obligation to:

deliver cash or another financial asset to another entity; or
exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the entity.

Financial instruments are initially recognised when the municipality becomes a party to the contractual provisions. Financial assets are recognised using trade date accounting.

The municipality has the following types of financial assets as reflected on the face of the Statement of Financial Position or other notes thereto:

Financial Assets:

Cash and Cash Equivalents = Financial asset measured at amortised cost

Trade and Other Receivables from Exchange Transactions = Financial asset measured at amortised cost

Trade and Other Receivables from Non-Exchange Transactions = Financial asset measured at amortised cost

Non-Current Receivables = Financial Asset measured at amortised cost

Financial Liabilities:

Trade and Other Payables from Exchange Transactions = Financial liability measured at amortised cost

Trade and Other Payables from Non-Exchange Transactions = Financial liability measured at amortised cost

Borrowings = Financial liability measured at amortised cost

Finance Lease Liabilities = Financial liability measured at amortised cost

7.1 INITIAL MEASUREMENT

Financial instruments are initially measured at fair value plus transaction costs for financial instruments at amortised cost or cost. Fair value is usually the transaction cost at the date of recognition. For financial instruments at amortised cost, if the transaction cost is not directly related to the instrument, the transaction cost is charged to the deferred payments or when the contract is entered, or interest charged to the below-market related rate; the municipality determines the fair value. The fair value is the present value of the expected future cash flows, without taking into account any future losses or the possibility of default, discounted using a market interest rate. For financial instruments at fair value, the fair value is determined based on quoted prices in an active market. If there is no active market, it is determined using valuation techniques. For financial instruments at cost, the financial instrument is only measured at cost if the fair value can not be measured reliably. Where a financial instrument contains both a liability and a residual interest component, the municipality allocates the instrument into its component parts. The municipality recognises the liability at its fair value and recognises the residual interest as the difference between the carrying amount of the instrument and its fair value of the liability component. No gain or loss is recognised by separating the instrument into its components.

7.2 SUBSEQUENT MEASUREMENT

Financial assets and liabilities are subsequently measured either at fair value, or amortised cost or cost using the following categories:

- (a) Financial instruments at fair value
- (b) Financial instruments at amortised cost
- (c) Financial instruments at cost

7.2.1 FINANCIAL INSTRUMENTS AT FAIR VALUE

Financial instruments at fair value comprise financial assets or financial liabilities that are derivatives, combined instruments that are designated at fair value, instruments held for trading, financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost and non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition. Financial instruments at fair value are subsequently measured at fair value with changes in fair value recognised in surplus or deficit.

7.2.2 FINANCIAL INSTRUMENTS AT AMORTISED COST

Financial instruments at amortised cost are non-derivative financial assets or financial liabilities that have fixed or determinable payments, involving those the municipality designates at fair value at initial recognition or are held for trading. Financial instruments at amortised cost are subsequently measured at amortised cost using effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated cash flows associated with the financial instrument through the expected life of the instrument (or in some cases a shorter period) to the net carrying amount at initial recognition. Financial assets are subject to annual impairment review. Refer to note 7.5 for details on impairment and uncollectability of financial assets.

7.2.3 FINANCIAL INSTRUMENTS AT COST

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured. Financial instruments at cost are subsequently measured at cost if the fair value cannot be reliably determined. Financial assets are subject to annual impairment review. Refer to note 7.5 for details on impairment and uncollectability of financial assets.

7.3 RECLASSIFICATIONS

The municipality does not reclassify a financial instrument when it is issued or held, except for a combined instrument that is required to be measured at fair value or an investment in residual interest subject to certain requirements.

7.4 GAINS AND LOSSES

Gains and losses on fair value measurements, reclassifications, impairment, derecognition are recognised in surplus or deficit.

7.5 IMPAIRMENT AND UNCOLLECTABILITY OF FINANCIAL ASSETS

Financial assets are subject to annual impairment review as follows:

7.5.1 FINANCIAL ASSETS AT AMORTISED COST

For financial assets at amortised cost, the municipality assesses whether there is any objective evidence that a financial asset or group of financial assets is impaired. If there is objective evidence that an impairment loss on a financial asset has been incurred, the loss is recognised in surplus or deficit. The municipality assesses financial assets individually, when assets are individually significant, and collectively for financial assets that are not individually significant. Where no objective evidence of impairment exists for an individually assessed asset, (whether individually significant or not), an entity includes the assets in a group of financial assets with similar credit characteristics and collectively assesses them for impairment. The impairment loss is the difference between the carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. The impairment loss is recognised in surplus or deficit by reducing the carrying amount either directly or through the use of an allowance account. If, in a period after an impairment loss has been recognised, events occur or circumstances change that indicate that the impairment loss recognised in a previous period should be reversed, the municipality reverses the impairment loss previously recognised either directly or by adjusting an allowance account.

7.5.2 FINANCIAL ASSETS AT COST

For financial assets at cost, the municipality assesses whether there is any objective evidence that a financial asset is impaired. If there is objective evidence that an impairment loss on a financial asset has been incurred, the loss is recognised in surplus or deficit. The impairment loss is the difference between the carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for similar financial assets. The impairment loss is recognised in surplus or deficit by reducing the carrying amount directly. The impairment loss is never reversed in subsequent periods.

7.6 DERECOGNITION

7.6.1 FINANCIAL ASSETS

The municipality derecognises financial assets using trade date accounting. The municipality derecognises a financial asset only when:

- (a) the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- (b) the municipality transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- (c) the municipality, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the municipality shall:
- (i) derecognise the asset; and
- (ii) recognise separately any rights and obligations created or retained in the transfer.

7.6.2 FINANCIAL LIABILITIES

The municipality removes a financial liability from its statement of financial position when, and only, it is extinguished. A financial liability is extinguished when the debtor either:

- (a) Discharges the liability by paying the creditor, normally with cash, other financial liabilities, goods or services;
 - (b) is legally released from primary responsibility for the liability either by process (compromise) or by the creditor (concession). If the debtor has given a guarantee, this condition may still be met;
 - (c) Waives the debt or it is assumed by another municipality by way of a non-exchange transaction.
- Interest, dividends or similar distributions, losses and gains relating to a financial instrument or a component that is a financial liability should be recognised as revenue or expense in surplus or deficit. A financial asset and a financial liability should be offset and the net amount presented in the statement of financial position when and when the municipality:
- (i) Currently has a legally enforceable right to set off the recognised amounts; and
 - (ii) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

7 FOREIGN CURRENCY TRANSACTION

Transactions in foreign currencies are translated in the functional currency of the municipality at exchange rates at the date of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency of the beginning of the period, adjusted for effective interest and payments during the period, and the amortised cost in foreign currency translated at the exchange rate at the end of the reporting period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences arising on retranslation are recognised in surplus or deficit, except for differences arising on the retranslation of available-for-sale financial instruments, which are recognised in net assets.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Cash flows arising from transactions in a foreign currency are recorded in Pesos by applying to the foreign currency amount the exchange rate between the Pesos and the foreign currency at the date of the cash flow.

8 UNAUTHORISED EXPENDITURE

Unauthorized expenditure is defined in section 1 of the MFMA as follows:

"Unauthorized expenditure", in relation to a municipality, means any expenditure incurred by a municipality otherwise than in accordance with section 18 or 11(2), and includes—

- (a) overspending of the total amount appropriated in the municipality's approved budget;
- (b) overspending of the total amount appropriated for a vote in the approved budget;
- (c) expenditure from a vote unrelated to the department or functional area covered by the vote;
- (d) expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose;
- (e) spending of an allocation referred to in paragraph (b), (c) or (d) of the definition of "allocation" otherwise than in accordance with any conditions of the allocation; or
- (f) a grant by the municipality otherwise than in accordance with the Act.

9.1 IDENTIFICATION AND INTERNAL REPORTING

Unauthorized expenditure is identified through the municipality's financial system application controls. On identification of the unauthorized expenditure due to overspending on specific votes, the relevant Head of department is notified, where funds are available on other votes within the directorate, statements are made within the provisions of the relevant policy. If after the provisions of the relevant policy are applied, the unauthorized expenditure still remains, it is recorded in the unauthorized expenditure register and reported to the accounting officer, mayor and council in terms of MFMA section 32.

9.2 COUNCIL DECISION AND ACCOUNTING TREATMENT

Unauthorized expenditure that is incurred before the adjustment budget process is finalised is considered by council through the adjustment budget. Unauthorized expenditure that is incurred after the adjustment budget is referred to the Municipal Public Accounts Committee (MPAC) for investigation and recommendation to council. Where MPAC after investigation, recommends to council to certify the unauthorized expenditure as irrecoverable and write - off, the unauthorized expenditure is disclosed in the notes to the financial statements as recovered by council. Where MPAC determines after investigation, that the unauthorized expenditure must be recovered from the relevant official, the unauthorized expenditure is recognised as an asset (debtor) in the statement of financial position and also disclosed in the unauthorized expenditure note as unauthorized expenditure incurred in the current financial year.

9.3 EXTERNAL REPORTING

The accounting officer of the municipality promptly informs the mayor, the MEC for local government in the province and the Auditor - General, in writing, of:

- (a) Any unauthorized expenditure incurred by the municipality;
- (b) Whether any person is responsible or under investigation for such unauthorized expenditure; and
- (c) The steps that have been taken:
 - (i) To recover or rectify such expenditure; and
 - (ii) To prevent a recurrence of such expenditure

10 IRREGULAR EXPENDITURE

Irregular expenditure is defined in section 1 of the MFMA as follows:

"Irregular expenditure", in relation to a municipality or municipal entity, means—

- (a) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of this Act, and which has not been condoned in terms of section 17(2);
- (b) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the Municipal Systems Act, and which has not been condoned in terms of that Act;
- (c) expenditure incurred by a municipality in contravention of, or that is not in accordance with, a requirement of the Public Office-Servers Act, 1985 (Act No. 20 of 1985); or
- (d) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the supply chain management policy of the municipality or entity or any of the municipality's by-laws giving effect to such policy, and which has not been condoned in terms of such policy or by-law, but excludes expenditure by a municipality which falls within the definition of "unauthorized expenditure".

10.1 IDENTIFICATION AND INTERNAL REPORTING

Every expenditure item is reviewed before payment is made to identify any instances of non-compliance with the relevant Acts and supply chain management policy of the municipality. Where an expenditure item is identified as irregular expenditure, it is recorded in the irregular expenditure register and reported to the accounting officer, mayor and council in terms of MFMA section 32.

10.2 COUNCIL DECISION AND ACCOUNTING TREATMENT

Irregular expenditure reported to council is referred to the Municipal Public Accounts Committee (MPAC) for investigation and recommendation to council. Where MPAC after investigation, recommends to council to certify the irregular expenditure as irrecoverable and write - off, the irregular expenditure is disclosed in the notes to the financial statements as certified and written - off by council as irrecoverable. Where MPAC determines after investigation, that the irregular expenditure must be recovered from the relevant official, the irregular expenditure is recognised as an asset (debtor) in the statement of financial position and also disclosed in the irregular expenditure note as irregular expenditure incurred in the current financial year.

10.3 EXTERNAL REPORTING

The accounting officer of the municipality promptly informs the mayor, the MEC for local government in the province and the Auditor - General, in writing, of:

- (a) Any irregular expenditure incurred by the municipality;
- (b) Whether any person is responsible or under investigation for such irregular expenditure; and
- (c) The steps that have been taken:
 - (i) To recover or rectify such expenditure; and
 - (ii) To prevent a recurrence of such expenditure

11 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is defined in section 1 of the MFMA as follows:

"Fruitless and wasteful expenditure" means expenditure that was made in vain and would have been avoided had reasonable care been exercised.

11.1 IDENTIFICATION AND INTERNAL REPORTING

Every expenditure item is reviewed before payment is made to identify whether it meets the definition of useless and wasteful expenditure. Where an expenditure item is identified as useless and wasteful expenditure, it is recorded in the useless and wasteful expenditure register and reported to the accounting officer, mayor and council in terms of MFMA section 32.

11.2 COUNCIL DECISION AND ACCOUNTING TREATMENT

Useless and wasteful expenditure reported to council is referred to the Municipal Public Accounts Committee (MPAC) for investigation and recommendation to council. Where MPAC after investigation, recommends to council to certify the useless and wasteful expenditure as irrecoverable and write-off, the useless and wasteful expenditure is disclosed in the notes to the financial statements as certified and written-off by council as irrecoverable. Where MPAC determines after investigation, that the useless and wasteful expenditure must be recovered from the relevant official, the useless and wasteful expenditure is recognised as an asset (debt) in the statement of financial position and also disclosed in the useless and wasteful expenditure note as useless and wasteful expenditure incurred in the current financial year.

11.3 EXTERNAL REPORTING

The accounting officer of the municipality promptly informs the mayor, the MEC for local government in the province and the Auditor-General, in writing, of

- (a) Any irregular expenditure incurred by the municipality;
- (b) Whether any person is responsible or under investigation for such useless and wasteful expenditure; and
- (c) The steps that have been taken:
 - (i) To recover or rectify such expenditure; and
 - (ii) To prevent a recurrence of such expenditure

12 PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the municipality's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the rehabilitation of land).

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Past events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria are met and above the recognition criteria of a provision have been met:

- (a) The municipality has a detailed formal plan for the restructuring identifying at least:
 - (i) The municipality has entered a valid association in future effects that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

13 LEASES

13.1 MUNICIPALITY AS LESSEE

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest, to discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and guaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payments. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease.

13.2 MUNICIPALITY AS LESSOR

Under a finance lease, the municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unwarranted residual accruing to the municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease payments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables.

Residual income from operating leases is recognised on a straight-line basis over the term of the relevant lease. The test in respect of coverage is based on the value of security from used from one point of meter supply.

14 REVENUE

14.1 REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Service charges relating to water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when incurred. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when received. Adjustments to provisional estimates of consumption are made in the following period in which meters have been read. These adjustments are recognised as revenue in the following period. Further adjustments are made to take into account suggested tariffs where applicable. The estimates of consumption between meter readings are based on 6 months average reading history.

Service charges from sewerage and sanitation are based on the value of consumption used from one point of meter supply and this is set out in the tariffs of charges approved by Council.

Revenue from the sale of water prepaid meter cards is recognized based on consumption except where a reliable estimate cannot be made after every reasonable effort to gather appropriate information has been made. In these instances, revenue is recognized at the point of sale.

Interest revenue is recognized on a time proportion basis.

Revenue from the rental of facilities and equipment is recognized on a straight-line basis over the term of the lease agreement.

Revenue from the sale of goods is recognized when substantially all the risks and rewards in those goods is passed to the customer.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

14.2 REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from non-exchange transactions are transactions where the municipality receives revenue and provide no or a nominal consideration directly in return.

A transaction can be a combination of exchange and non-exchange transactions. In these instances the municipality determines what portion of the transaction is an exchange transaction and what portion is a non-exchange transaction and then recognizes it separately.

Most non-exchange transactions that the municipality enters into involve stipulations on transferred assets are in terms of laws or regulations, or a binding arrangement, imposed upon the use of a transferred asset by entities external to the municipality. Stipulations can either be in the form of conditions or in the form of restrictions. For both conditions and restrictions the municipality may be required to use the transferred asset for a particular purpose. The municipality uses substance over form to determine whether a stipulation is a condition or restriction.

14.3 RECOGNITION

An inflow of resources from a non-exchange transaction, other than services in-kind, that meets the definition of an asset are recognized as an asset when all of the following criteria have been satisfied:

- (a) When the resource is controlled by the entity as a result of a past event;
- (b) It is probable that the future economic benefits or services potential associated with the resource will flow to the municipality; and
- (c) The fair value of the resource can be measured reliably.

An inflow of resources from a non-exchange transaction recognized as an asset is recognized as revenue, except to the extent that a liability is also recognized in respect of the same inflow (which is the case when a stipulation is a condition).

Liabilities are recognized for conditions to be met which is attached to the transferred asset. The liability is discharged and revenue recognized as the conditions are satisfied.

The municipality does not recognize services in-kind.

The municipality recognizes revenue from vat refunds on cash basis.

14.4 MEASUREMENT

Non-monetary assets such as property, plant and equipment, investment property and inventory, acquired through a non-exchange transaction, are initially measured at fair value on acquisition date.

Monetary assets arising out of a contractual agreement, such as cash and receivables, are initially measured at fair value on acquisition date. Revenue is measured at the amount equal to its increase in net assets (i.e. the net effect).

The amount recognized as a liability is the best estimate of the amount required to settle the present obligation at the reporting date. Revenue from vat refunds is measured at gross amounts.

15 BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized in the cost of that asset unless it is impracticable to do so. The municipality ceases the capitalization of borrowing costs when substantially all the activities to prepare the asset for its intended use or sale are complete. It is considered impracticable to capitalize borrowing costs where the link between the funds borrowed and the capital asset acquired cannot be adequately established. Borrowing costs incurred other than on qualifying assets are recognized as an expense in surplus or deficit when incurred.

16 EMPLOYEE BENEFITS

16.1 SHORT-TERM EMPLOYEE BENEFITS

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognized in the period in which the service is rendered.

The expected cost of compensated absences is recognized as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of bonus payments is recognized as an expense when there is a legal or constructive obligation to make such payments as a result of past service or performance and the obligation can be estimated reliably.

Liabilities for short-term employee benefits that are unpaid at year-end are measured at the undiscounted amount that the municipality expects to pay in exchange for that service and had accumulated at the reporting date.

16.2 POST-EMPLOYMENT BENEFITS

16.2.1 DEFINED CONTRIBUTION PLANS

A defined contribution plan is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to services in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognized in surplus or deficit in the period in which the service is rendered by the relevant employees, unless another standard requires or permits the inclusion of the contribution in the cost of an asset. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

The expected cost of bonus payments is recognized as an expense when there is a legal or constructive obligation to make such payments as a result of past service or performance and the obligation can be estimated reliably.

Where contributions to a defined contribution plan do not fall due wholly within twelve months after end of the period in which the employee renders the related service, they are discounted using a risk-free rate determined by reference to market yields at the reporting date on government bonds, or by reference to market yields on high quality corporate bonds. The municipality contributes to various national and provincial-administered defined benefit plans on behalf of its qualifying employees. These funds are multi-employer plans and are accounted for as defined contribution plans as there is no identifiable and reliable basis available for allocating the obligation, plan assets and cost to individual municipalities participating in the plan. The contributions in these obligations for the payment of retirement benefits are expensed in the year it becomes payable. These multi-employer plans are actuarially valued annually on a national or provincial level using the projected unit credit method. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities. Payments made to industry-managed (or other) plans retirement benefit schemes are dealt with as defined contribution plans where the municipality's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

16.2.2 DEFINED BENEFIT PLANS

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. It defines an amount of benefits that an employee will receive on retirement. The municipality's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefits that employees have earned in return for their service in the current and prior periods. These benefits are discounted to determine its present value. The amount recognized in the statement of financial position represents the present value of the defined benefit obligation as adjusted for unrecognized actuarial gains and losses and unrecognized past service costs, and reduced by the fair value of plan assets.

The discount rate is the yield at the reporting date on AA-rated bonds that have maturity dates approximating the terms of the municipality's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The calculation is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the municipality, the recognized asset is limited to the total of any unrecognized past service costs and the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. In order to calculate the present value of economic benefits, consideration is given to any minimum funding requirements that apply in any plan in the municipality. An economic benefit is available to the municipality if it is realizable during the life of the plan, or on termination of the plan liabilities.

The expected cost of bonus payments is recognized as an expense when there is a legal or constructive obligation to make such payments as a result of past service or performance and the obligation can be estimated reliably.

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognized as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. The expense relating to a defined benefit plan is presented as the net of the amount recognized for a contribution. When the benefits of a plan are improved, the portion of the increased benefit relating to past service by employees is recognized in surplus or deficit as a straight-line basis over the average period until the benefits become vested. To the extent that the benefits vest immediately, the expense is recognized immediately in surplus or deficit.

The municipality immediately recognizes all actuarial gains and losses arising from defined benefit plans directly in net assets.

16.3.3 OTHER LONG-TERM BENEFIT PLANS

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the municipality.

The municipality's net obligation in respect of long service awards is the amount of future benefit that employees have earned in the current and prior periods. The benefit is discounted to determine its present value and the fair value of any related assets is deducted to determine the net obligation.

The discount rate is the yield at the reporting date on AA credit-rated bonds that have maturity dates approximating the terms of the municipality's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains and losses are recognised in surplus or deficit in the period in which they arise.

18.2.4 TERMINATION BENEFITS

Termination benefits are recognised as an expense when the municipality is committed irrevocably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancy are recognised as an expense if the municipality has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting period, then they are discounted to their present value.

17 VALUE ADDED TAX (VAT)

The municipality accounts for VAT on the cash basis. The municipality is liable to account for VAT at the standard rate (14%) in terms of section 7 (1) (a) of the VAT Act in respect of the supply of goods or services, except where the supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the VAT Act or are out of scope for VAT purposes. The municipality accounts for VAT on a monthly basis.

18 IMPAIRMENT OF ASSETS

Primary objective for each generating asset is to generate a commercial return and the primary objective for non-cash generating asset is service delivery. The municipality uses the following sets of questions as a criteria in distinguishing between cash generating and non-cash generating assets:

- (a) Was the asset acquired to generate a commercial return?
 - (b) Does the asset operate independently from other assets?
 - (c) Does the asset generate cash flows independently from other assets?
- If the answer to any of these questions, then the municipality accounts for the asset as a cash generating asset. If the above criteria is not met, the municipality accounts for the asset as non-cash generating asset.

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.

If there is any indication that an asset may be impaired, the recoverable service amount is calculated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a non - cash generating unit is the higher of its fair value less costs to sell and its value in use. The recoverable carrying amount is higher of its fair value less costs to sell and its value in use.

Value in use of a cash generating asset is determined as the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life. Value in use of a non cash generating asset is determined as the present value of the asset's remaining service potential.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. The reduction is an impairment loss.

An impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amount of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

19 RELATED PARTIES

The municipality operates in an economic sector currently dominated by entities directly owned by the Lesotho District Municipality. As a consequence of the constitutional independence of the three spheres of government in South Africa, only entities within the national sphere of government are considered to be related parties.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed.

20 EVENTS AFTER REPORTING DATE

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The municipality will adjust the amounts recognised in the financial statements to reflect adjusting events after the reporting date once the event occurred.

The municipality will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure would influence the economic decisions of users taken on the basis of the financial statements.

21 COMMITMENTS

Items are classified as commitments when an entity has contracted itself to future transactions that will normally result in the outflow of cash. Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary in order to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services); and
- Contracts should relate to something other than the routine, steady, state business of the entity - therefore salary commitments relating to employment contracts or other security benefit commitments are excluded.

History of the Project

Michigan Town Development project has been set on hold due to the bankruptcy of the architect corporation.

100-443887-100

[illegible]

included in the carrying value are assets under contract in an ongoing

selected budgeted (three-month) plans). The employee was brought before the EEOC in 1971 and the EEOC found, twelve years ago, that the budget project needed by the department of COGTA, which the firm was to replace, would include the existing plant. The plant did not make the budget estimate that affected the district and as a consequence, some of the COGTA's financial year. The agency made a determination in COGTA regarding the project in its letter of 1971. The employee was not a member of the COGTA union.

The understanding of the increase project was contained and will be completed in the 2000-2001 year.

roadwork (Computer Engineering). The broadband project is also a project that happened between the 2007/11 and 2010/12 financial years, whereby the ICT infrastructure was installed. (That fiber optic cabling). The total cost of doing out this project was estimated to be about \$600m, funding which has not materialized as yet.

Public Works (Computer Equipment) - This expenditure relates to the hardware that has been purchased for the installation of Public Works. The project will be completed by 2019/2020.

General Provisions

DESCRIPTION	AMOUNT
Umgent Water / Spring Grove Dam Capital Unit Charges (CUC)	45 585 302.39
This is a historical matter where Umgent water sanctioned construction of spring grove dam of which the construction costs were to be shared amongst its clients based on the principle of cross subsidization. Bemba district municipality previously disputed this charge on the basis that there was no direct benefit since the scheme in question did not lead to the lines supplying water to the district. The matter had been referred to SALGA for mediation and SALGA recommended that all the municipalities benefiting from Umgent water distribution systems should contribute (based on the cross subsidization principle) towards the construction costs of the spring grove dam but before doing so, an agreement must be entered between the two parties. Based on SALGA's recommendation, HEMBE District Municipal Council has subsequently rescinded the previous council decision not to contribute. In rescinding this decision, the accounting officer was then mandated to facilitate signing of agreement with Umgent water which should take into consideration reversing all previous charges, incorporating all payments previously made and determining the future payment plan. At the time of conducting completion of the current financial statements the matter was still under discussion with Umgent water in terms of finalizing the agreement.	
Provision based on Umgent Water claims submitted up to 30 June 2019	45 585 302.39

The leases are for computer equipment that are utilised in the course of performing the Municipality's powers and functions.

Computer equipment leases are for three years. The interest rate charged is linked to the prime rate. The termination date is 30 September 2020. Two leases are repaid monthly and include maintenance and insurance. At termination of the leases the computer equipment reverts to the lessor.

The Entity leases its motor vehicles with Avis and due to the substance of these agreements, they are recognized and disclosed as finance leases. The lease term is 36 months and the interest rate implicit on the agreement is 0.065% per month. Interest rates are generally considered to be fixed at the contract date given the nature of the agreement. All leases have fixed repayments.

17.2 OPERATING LEASES				
Lease of Motor Vehicles			19 763 075.98	7 688 088.90
At reporting date, the Municipality has a month on month contract with Wesbank for the lease of motor vehicles. The contract had been initially entered into in October 2016 for a period of 36 months which expired in October 2017. The contract was initially classified as a finance lease and, upon expiry of the initial contract, this was classified as an operating lease (on the basis of the contract having been modified to month on month). There is no future financial commitment to be disclosed due to there being no fixed term contractual obligation. At 30 June 2018, the amount disclosed is for 8 months while it is 12 months for the financial year under review.				
Photocopiers & Printers				
At the reporting date the municipality has outstanding commitments under operating leases which fall due as follows: These amounts are the actual amounts per lease contracts after applying straightlining averaged over 36 months				
Within one year	2 304 843	2 166 137	1 080 815	1 029 181
In the second to fifth year inclusive	3 883 822	3 613 581		
After five years				
Total	6 188 665	5 779 718	1 080 815	1 029 181
Included in the above commitments are the operating lease liabilities in lieu of differences between actual payments made based on the contractual obligation for actual services consumed and the deemed straight lining of rental amounts over 36 months.				
The entity entered into a lease agreement for machinery (contract for 5 printing machines) which is for the period 01 April 2018 to 31 March 2022.				
Operating Lease Liabilities	612 692.38	612 692.38	337 032.96	337 032.90
Operating lease payments represent rentals payable by the municipality for premises/properties.				
The lease was negotiated for periods ranging from 01 March 2018 months to 28 February 2022. The rental escalation will be 10% on the Annual Anniversary of the contract.

UNAUTHORISED, IRREGULAR, FRUITLESS AND WASTEFUL
36 EXPENDITURE DISALLOWED

36.1 Unauthorised expenditure

Reconciliation of unauthorised expenditure

Balance brought forward	14 746 806	14 746 806	22 843 046	22 445 940
Unauthorised expenditure current year				
Certified as irrecoverable and written off by Council in terms of MFMA section 32			(3 099 136)	(3 099 136)
Balance carried forward	14 746 806	14 746 806	14 743 809	14 746 806

Incident

This expenditure relates to the implementation of Lower Tlokelo Bulk Water Supply Scheme (LTBWSS) which is funded through the R210 from the Department of Water and Sanitation. The initial allocation for the financial year was R156m7 and was later cut back to R140m8. The cut back was factored in the adjustment budget, however at the time the cut back was implemented commitments in terms of expenditure were already made (on the basis of R156m8) and thereby making it not easy to cut down on certain projects within the LTWSS.

Action taken

Council has considered and noted items of unauthorised expenditure and has referred them to MPAC for further scrutiny. Any further action will be taken upon MPAC's recommendation to Council.

36.2 Fruitless and wasteful expenditure

Reconciliation of fruitless and wasteful expenditure

Balance brought forward	78 804	78 804	623 114	623 114
Fruitless and wasteful expenditure current year			136 311	78 804
Certified as irrecoverable and written off by Council in terms of MFMA section 32/Recovered from responsible officials	(43 678)	(78 804)	(531 620)	(523 114)
Balance carried forward	35 126	-	76 804	76 804

Incident

Interest payment arising out of a dispute with Seppl over an old debt relating to sewer accounts that had not been billed by Seppl between February 2012 and May 2014.

Interest levied by SEMBICORP on late payment of invoices in respect of free basic services. The delay in payment of these invoices was due to a long standing dispute on the method of billing for free basic services.

Interest levied by KweDukuza Local Municipality on late payment of electricity accounts.

Action taken

The municipality is in the process of implementing measures that are aimed at turning around the current status of municipal finances. The primary objective is to ensure financial sustainability and healthy liquidity of the municipality.

Council has considered and noted items of fruitless and wasteful expenditure and has referred them to MPAC for further scrutiny. Any further action will be taken upon MPAC's recommendation to Council.

36.3 Irregular expenditure

Reconciliation of irregular expenditure

Balance brought forward	53 405 667	53 405 667	6 523 373	6 523 373
Irregular expenditure raised in current year but relating to prior years	346 668 258	346 668 258		
Irregular expenditure current year	74 926 593	74 926 349	95 025 027	45 025 027
Certified by Council as irrecoverable and written off in terms of MFMA section 32			(142 713)	(142 713)
Irregular expenditure awaiting consideration	475 303 638	476 361 384	63 498 697	63 405 697
Percentage written off during the period under review	0%	0%	0%	0%

Incident

This relates to expenditure incurred on isidingo security services. The contract expired in July 2018 after which contract extensions were applied until the allowed period of 8 months was exhausted. The municipality has since embarked on procurement processes and these are now at bid evaluation stage.

Awards to the suppliers in service of the state relate to transactions that occurred before the finalisation of 2017/2018 audit, which the entity was unable to pay.

36.4 Deviations

Deviations were approved in terms of regulation 36 of the Supply Chain Management Policy:

Total value	33 153 268	27 243 431	15 897 604	8 704 454
	33 153 268	27 243 431	15 897 604	8 704 454

The majority of transactions that were classified as deviations were for plant hire (water tanker, TLB), mechanical pump and electrical plant repairs, supply of water purification chemicals, mailing of consumer statements, ad hoc security services requests. All these transactions have now been addressed through the contracts/terms of service providers valid for three years. This period/contract will address the unjustifiable deviations which often created irregular expenditure. These transactions were often as a result of emergency requests from the User Departments. Further significant transactions were in respect purchase of jetting machines after the Municipality had received grant funding from COGTA to procure plant.

38.7 Material losses				
38.7.1 Asset impairment losses				
The current year impairment is a result of ageing infrastructure due to the impact of drought	(5 709 819)	(6 320 604)	116 682	116 683
38.7.2 Debt impairment losses				
Although the revenue collection has slightly improved compared to the prior year, council has incurred material debt impairment losses written off against the provision for bad debts. This is mainly as a result of restricted inactive accounts that are accounting interest with no corresponding payments, pensioner accounts and deceased consumer accounts that are accounting interest. This write-off has resulted in a decrease in consumer debtors and provision for bad debts.	1 719 245	1 719 245	(3 615 207)	(3 615 207)

36.8	Percentage distribution				
Distribution Losses					
Units lost (kilolitres)					
Illegal connections and other	6%	698 557	898 657	2 484 472	2 484 472
Leakage	26%	4 598 817	4 698 817	5 225 778	5 225 778
Reservoir overflows	1%	150 580	150 580	37 327	37 327
Metering inaccuracies	7%	1 198 077	1 198 077		
Service connection leaks	62%	11 100 583	11 100 583	2 202 293	2 202 293
Units lost (kilolitres)	100%	17 854 624	17 854 624	9 848 871	9 848 871
Units lost (sales price per kilolitre - rands)		187 892 368	187 892 368	88 390 506	88 390 506
Units lost (purchase price per kilolitre - rands)		92 087 878	92 087 878	40 482 680	40 482 680
Units lost (percentage)		61.74%	61.74%	40.80%	40.80%

The distribution losses are mainly due to illegal connections, main leaks (aging infrastructure), reservoir overflows and service connection leaks. A five year strategic master plan for the reduction of non revenue water has been adopted by the municipality to address this problem.

Non-Compliance with Section 65 (2) of the Municipal Finance Management Act -

36.9 Payments of creditors within 30 days from date of receipt

	2017/18	2017/18	2017/18	2017/18
Number of days unpaid creditors at 30 June	82 days	82 days	87 days	87 days
Average number of days unpaid creditors during the year	48 days	48 days	83 days	83 days
Value of creditors not paid within 30 days during the year	78 555 886	78 555 889	78 762 885	78 762 885
Percentage of creditors paid within 30 days	99%	99%	89%	89%

The inability to pay creditors on time is a direct result of the cash flow challenges currently being faced by the municipality and this is linked to the broader financial viability challenge. Council adopted a financial turnaround implementation plan in December 2018 which is currently being implemented. In terms of the financial turnaround strategy, it was envisaged that the municipality would be able to turn the current undesirable financial situation in a period of three years with effect from December 2018. There are improvements in the efficiency of paying creditors on time when comparing to the previous years. On average the longest it took to pay creditors during 2018 financial year was 48 days compared to 83 days during 2017/18. In terms of the number of days calculated at year end, 82 days was reported at 30 June 2019 compared to 87 days in June 2018.

36.10 Material Foreign Losses

Total Foreign Liability as at 30 June 2019	2 132 197	2 132 197	0	0
Net Cumulative Foreign Losses	(72 550)	(72 550)		
The material foreign losses arising from the Microsoft Licences foreign liability was due to unexpected adverse fluctuations in the rand dollar exchange rate				
The Spot rate at 30 June 2018 was 14.1487 should the spot rate increase by 1% the foreign liability will be R2 153 518.81 and the foreign loss will increase to R73 275.54. Should the spot rate decrease by 1% the Foreign Liability will be R 2 110 874.67 and the Foreign loss will decrease to R71 824.54				
Foreign Liability increase	R 2 132 198.84*1.01	=R2 153 518.81

38 EMPLOYEE BENEFITS INFORMATION

38.1 Defined contribution plan

The following are defined contribution plans: Natal Joint Municipal Pension Fund, National Treasury, Government Employee Pension Fund, SALA Pension Fund and Municipal Councilors Pension Fund. These contributors have been ascertained.

38.2 Other Long-term benefit plan

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the municipality.

The municipality's net obligation in respect of long service awards is the amount of future benefit that employees have earned in return for their service in the current and prior periods. The benefit is discounted to determine its present value and the fair value of any related assets is deducted to determine the net obligation.

The discount rate is the yield at the reporting date on AA credit-rated bonds that have maturity dates approximating the terms of the municipality's obligations. The calculation is performed using the projected unit credit method. Any actuarial gains and losses are recognised in surplus or deficit in the period in which they arise.

The independent valuers carried out a statutory valuation as at 30 June 2019.

The principal actuarial assumptions used were as follows:

Discount rate per annum	8.04%	8.04%	8.04%	8.04%
Inflation rate	6.23%	6.23%	6.23%	6.23%
Net effective discount rate	2.27%	2.27%	2.27%	2.27%
Benchmark inflation (equal to salary inflation)	7.00%	7.00%	7.00%	7.00%
Average retirement age				
Mortality during employment	SA 85-90 ultimate	SA 85-90 ultimate	SA 85-90 ultimate	SA 85-90 ultimate
Percentage of in-service members withdrawing before retirement:				
Age 20	40%	40%	40%	40%
Age 30	25%	25%	25%	25%
Age 40	12%	12%	12%	12%
Age 50	4%	4%	4%	4%
Age 55	2%	2%	2%	2%

The amounts recognised in the Statement of Financial Position were determined as being the present value of the obligation:

41 CONTINGENT LIABILITY

41.1 Icon Construction

Icon Construction Interest Charges on arrears payments & standing time	1 036 633	1 036 633
--	-----------	-----------

This is a historical matter where Umgent water sanctioned construction of spring grove dam of which the construction costs were to be shared amongst its clients based on the principle of cross subsidization. Lembe district municipality previously disputed this charge on the basis that there was no direct benefit since the scheme in question did not feed to the farm supplying water to the district. The matter had been referred to SALGA for mediation and SALGA recommended that all the municipalities benefiting from Umgent water distribution systems should contribute (based on the cross subsidization principle) towards the construction costs of the spring grove dam but before doing so, an agreement must be entered between the two parties. Based on SALGA's recommendation, Lembe District Municipal Council has subsequently rescinded the previous council decision not to contribute. In rescinding this decision, the accounting officer was then mandated to facilitate signing of agreement with Umgent water which should take into consideration reverting all previous charges, incorporating all payments previously made and determining the future payment plan. At the time of concluding completion of the annual financial statements, the matter was still under discussion with Umgent water in terms of finalizing the agreement.

Contingent Liability based on interest amounts charged by Icon Construction on arrears payments & standing time

1 036 633	1 036 633
-----------	-----------

42 RISK MANAGEMENT

42.1 Maximum credit risk exposure

Credit risk is the risk that a counter party to a financial instrument will fail to discharge an obligation and cause the municipality to incur a financial loss.

Credit risk consists mainly of cash deposits, cash equivalents and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluates credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors.

Financial assets exposed to credit risk at year end were as follows:

Consumer debtors	350 732 511	350 732 511	273 380 840	273 380 840
Other debtors	-	-	30 198 724	30 198 724
	350 732 511	350 732 511	309 580 564	309 580 564
Ageing of consumer				
Current (0 - 30 days)	33 555 545	33 555 545	12 800 325	12 800 325
31 - 60 Days	7 621 808	7 621 808	16 890 450	16 890 450
61 - 90 Days	12 170 372	12 170 372	11 347 838	11 347 838
91 - 120 Days	12 927 784	12 927 784	7 264 472	7 264 472
121 - 365 Days	15 057 296	15 057 296	14 163 970	14 163 970
+ 365 Days	289 370 753	289 370 753	208 952 584	208 952 584
Total	350 732 511	350 732 511	273 380 840	273 380 840
Less: Provision for bad debts	250 542 015	250 542 015	(188 658 714)	(188 658 714)
Net consumer debtors	100 190 496	100 190 496	84 722 126	84 722 126
Cash and cash equivalents	194 932 184	174 782 791	75 613 667	10 703 174
Other investments	-	-	27 286 429	27 286 429
	194 932 184	174 782 791	102 900 196	38 989 603

These balances represent the maximum exposure to credit risk

42.2 Liquidity risk

Liquidity risk is the risk that the municipality will not be able to meet its obligations as they fall due. The municipality's approach to managing liquidity risk is to ensure that sufficient liquidity is available to meet its liabilities when due, without incurring unacceptable losses or risking damage to the municipality's reputation.

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

The municipality's liability are backed by appropriate assets and it has significant liquid resources.

The table below analyses the municipality's financial liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial Position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Within a year	Between 2 to 5 years	Total
2018			
Gross finance lease obligations	1 567 571	314 080	1 881 651

42.3 Interest rate risk

The Municipality is not exposed to interest rate risk on its financial liabilities. All of the Municipality's interest bearing external loan liabilities are fixed interest loans.

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the group to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk.

The Municipality is exposed to fair value interest rate on its external loan liabilities, which are at fixed interest rates.

At year end, financial instruments exposed to interest rate risk were as follows:

Cash and cash equivalents	194 882 184	174 702 781	75 813 887	70 703 174
Other investments	28 718 788	28 718 788	27 288 429	27 288 429
Gross finance lease obligations	2 182 880	2 182 860	3 012 015	3 012 015
Borrowings	75 866 942	75 588 942	80 015 900	80 015 900
Consumer debtors	360 732 511	360 732 511	273 380 848	273 380 848

43 TRANSFER OF AGRICULTURAL PROJECTS

The process of transferring the following agricultural assets presently disclosed as PPE Agriculture and Biological Assets is currently underway. The entity is busy with the implementation of the ownership model. COGTA gave the entity a period of 36 months to complete the process.

Bio Diesel	5 777 329	5 777 329
North Coast Vineyards	590 000	361 400
Agri Processing Facilities	10 751 478	10 107 238
Moringa Plantations	17 118 805	18 275 853

GLOSSARY

Accessibility Indicators	Explore whether the intended beneficiaries are able to access services or outputs.
Accountability Documents	Documents used by executive authorities to give <i>"full and regular"</i> reports on the matters under their control to Parliament and provincial legislatures as prescribed by the Constitution. This includes plans, budgets, in-year and Annual Reports.
Activities	The processes or actions that use a range of inputs to produce the desired outputs and ultimately outcomes. In essence, activities describe <i>"what we do"</i> .
Activities	The quantity of input or output relative to the need or demand.
Annual Report	A report to be prepared and submitted annually based on the regulations set out in Section 121 of the Municipal Finance Management Act. Such a report must include annual financial statements as submitted to and approved by the Auditor-General.
Approved Budget	The annual financial statements of a municipality as audited by the Auditor General and approved by council or a provincial or national executive.
Baseline	Current level of performance that a municipality aims to improve when setting performance targets. The baseline relates to the level of performance recorded in a year prior to the planning period.
Basic municipal Service	A municipal service that is necessary to ensure an acceptable and reasonable quality of life to citizens within that particular area. If not provided it may endanger the public health and safety or the environment.
Budget year	The financial year for which an annual budget is to be approved – means a year ending on 30 June.
Cost indicators	The overall cost or expenditure of producing a specified quantity of outputs.
Distribution Indicators	The distribution of capacity to deliver services.
Financial Statements	Includes at least a statement of financial position, statement of financial performance, cash-flow statement, notes to these statements and any other statements that may be prescribed.
General Key performance indicators	After consultation with MECs for local government, the Minister may prescribe general key performance indicators that are appropriate and applicable to local government generally.

Impact	The results of achieving specific outcomes, such as reducing poverty and creating jobs.
Inputs	All the resources that contribute to the production and delivery of outputs. Inputs are "what we use to do the work". They include finances, personnel, equipment and buildings.
Integrated Development Plan (IDP)	Set out municipal goals and development plans.
National Key performance areas	<ul style="list-style-type: none"> • Service delivery & infrastructure • Economic development • Municipal transformation and institutional development • Financial viability and management • Good governance and community participation
Outcomes	The medium-term results for specific beneficiaries that are the consequence of achieving specific outputs. Outcomes should relate clearly to an institution's strategic goals and objectives set out in its plans. Outcomes are "what we wish to achieve".
Outputs	The final products, or goods and services produced for delivery. Outputs may be defined as "what we produce or deliver". An output is a concrete achievement (i.e. a product such as a passport, an action such as a presentation or immunization, or a service such as processing an application) that contributes to the achievement of a Key Result Area.
Outputs	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)
Performance Indicator	Indicators should be specified to measure performance in relation to input, activities, outputs, outcomes and impacts. An indicator is a type of information used to gauge the extent to which an output has been achieved (policy developed, presentation delivered, service rendered)

Performance Information	Generic term for non-financial information about municipal services and activities. Can also be used interchangeably with performance measure.
Performance Standards:	The minimum acceptable level of performance or the level of performance that is generally accepted. Standards are informed by legislative requirements and service-level agreements. Performance standards are mutually agreed criteria to describe how well work must be done in terms of quantity and/or quality and timeliness, to clarify the outputs and related activities of a job by describing what the required result should be. In this EPMDS performance standards are divided into indicators and the time factor.
Performance Targets:	The level of performance that municipalities and its employees strive to achieve. Performance Targets relate to current baselines and express a specific level of performance that a municipality aims to achieve within a given time period.
Service Delivery Budget Implementation Plan	Detailed plan approved by the mayor for implementing the municipality's delivery of services; including projections of the revenue collected and operational and capital expenditure by vote for each month. Service delivery targets and performance indicators must also be included.
Vote:	<p>One of the main segments into which a budget of a municipality is divided for appropriation of money for the different departments or functional areas of the municipality. The Vote specifies the total amount that is appropriated for the purpose of a specific department or functional area.</p> <p>Section 1 of the MFMA defines a "vote" as:</p> <p><i>a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or</i></p> <p><i>functional areas of the municipality; and</i></p> <p><i>b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned</i></p>

- 6.3. Conclusion**

CHAPTER 1- INTRODUCTION & OVERVIEW

1.1 Overview of iLembe District Municipality

The iLembe District Municipality is situated on the East Coast of South Africa in the Province of KwaZulu Natal. iLembe District is bordered by eThekweni Metro in the South and linked to King Cetshwayo District in the north by the coastal highway, which is a key corridor in the region and is bordered in the west by Umgungundlovu and Umzinyathi Districts.

It is located between Africa's busiest ports of Richards Bay and Durban and is in close proximity to the King Shaka International Airport and the Dube Trade Port. It is the smallest District Municipality in the province with a total population of approximately 657000. The municipality covers 3260 square kilometers and is divided into four local municipalities: KwaDukuza, Mandeni, Maphumulo & Ndwedwe.

The economic sectors that constitute the pillars of iLembe's economy are the following:

- **Agriculture** - This sector is characterised by two main distinct types:
 - Commercial agriculture, such as sugar cane farming along the coastal strip
 - Subsistence agriculture in the rural hinterland and inland areas
- **Manufacturing** - This sector is mainly characterised by the following types of industries:

- Primary sector comprises of heavy industries, such as sugar and paper mill production in the Isithebe Industrial Estate in Mandeni
 - Secondary sector activities include light industries that are prevalent throughout the district and with a focus on the rural areas of the district as well as along the coastal belt.
- **Tourism** - iLembe is one of the prime domestic tourism attractions in South Africa due to its favourable climate and its excellent beaches. This sector has consistently grown in iLembe and offers a variety of tourism facilities that can be categorised as follows:
- Cultural and heritage tourism
 - Beach tourism
 - Nature-based and adventure tourism
- **Commerce and Services** - This sector includes the following sub sectors and is found in all the main urban centres throughout the district with specific reference to the towns of KwaDukuza and Ballito:
- Wholesale / retail trade transport / storage communication financial / insurance
 - Real estate business / community / social / personal services / government services

1.2 Foreword by the Chairperson

As an economic development agency mandated to drive economic development and promote trade & investment, Enterprise iLembe has to live up to the expectations of the citizenry of the iLembe District, this necessitates that, as our way of life, we support open public discussions, we are responsive to the development needs of the District, we are conscious about the development impact on the environment and that we are trusted by our funding and social partners.

The agency is confident though, that the triple challenges of unemployment, poverty and inequality which faces the district and the country as a whole can be overcome through collective collaboration and planning. Key partnerships between all government sector departments at all spheres as well as with private sector and the communities we work in, is critical for economic growth and sustainability.

As the Board of Enterprise iLembe, we are mindful that as a government entity, we need to work together with the private and business sector in taking the district of iLembe to the next level of economic growth; where the ease of doing business will attract new investments, where the regulatory environment allows for small businesses to thrive and where our entrepreneurs can succeed.

It is to this end that during the past year, Enterprise iLembe has entered into favorable engagements and discussions with key partners to promote and package investment opportunities in all sectors and will continue with this drive. We continue to strive to build and strengthen relationships with all stakeholders as we believe that together we can build a sustainable economy in our district, ensuring a better live for all our people.

However, in reviewing the performance of the Entity through the Service Delivery Budget Implementation plan, as a Board we are pleased with the overall performance whilst conceding that there is still a lot more that needs to be done in order that we address the triple challenge of poverty, inequality and unemployment.

The appointed board members collectively bring much required expertise and values to Enterprise iLembe coming from backgrounds such as law, marketing, HR, Investment Promotions and Tourism.

Board and Sub Committee meetings are held at least once a quarter and the attendance thereof is recorded as follows;

Name	Board	LED Investment	HR Finance
Khanyisani Shandu	6	4	N/A
Cobus Oelofse	5	4	5
Thandi Nzama	4	2	N/A
Dumisile Nene	3	N/A	2
Noluthando Mngadi	3	N/A	4
Zakhele Gumede	5	4	2
Patrick Mngadi	4	N/A	6

Appreciation

Let me take this opportunity to express my sincere gratitude to the board members for the professional manner in which they discharge their fiduciary and other duties to the organisation, through their collective and individual experience and expertise.

I would like to also share my deepest appreciation to the management of Enterprise iLembe led by the CEO Mr. Nkosinathi Nkomzwayo and the entire staff, for the manner in which they have dedicated themselves to work for our people and to serve them in a manner that says the principle of "Batho Pele" is deeply entrenched in the organisation.

Lastly on behalf of the Board of Directors of Enterprise iLembe we would like to thank our shareholder, iLembe District Municipality for their support, leadership and guidance.

We are looking forward to 2019/2020 as we strive even harder to ensure that our vision to make the iLembe District a destination of choice for investment, business and tourism become a reality.

Khanyisani Shandu

Chairperson

1.3 Foreword by the Chief Executive Officer

The economic climate has changed and becoming more challenging over the past ten to fifteen years. Local businesses are considered to be an important long-term and key driver of economic growth, innovation and reduction in unemployment. They offer significant job creation potential and support large numbers of livelihoods. The significant participation and meaningful inclusion of small, medium and micro enterprises into the mainstream economy in our province through their own enterprises will be one of the key game changers.

The 2018/2019 financial year reflected great accomplishments of what the entity wanted to achieve at the start of the financial year focusing on planning and implementation and also making great strides with engaging with various stakeholders and forming key partnerships.

Enterprise iLembe held strategic board and management sessions in order to plan and prepare for the five-year institutional assessment and capacitate the organisation to position itself effectively as a sustainable economic development agency in iLembe.

The Entity continues to focus on the following three strategic pillars as DNA of the organization:

Financial sustainability of Ei

Business Development

Stakeholder Engagement

The strategic repositioning and focus on the three pillars has resulted in ensuring that the Entity addresses some of its weaknesses and threats, thus positioning itself to deliver efficient service to its clients.

The Entity continues to redress imbalances in the economic growth of iLembe District influencing positive local economic development to prevail in all sectors of the Entity.

The Entity has engaged with major stakeholders in the provincial and national level, formulating relationships to foster economic development projects and flourishing in media engagements to promote the iLembe District tourism products and investment opportunities as per the vision of Enterprise iLembe.

One of the key successes was that the entity ended the 2018/2019 financial year at a revenue of circa 49% more than original budget. This is as a result of concerted effort to grow our revenue base and reduce overreliance on parent municipality.

The 2018/2019 financial year has not been without challenges though and the following were faced by the Entity that are to be addressed in the new financial year and going forward:

Packaging of projects for funding and raising finances for sustainability through project initiatives

- Funding model for catalytic projects
- Stakeholder Management
- SMME Capacity Development
- Brand positioning/ Management
- Ownership and operations management of agricultural projects

Local Economic Development

One of the paramount initiatives that the Entity has focused on is to capacitate local farmers to be academically inclined in farming and increase the percentage of procuring vegetables for the National Schools Nutrition programme (NSNP) from local farmers. The Entity further continues to extend technical and financial support to the farmers that are in the open fields project and any other farmers within the district that need technical expertise and training.

There are however a number of challenges that are faced by the farmers on the ground which hinders their growth. The following are the typical challenges facing all farmers in the District:

- Limited budget
- Lack of infrastructural development
- Lack of substitute products
- Lack of service providers who supply fertilizers and chemicals in iLembe

In recognition of youth development and in unison to invest on potential leaders of tomorrow, the Entity and the Department of Labour successfully launched the Unemployment Insurance Fund (UIF) learnership programme in the fourth quarter.

Furthermore, the Entity pursued and unlocked economic opportunities with the Department of Cooperative Governance and Traditional Affairs on the Biomass Project. This project will convert and add value to any biomass and turn it into useful products such as charcoal, oil and gas. The implementation of the project will assist in reducing unemployment levels within the district and create opportunities for entrepreneurs to grow their business.

The Agency hosted its first Black Industrialist with the objective to initiate a measurable and targeted entrepreneurship development programme and to open a structured dialogue between targeted entrepreneurs and industries. It was a platform where local industries shared information on the opportunities available for black industrialists.

Enterprise iLembe continues to assist co-operatives and SMME's to acquire Business Management Skills through training sessions, learnerships and also secure funding from various private and government institutions. The Social Facilitation unit has registered a total of thirty-two [32] Co-operatives in the 2018/19 financial year and ensuring that there's reputable working relationships and vast knowledge and understanding of business operations through training sessions offered.

The Entity is playing a vital role in mentoring, supporting and nurturing entrepreneurs through SMME workshops and via the business incubator ensuring long term sustainability of small businesses. The iLembe Business Incubator is situated in KwaDukuza and supports more than fifty-eight entrepreneurs in various sectors from all four local municipalities.

Tourism, Investment & Stakeholder Management

Tourism continues to be a major contributor to the GDP of the region contributing just over R3.4 billion to the economy and creating/sustaining over 11 000 jobs. Enterprise iLembe participates at relevant national and international trade and consumer shows such as WTM London, ITB Berlin, Africa Travel Indaba and the Gauteng Getaway Show. The Entity produces marketing material and supports events that have the potential to attract more tourists to the destination.

The Entity continues to maintain key strategic partnerships with stakeholders such as Tourism KZN and Durban Tourism in order to partner, align and leverage of tourism programmes and projects, the hosting of the KZN Travel Academy and SMME workshops are some of the partnership initiatives. Enterprise iLembe also forms part of the Route Development Committee; Durban Direct which is responsible for the attraction of new airlines into King Shaka International Airport.

Enterprise iLembe in partnership with KwaDukuza Municipality commissioned the Nokukhanya Luthuli Street Feasibility Study. The Tourism Strategy identified KwaShushu Hotspots / Ntunjambili as a catalytic project for Maphumulo and the district, budget will be set aside for the feasibility study of this project in the 2019/2020 financial year.

There is an ongoing partnership with Trade and Investment KZN to market and promote iLembe district as an investment destination of choice. In order to deliver on this mandate, it is imperative that Enterprise iLembe firstly creates awareness of the Entity and its mandate as well as promote the region on both a national and international level to various stakeholders which include both trade and investors. The Entity has embarked on trade missions in addition to direct engagements with investors which has yielded positive results with new investments coming into the district.

The Entity acknowledges that the results of marketing is usually long term. Building such trade relationships is a cycle that takes 3-5 years, and is not necessarily obvious and immediate. It is thus critically important to both create and maintain these relationships with key stakeholders and potential investors. Personal contact is vital in a person-centred industry such as tourism and investment.

On the aspect of formalizing cooperation and support to the economic well-being of iLembe District, Enterprise iLembe entered into a Memorandum of Understanding with the iLembe Chamber of Commerce, Industry and Tourism. This was formalised at a joint media briefing which was held on the last quarter of 2018/2019.

The Entity has developed a magazine titled iThemba that is published to communicate the programmes and projects that Enterprise iLembe, the district and the local municipalities are involved in. In addition, the Entity ensures communication through social media, print and radio stakeholder engagements.

Conclusion

We appreciate the support and guidance from our shareholder; iLembe District Municipality, the family of local municipalities as well as from our stakeholders and partners.

The Board of Directors have continued to provide strategic direction and leadership and we are grateful for their commitment towards the Entity achieving its mandate. The management and staff continue to work hard at supporting the vision of the Entity and we are thankful for their dedication and tireless efforts.

Nathi Nkomzwayo
Chief Executive Officer

1.4 Executive Summary

The key economic drivers in the district are still consistent in the sectors of agriculture, tourism, manufacturing and services and as a district we strive to continuously bridge the huge divide between the first and second economies through the identification, facilitation and implementation of key projects.

Enterprise iLembe has progressed well in building capacity appropriate for a well-resourced Entity to carry out the mandate, but we still remain under pressure to do more.

The 2018/19 financial year has not been without challenges and the following were faced by the Entity that are to be addressed in the new financial year and going forward:

- Packaging of projects for funding and raising finances for sustainability through project initiatives
- Funding model for catalytic projects
- Stakeholder Management
- SMME Capacity Development
- Brand positioning/ Management
- Ownership and operations management of agricultural projects

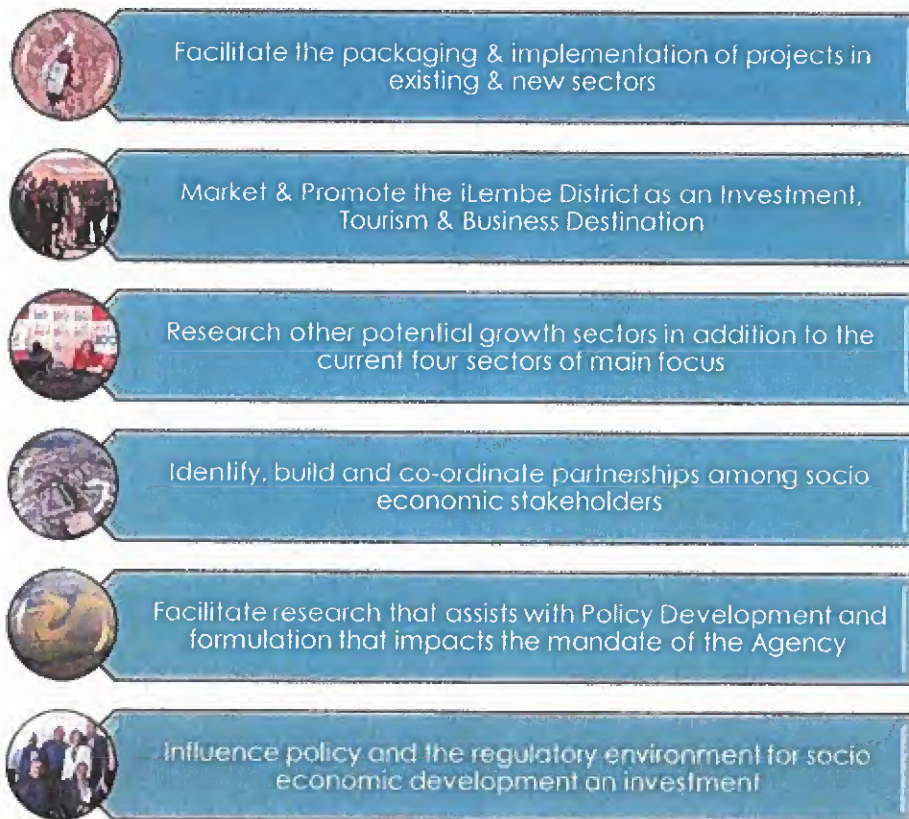

1.5 Strategic Objectives & Functions

1.5.1 Agency Mandate

- ◊ Develop, review and strengthen the local economic development strategy on behalf of the district and family of municipalities;
- ◊ Champion a wide range of activities which emerge as important from the family of IDPs and LED Strategies;
- ◊ Co-ordinate LED activities to ensure alignment and integration;
- ◊ District marketing and promotion of tourism and investment promotion;

- ◊ Facilitate the identification, packaging and implementation of catalytic projects in the four key sectors and new sectors;
- ◊ Provide professional and multi-skilled support and networking services to major investors who wish to invest in the region;
- ◊ Work with local government to facilitate a business enabling environment;
- ◊ Implement business, retention and expansion (BR&E) programmes in partnership with local business;
- ◊ Build twinning relationships with developed regions nationally and internationally;
- ◊ Social Risk Management.

1.5.2 Key Strategic Goals & Objectives

STRATEGIC GOAL 1:

Facilitate the packaging & implementation of projects in existing and new sectors

Objectives

- Implement and ensure sustainability of existing projects
- Identify and package new projects in existing sectors
- Tap into available programs to create more black industrialists

STRATEGIC GOAL 2:

Market and Promote the iLembe District as an Investment, Tourism & Business Destination

Objectives:

- To attract interest for new investment to iLembe District
- To increase visitor numbers to iLembe District
- To support new tourism product development and the geographical spread of tourism

STRATEGIC GOAL 3:

Research other potential growth sectors in addition to the current four sectors of main focus

Objectives:

- To identify and package projects in new sectors
- Tap into available programs to create more black industrialists

STRATEGIC GOAL 4:

Identify, build and co-ordinate partnerships among socio economic stakeholders

Objectives:

- Facilitate Business Retention and Expansion
- Support Entrepreneurship Development

STRATEGIC GOAL 5:

Facilitate research that assists with Policy Development and formulation that impacts the mandate of the Agency

Objectives:

- Identify policies and Acts that effect the Agency
- Research Team
- Research that will influence the decision making process

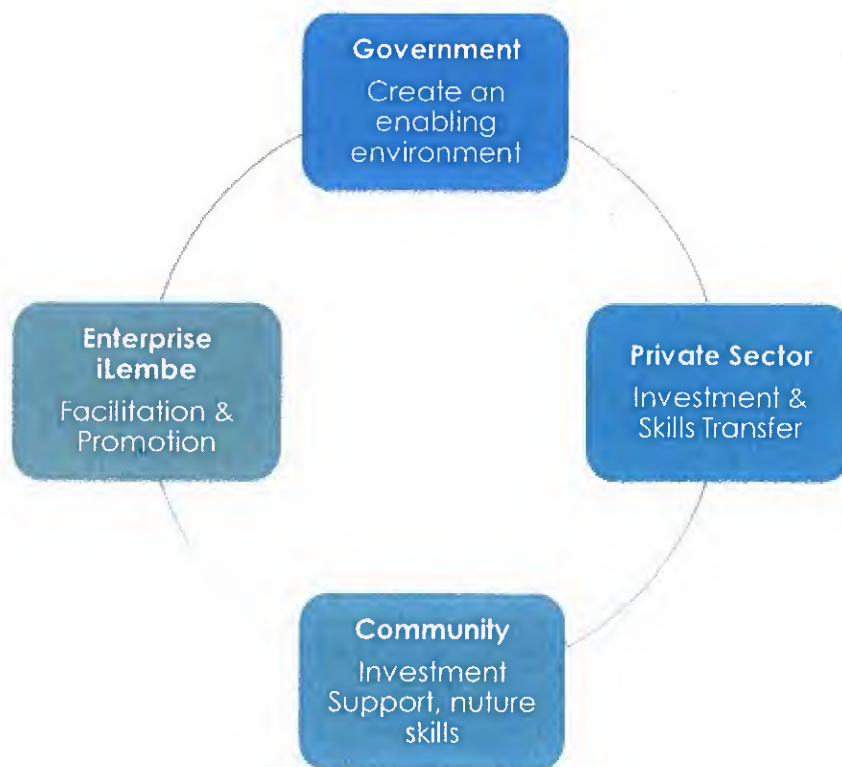

STRATEGIC GOAL 6:

Influence policy and the regulatory environment for socio economic development and investment

Objectives:

- Identify existing structures and leverage of those
- If none, create structures
- Use structures to engage government
- Include issues of infrastructure and spatial planning
- Influence infrastructural and spatial planning

1.5.3 Roles & Responsibilities

It is the role of Enterprise iLembe to facilitate and promote socio economic development in the region. The role of Enterprise iLembe can be further defined as follows;

- Nurture new ideas which have commercial potential AND have high impact potential in regards to poverty alleviation, jobs and empowerment.
- Build partnerships between public sector, support institutions, private sector and the community.
- Build partnerships within each locality and support one another in service delivery.
- Collectively bridge the gap between 1st & 2nd economies through catalytic & high-impact projects.

1.6 Audit Committee Report

1. Objective

The purpose of this report is to present the Audit Committee's progress in carrying out its oversight responsibilities, including oversight for the statutory audit process for the financial year ended 30 June 2019.

2. Terms of reference

The mandate of the Audit Committee is legislated in terms of section 166 of the Municipal Finance Management Act, 2003 (MFMA) which requires the Audit Committee to advise the

Accounting Officer and Council on matters relating to: Internal financial control and internal audits; risk management; adequacy, reliability and accuracy of financial reporting and information; accounting policies; performance management and evaluation; effective governance; Compliance with the MFMA and any other applicable legislation and / or policies and any other issues referred to it by the Entity.

The Audit Committee is also required to fulfill the functions of a Performance Management Committee constituted in terms of Regulation 14(2) of the Local Government: Municipal Planning and Performance Management Regulations, 2001.

The MFMA also requires the Audit Committee to review the annual financial statements, respond to Board on matters raised by the Auditor General and carry out investigations into the financial affairs of the Entity.

3. Audit Committee composition and attendance

The Audit Committee comprises four independent members. The members have diverse skills and experience. The term for audit committee members commenced in May 2018.

An independent member chairs the Committee. Both the Internal and External Auditors have unrestricted access to the Audit Committee.

The table below sets forth the membership and attendance at meetings of the committee for the period ended 30 June 2019:

Names	Role	Meetings Attended	26 Sept	19 Nov	25 Feb	3 May	16 Aug
			2018	2018	2019	2019	2019
Mr S L Ndlovu	Member	5	✓	✓	✓	✓	✓
Ms C Gertze	Member	5	✓	✓	✓	✓	✓
Ms B Zulu	Member	3	⊗	✓	⊗	✓	✓
Mr S Hlophe	Chairperson	5	✓	✓	✓	✓	✓

The following are standing invitees to the Audit Committee Meetings:

Representative from Auditor-General (AG)

Representatives from Provincial Treasury and COGTA

Internal Audit

The Chief Executive Officer (CEO)

The Chief Financial Officer (CFO)

The Chief Operations Officer (COO)

The Risk Management Committee Chairperson

4. Audit Committee's Responsibility

The Audit Committee operates under written terms of reference, the audit committee charter which is approved by the Board annually. These terms of reference are in line with the requirements of section 166 of the MFMA and Treasury Regulation 27.1.

In this report, under relevant headings, we have summarized the activities and progress we have undertaken in executing of our mandate:

4.1 Internal Audit and Internal Control

In line with the requirements of the MFMA the Internal Audit provides the Audit Committee and Management with assurance as to whether the internal controls are appropriate and effective. This is achieved by means of the risk based internal audit plan which is approved by the Audit Committee annually.

The internal audit function of the Entity is currently outsourced to Nexia SAB&T.

The Audit Committee had approved the Internal Audit Plan for 2018/19 financial year, which had to be revised and adopted by the current internal auditors as it was previously prepared by the previous internal audit. Internal Audit reports were presented to the Audit Committee during this period.

4.2 Risk Management

The Audit Committee is responsible for oversight of the internal and external auditors as well as financial reporting. Because the assessment of internal controls over financial reporting is risk-based, the Audit Committee is responsible for overseeing management's risk policies and discussing the key risk exposures with management.

The Entity conducted a risk assessment workshop during the start of the financial year and the top key risks were identified, measured and prioritised and the updated risk register was adopted on 1 July 2018. The implementation of MSCOA is still taken as a priority and high risk as there are constant upgrades through the financial system which the Entity must continually implement and comply with, as per the new reporting standards introduced by Treasury, which was implemented by the entity on 1 July 2017 as legislated.

Risk Management Reports are presented to the Audit Committee during its meetings. Based on our review and observations we are comfortable that the Enterprise adequately manages all critical risks faced by the organization.

4.3 ICT Governance and ICT Operations

ICT is the integral part of the organization. There have been improvements within the ICT function with the Entity resolving to have this function in-house and the appointment of an ICT Officer who is currently assessing the infrastructure and other ICT related resources that the Entity will need going forward. Audit Committee resolved that the issues of ICT Governance be a standing item in the Agenda.

4.4 Evaluation of Financial Reports and Annual Financial Statements

For the reporting period under review, the Audit Committee was able to evaluate the following:

Annual Performance Report and Annual Financial Statements were presented to the Audit Committee on the meeting held on the 16th August 2019. The Audit Committee reviewed the AFS through scrutiny and engagement with management as the AFS were yet to be reviewed by Internal Audit. The Audit Committee requested that internal audit circulate the audited AFS to the committee on 21 August 2019 so that the committee may satisfy themselves that the AFS presented are credible and present the true reflection of the financial affairs of the enterprise and provide further input if any. With regards to APR this was reviewed through scrutiny and engagement with management. We are satisfied of the progress made at an organizational level, with management notifying the committee that some of the evidence will be submitted before final submission, which will decrease the number of targets not met, currently sitting at 81% of targets met.

With regards to AG Action Plan, the management confirmed that the issues raised by AG are being attended to, with the percentage of progress sitting at 92%. We evaluated this through an Action Plan progress report submitted to Audit Committee. We are satisfied that these matters are addressed adequately. The two outstanding issues are currently beyond management control, one being the response from SARS on the reversal of interest and penalties and the receipt of the permission to occupy (PTO) certificate from the tribal council in Maphumulo for the use of the vineyards site.

We are comfortable that MSCOA compliance has progressed adequately and through engagement with the District Municipality we are satisfied with the support provided to the Enterprise. During the review of AFS we noted that the AFS were in accordance with MSCOA and that the Enterprise is able to transact and process entries using the MSCOA system. The Entity currently has a signed agreement (SLA) with Munsoft – the financial system service provider which is assisting in queries being promptly attended to.

4.5 Performance information

The Audit Committee also serves as the Performance Audit Committee for the Enterprise. The legal responsibilities of the Audit Committee in this regard are set out in terms of the Local Government: Municipal Planning and Performance Management Regulations 2001.

As indicated above the Audit Committee reviewed the Annual Performance Report for the year ended 30 June 2019. The Entity is currently setting at 81% of targets met in its performance target measured at an organizational level. The Audit Committee recommends a review of performance targets so to be realistic and in line with smart principles.

5. Recommendations

The Board and management at all levels should continue with commitment to optimally use scarce resources, cash-flow and sustainability plans and regular monitoring and evaluation to ensure that the Enterprise iLembe continues as a going concern.

The Board and management need to continuously monitor and review internal controls. The Chief Executive Officer must ensure that there are consequences for non-adherence with internal controls.

The Chief Executive Officer and management should ensure that credible, reliable and accurate financial and performance information is submitted quarterly for review by the Board and the Audit Committee.

The Chief Executive Officer should ensure that recommendations of internal and external audits are implemented as per the action plans and report progress on a quarterly basis. This should assist to prevent irregular, fruitless and wasteful expenditure as well as non-compliance with laws and regulations.

The Chief Executive Officer and the Board should explore possible alternative funding for Local Economic Development projects. The committee also commended the various initiatives that the CEO and management undertook in the 2018/2019 financial and the funding raised for different projects.

6. Conclusion

The implementation and maintenance of proper systems of internal controls, risk management, the prevention of fraud and errors, safeguarding of the assets of the enterprise and compliance with relevant laws and regulations, are the responsibility of the Board. The role of the audit committee is to monitor the efficiency of the procedures and mechanism which the Board has put in place in order to ensure that its policies and procedures are adhered to.

The Audit Committee remains committed in assisting and supporting the Board in the execution of its mandate and towards managing the financial affairs in accordance with the law.

On behalf of the Audit Committee

A handwritten signature in black ink, appearing to read 'Silas Hlophe', written over a horizontal line.

Silas Hlophe

Chairperson of the Audit Committee

CHAPTER 2 – SERVICE DELIVERY & PERFORMANCE HIGHLIGHTS

2.1 Key Successes & Challenges

- The entity ended the 2018/2019 financial year at a revenue of circa 49% more than the original budget. This is as a result of a concerted effort by the entity to grow its revenue base
- The Entity has continued to forge new and strengthen existing partnerships with various stakeholders

2.2 Projects Undertaken

2.2.1 Multi-Year Funded Projects

PROJECT NAME	PROJECT DESCRIPTION & STATUS QUO
ilembe Vineyards and Winery Project	<p>Project Budget 18/19: R 1 063 036.00</p> <p>The ilembe vineyards and winery project is a two-phased project which involves the establishment of a primary Villard Blanc crop for further processing in a winery established as a first of its kind in the District. A total of 12 hectares of vines have been planted across Mandeni, Maphumulo and Ndwedwe. The winery is located at the Collisheen Estate in the Sugar Rush park which is being developed into a tourism precinct. The Winery currently processes and bottles a white cultivar wine from grapes grown by the communities within ilembe District.</p> <p>1787 wine has been expanded by sourcing different cultivars from Kloof Wine Estates in Cape Town, which consists of 1000 bottles of wine for each of these cultivars which are Sauvignon Blanc, Chenin Blanc, Rose, Merlot, Cabernet Sauvignon. Harvesting and bottling of wine happens on an annual basis during the month of February, followed by processing and then bottling at the winery [Compensation]. The ilembe winery license renewal has been submitted and is now awaiting a response from KZN Liquor Authority.</p> <p>Pre-pruning has commenced in the Mandeni and Maphumulo site; Ndwedwe was re-planted in November 2016 with a red wine cultivar, which should be ready for harvesting in February 2020. The wine is marketed and sold at various events and activations</p>
ilembe Open Farms	<p>Project Budget 18/19: R 1 200 000</p> <p>SASA Funding 18/19: R 220 000</p> <p>The project entails establishing and supporting community-based co-operatives to operationalize sustainable agricultural farms to produce cash crops for both the community's needs and for sale to the Department of Education's National School's Nutrition Programme. This programme has opened up sustainable and reliable markets for the local small-scale farmers. The Department is in need of 64</p>

	<p>tons of vegetables such as cabbages; butternut; carrot, onions, tomatoes and green beans weekly for supply to the National Schools Nutrition programme.</p> <p>Enterprise iLembe supported a total of 20 farms. This supports entails the provision of mechanization, supply of chemicals, fertilizers, seeds, seedlings, technical advice and mentorship to the farmers in the four local municipalities. Though Enterprise iLembe endeavors to establish projects that are not only sustainable but also ensures that there is sufficient skill transfer to enable the farmers to become self-sufficient entrepreneurs. Climatic challenges and financial resources is forcing the Entity to review this programme and find a much sustainable and practical approach of supporting farmers without creating financial dependency and burden on the organization. The planting plan is one such tool that will ensure that the project is self-sufficient.</p> <p>Through LDS Charities there are three (3) new projects that have been identified that will be assisted with infrastructure development in the new financial year 2019/20; this will include fencing, borehole drilling, insulated storage containers and irrigation.</p> <p>South African Sugar Association [SASA] has provided funding to assist four (4) projects with irrigation and fencing; and the appointed service providers has completed the installation of the fencing and irrigation for all four (4) projects.</p> <p>Through the Agri-Parks Programme which is funded by Department of Rural Development and Land Reform [DRDLR]; four (4) projects were assisted with the provision of 170 000 seedlings [tomatoes, cabbages & onions] which were procured and delivered by DRDLR.</p>
Agricultural Hydroponic Tunnels	<p>Project Budget 18/19: R1400 000</p> <p>The agricultural hydroponic tunnels project became a stimulus for agro processing within the District. With the collective establishment of 8 hydroponic tunnels within all four local municipalities (four sites) the tunnels tapped into a niche market by growing high value crops for sale in retail stores.</p> <p>Mandeni tunnels are under production and the current service provider Farley Farms is producing cucumbers with a specific market of Checkers and RSA agent based in the Durban Fresh Produce Market in Clairwood.</p> <p>Maphumulo Tunnels have both been repaired, tested and handed over. The site currently does not have a water source for irrigation and fertigation, hence water tankers from IDM were requested for irrigation testing. Butwer Tunnels have been repaired and are now fully functional; and the tunnel is under production as it has been planted with tomatoes which are fruiting; Enterprise iLembe is in the process of finalizing an agreement with a potential technical partner. Ndwedwe Tunnel has been repaired and engagements with the potential partners has commenced. The agency received a resolution from Maphumulo LM Council to project manage Emambedweni Tunnels; as a result, Crocetta has been appointed to repair Emambedweni tunnels and will commence work in the new financial year 2019/20.</p>

<p>National Schools Nutrition Programme Processing Facilities</p>	<p>Project Budget 18/19: R 11 631 102</p> <p>In the past three (3) years, the processing facilities have offered a logistical solution to the National School's Nutrition Programme [NSNP], by providing a facility where vegetables sourced from the local farms can be cleaned, packaged, stored and dispatched to the 409 schools within the District.</p> <p>Four (4) Hubs are now fully functional which are Mandeni and Maphumulo. A new panel of fifty-seven (57) local transporters have been appointed through SCM processes which are utilized to transport vegetables to schools as part of the NSNP. Enterprise iLembe has further appointed a service provider to build two cold storages in Maphumulo and Mandeni.</p> <p>Enterprise iLembe had engagements with the Acting Director-Department of Education [DoE] to site challenges experienced in the implementation of this programme which included the possibilities of changing the menu, re-calculation of tonnages, substitution of commodities which are out of season, revised calendar to be in-line with kilometres; and the increased in the costs of running the programme resulting in the need to review the rate/fee at which the programme is being operated.</p> <p>There is not enough produce from local farms to feed into the NSNP as we are still sitting on an annual average of 70% of local procurement, as farmers are apprehensive to plant for the National School's Nutrition Programme; and farmers require technical and financial assistance to produce quality vegetables.</p>
<p>District Wide Business Incubator</p>	<p>Project Budget 18/19: R 3 980 000</p> <p>Through the completion of the business incubator feasibility study in October 2018, Goshen Entrepreneurship Hub was the appointed as an implementing agent to roll-out the Business Incubator Programme for a period of three (3) to assist 40 sub-contracted SMMEs through the provision of a structured and subsidized programme to ensure that SMME's within the iLembe district are sustainable through the support of the incubation programme which is managed by Enterprise iLembe.</p> <p>As a result, the business incubator office has been set up in KwaDukuza area to open the programme up to include other SMMEs in other sectors from all local municipal areas. Enterprise iLembe Community Development Services have been extended to the Business Incubator Office where the Community Development Officers are visiting the office every Wednesday once a week to provide business support to SMMEs and Co-ops, as a result a total of thirty (32) Co-operatives have been registered in the 2018/19 FY and are now in the processes of being assisted with business compliance, training and funding opportunities.</p> <p>The implementing agent submits monthly progress reports showing the business support and assistance that have been provided to the Incubatees as well as challenges faced by SMMEs and Co-ops and interventions that have been devised to improve their businesses. The Enterprise Development Manager has been appointed to manage the running of the business incubator office and to provide direction to the implementing agent on the Enterprise iLembe's vision for the incubation programme and the expected outcomes.</p>

Maphumulo Integrated Energy Centre (IEC)	<p>Project Budget 18/19: R 750 000</p> <p>Engen is proposing to construct an Integrated Energy Centre (IEC) in Glendale, KwaMaphumulo. The site is approximately 0.63ha in extent. The development will entail shops, new canopy, internet café/computer room, library, boardroom & toilets, distribution centre, Underground storage tanks, 43 parking bays, Septic tank and soakaway. Unga Trading 7 has been appointed to conduct professional services for Geohydrological Investigations, Designs and Drawings, Land Surveying, SPLUMA Application, Traffic Engineering and Project Management in preparation for the construction of the Maphumulo IEC Project.</p>
Mandeni Youth Enterprise Park	<p>CoGTA Grant Funded Project Budget 18/19: R 1 000 000</p> <p>The project entails the construction of a park that will accommodate Youth Enterprises in a structured marketplace, with an objective to stimulate entrepreneurship opportunities for Youth within Mandeni Local Municipality. The Project Management Team and Project Steering Committee structures are in place and they play a technical and an oversight role in the implementation of the project. Delca systems has been appointed as project consultants to design the layout and operational plan for the Youth Enterprise Park and are reporting to both the PMT and PSC. Project inception report and informants/status quo report has been completed and approved; the project is currently sitting at the concept design and viability phase. Land in the Thokoza road area (Ward 7) has been secured by the Mandeni Municipality through receiving approval from Mathonsi Traditional Council.</p> <p>Delca systems is currently engaging with a number of freight companies to assist with the sourcing of containers, and this process is ongoing</p>
Biomass	<p>CoGTA Grant Funded Project Budget 18/19: R 5 000 000</p> <p>The primary objective of the project is to establish a biomass processing plant, to process biomass and bio waste into various renewable energy products (charcoal, oil & gas). It creates a mechanism for sustainable economic development and wealth generation for rural communities as well as integration of small scale producers into the existing petrochemical, agriculture and transportation industries</p> <p>The project also encourages real broad based black economic participation in both the emerging biofuels industry as well as in the established petrochemicals industry; and serve as the stimulus to the development of secondary industries e.g. glycerine production, charcoal and activated carbon production. It also provides a mechanism to prove the viability of medium scale community based Biomass processing projects so as to facilitate more private sector investments in future green energy projects.</p> <p>Enterprise iLembe entered into a partnership agreement with Phambili Energy in Dec 2018 for the implementation of the Biomass Conversion Combination Plan Project which will be located in Ward 3, KwaDukuza Area; and the partnership agreement will be for a period of five (5) years until the project is handed over to the Local Community as per the KZN CoGTA identified ownership model. The project inception has been completed; and the project is sitting in the implementation where the machinery in the plant has been refurbished and will be undergoing testing.</p>
Public Wi-fi	<p>CoGTA Grant Funded Project Budget 18/19: R 2 500 000</p>

	<p>Enterprise iLembe is leading the implementation of iLembe Broadband Project, which aims to ensure that there is equitable and affordable access to internet connectivity across all local municipalities within iLembe District. iLembe Broadband Project Masterplan identifies public Wi-Fi as one of the key local economic impact opportunities that could be enabled by broadband infrastructure.</p> <p>Enterprise iLembe has appointed Inkanyezi Renaissance Group (IRG) which is an ICASA licensed telecommunications service provider to establish and manage Wi-Fi Zones at Ndwedwe Local Municipal Offices & Johnny Makhathini Civic Centre; and also Maphumulo Local Municipal Offices and Thusong Centers. Maphumulo and Ndwedwe Municipality has endorsed the implementation of the project; and the project is at the inception phase.</p>
District RASET	<p>Project Budget 18/19: R 5 000 000</p> <p>RASET has embarked on a Programme to Radically Transform the Agricultural Sector by opening up the government market and align support to emerging farmers. Enterprise iLembe has been nominated as an implementing agent for the RASET Programme on behalf of the iLembe District Municipality.</p> <p>The Project Steering Committee (PSC) has been formalized and sits monthly; and EDTEA RASET Programme Champions have been identified to assist the PSC in the implementation of the programme. 3 x Isuzu Trucks have been procured by EDTEA and has been delivered to Ei Offices and will be used for delivering produce to schools. A variety of service providers have been appointed and allocated per cluster to supply, deliver and install fencing and irrigation sprinkler system for identified projects within the District to receive infrastructural support as part of the RASET Programme. The RASET Funding has also been allocated for the repairs of Emambedweni Tunnel; and the service provider has been appointed. The installation of fencing, irrigation and tunnel repairs will commence in the new financial year for 2019/20.</p>
Ndwedwe Mini-Factories	<p>Project Budget 18/19: R 2 500 000</p> <p>The objectives of the project also aims to enable the development of the Mini-factories which will assist in creating opportunities for youth, women, and the community at large to take advantage of the fast growing formal and informal economy in Ndwedwe area.</p> <p>This project is aimed at developing area based cluster business enterprises model in Ward 6 Ndwedwe. These enterprises are to be operated by local entrepreneurs to meet primarily the needs within and beyond the local municipality and therefore can be understood as 'township or rural enterprises' as distinguished from those operated by entrepreneurs outside the area. Cogta has approved funding for the project and Enterprise iLembe is having continuous engagements to acquire land from the Ndwedwe Municipality in order to implement the project</p>

2.4 Job Creation & Skills Development

2.4.1 Unemployment Rate

Despite its strategic location, iLembe faces numerous economic challenges such as the high levels of poverty in the rural inland areas, which contrasts with rapid development along its

coastal regions. The District has been proactive in developing broad based interventions to facilitate local economic development in response to its challenges of high rates of unemployment and correspondingly high levels of poverty.

The district's unemployment rate is 31% in general and 37% amongst the youth (15-35). While unemployment is above the national average, it is below average for KZN. Youth unemployment is substantially lower than both the national and KZN average (with the exception of Maphumulo and Ndwedwe). The majority of employment in iLembe is in the wholesale, retail and trade industry (21%), community services (17%) and manufacturing industry (17%). The majority of employment in Ndwedwe is in agriculture, the majority of employment in Mandeni is in manufacturing while employment in Maphumulo is being sustained by government employment, and employment in KwaDukuza is the most diversified across all sectors.

➤ Demographics

	2011	2016
iLembe	606808	657612
Maphumulo	96724	89969
Mandeni	138078	147808
KwaDukuza	231187	276719
Ndwedwe	140820	143117

➤ Unemployment Rate

	Unemployment Rate (%)		Youth (15-34) Unemployment Rate (%)	
	2001	2011	2001	2011
iLembe	48.0	30.6	55.8	37.2
Maphumulo	75.9	49.0	83.3	58.4

Mandeni	45.1	28.6	51.5	34.6
KwaDukuza	34.3	25.0	42.6	30.8
Ndwedwe	67.8	48.7	76.4	58.3
Key Indicator			iLembe	KwaZulu-Natal
			2011	2011
Unemployment	Unemployment Rate		30.60%	33.00%
	Youth Unemployment Rate		37.20%	42.10%
Type of Employment %	Formal		76.81%	76.98%
	Informal		23.19%	23.02%

Source: Stats SA

► Employment by Type and Skills Level

Below is a figure indicating the breakdown of formal employment into the three skills categories. Between 10% and 13% of the formally employed in all municipalities are highly skilled, with 13% of those formally employed in Mandeni being highly-skilled. This is mainly attributed to the industrial development within the Isithebe Industrial Estate which attracts a greater number of highly-skilled workers to the area.

2.5 Performance Management

The Entity utilises the Service Delivery Budget Implementation Plan (SDBIP) as a performance management tool for the Entity as an organisation. Reporting using this performance plan is

conducted on a monthly and quarterly basis to the shareholder; iLembe District Municipality and includes portfolio of evidence. The performance management unit of iLembe District Municipality and the internal auditors (appointed by Enterprise iLembe) conduct a review and audit of the reports; this is then followed with coaching sessions held with the Chief Executive Officer of the Entity and the Municipal Manager of the District.

In respect of individual staff members, the Job Descriptions of employees have been reviewed to be in line with the actual tasks and duties being performed by each person. Review sessions are held with each staff member with the respective manager and CEO. Individual performance plans are aligned to the Entity's SDBIP.

2018/2019 Budget Performance

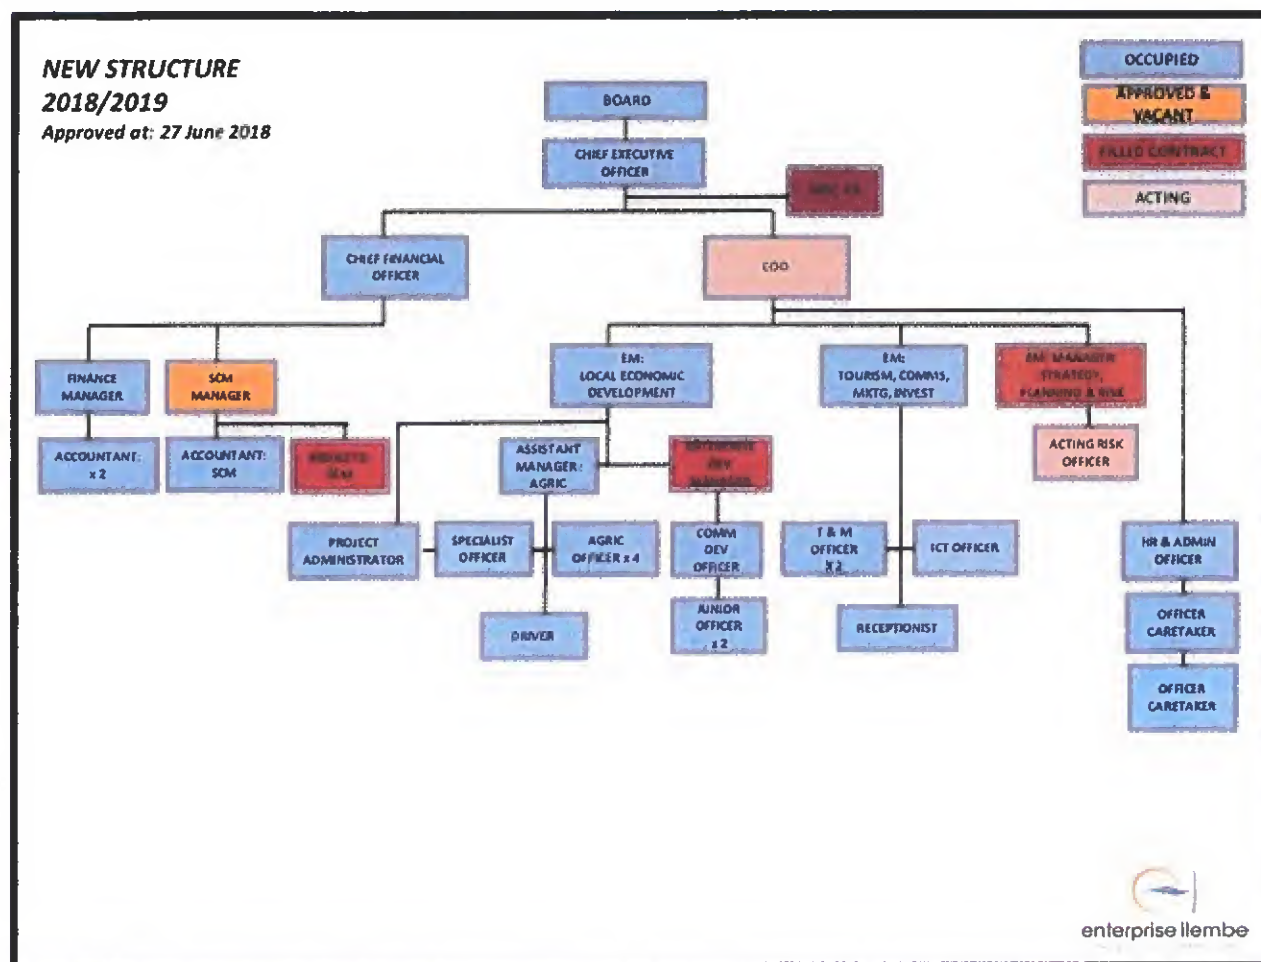

The total annual budget for 2018/2019 financial year for Enterprise iLembe amounted to R81.9 million of which R38.9 million was allocated for projects and R43 million was allocated for operational costs. The Entity relies on the district for funding as well as the payment from DOE for the supply of fresh produce to schools within the district, for the NSNP project. The department pays an average of 60 cents per child per day to run this project.

The National Schools Nutrition Programme (NSNP) was allocated only R12, 7 million for the current financial year by the Department of Education (DOE). The Entity used the entire amount allocated, but there was an amount of R 8,9 million owing by the department at the end of the financial year.

The Entity spent their total allocation from the district. Overall, the performance of the Entity was satisfactory, as can also be ascertained by studying the annual performance report for the 2018/2019 financial year.

CHAPTER 3 – HUMAN RESOURCES & ORGANISATIONAL MANAGEMENT

3.1 Organisational Structure 2017/2018

New appointments in the 2017/2018 financial year:

NO	SURNAME	JOB DESIGNATION	START DATE
1	Jeffrey Bahle Magwaza	Enterprise Development Manager (Contract)	02 July 2018
2	Kerry vd Linde	Admin and HR Officer	01 October 2018
3	Revelation Sithole	Agricultural Officer	01 October 2018
4	Sbongile Mzobe	Office Caretaker/Cleaner	01 October 2018
5	Nokuthula Ngcongco	UIF Co-coordinator (contract) & Acting Risk Officer	16 May 2019

Resignations/Contract end 2018/2019 financial year

- | | | | |
|----|----------------------------------|---|---------------|
| 1. | Pearl Mbambo (Executive PA) | - | 29 March 2019 |
| 2. | Nokuthula Ngongo (Finance Clerk) | - | 15 May 2019 |
| 3. | Jeffrey Bahle Magwaza (EDM) | - | 30 June 2019 |

3.2 Institutional Transformation & Employment Equity

In compliance with the Employment Equity Act, 55/1998, the Enterprise iLembe's Employment Equity Plan has been crafted with the aim to remedy any form of discrimination in the workplace by removing all barriers in the employment policies, practices.

Affirmative Action has been defined as the tool to implement immediate positive remedial action. Programs and procedures to address both historic and existing inequalities and imbalances of the past are being implemented.

The Entity acknowledges the value of retaining staff especially employees with scarce skills and those who possess experience that is required for the Entity to fulfill its objectives. The Entity recognises that in order for it to be able to retain staff, it is very important to create an environment that encourages staff not only to succeed in their jobs but also to grow and achieve their personal development goals and aspirations.

CHAPTER 4 – AUDITED STATEMENTS & RELATED INFORMATION

4.1 Financial Statements & Related Information

Attached hereto as Annexure A

4.2 Report of the Auditor General on the audit of the financial statements

Opinion

1. I have audited the financial statement of the iLembe management development enterprise (Pty) Ltd set out on pages 6 to 43 (of annexure A) which comprise the statement of financial position as at 30 June 2019, the statement of financial performance, statement changes in net assets, statement of cash flows and the statement of comparison of the budget information with actual information for the year that ended, as well as notes to the financial statements, including a summary of significant accounting policies.
2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the iLembe management development enterprise (Pty) Ltd as at 30 June 2019, and its financial performance and cash flow for the year that ended in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) and the Companies Act of South Africa, 2008 (Act No. 71 of 2008) (the Companies Act).

Basis for the opinion

3. I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the auditor-general's responsibilities for the audit of the financial statements section of this auditor's report'.
4. I am independent of the municipal entity in accordance with section 290 and 291 of the international Ethics Standards Board for Accountants Code of Ethics for Professional Accountants and, parts 1 and 3 of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional accountants (including international Independence Standards) (IESBA codes) as well as the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA codes.

5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other matter

6. I draw attention to the matter below.

Unaudited disclosure note

7. In terms of section 125(2) (e) of the MFMA, the municipal entity is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirements did not form part of the audit of the financial statements and, accordingly, I don't express an opinion on it.

Responsibilities of the accounting authority for the financial statements

8. The accounting authority is responsible for the preparation and fair presentation of the financial statement in accordance with the SA Standards of GRAP and the requirements of the MFMA and the Companies Act, and for such internal control as the accounting authority determines what is necessary to enable the preparation of financial statement that are free from material misstatement, whether due to fraud or error.
9. In preparing the financial statements, the accounting authority is responsible for assessing the iLembe management development enterprise (Pty) Ltd's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipal entity or to cease operations, or has no realistic alternative but to do so.

Auditor-general's responsibilities for the audit of the financial statements

10. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. A further description of my responsibilities for the audit of the financial statements included in the annexure to this auditor's report.

Report on the audit of the annual performance report

Introduction and scope

12. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected development objectives presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
13. My procedure address the reported performance information, which must be based on the approved performance planning document of the entity. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
14. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the Local economic development objective presented in the annual performance report on pages xx-xx for the year ended 30 June 2019.
15. I performed procedures to determine whether the reported performance information was properly presented and whether performance was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
16. I did not raise any material findings on the usefulness and reliability of the reported performance information for this development priority.

Other matter

17. I draw attention to the matters below.

Achievement of planned targets

18. The annual performance report on *Annexure B* for information on the achievement of planned targets for the year and explanations provided for the under and over achievement of a significant number of targets.

Adjustment of material misstatements

19. I identify material misstatements in the annual performance report submitted for auditing. These material misstatements were on the reported performance information of local economic development. As management subsequently corrected the misstatements, I did not raise any material findings on the usefulness and reliability of the reported performance information.

Report on the audit of the compliance with legislation

Introduction and scope

20. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipal entity with specific matters in the key legislation. I performed procedures to identify findings but not gather evidence to express assurance.
21. The material findings on compliance with specific matters in key legislations are as follows:

Expenditure management

22. Reasonable steps were not taken to prevent fruitless and wasteful expenditure amounting to R35 150, as disclosed in note 23 of the annual financial statements, as required by section 95(d) of the MFMA. The majority of the disclosed fruitless and wasteful expenditure was caused by the late payment to the South Africa Revenue Services (SARS) for payroll taxes.

Other information

23. The accounting authority is responsible for the other information. The other information comprises the information included in the annual report. The other information does not include the financial statements, the auditor's report and those selected development objectives presented in the annual performance report that have been specifically reported in this auditor's report.
24. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
25. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected development objectives presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

26. When I do receive and read the other outstanding information, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the other information be corrected. If the other information is not corrected, I may have to retract this auditor's report and re-issue an amended report as appropriate. However, if it is corrected this will not be necessary.

There are no matters to report in this regard.

Internal control deficiencies

27. I considered internal control relevant to my audit of the financial statement, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the basis for opinion, and the findings on compliance with legislation included in the report.
28. The significant deficiencies in internal control, are described below

Financial and performance management

Compliance monitoring

29. The review and monitoring of compliance with the laws and regulations were not adequately implemented to prevent the material non-compliance the fruitless and wasteful expenditure relating to the SARS penalties and interest charged for late payments of excise duties and payroll taxes.

Auditor-General

Auditor General

Pietermaritzburg

30 November 2019

Annexure-Auditor-general's responsibility for the audit

1. As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional skepticism throughout my audit of the financial statements, and the procedures performed on reported performance information for selected development objectives and on the municipal entity's compliance with respect to the selected subject matter.

Financial statements

2. In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:
 - Identify and assess the risks of material misstatement of the financial statement whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipal entity's internal control
 - Conclude on the appropriateness of the accounting authority's use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audits evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the iLembe management development enterprise (Pty) Ltd's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify the opinion on the financial statements. My conclusions are based on the information available to me at the date of this auditor's report. However, future events or conditions may cause a municipal entity to cease continuing as going concern
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

Communication with those charged with governance

3. I communicate with the accounting authority regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
4. I also confirm to the accounting authority that I have complied with relevant ethical requirements regarding independence, and communicate all relationships and other matters that may reasonably be thought to have a bearing on my independence and, where applicable, related safeguards.

4.3 Chief Financial Officer's Report for the period 2018/2019

1. Introduction

iLembe Management Development Enterprise (Pty) Ltd, trading as Enterprise iLembe, as an Entity of iLembe District Municipality (IDM), relies heavily on the operational grant that it receives from the district in order to run the daily operations. As such, it is notable that even with the limited resources the Entity has, the year ended 30 June 2019, has been a productive one, but of course not without challenges. The Entity has managed to fulfil its objective and mandate as given, which is the provision of the Local Economic Development within the iLembe District, which includes the promotion of tourism and investment, this through a number of sectors where impact has been made. The financial resources available have been stretched in a way that has allowed the Entity to function in a productive manner.

The funding sources currently available for the Entity includes allocations from IDM, and allocation from the Department of Education (DOE) for the running of the National Schools Nutrition Programme (NSNP), government grants for various projects and interest earned from investments.

During the 2018/19 financial year, the Entity repaired one Ndwedwe tunnel and will source a technical partner in order to operationalize the tunnel. The Bulwer tunnel is currently used by the Entity in the production of tomatoes for the NSNP project whilst the tunnel in Mathonsi – Mandeni is being leased to Farley Farm.

The Entity has been working with MSCOA since its implementation in 2017. There are constant upgrades and workshops that keep the Entity abreast with all applicable changes.

Below is the summary of the financial position and performance of the Entity.

2. Operating results

Details of the operating results are included in the annual financial statements, which are part of this Annual Report. A summary of the results is as follows

REVENUE	Actual 2019 R	Budget 2019 R	Variance 2019 %
Opening accumulated surplus	33 654 799	21 278 015	58%
Operating income for the year	71 287 175	81 982 182	-13%

Total	104 941 974	103 260 197	
EXPENDITURE			
Operating expenditure for the year	71 104 693	78 824 178	-13%
Closing accumulated surplus	35 520 822	33 106 250	7%
Total	106 625 515	111 930 428	

The variances for the 2018/2019 financial year are as a result of additional revenues in the form of grants that were made available to the entity.

An amount of R 62 340 705 was spent on projects during the 2018/19 financial year as follows

Projects	2018/19 R
UIF	11 999 307
SASA	186 335
COGTA RASET	588 119
COGTA BIOMASS	2 666 500
COGTA YEP	125 531
Tourism Ex IDM	1 950 000
COGTA Public Wi Fi	856 246
COGTA Mini Factories	-
LED IDM	3 050 000
Kwashushu Project	21 667 932
Development of SMMEs	3 980 000
District Growth Summit	-
Maphumulo IEC Project	697 500
NSNP Project	14 573 235
TOTAL	62 340 705

One of the challenges that Enterprise iLembe faced during the 2018/2019 financial year was that the IDM allocation was cut by R3.8 million which meant that the Entity had to cut on some operational expenses.

During the last financial year, 2017/2018, the Department of Education (DOE) owed the Entity R5, 2 million. During the current financial year, 2018/2019 DOE again owed the Entity an amount of R8.9 million. The increase in the outstanding amount was due to a request by DOE for the entity to supply Amasi during the last quarter of the financial year.

The Entity has signed a three year SLA with DOE with effect from July 2017 to June 2020.

3. Unspent conditional grants

The following amounts with regards to conditional grants were unspent as at 30 June 2019:

Project Name	Unspent grants 30 June 2019
UIF Grant	3 671 505.92
SASA Grant	22 223.75
COGTA RASET Grant	4 323 662.92
COGTA BIOMASS Grant	1 933 525.00
COGTA YEP Grant	855 638.80
Tourism Ex IDM	-
COGTA Public Wi Fi Grant	1 515 316.86
COGTA Mini Factories Grant	2 500 000.00
LED IDM Grant	-
Operating Grant IDM	-
Development of SMMEs	-
District Growth Summit	131 369.00
Maphumulo IEC Project	-
TOTAL	14 953 242.25

A request for the roll-over will be submitted as soon as unspent amounts are audited and confirmed by Auditor General.

4. Accumulated surplus

The accumulated surplus as at 30 June 2019 was R 33 357 687.

5. Cash and cash equivalents

As at 30 June 2019 the cash and cash equivalents held by Enterprise iLembe were as follows:

Details	R
Cash at bank	8 824 427
Current Investments	11 404 696
TOTAL	20 229 123

6. Expression of Appreciation

A successful year is never a one man's victory, but a collective effort from all other stakeholders involved in the running of the Entity. It is in this spirit that I would like to extend a heart-felt appreciation to the Chairman of the Board, the Board Members, the audit committee, the Chief Executive Officer, the Heads of Departments within the Entity, the finance staff and the rest of staff within the Entity for their support and assistance. Special appreciation is also given to the Office of the Auditor-General for their support and assistance in resolving issues that arise during our interactions.

I would also like to extend my appreciation to our shareholder, iLembe District Municipality, for their continued support and working together with us to fulfil our mandate as Enterprise iLembe.

S.N. MTHEMBU
Chief Financial Officer

4.4 Audit Action Plan

ENTERPRISE ILEMBE AUDIT ACTION PLAN AS AT 30 JUNE 2019								
AG FINDINGS								
#	Audit Finding	Rating	Unit	Internal Control Deficiency	Actions	Assigned To	Date of Action	Action to Date
1	Awards made to suppliers in service of the state	M	Finance	Possible conflicts of interest with suppliers must be determined before awarding tenders or accepting quotations.	1.1 Entity to encourage prospective service providers to make correct and honest declarations by highlighting the importance of this at tender briefing meetings and as well as the use of the declaration forms. 1.2 Letters will be sent to all SEVEN suppliers identified as being in service of the state and due action will be taken.	SCM	Ongoing per transaction	It is compulsory for all bidders to complete MBD 4-Declaration Of Interest Forms for all tenders. CSD Reports are also being generated on a transactional basis to ascertain whether suppliers are government employees or not.
							20-Dec-18	Letters sent to suppliers. Suppliers placed on hold on the Munsoft system to prevent the agency from engaging with them.
								100%
								100%

2	The agency did not prevent Irregular, Fruitless and Wasteful Expenditure	H	Finance	Management did not adequately review and monitor compliance with the MFMA section 95 to ensure that Irregular, Fruitless and Wasteful Expenditure is prevented	2.1 Irregular Expenditure- ensure that suppliers placed on hold on the Munsoft System	CFO		20-Dec-18	Memorandum circulated to LED staff on 13/12/2018.	100%
					1.3 Memo to be sent to the LED Department notifying them of the suppliers identified as being in service of the state and that these suppliers will be placed on hold until the supplier can prove otherwise.			20-Dec-18	Completed. Letter sent on 22/11/2018 to all staff.	100%
					1.4 Memo to be sent to all staff notifying them of the prohibition of awards to suppliers in service of the state.			20-Dec-18	Completed. Letter sent on 22/11/2018 to all staff.	100%
								30-Jun-19	Completed. This related to suppliers picked up by the AG in the 2016/17 audit which was finalized in December 2017- these supplier had been used by then but were not used after finalisation of the audit. These suppliers have been notified of this and have been placed on hold on the system. No payments made to them in the current financial year.	100%

CHAPTER 5 – FUNCTIONAL SERVICE DELIVERY & REPORTING

5.1 Service Level Agreement

Enterprise iLembe has a Service Level Agreement with iLembe District Municipality. The SLA guides the mandate of the Entity and sets out the function and services to be delivered as follows,

1. Project Management Unit: Using the Project Management Unit for developing and implementing detailed service delivery plans within the framework of the municipality's IDP;
2. Promotion of Social and Economic Development: To promote integrated and equitable social and economic development within the district as a whole by taking appropriate steps to enhance such development;
3. Tourism: Promotion of local tourism for the area of the district municipality;
4. Markets: The establishment, conduct and control of fresh produce markets serving the area of a major portion of the municipalities in the district;
5. Abattoirs: The establishment, conduct and control of abattoirs serving the area of a major portion of the municipalities in the district;
6. Airports: Municipal airports serving the area of the district municipality as a whole
7. Incidental Powers: The right to exercise any power concerning a matter reasonably necessary or incidental to the effective performance of the functions, the exercise of the power and the provision of the services in the paragraph 1 to 7 above.

The following items are not the core function of the Agency:

- Project Management Unit
- Social development
- Markets
- Abattoirs

Reporting

The Chief Executive Officer as the Accounting Officer has been mandated by the Board of Enterprise iLembe to report to the shareholder; iLembe District Municipality and any other relevant structures. In addition to the various Intergovernmental (IGR) structures, regular meetings are held between the Board of Enterprise iLembe and principals of the District. The CEO and management of the Entity participate and report into the following structures;

- Economic Development Portfolio Committee
- Executive Committee Inter-Governmental Forums
- Provincial Forums

The Shareholder; iLembe District Municipality also has ex-officio representation on the Board of

Enterprise iLembe.

CHAPTER 6 – ANNUAL PERFORMANCE REPORTING

In terms of section 93B of the Municipal Systems Act (MSA), the parent municipality must ensure that the performance objectives and indicators for the municipal Entity are established by agreement with the Entity and included in the municipal Entity's multi-year business plan in accordance with section 87 (5) (d) of the Municipal Finance Management Act (MFMA). It is for this reason that the report for the Enterprise iLembe has been included in the Annual Performance Report.

6.1 Organisational Scorecard – Service Delivery Budget Implementation Plan (SDBIP) 2018/2019

Attached hereto as [ANNEXURE B](#)

6.2 Highlights on Actual Performance

FINANCIAL YEAR	TARGET MET	% ACHIEVED
2018/2019	39 out of 42	92%
2017/2018	38 out of 43	88%
2016/2017	26 out of 35	74%
2015/2016	39 out of 44	87%
2014/2015	29 out of 39	74%
2013/2014	21 out of 29	72%

2018/2019 Performance

Enterprise iLembe continues to:

- Improve co-ordination of Local Economic Development in the District
- Implements and ensures sustainability of projects to upscale agriculture development in the District
- Capitalises on tourism potential to increase visitor numbers in the District
- Increases manufacturing output in the District to attract interest in investment
- Ensures job creation by identifying and packaging new projects in existing sectors.

PERFORMANCE HIGHLIGHTS AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

Ref Org: 19 - A total of 20 small scale farmers were identified and supported by the Entity.

The Integrated Development Plan was reviewed and adopted by Council on 29 May 2019. In terms of the District climate change response strategy, the project is ahead of target as the Consultant, which was appointed by the Department of Environmental Affairs, prepared the draft strategy.

Drafting of the Integrated Waste Management Plan has been done and is currently at situational analysis phase.

Quarterly LED forums are held and attended with representatives from all the local municipalities. Regarding new markets for farmers, report was prepared on capacitating farmers and engagements with Government departments by the deadline. The project of agricultural Hydroponic Tunnels, the Ndwedwe site is fully operational. Quarterly reports were prepared on the maintenance of the vineyards. The ownership model for existing projects, formalisation of co-operatives for handing over by June 2019 is on track and a report has been prepared outlining the progress status.

Tourism potential is on track, one Community Tourism Organisation was established at Mandeni. Tourism marketing and development is progressing well, with six exhibitions attended, seven adverts/advertorials were in relevant publications, one official tourism travel guide for 2019/2020 financial year was developed, two tourism industry research performance reports prepared and six events supported to increase visitors to the district.

Two business confidence indexes were developed. Bi-annual reporting was done on the implementation of the investment promotion strategy. The investor prospectus was reviewed by end June 2019. A total of 31 business networking sessions were attended/hosted and 2 progress reports were prepared on the Entrepreneur competition.

New co-operatives registered as of at end June 2019 is at 32, one hundred and eleven were trained on basic business skills management and 47 co-ops and SMMEs were assisted with funding applications. Two programmes were implemented, namely, the business incubator and the skills development facilitation programme. An engagement session was held with local municipalities to encourage local businesses to take advantage of government programmes.

Funding was secured from the department of Labour to activate the UIF learner activation programme. The broadband project, funding was sourced for Phase 1 of the ICT project, it was secured from COGTA for the public Wi-Fi programme in Ndwedwe and Maphumulo.

CHALLENGES AND MEASURES TO IMPROVE PERFORMANCE AS PER THE ORGANISATIONAL SCORECARD AND NATIONAL KPA

CHALLENGES	MEASURES TO IMPROVE PERFORMANCE/ CORRECTIVE MEASURES
LOCAL ECONOMIC DEVELOPMENT	
Ref OMM 34 – Only 6 planning and infrastructure alignment meetings were held due to the slowdown in development primarily because of the slow economic growth rate.	
Ref OMM 35 – The reviewed district growth and development plan is not yet adopted. It will be undertaken through the Vuthela iLembe LED programme due to unavailability of internal financial resources.	
Ref EI 02 – Percentage produce procured from Local iLembe farmers is at 59% against a target of 70%. Target was not met due to lack of infrastructure development, harsh weather conditions, seasonality of some of the commodities, which had to be sourced from the market.	Enterprise iLembe has received funding from Cogta, which will be used towards infrastructure development; we have also engaged the Department of Education regarding the planting of substitute commodities to mitigate against seasonality. Department of Agriculture has also been engaged to assist with the supply of inputs and infrastructure development.
Ref EI 09 – The feasibility study for new tourism initiatives was not done.	Project timeline changed due to change in scope of works. Project completion date will be in next financial year.

6.3 Conclusion

Enterprise iLembe's value statement will always be;

"Economic Development that will change the lives of people"

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Chief Executive Officer's Responsibility and Approval

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

I am responsible for the preparation of the annual financial statements, set out on pages 6 to 43, in terms of the Company's Act No. 71 of 2008 as amended and section 126 (2) of the Municipal Finance Management Act of 2003, which I have signed on behalf of iLembe Management Development Enterprise (Pty) Ltd.

Nkosinathi Nkomzwayo
Chief Executive Officer

Date

ILEMBE MANAGEMENT DEVELOPMENT ENTERPRISE (PTY) LTD
REGISTRATION NUMBER: 2006/032665/07
ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Directors' Responsibilities and Approval

The Directors are required by the Municipal Finance Management Act (Act No. 56 of 2003) and the Companies Act (Act No. 71 of 2008 as amended) to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related information. The auditors are responsible to report on the fair presentation of these statements. The financial statements have been prepared in accordance with the prescribed Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The Directors are also responsible for the company's systems of internal financial control. These are developed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements and to adequately verify and maintain accountability of assets, and not absolute, assurance as to the reliability of the financial statements and to adequately verify and maintain accountability of assets, and to prevent and detect misstatement and loss. Nothing has come to the attention of Directors to indicate that any material breakdown in the functioning of these controls, procedures and systems occurred during the year under review.

The annual financial statements have been prepared on the going concern basis. The Board of Directors has adopted this basis of accounting after having made enquiries of management and given due consideration to information presented to the Board, including budgets and cash flow projections for the year ahead and key assumptions and accounting policies relating thereto. Accordingly, the Directors have no reason to believe that the municipal entity will not continue as a going concern in the year ahead.

To enable the Directors to meet these responsibilities, the Directors set standards of internal controls aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities with a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the entity.

All employees are required to maintain the highest ethical and integrity standards in ensuring that the municipal entity's business practices are concluded in a manner, which in all reasonable circumstances, is above reproach. The concept of reasonable assurance recognises that the control procedures should not exceed the expected benefits. The municipal entity maintains its internal control system through management review. Nothing has come to the attention of the Directors to indicate any breakdown in the functions of these internal controls during the year, which resulted in any material loss to the municipal entity.

Khanyisani S. Shandu
Chairman of the Board

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2019

Directors' Report

The following report is submitted in terms of section 30(3) of the Companies Act, 2008, for the period ended 30 June 2019.

General Review

The Municipal Entity was incorporated on 27 October 2008 and replaced the Ilembe Development Foundation which was incorporated on 8 November 2002 and commenced business operations on 1 July 2006. The change was necessary to comply with Section 93 of the Municipal Systems Act. Subject to this there has been no material change in the nature or conduct of the Municipal Entity's business during the period under review. The financial statements adequately disclose the results of the operations for the period under review and the state of the Municipal Entity's affairs for the period ended 30 June 2019.

1. Nature of Business

The Municipal Entity has been formed as a local economic development agency of the Ilembe District Municipality to promote economic growth. The Municipal Entity was formed in terms of the Municipal Systems Act No. 32 of 2000 and the Municipal Finance Management Act No. 56 of 2003.

2. Going Concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. The basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

3. Material Agreement

The Entity currently has an agreement with the Department of Education (DOE), whereby the Entity runs the National Schools Nutrition Program (NSNP) and DOE provides funding for this programme. There is a Service Level Agreement in this regard.

4. Financial results of the company

The annual financial statements on pages 2-38 set out fully the financial position and results of operations and cash flows of the Entity for the year ended 30 June 2019.

5. Subsequent Events

The Directors are not aware of any matter or circumstance arising since the end of the financial period under review that would impact on the fair presentation of the financial statements presented.

6. Share Capital

Issued share capital is 100 shares at the value of R1.00 each.

7. Dividends

No dividends have been proposed or declared during the year under review, nor are any recommended.

8. Directors

The Directors of the Entity during the year and to date of this report are as follows:

Name	Details
KS Shandu - Chairperson	Appointed November 2015
AT Nzama - Deputy Chairperson	Appointed February 2017
DN Nene	Appointed November 2015
JC Oelofse	Appointed February 2017
ZS Gumede	Appointed February 2017
N Mngadi	Appointed February 2017
P Mngadi	Appointed February 2018

Fees for a retainer and attendance at meetings totalling R660 017 (R550 896 in June 2018) were paid during the period under review. See note 19 of the Annual Financial Statements.

9. Economic Entity

As an Entity of the iLembe District Municipality, the following are applicable in terms of reporting structures:

- The Municipal Manager of iLembe District Municipality - Mr G Kumalo
- The Chair of the Economic Development Portfolio Committee - the Deputy Mayor of iLembe, Cllr D Shandu

10. Directors' interest in contracts

Fees for a retainer and attendance at meetings totalling R660 017 (R550 896 in June 2018) were paid during the period under review. See note 19 of the Annual Financial Statements. The Directors have declared interest in companies they are part of, but none that are linked to the Entity.

11. Corporate Governance

11.1 Board Meetings

The Board has 2 sub committees outside of the Board. As a Board, they are required to meet at least 4 times annually. The schedule below indicates the meetings held during the 2018/2019 financial year and attendance thereof.

Name	Board Committee	LED and Investment	HR and Finance
Number of meetings	6	4	5
KS Shandu - Board Chairperson	6	4	N/A
AT Nzama - Deputy Board Chairperson	3	2	N/A
DN Nene - HR & Finance Sub-Committee C	3	N/A	2
JJC Oelofse	4	4	5
ZS Gumede	6	4	2
N Mngadi	4	N/A	3
B Mngadi	5	N/A	5

11.2 Audit Committee Meetings

The Audit Committee currently comprises of independent, external members and is required to meet at least 4 times per annum as per the MFMA. Additional meetings may be called for as the need arise. 5 meetings were held during the 2018/2019 financial year. Members' attendance at the meetings is listed below:

Name	Number of Meetings Attended
S. Hlophe - Chairperson	5
S Gertze	4
Z. Bongekile	3
S.L Ndlovu	4

Contracted services	18,217,239	16,454,896	20,582,175	16,454,896	4,127,278	25%
Total Expenditure	52,904,795	78,824,178	70,229,658	78,824,178	(8,594,521)	
Surplus/(Deficit) for the year	2,072,930	3,158,004	1,890,778	3,158,004	(1,267,225)	

Explanation of material variances over 10%

More interest was realized than initially budgeted for. This is also dependant on interest rates offered by banks and the periods that amounts are invested for.

Additional allocations were received during the adjustments budget process, which could not all be spent during the year. These will be rolled over to the 2019/2020 financial year.

The variance is due to the additional provision of Amasi that the Entity was instructed by DOE to provide to the schools, which was not initially budgeted for but invoicing was done during the year.

Includes an amount for leave provision not initially budgeted for.

Immaterial

The over expenditure relates to the additional depreciation in respect of leased vehicles, which the Entity has to account for as part of assets

A portion of the repairs to the tunnels was capital in nature and had to be booked on the capital budget - hence the low expenditure on the operational budget.

Expenditure includes grant expenditure for grants received during adjustments budget, which could not be all spent during the year.

Includes amounts for amasi - not initially budgeted for but for which funding was received from DOE.

The budget is approved on an accrual basis by nature classification. The approved budgets cover the period 1 July 2018 to 30 June 2019.

The budget and accounting bases are the same as both are on the accrual basis. The financial statements are prepared using a classification on the nature of expenses in the statement of financial performance.

ILEMBE MANAGEMENT DEVELOPMENT ENTERPRISE (PTY) LTD
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
ANNUAL FINANCIAL STATEMENTS AS AT 30 JUNE 2019

1 BASIS OF PREPARATION

1.1 STATEMENT OF COMPLIANCE

These annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant policy.

1.2 BASIS OF MEASUREMENT

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with the historical cost convention as the basis measurement, unless specified otherwise.

1.3 FUNCTIONAL AND PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipal entity. All financial information has been rounded to the nearest Rand.

1.4 OFFSETTING

Financial assets and liabilities are set off and the net amount presented in the statement of financial position when, and only when, the municipal entity has a legal right to set off the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Revenue and expenses have not been offset except when offsetting is required or permitted by a standard of GRAP.

1.5 GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on the assumption that the municipal entity will continue to operate as a going concern for at least the next 12 months.

1.6 USE OF ESTIMATES AND JUDGEMENTS

The preparation of financial statements in conformity with GRAP requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future.

1.7 COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. The municipal entity shall present a comparison of budget and actual amounts as additional budget columns in the primary financial statements only where the financial statements and the budget are prepared on a comparable basis. All comparisons of budget and actual amounts shall be presented on a comparable basis to the budget. The municipality shall explain in notes to the financial statements the budgetary basis and classification basis adopted in the approved budget.

1.8 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipal entity.

GRAP 20 Related Party Disclosures - issued June 2011

GRAP 32 Service Concession Arrangements: Grantor - issued August 2013

GRAP 108 Statutory Receivables - issued September 2013

GRAP 109 Accounting by Principals and Agents

IGRAP 17 Service Concession Arrangements where a Grantor Controls a significant residual interest in an asset

Management have considered all of the above mentioned GRAP standards approved or issued but not yet effective and anticipates that the adoption of these standards will not have a significant on the financial position, financial performance or cashflows of the entity.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies had been applied consistently during the current and previous reporting, as set out in the note 1.2. been applied

2.1 PROPERTY, PLANT AND EQUIPMENT

2.1.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipal entity. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipal entity for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipal entity expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

2.1.2 SUBSEQUENT MEASUREMENT - COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipal entity replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

2.1.3 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets.

Furniture and equipment	7-10 years
Machinery and equipment	5-10 years
Computer equipment	5 years
Agriculture PPE	10-30 years
Buildings	30 years
Motor Vehicles (Leases)	3 years

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipal entity tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

2.1.4 DERECOGNITION

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

2.1.5 LEASED ASSETS

Leases in terms of which the municipal entity assumes substantially all the risks and rewards of ownership are classified as finance leases. Other leases are classified as operating leases. Upon initial recognition of assets leased under finance leases, the leased asset is measured at an amount equal to the lower of its fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to that asset.

3 BIOLOGICAL ASSETS

3.1 INITIAL RECOGNITION

Biological assets are fair valued at the end of each accounting period. Biological assets that have not produced crops are valued at cost while in the case where crops are present the value of the crop at the end of the accounting period is taken into account to arrive at the fair value.

3.2 SUBSEQUENT MEASUREMENT

Subsequent to initial recognition, biological assets are measured at fair value less estimated cost to sell.

3.3 DERECOGNITION

Biological assets are derecognized when they are impaired. An independent expert valuer will evaluate the assets to get the fair value at the end of the financial year. The report from the valuer is then used to adjust the fixed asset register. The gains or losses are recognized in accumulated surplus or deficit.

4 INTANGIBLE ASSETS

4.1 INITIAL RECOGNITION

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licences, and development costs. The municipal entity recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipal entity and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipal entity intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipal entity has the resources to complete the project; and
- it is probable that the municipal entity will receive future economic benefits or service potential.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipal entity for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

4.2 SUBSEQUENT MEASUREMENT - COST MODEL

Intangible assets are subsequently carried at cost less accumulated amortisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

4.3 AMORTISATION AND IMPAIRMENT

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. The annual amortisation rates are based on the following estimated average asset lives:

Computer software and websites	5 years
--------------------------------	---------

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipal entity tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

4.4 DERECOGNITION

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

5 INVESTMENT PROPERTY

5.1 INITIAL RECOGNITION

Investment property includes property (land or a building, or part of a building, or both land or buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipal entity measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

The cost of self-constructed investment property is the cost at date of completion.

5.2 SUBSEQUENT MEASUREMENT - FAIR VALUE MODEL

Investment property is measured using the fair value model. Under the fair value model, investment property is carried at its fair value at the reporting date. Any gain or loss arising from a change in the fair value of the property is included in surplus or deficit for the period in which it arises.

6 INVENTORIES

6.1 INITIAL RECOGNITION

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, excluding taxes, transport costs and any other costs in bringing inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

6.2 SUBSEQUENT MEASUREMENT

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

The basis of allocating cost to inventory items is the first in first out method.

7 FINANCIAL INSTRUMENTS

7.1 INITIAL RECOGNITION

Financial instruments are initially recognised at fair value. The entity recognises a financial asset or a financial liability in its Statement of Financial Position when, and only when the entity becomes a party to the contractual provisions of this instrument.

7.2 SUBSEQUENT MEASUREMENT

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to maturity, loans and receivables, or available for sale. Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities are measured either at fair value or amortised cost or cost.

7.2.1 INVESTMENTS

Investments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are categorised as either held-to-maturity where the criteria for that categorisation are met, or as loans and receivables, and are measured at amortised cost. Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. Impairments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows flowing from the instrument. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

7.2.2 TRADE AND OTHER RECEIVABLES

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

7.2.3 TRADE PAYABLES AND BORROWINGS

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest.

7.2.4 CASH AND CASH EQUIVALENTS

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipal entity categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

8 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority, it is treated as a receivable, if it meets the definition and the recognition criteria of an asset, in the statement of financial position until it is recovered or written off as irrecoverable.

9 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipal Entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority, it is treated as a receivable, if it meets the definition and the recognition criteria of an asset, in the statement of financial position until it is recovered or written off as irrecoverable.

10 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the relevant authority, it is treated as a receivable, if it meets the definition and the recognition criteria of an asset, in the statement of financial position until it is recovered or written off as irrecoverable.

11 LEASES

11.1 MUNICIPAL ENTITY AS LESSEE

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipal entity.

Initial Recognition

Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments.

Measurement

The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipal entity uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent Recognition

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease.

11.2 MUNICIPAL ENTITY AS LESSOR

Under a finance lease, the municipal entity recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipal entity, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

12 REVENUE

12.1 REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrued to the municipal entity directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Recognition

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods is passed to the consumer.

Revenue arising out of situations where the municipal entity acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

Measurement

Monetary arising out of a contractual agreement, such as cash and receivables are initially measured at fair value on acquisition date.

12.2 REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from non-exchange transactions refers to transactions where the municipal entity received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the municipal entity. Where public contributions have been received but the municipal entity has not met the related conditions, a deferred income (liability) is recognised.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipal entity.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

12.3 GRANTS, TRANSFERS AND DONATIONS

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

13 VALUE ADDED TAX (VAT)

The municipal entity accounts for VAT on the cash basis. The municipal entity is liable to account for VAT at the standard rate 15% (14% until 31 March 2018) in terms of section 7 (1) (a) of the VAT Act in respect of the supply of goods or services, except where the supplies are specifically zero-rated in terms of section 11, exempted in terms of section 12 of the VAT Act or is out of scope for VAT purposes. The municipal entity accounts for VAT on a bi-monthly basis.

14 INCOME TAX

The municipal entity is registered for income tax purposes and is liable for income tax at the corporate rate of 28%. Income tax returns are up to date as at 30 June 2017. Current year tax return will be submitted by due date.

15 RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control; or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions.

16 EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the annual financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting date have been disclosed in the notes to the annual financial statements.

17 IMPAIRMENT OF ASSETS

17.1 Recognition

The municipal entity assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipal entity estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipal entity also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.

17.2 Measurement

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

17.3 Reversal of Impairment

The municipal entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

18 EMPLOYEE BENEFITS

18.1 Short-Term Employee Benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past service or performance and the obligation can be estimated reliably.

Liabilities for short-term employee benefits that are unpaid at year-end are measured at the undiscounted amount that the entity expects to pay in exchange for that service and had accumulated at the reporting date.

18.2 Post-Employment Benefits

18.2.1 Defined Contribution Plans

A defined contribution plan is a plan under which the entity pays fixed contributions into a separate entity. The entity has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay employees all the benefits relating to service in the current or prior periods.

The entity's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in surplus or deficit in the period in which the service is rendered by the relevant employees, unless another standard requires or permits the inclusion of the contribution in the cost of an asset. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past service or performance and the obligation can be estimated reliably.

18.2.2 Termination Benefits

Termination benefits are recognised as an expense when the entity is committed demonstrably, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognised as an expense if the entity has made an offer of voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably. If benefits are payable more than 12 months after the reporting period, then they are discounted to their present value.

The Entity leases its motor vehicles with Avis and due to the substance of these agreements, they are recognized and disclosed as finance leases. The lease term is 36 months and the interest rate implicit on the agreement is 0,085% per month. Interest rates are generally considered to be fixed at the contract date given the nature of the agreement. All leases have fixed repayments.

Included in the carrying value are assets under construction as follows:

Biodiesel Equipment (Manufacturing Plant) - The equipment was bought between the 2010/2011 and the 2011/2012 financial years as part of the biodiesel project funded by the department of COGTA, where the idea was to produce diesel using the moringa plant. The plant dried out during the drought season that affected the district and was subsequently wrote off during the 2015/2016 financial year. The agency made a submission to COGTA requesting the project to be written off and the equipment channelled to a new project under Biomass - which was granted. The commissioning of the biomass project has commenced and will be completed in the 2019/2020 financial year.

Broadband (Computer Equipment) - The broadband project is also a project that happened between the 2010/11 and 2011/12 financial years, whereby the ICT infrastructure was installed. (incl. fiber optic cables). The total cost of rolling out this project was estimated to be about R400m, funding which has not materialized as yet.

Public Wifi (Computer Equipment) - This expenditure relates to the hardware that has been purchased for the installation of Public Wi-Fi. The project will be completed in 2019/2020

ILEMBE MANAGEMENT DEVELOPMENT ENTERPRISE (PTY) LTD
SUPPLEMENTARY APPENDIX C(1): ACTUAL VERSUS BUDGET (REVENUE AND EXPENDITURE)
ANNUAL FINANCIAL STATEMENTS AS AT 30 JUNE 2019

Description	2018/19 Original Budget	2018/19 Adjusted Budget	Prorata Budget	Actual Outcome	Variance	Variance %	Explanation of significant Variance greater than 10% versus Final Budget
<u>Financial Performance</u>	R		R	R	R		
Interest on investment	250 000	600 000	600 000	819 837	219 837	37%	More interest was realized than initially budgeted for. This is also dependant on interest rates offered by banks and the periods that amounts are invested for.
Government grants and subsidies	35 171 685	60 632 247	60 632 247	47 778 912	(12 853 336)	-21%	Additional allocations were received during the adjustments budget process, which could not all be spent during the year. These will be rolled over to the 2019/2020 financial year.
Other Income	19 556 040	20 749 935	20 749 935	23 521 687	2 771 752	13%	The variance is due to the additional provision of Amasi that the Entity was instructed by DOE to provide to the schools, which was not initially budgeted for but invoicing was done during the year.
Total Revenue (excluding capital transfers & contributions)	54 977 725	81 982 182	81 982 182	72 120 436	(9 861 746)	-9%	
Employee related costs	17 845 417	17 220 375	17 220 375	18 057 150	836 775	5%	Includes an amount for leave provision not initially budgeted for.
Directors Fees	631 200	666 016	666 016	660 017	(5 999)	-1%	Immaterial
Depreciation	1 474 584	1 474 584	1 474 584	2 107 851	633 267	43%	The over expenditure relates to the additional depreciation in respect of leased vehicles, which the Entity has to account for as part of assets
Repairs and Maintenance	1 710 000	1 785 164	1 785 164	1 091 025	(694 138)	-39%	A portion of the repairs to the tunnels was capital in nature and had to be booked on the capital budget - hence the low expenditure on the operational budget.
Contracted Services	18 217 239	16 454 896	16 454 896	20 582 175	4 127 278	25%	Immaterial
General Expenses	13 026 355	41 223 143	41 223 143	27 731 439	(13 491 704)	-33%	Expenditure includes grant expenditure for grants received during
Total Expenditure	52 904 795	78 824 178	78 824 178	70 229 658	(12 721 799)	-12%
